What are the key risks that are specific to the Issuer?

Credit risk in relation to UBS AG as Issuer

Each investor in securities issued by UBS AG as Issuer is exposed to the credit risk of UBS AG. The assessment of UBS AG's creditworthiness may be affected by a number of factors and developments. These include UBS Group AG's acquisition of Credit Suisse Group AG and the integration of the group, substantial changes in regulation and UBS AG's success in executing its strategic plans, UBS's reputation, operational risks, risk management and control processes, market conditions and macroeconomic climate, credit risk exposure to clients and counterparties, material legal and regulatory risks, and liquidity and funding management.

If UBS AG experiences severe financial difficulties, FINMA has the power to open restructuring or liquidation proceedings or impose protective measures in relation to UBS Group AG, UBS AG or UBS Switzerland AG, and such proceedings or measures may have a material adverse effect on UBS AG's creditors. If restructuring or liquidation proceedings are instituted against UBS AG, holders of securities may suffer a substantial or **total loss** on the securities.

Section C – Key Information on the Securities

What are the main features of the Securities?

Type and form of the Securities

The Securities are structured debt securities with no capital protection. The Securities are issued in the form of bearer securities (§ 793 BGB) under German law. The contents (other than the form) of the Securities as well as all rights and duties arising from the Securities are governed by German law.

Objective of the Security is to provide the Securityholder with a specified entitlement according to predefined conditions. The Security has, unless redeemed early, a fixed lifetime and will become due on the Maturity Date.

Coupon

The Securityholder will receive a payment of the respective Coupon Amount in the Redemption Currency on the respective Coupon Payment Date(s) in relation to the preceding Coupon Period, conditional, however, upon the performance of the Underlying. If the official closing price of the Underlying as determined by the Price Source on a Coupon Observation Date is lower than the Coupon Default Level, **the Securityholder will not receive a payment of the respective Coupon Amount in relation to the respective Coupon Period** (such event constitutes a "**Coupon Amount Default Event**").

In case the official closing price of the Underlying as determined by the Price Source on a Coupon Observation Date is equal to or higher than the Coupon Amount Catch-up Level, the Securityholder will receive on the respective Coupon Payment Date a payment of the respective Coupon Amount in relation to that Coupon Observation Date and any preceding Coupon Observation Date(s) for which the respective Coupon Amount has not been paid (such event constitutes a "**Coupon Amount Catch-up Event**").

Early Redemption

In case that the official closing price of the Underlying as determined by the Price Source on the respective Early Redemption Observation Date is equal to or higher than the respective Early Redemption Level (such event constitutes an "**Early Redemption Event**"), the Security will be redeemed early on the respective Maturity Date and the Securityholder will receive a payment of the Early Redemption Amount. The Securityholder will not be entitled to any further payments thereafter.

Redemption at maturity

If an Early Redemption Event has not occurred in respect of the Security, on the Maturity Date, the Securityholder is entitled to receive the Redemption Amount, which depends on the performance of the Underlying and whether or not a so-called Kick In Event has occurred, in each case, determined as of the Valuation Date as follows:

For this purpose, a "**Kick In Event**" shall have occurred, if the Settlement Price of the Underlying is equal to or lower than the Kick In Level.

- (i) If a **Kick In Event has not occurred**, the Securityholder will receive on the Maturity Date the Calculation Amount.
- (ii) If a **Kick In Event has occurred** and the Settlement Price of the Underlying is equal to or higher than the Strike Level, the Securityholder will receive on the Maturity Date the Calculation Amount.

(iii) If a **Kick In Event has occurred** and the Settlement Price of the Underlying is lower than the Strike Level, the Securityholder will receive on the Maturity Date an amount in the Redemption Currency which depends on the Settlement Price. Such amount equals (commercially rounded) the Calculation Amount multiplied by the Settlement Price divided by the Strike Level.

The Security is currency hedged at maturity, i.e. although the Settlement Price is determined in the Underlying Currency, the amounts determined in the Underlying Currency will be converted 1:1 into the Redemption Currency (Quanto).

There will be no separate payments with respect to accrued Coupon Amounts when purchasing the Security during its lifetime. Accrued Coupon Amounts will be reflected in the on-going trading price of the Security (Dirty Price).

The Issuer is entitled to terminate the Securities with immediate effect if an (extraordinary) termination event occurs. Examples of (extraordinary) termination events include the discontinuation of the determination/publication of the price of the Underlying or the occurrence of a change in law. In such case, the payable termination amount payable to Securityholders may be significantly lower than the capital invested by Securityholders for purchasing the Securities (including the transaction costs).

Relative seniority of the Securities in the Issuer's capital structure in the event of insolvency

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking *pari passu* among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.

Restrictions on free transferability of the Securities

The Securities are freely transferrable.

Where will the Securities be traded?

It is intended that application for listing of the Securities to trading on EuroTLX will be made.

What are the key risks that are specific to the Securities?

The Securityholders are exposed to the risk of a bail-in. In case FINMA as supervisory authority in respect of the Issuer exercises resolution measures against the Issuer and writes down or converts the Securities into common equity of the Issuer, Securityholders would have no further claim against the Issuer under the Securities.

The Securities are not protected by any statutory or voluntary deposit guarantee scheme. The Issuer's obligations under the Securities are not protected by any statutory or voluntary deposit protection scheme or compensation scheme. Further, no third party guarantees or commitments have been provided in respect of the Issuer's obligations under the Securities. Accordingly, in the event of insolvency of the Issuer, investors may thus experience **a total loss of their investment in the Securities.**

Specific risks related to dependence on the Underlying. The Redemption Amount payable in accordance with the Conditions of the Securities depends on the performance of the Underlying. If a Kick In Event has occurred and in case the Settlement Price of the Underlying is lower than the Strike Level, the Redemption Amount could in case of an unfavourable performance of the Underlying even be equal to zero. **In such case, the Securityholder will suffer a total loss of the invested capital.**

Specific risks related to the occurrence of an Early Redemption Event. In case of the occurrence of an Early Redemption Event, all outstanding Securities are automatically terminated and redeemed early. In such case, Securityholders will receive a payment of the Early Redemption Amount, but will not be entitled to request any further payments on the Securities. In particular, Securityholders are not entitled to request payments of any further Coupon Amounts which would have otherwise potentially been due under the Securities in accordance with the Conditions of the Securities during the scheduled term of the Securities.

Specific risks related to no further participation in the performance of the Underlying following the termination and early redemption of the Securities. Potential investors should be aware that the Securities may in accordance with the Conditions of the Securities be terminated and redeemed early in a number of circumstances. In case of a termination and early redemption of the Securities prior to the Valuation Date, the Securityholder is entitled to demand the payment of an amount in the Redemption Currency in relation to this termination and early redemption. However, such amount can be considerably below the amount which would be payable at the scheduled end of the term of the Securities and, if it is lower than the invested capital, Securityholders may even suffer **a total loss of the invested capital.**

Specific risks related to reinvestment. The Securityholders bear the risk that the cash amount received by the Securityholder following the termination and early redemption of the Securities (if any) can be reinvested for a term comparable with the scheduled term of the Securities only at market conditions which are less favourable than those prevailing at the time of the acquisition of the Securities. As a result, the yield achieved by this reinvestment may be significantly lower than the return expected by the Securityholder with the purchase of the Securities.

Specific risks in connection with linkage of payment of conditional Coupon Amounts to the performance of the Underlying. Whether Securityholders are entitled to receive the conditional Coupon Amounts in accordance with the Conditions of the Securities depends on the performance of the Underlying. However, if a Coupon Amount Default Event occurs in respect of any Coupon Period, Securityholders are not entitled to receive payment of a Coupon Amount in respect of such Coupon Period. If a Coupon Amount Catch-up Event occurs in respect of any Coupon Period, Securityholders are entitled to receive payment of a Coupon Amount in relation to the relevant Coupon Period and any preceding Coupon Periods for which a Coupon Amount has not been paid due to the occurrence of a Coupon Amount Default Event. However, Securityholders cannot rely that, following the occurrence of a Coupon Amount Default Event, a Coupon Amount Catch-up Event would also occur. Therefore, Securityholders bear the risk that they do not receive payment of any Coupon Amounts in respect of the Securities.

Specific risks related to currency exchange rates. Potential investors should be aware that the Settlement Price of the Underlying determined on the basis of the Underlying Currency other than the Redemption Currency needs to be converted into the Redemption Currency by using a currency exchange rate fixed at the time of issuance of the Securities (so-called "quanto"-feature). Potential investors should be aware that there may be favourable developments in the value of the Underlying Currency against the Redemption Currency. Therefore, the "quanto"-feature of the Securities may preclude the investors from participating in such favourable developments (i.e., because the fixed currency exchange rate used for the purposes of valuing the Underlying in the Redemption Currency is less favourable than the currency exchange rate prevailing in the market at such time) and, therefore, reduce the value of the Securities.

Specific risks related to the market price of the Securities. Potential investors bear the risk that the market price of the Securities may fluctuate during the term of the Securities, including, without limitation, as a result of any changes in the performance of the Underlying or any changes in the volatility of the Underlying. Moreover, the value of the Securities may fall even in the event that the price of the Underlying remains constant or rises slightly. Conversely, the value of the Securities may remain constant or rise slightly even if the price of the Underlying decreases.

Accordingly, Securityholders bear the risk that if they can sell any Securities prior to their due date, the sale proceeds may fall below (including significantly below) the amount of capital initially invested in the Securities and investors would then **lose some or all of the invested capital**.

Specific risks related to the liquidity of the Securities. Potential investors bear the risk that there is no liquid market for trading in the Securities. Due to their structured nature and linkage to the Underlying, the Securities would generally have a more limited secondary market than conventional debt securities. This means that they may not be able to sell the Securities at a time of their own choosing. This could, in turn, result in potential investors receiving a lower sale price than they would have received had a liquid market existed.

Risk of fluctuations in the value of the Underlying. Securityholders are subject to the risks related to the Underlying in respect of the Securities, whose performance is subject to fluctuations. Therefore, Securityholders cannot foresee the value of the Securities on a certain day in the future. Likewise, the historical data on an Underlying does not allow for any conclusions to be drawn about the future performance of an Underlying and the Securities. An Underlying may have only a short operating history or may have been in existence only for a short period of time and may deliver results over the longer term that may be lower than originally expected. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, substantial losses in value might occur in comparison to a disposal at a later or earlier point in time. The more volatile an Underlying is, the less predictable the amount to be received by the Securityholders. In case of an unfavourable development of the price of an Underlying, the amount received by the Securityholders may be very low or even be equal to zero.

Specific risks related to hedging transactions entered into by the Issuer. If the Issuer enters into hedging transactions in connection with the Securities and such hedging transactions are unwound, this could have an impact on the price of the Underlying and, therefore, on any amounts payable to the Securityholders in respect of the Securities. In such cases, Securityholders could even **suffer a partial loss of the invested capital**.

Specific risks related to potential conflicts of interest of the Issuer and its affiliates. The Issuer and its affiliates may have commercial interests that conflict with those of the Securityholders (e.g. as a result of the Issuer's involvement in other transactions or the Issuer's existing business relationship with the issuer of the Underlying) and that may impact the value and/or trading of the Securities. In turn, this could result in Securityholders receiving less when selling any Securities they hold than they would have received but for such conflicts of interest and/or **even suffering a partial loss of the invested capital**.

Specific risks related to hedging transactions entered into by Securityholders. Because of the structured nature of the Securities, potential investors bear the risk that they may not be able to fully hedge the risks arising from the Securities. If any of the risks which potential investors have not been able to fully hedge materialise, potential investors could suffer **a loss of some or all of the invested capital**.

Section D – Key Information on the offer of Securities to the public and/or the admission to trading on a regulated market

Under which conditions and timetable can I invest in this Security?

It has been agreed that, on or after the respective Issue Date of the Securities, the Manager may purchase Securities and place the Securities for sale in Italy (the "**Public Offer Jurisdictions**") as of the Start of the public offer of the Securities. Thereafter, the selling price will be adjusted on a continuous basis to reflect the prevailing market situation.

The total expenses of the issue and/or offer are not separately identifiable and included in the general operating expenses of the Issuer.

The Securities may be subscribed from the Manager during normal banking hours between 27 April 2026 and 8 May 2026 (12:00 CEST) (the "**Subscription Period**"). The Issue Price per Security is payable on the Initial Payment Date. The Issuer reserves the right to early close or to extend the Subscription Period if market conditions so require.

Who is the offeror and/or the person asking for admission to trading?

UBS Europe SE, a stock corporation incorporated under German law and domiciled in Germany (the "**Manager**").

Why is this Prospectus being produced?

Use of proceeds

The Issuer intends to issue and offer the Securities to the public in order to raise funding for general business purposes of the UBS Group.

Underwriting agreement(s)

It has been agreed that the Manager shall underwrite the Securities on or after the respective Issue Date by means of an underwriting agreement and shall place them for sale under terms subject to change in the Public Offer Jurisdictions.

Most material conflicts of interest

The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Underlying, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations.

Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full.

Quali sono i principali rischi specifici dell'Emittente?

Rischio di credito in relazione a UBS AG in qualità di Emittente

Ciascun investitore in strumenti finanziari emessi da UBS AG in qualità di Emittente è esposto al rischio di credito di UBS AG. La valutazione della solvibilità di UBS AG può essere influenzata da diversi fattori e sviluppi. Tra questi figurano l'acquisizione di Credit Suisse Group AG da parte di UBS Group AG e l'integrazione del gruppo, cambiamenti sostanziali della regolamentazione e il successo di UBS AG nella realizzazione dei propri piani strategici, la reputazione di UBS, i rischi operativi, la gestione del rischio e i processi di controllo, le condizioni di mercato e il contesto macroeconomico, l'esposizione al rischio di credito di clienti e controparti, rischi legali e normativi rilevanti, e la gestione della liquidità e dei finanziamenti.

In caso di gravi difficoltà finanziarie di UBS AG, la FINMA ha facoltà di avviare procedure di ristrutturazione o di liquidazione ovvero di imporre misure protettive in relazione a UBS Group AG, UBS AG o UBS Switzerland AG, e tali procedure o misure potranno avere un effetto negativo sostanziale sui creditori di UBS AG. Se dovessero essere avviate procedure di ristrutturazione o di liquidazione nei confronti di UBS AG, i portatori di strumenti finanziari potrebbero subire una perdita rilevante o la **perdita totale** degli strumenti finanziari.

Sezione C – Informazioni fondamentali sugli Strumenti Finanziari

Quali sono le principali caratteristiche degli Strumenti Finanziari?

Tipologia e forma degli Strumenti Finanziari

Gli Strumenti Finanziari di ciascuna Serie sono titoli di debito strutturati che non assicurano la protezione del capitale. Gli Strumenti Finanziari saranno emessi sotto forma di titoli al portatore (Art. 793 del codice civile tedesco, BGB) ai sensi della legge tedesca. Il contenuto (diversamente dalla forma) degli Strumenti Finanziari e tutti i diritti e gli obblighi derivanti dagli Strumenti Finanziari sono regolati dalla legge tedesca.

Obiettivo dello Strumento è fornire all'investitore un diritto specifico in base a condizioni predefinite. Lo Strumento ha, a meno che non venga rimborsato anticipatamente, una durata fissa e scadrà alla Data di scadenza.

Pagamento della Cedola

Il Portatore riceverà un pagamento del rispettivo Importo della Cedola nella Valuta di Rimborso alla rispettiva Data di Pagamento della Cedola in relazione al Periodo della Cedola precedente, subordinato, tuttavia, all'esecuzione del Sottostante. Se il prezzo di chiusura ufficiale del Sottostante come determinato dalla Fonte dei Prezzi in una Data di Osservazione della Cedola è inferiore al rispettivo Livello di Default della Cedola, **il Portatore non riceverà un pagamento del rispettivo Importo della Cedola in relazione al rispettivo Periodo della Cedola** (tale evento costituisce un "Evento di default coupon").

Nel caso in cui il prezzo di chiusura ufficiale del Sottostante determinato dalla Fonte dei Prezzi in una data di osservazione della cedola sia uguale o superiore al rispettivo Livello di Catch-up della Cedola, il Portatore riceverà alla rispettiva Data di Pagamento della Cedola un pagamento del rispettivo Importo della Cedola in relazione a tale Data di Osservazione della Cedola e a qualsiasi Data di Osservazione della Cedola precedente per la quale non è stato pagato il rispettivo Importo della Cedola (tale evento costituisce un "evento di recupero dell'importo della cedola").

Rimborso Anticipato

Nel caso in cui il prezzo di chiusura ufficiale del Sottostante come determinato dalla Fonte dei Prezzi nella rispettiva Data di Osservazione del Rimborso Anticipato sia uguale o superiore al rispettivo Livello di Rimborso Anticipato (tale evento costituisce un "Evento di rimborso anticipato"), il Titolo sarà riscattato in anticipo la rispettiva Data di Scadenza e il Portatore riceverà un pagamento dell'Importo di Rimborso Anticipato. L'assicurato non avrà diritto ad ulteriori pagamenti in seguito.

Rimborso alla Scadenza

Se non si è verificato un evento di rimborso anticipato per quanto riguarda il Titolo, alla Data di Scadenza, il Portatore ha il diritto di ricevere l'Importo di Rimborso, che dipende dall'esecuzione del Sottostante e dal fatto che si sia verificato o meno un cosiddetto Evento di Kick-In, in ogni caso, determinato alla Data di Valutazione come segue:

A tale scopo, si deve verificare un "Evento di Kick-In", se il Prezzo di Liquidazione del Sottostante è uguale o inferiore al livello Kick-In..

(i) Se **non si è verificato un Evento di Kick-In**, il Portatore di Titoli riceverà alla Data di Scadenza l'Importo di Calcolo.

- (ii) **Nel caso in cui si verifichi un Evento Kick-In** e se il Prezzo di Liquidazione del Sottostante, è uguale o superiore al Livello Strike, il Portatore ha diritto a ricevere alla Data di Scadenza l'Importo di Calcolo.
- (iii) **Nel caso in cui si verifichi un Evento Kick-In** e se il Prezzo di Liquidazione del Sottostante, è inferiore al Livello Strike, il Portatore ha diritto a ricevere alla Data di Scadenza un Importo di Rimborso nella Valuta di Rimborso, il cui ammontare dipende dal Prezzo di Liquidazione del Sottostante. L'Importo di Rimborso è uguale (commercialmente arrotondato) all'Importo di Calcolo moltiplicato per il Prezzo di Liquidazione del Sottostante divisa per il Strike.

Il Security è coperto in valuta alla scadenza, cioè anche se il Prezzo di Liquidazione è determinato nella Valuta Sottostante, gli importi determinati nella Valuta Sottostante verranno convertiti 1:1 nella Valuta di Rimborso (Quanto).

Non verranno effettuati pagamenti separati in relazione agli interessi maturati (interessi cumulati) se il prodotto viene acquistato nel corso della sua durata. L'interesse maturato si rifletterà sul prezzo di contrattazione in corso del prodotto (Dirty Price).

L'Emittente ha la facoltà di estinguere gli Strumenti Finanziari con effetto immediato al verificarsi di un evento (straordinario) di estinzione. Tra gli esempi di eventi (straordinari) di estinzione si annoverano l'interruzione della determinazione/pubblicazione del prezzo del Sottostante o il verificarsi di una modifica legislativa. In tal caso, l'ammontare dovuto al Portatore degli Strumenti Finanziari alla data di cessazione potrebbe essere nettamente inferiore al capitale investito dal Portatore negli Strumenti Finanziari (comprese le commissioni di negoziazione).

Rango degli Strumenti Finanziari nella struttura del capitale dell'Emittente in caso di insolvenza

Gli Strumenti Finanziari costituiscono obbligazioni dirette, non garantite e non subordinate dell'Emittente, e avranno il medesimo grado di diritti tra di loro e rispetto a tutte le altre obbligazioni attuali e future non garantite e non subordinate dell'Emittente, diverse dalle obbligazioni privilegiate secondo inderogabili disposizioni di legge.

Restrizioni alla libera negoziabilità degli Strumenti Finanziari

Gli Strumenti Finanziari sono liberamente negoziabili.

Dove saranno negoziati gli Strumenti Finanziari?

L'Emittente intende presentare domanda di ammissione alla negoziazione degli Strumenti Finanziari sul sistema EuroTLX.

Quali sono i principali rischi specifici degli Strumenti Finanziari?

I Portatori degli Strumenti Finanziari sono esposti al rischio di bail-in. Qualora la FINMA, nelle sue funzioni di autorità di vigilanza dell'Emittente, dovesse esercitare misure di risoluzione nei confronti di quest'ultimo e procedesse alla svalutazione o alla conversione degli Strumenti Finanziari in azioni ordinarie dell'Emittente, il Portatore degli Strumenti Finanziari non potrebbe più far valere nei confronti dell'Emittente i diritti associati agli Strumenti Finanziari.

Gli Strumenti Finanziari non sono assistiti da alcun sistema di garanzia o tutela dei depositi, obbligatorio o volontario. Le obbligazioni che sorgono in capo all'Emittente in relazione agli Strumenti Finanziari non sono assistite da alcun sistema di tutela dei depositi, obbligatorio o volontario, né da un sistema di indennizzo. Non sono altresì stati forniti impegni o garanzie di terzi in relazione agli obblighi dell'Emittente riguardanti gli Strumenti Finanziari. Di conseguenza, in caso di insolvenza dell'Emittente, gli investitori sono pertanto esposti al rischio di **perdita totale del loro investimento negli Strumenti Finanziari.**

Rischi specifici relativi alla dipendenza dal Sottostante. L'Importo di Rimborso dovuto in base alle Condizioni degli Strumenti Finanziari dipende dalla performance del Sottostante. Se si è verificato un Evento di Kick-In e se il Prezzo di Liquidazione del è inferiore al rispettivo Strike, l'Importo di Rimborso, in caso di performance sfavorevole del Sottostante, potrebbe addirittura essere pari a zero. **In tale ipotesi, il Portatore degli Strumenti Finanziari subirebbe la perdita totale del capitale investito.**

Rischi specifici relativi al verificarsi di un Evento di Rimborso Anticipato Nel caso in cui si verifichi un Evento di Rimborso Anticipato, tutti i Titoli in circolazione sono automaticamente cessati e rimborsati anticipatamente. In tal caso, i Portatori di Titoli riceveranno il pagamento dell'Importo di Rimborso Anticipato, ma non avranno diritto a richiedere ulteriori pagamenti sui Titoli. In particolare, i Portatori di Titoli non hanno il diritto di richiedere il pagamento di qualsiasi ulteriore Importo della Cedola che sarebbe altrimenti dovuto secondo le Condizioni dei Titoli durante la loro durata prevista.

Rischi specifici relativi alla mancata partecipazione alla performance del Sottostante in seguito all'estinzione e al rimborso anticipato degli Strumenti Finanziari. Si fa presente ai potenziali investitori che, in conformità alle Condizioni, in alcune circostanze gli Strumenti Finanziari possono essere oggetto di estinzione e di rimborso anticipato. In caso di estinzione e rimborso anticipato degli Strumenti Finanziari prima della Data di Scadenza, il Portatore degli Strumenti Finanziari potrà pretendere il pagamento di un importo nella Valuta di Rimborso in relazione a tale estinzione e rimborso anticipato. Tuttavia, tale importo potrebbe essere significativamente inferiore all'importo che sarebbe dovuto alla scadenza naturale degli Strumenti Finanziari e, se risulterà inferiore al capitale investito, il Portatore potrà addirittura incorrere nella **perdita totale del capitale investito.**

Rischi specifici relativi al reinvestimento. Il Portatore è esposto al rischio che l'eventuale liquidità incassata in seguito all'estinzione e al rimborso anticipato degli Strumenti Finanziari possa essere reinvestita per un periodo corrispondente alla durata naturale degli Strumenti Finanziari a condizioni di mercato meno favorevoli rispetto a quelle prevalenti al momento dell'acquisto degli Strumenti Finanziari. Di conseguenza, il tasso di rendimento ottenuto con il reinvestimento potrebbe essere decisamente inferiore al rendimento atteso dal Portatore al momento dell'acquisto degli Strumenti Finanziari. Inoltre, la probabilità di perdere gli importi così reinvestiti può essere decisamente più elevata.

Rischi specifici relativi al prezzo di mercato degli Strumenti Finanziari. I potenziali investitori sono esposti al rischio di oscillazioni del prezzo di mercato degli Strumenti Finanziari nel corso della vita degli stessi, ivi incluso, in via non limitativa, a seguito di variazioni nella performance del Sottostante o della volatilità del Sottostante. Inoltre, il valore degli Strumenti Finanziari può diminuire anche qualora il prezzo del Sottostante dovesse rimanere costante o aumentare leggermente. Per contro, il valore degli Strumenti Finanziari può rimanere costante o aumentare leggermente anche qualora il prezzo del Sottostante dovesse diminuire. Di conseguenza, il Portatore è esposto al rischio che, qualora dovesse riuscire a vendere degli Strumenti Finanziari prima della rispettiva scadenza, i proventi della vendita potrebbero essere inferiori (anche in misura significativa) all'ammontare del capitale inizialmente investito negli Strumenti Finanziari, e in tal caso l'investitore potrebbe **perdere il capitale investito in parte o nella sua interezza.**

Rischi specifici relativi ai tassi di cambio. Si fa presente ai potenziali investitori che il Prezzo di Liquidazione di ciascun Sottostante calcolato sulla base di una Valuta Sottostante diversa dalla Valuta di Rimborso deve essere convertito nella Valuta di Rimborso al tasso di cambio stabilito al momento dell'emissione degli Strumenti Finanziari (la cosiddetta condizione "Quanto"). Si fa presente ai potenziali investitori che il valore della Valuta Sottostante rispetto alla Valuta di Rimborso può variare in modo favorevole. Pertanto, la cosiddetta condizione "Quanto" degli Strumenti Finanziari può impedire all'investitore di partecipare a tali variazioni favorevoli (in quanto il tasso di cambio fisso utilizzato ai fini della valutazione del Sottostante nella Valuta di Rimborso è meno favorevole del tasso di cambio prevalente sul mercato in quel momento) e, di conseguenza, può determinare una riduzione di valore degli Strumenti Finanziari.

Rischi specifici relativi al prezzo di mercato degli Strumenti Finanziari. I potenziali investitori sono esposti al rischio di oscillazioni del prezzo di mercato degli Strumenti Finanziari nel corso della vita degli stessi, ivi incluso, in via non limitativa, a seguito di variazioni nella performance del Sottostante o della volatilità del Sottostante. Inoltre, il valore degli Strumenti Finanziari può diminuire anche qualora il prezzo del Sottostante dovesse rimanere costante o aumentare leggermente. Per contro, il valore degli Strumenti Finanziari può rimanere costante o aumentare leggermente anche qualora il prezzo del Sottostante dovesse diminuire. Di conseguenza, il Portatore è esposto al rischio che, qualora dovesse riuscire a vendere degli Strumenti Finanziari prima della rispettiva scadenza, i proventi della vendita potrebbero essere inferiori (anche in misura significativa) all'ammontare del capitale inizialmente investito negli Strumenti Finanziari, e in tal caso l'investitore potrebbe **perdere il capitale investito in parte o nella sua interezza**.

Rischi specifici relativi alla liquidità degli Strumenti Finanziari. I potenziali investitori sono esposti al rischio che non vi sia un mercato liquido per la negoziazione degli Strumenti Finanziari. A causa della loro natura strutturata e del loro legame con il Sottostante, gli Strumenti Finanziari possono in genere avere un mercato secondario più limitato rispetto ai titoli di debito di tipo convenzionale. Ciò potrebbe comportare l'impossibilità di vendere gli Strumenti Finanziari nel momento prescelto. Questo, a sua volta, potrebbe far sì che i potenziali investitori ottengano un prezzo di vendita inferiore a quanto avrebbero potuto percepire in presenza di un mercato liquido.

Rischio di oscillazioni del valore del Sottostante. Il Portatore degli Strumenti Finanziari è esposto ai rischi relativi al Sottostante in relazione agli Strumenti Finanziari, la cui performance è soggetta a oscillazioni. Pertanto, il Portatore degli Strumenti Finanziari non può prevedere il valore degli Strumenti Finanziari a una certa data futura. Allo stesso modo, i dati storici relativi al Sottostante non consentono di trarre conclusioni sulla futura performance del Sottostante e degli Strumenti Finanziari. Il Sottostante potrebbe avere uno storico operativo limitato o potrebbe esistere solo da un breve periodo di tempo e i suoi risultati nel lungo periodo potrebbero essere inferiori a quanto inizialmente previsto. Al momento del riscatto, dell'esercizio o comunque della cessione degli Strumenti Finanziari a una certa data, potrebbero verificarsi perdite sostanziali di valore rispetto alla cessione effettuata in un momento precedente o successivo. Più il Sottostante è volatile, meno prevedibile sarà l'importo che il Portatore degli Strumenti Finanziari potrà ricevere. In caso di andamento sfavorevole del prezzo del Sottostante, l'importo ricevuto dal Portatore degli Strumenti Finanziari **potrebbe essere molto basso o addirittura azzerarsi**.

Rischi specifici relativi alle operazioni di copertura concluse dall'Emittente. Qualora l'Emittente effettui operazioni di copertura in relazione ai Titoli e tali operazioni di copertura siano liquidate, ciò potrebbe avere un impatto sul prezzo del Sottostante e, pertanto, sugli importi pagabili ai Portatori di Titoli in relazione ad essi. In tali casi, i Portatori di Titoli potrebbero subire **una perdita parziale del capitale investito**.

Rischi specifici relativi a potenziali conflitti di interesse dell'Emittente e delle sue società collegate. L'Emittente e le sue società collegate possono avere interessi commerciali in conflitto con quelli dei Portatori di Titoli (ad esempio a seguito del coinvolgimento dell'Emittente in altre operazioni o del rapporto commerciale esistente tra l'Emittente e l'emittente del Sottostante). Tali interessi potrebbero influire sul valore e/o sulla negoziazione dei Titoli. Ciò potrebbe a sua volta comportare che i Portatori di Titoli ricevano, al momento della vendita dei Titoli detenuti, un importo inferiore a quello che avrebbero ricevuto in assenza di tali conflitti d'interesse e/o **che subiscano addirittura una perdita parziale del capitale investito**.

Rischi specifici relativi allo smobilizzo delle operazioni di copertura poste in essere dal Portatore. A causa della natura strutturata dei Titoli, i potenziali investitori comportano il rischio di non essere in grado di coprire appieno i rischi derivanti dai Titoli. Se uno dei rischi che i potenziali investitori non sono stati in grado di coprire completamente si materializza, i potenziali investitori potrebbero **subire una perdita di parte o di tutto il capitale investito**.

Sezione D – Informazioni fondamentali sull'offerta pubblica di Strumenti Finanziari e/o l'ammissione alla negoziazione in un mercato regolamentato

A quali condizioni posso investire in questo Strumento Finanziario e qual è il calendario previsto?

Si è convenuto che, alla rispettiva Data di Emissione degli Strumenti Finanziari o successivamente ad essa, il Gestore potrà acquistare Strumenti Finanziari e collocare gli Strumenti Finanziari per la vendita in Italia (le "Giurisdizioni dell'Offerta Pubblica") all'Inizio dell'offerta pubblica degli Strumenti Finanziari. In seguito, il prezzo di vendita sarà continuativamente adeguato per riflettere le condizioni di mercato.

Le domande di sottoscrizione degli Strumenti Finanziari possono essere presentate al Gestore durante il normale orario di apertura delle banche nel Periodo di Sottoscrizione tra il 27 aprile 2026 e il 8 maggio 2026 (12:00 CET) (il "Periodo di Sottoscrizione"). L'Emittente si riserva la facoltà di chiudere anticipatamente o di prorogare il Periodo di Offerta qualora le condizioni di mercato lo richiedano.

Chi è l'offerente e/o il soggetto che chiede l'ammissione alla negoziazione?

UBS Europe SE, società per azioni quotata di diritto tedesco e domiciliata in Germania (il "Gestore").

Perché è redatto il presente Prospetto?

Impiego dei proventi

L'Emittente intende emettere e offrire gli Strumenti Finanziari al pubblico allo scopo di procurarsi finanziamenti per finalità generali di gestione del Gruppo UBS.

Si è convenuto che il Gestore provvederà alla sottoscrizione degli Strumenti Finanziari alla rispettiva Data di Emissione o successivamente alla stessa per mezzo di un accordo di sottoscrizione, e provvederà al loro collocamento per la vendita alle condizioni soggette a modifica nelle Giurisdizioni dell'Offerta Pubblica.

Conflitti di interesse più significativi

È possibile che l'Emittente e le società collegate partecipino a operazioni connesse agli Strumenti Finanziari nel proprio interesse o nell'interesse di un cliente. Tali operazioni possono non portare alcun vantaggio ai Portatori degli Strumenti Finanziari e possono avere effetti negativi o positivi sul valore del Sottostante e, di conseguenza, sul valore degli Strumenti Finanziari. Inoltre, l'Emittente potrebbe stipulare contratti di copertura dei rischi derivanti dagli Strumenti Finanziari con controparti costituite da società collegate. In tale situazione, potrebbero sorgere dei conflitti di interesse tra queste controparti e tra le controparti e gli investitori in relazione agli obblighi relativi alla determinazione del prezzo degli Strumenti Finanziari e agli altri calcoli associati.

È possibile che, nell'ambito dell'offerta e della vendita degli Strumenti Finanziari, l'Emittente o una delle sue società collegate versino, direttamente o indirettamente, commissioni di importo variabile a favore di terzi, tra cui distributori o consulenti per gli investimenti, oppure percepiscano da terzi, direttamente o indirettamente, commissioni di importo variabile, incluse quelle applicate alla distribuzione degli Strumenti Finanziari. Si rammenta ai potenziali investitori che l'Emittente può trattenere, in tutto o in parte, le commissioni.
