The „**Settlement Amount**“ is calculated in accordance with the following formula:

$$CA \times \left(\frac{\text{Cap Level} + (\text{Upside Participation} - 1) \times (\text{Cap Level} - \text{Upper Strike Level})}{\text{Reference Level}} \right)$$

Where:

„**CA**“ equals the Calculation Amount.

$$CA \times \left(\frac{\text{Settlement Price} + (\text{Upside Participation} - 1) \times \text{MAX}[0, (\text{Settlement Price} - \text{Upper Strike Level})]}{\text{Reference Level}} \right)$$

Wobei gilt:

"CA" entspricht dem Berechnungsbetrag.

- (ii) Ist der Abrechnungskurs des Basiswerts **kleiner als der Bonus-Level**, hat der Wertpapiergläubiger das Recht, den Abrechnungsbetrag (wie nachfolgend definiert), auf zwei Dezimalstellen kaufmännisch gerundet, zu erhalten (der "**Auszahlungsbetrag**").

Der „**Abrechnungsbetrag**“ wird in Übereinstimmung mit folgender Formel berechnet:

Der „**Abrechnungsbetrag**“ wird in Übereinstimmung mit folgender Formel berechnet:

$$CA \times \left(\frac{\text{MAX}[\text{Referenz-Level}, \text{Abrechnungskurs} + (\text{Partizipation nach oben} - 1) \times \text{MAX}[0, (\text{Abrechnungskurs} - \text{Obere Strike Level})]]}{\text{Referenz-Level}} \right)$$

Wobei gilt:

"CA" entspricht dem Berechnungsbetrag.

Where:

"CA" equals the Calculation Amount.

- (ii) In case the Settlement Price of the Underlying is **lower than the Bonus Level**, the Securityholder is entitled to receive the Settlement Amount (as defined below), commercially rounded to two decimal places (the "**Redemption Amount**").

The "**Settlement Amount**" is calculated in accordance with the following formula:

$$CA \times \left(\frac{\text{Bonus Level}}{\text{Reference Level}} \right)$$

Where:

"CA" equals the Calculation Amount.

- (c) **If a Kick In Event** (as defined in the section "Conditions of the Securities – Product Terms Part 1: Key Terms and Definitions of the Securities") **has occurred**, the Securityholder has the following right:

The "**Settlement Amount**" is calculated in accordance with the following formula:

$$CA \times \left(\frac{\text{MAX}[\text{Reference Level}, \text{Settlement Price} + (\text{Upside Participation} - 1) \times \text{MAX}[0, (\text{Settlement Price} - \text{Upper Strike Level})]]}{\text{Reference Level}} \right)$$

Where:

"CA" equals the Calculation Amount.

- (ii) Ist der Abrechnungskurs des Basiswerts **kleiner als der Untere Strike-Level**, hat der Wertpapiergläubiger das Recht, den Abrechnungsbetrag (wie nachfolgend definiert), auf zwei Dezimalstellen kaufmännisch gerundet, zu erhalten (der **„Auszahlungsbetrag“**).

$$CA \times \left(\frac{\text{MAX}[0, \text{Referenz-Level} - \text{Partizipation nach unten} \times (\text{Untere Strike Level} - \text{Abrechnungskurs})]}{\text{Referenz-Level}} \right)$$

Wobei gilt:

„CA“ entspricht dem Berechnungsbetrag.

(2) Festlegungen und Berechnungen im Zusammenhang mit dem Wertpapierrecht

Sämtliche im Zusammenhang mit dem Wertpapierrecht vorzunehmenden Festlegungen und Berechnungen, insbesondere die Berechnung des Auszahlungsbetrags, erfolgen durch die Berechnungsstelle. What are the key risks that are specific to the Issuer?

Credit risk in relation to UBS AG as Issuer

Each investor in securities issued by UBS AG as Issuer is exposed to the credit risk of UBS AG. The assessment of UBS AG's creditworthiness may be affected by a number of factors and developments. These include UBS Group AG's acquisition of Credit Suisse Group AG and the integration of the group, substantial changes in regulation and UBS AG's success in executing its strategic plans, UBS's reputation, operational risks, risk management and control processes, market conditions and macroeconomic climate, credit risk exposure to clients and counterparties, material legal and regulatory risks, and liquidity and funding management.

If UBS AG experiences severe financial difficulties, FINMA has the power to open restructuring or liquidation proceedings or impose protective measures in relation to UBS Group AG, UBS AG or UBS Switzerland AG, and such proceedings or measures may have a material adverse effect on UBS AG's creditors. If restructuring or liquidation proceedings are instituted against UBS AG, holders of securities may suffer a substantial or **total loss** on the securities.

Section C – Key Information on the Securities

What are the main features of the Securities?

Type and form of the Securities

The Securities are structured debt securities with no capital protection. The Securities are issued in the form of bearer securities (§ 793 BGB) under German law. The contents (other than the form) of the Securities as well as all rights and duties arising from the Securities are governed by German law.

Objective of the Security is to provide the Securityholder with a specified entitlement according to predefined conditions. The Security has a fixed lifetime and will become due on the Maturity Date.

Redemption at maturity

On the Maturity Date, the Securityholder is entitled to receive the Redemption Amount, which depends on the performance of the Underlying and whether or not a so-called Kick In Event has occurred, in each case, determined as of the Valuation Date as follows:

For this purpose, a **"Kick In Event"** shall have occurred, if the Settlement Price of the Underlying is equal to or lower than the Kick In Level.

- (i) If the Settlement Price of the Underlying is **equal to or higher than the Cap Level**, the Securityholder will receive (irrespective of the occurrence of a Kick In Event) on the Maturity Date the Redemption Amount. The Redemption Amount equals (commercially rounded) the product of the Calculation Amount and the quotient of (i) the sum of (A) the Cap Level and (B) the product of (x) the Upside Participation minus 1 and (y) the Cap Level minus the Upper Strike Level divided by (ii) the Reference Level.
- (ii) If a **Kick In Event has not occurred** and the Settlement Price of the Underlying is **equal to or lower than the Cap Level** and **equal to or higher than the Bonus Level**, the Securityholder will receive on the Maturity Date the Redemption Amount. The Redemption Amount equals (commercially rounded) the product of the Calculation Amount and the quotient of (i) the sum of (A) the Settlement Price of the Underlying and (B) the product of (x) the Upside Participation minus 1 and (y) the higher of (1) zero and (2) the Settlement Price of the Underlying minus the Upper Strike Level divided by (ii) the Reference Level.
- (iii) If a **Kick In Event has not occurred** and the Settlement Price of the Underlying is **lower than the Bonus Level**, the Securityholder will receive on the Maturity Date the Redemption Amount. The Redemption Amount equals (commercially rounded) the product of the Calculation Amount and the quotient of the Bonus Level divided by the Reference Level.

- (iv) If a **Kick In Event has occurred** and the Settlement Price of the Underlying is **equal to or lower than the Cap Level** and **equal to or higher than the Lower Strike Level**, the Securityholder will receive on the Maturity Date the Redemption Amount. The Redemption Amount equals (commercially rounded) the product of the Calculation Amount and the quotient of (i) the higher of (A) the Reference Level and (B) the sum of (x) the Settlement Price of the Underlying and (y) the product of (1) the Upside Participation minus 1 and (2) the higher of (I) zero and (II) the Settlement Price of the Underlying minus the Upper Strike Level divided by (ii) the Reference Level.
- (v) If a **Kick In Event has occurred** and the Settlement Price of the Underlying is **lower than the Lower Strike Level**, the Securityholder will receive on the Maturity Date the Redemption Amount. The Redemption Amount equals (commercially rounded) the product of the Calculation Amount and the quotient of (i) the higher of (A) zero and (B) the Reference Level minus the product of (x) the Downside Participation and (y) the Lower Strike Level minus the Settlement Price of the Underlying divided by (ii) the Reference Level.

The Issuer is entitled to terminate the Securities with immediate effect if an (extraordinary) termination event occurs. Examples of (extraordinary) termination events include the discontinuation of the determination/publication of the price of the Underlying or the occurrence of a change in law. In such case, the payable termination amount payable to Securityholders may be significantly lower than the capital invested by Securityholders for purchasing the Securities (including the transaction costs).

Relative seniority of the Securities in the Issuer's capital structure in the event of insolvency

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking *pari passu* among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.

Restrictions on free transferability of the Securities

The Securities are freely transferrable.

Where will the Securities be traded?

It is intended that application for listing of the Securities to trading on EuroTLX will be made.

What are the key risks that are specific to the Securities?

The Securityholders are exposed to the risk of a bail-in. In case FINMA as supervisory authority in respect of the Issuer exercises resolution measures against the Issuer and writes down or converts the Securities into common equity of the Issuer, Securityholders would have no further claim against the Issuer under the Securities.

The Securities are not protected by any statutory or voluntary deposit guarantee scheme. The Issuer's obligations under the Securities are not protected by any statutory or voluntary deposit protection scheme or compensation scheme. Further, no third party guarantees or commitments have been provided in respect of the Issuer's obligations under the Securities. Accordingly, in the event of insolvency of the Issuer, investors may thus experience **a total loss of their investment in the Securities.**

Specific risks related to dependence on the Underlying. The Redemption Amount payable in accordance with the Conditions of the Securities depends on the performance of the Underlying. If a Kick In Event has occurred and in case the Settlement Price of the Underlying is lower than the Strike Level, the Redemption Amount could in case of an unfavourable performance of the Underlying even be equal to zero. **In such case, the Securityholder will suffer a total loss of the invested capital.**

Specific risks related to no participation in the performance of the Underlying beyond the Cap Level. The Redemption Amount payable in accordance with the Conditions of the Securities will, in any case, be capped to the Cap Level. Therefore, Securityholders should be aware that, in contrast to a direct investment in the Underlying, Securityholders do not participate in the performance of the Underlying beyond the Cap Level and the potential profit of the Securities is, therefore, limited.

Specific risks related to no further participation in the performance of the Underlying following the termination and early redemption of the Securities. Potential investors should be aware that the Securities may in accordance with the Conditions of the Securities be terminated and redeemed early in a number of circumstances. In case of a termination and early redemption of the Securities prior to the Valuation Date, the Securityholder is entitled to demand the payment of an amount in the Redemption Currency in relation to this termination and early redemption. However, such amount can be considerably below the amount which would be payable at the scheduled end of the term of the Securities and, if it is lower than the invested capital, Securityholders may even suffer **a total loss of the invested capital.**

Specific risks related to reinvestment. The Securityholders bear the risk that the cash amount received by the Securityholder following the termination and early redemption of the Securities (if any) can be reinvested for a term comparable with the scheduled term of the Securities only at market conditions which are less favourable than those prevailing at the time of the acquisition of the Securities. As a result, the yield achieved by this reinvestment may be significantly lower than the return expected by the Securityholder with the purchase of the Securities.

Specific risks related to the market price of the Securities. Potential investors bear the risk that the market price of the Securities may fluctuate during the term of the Securities, including, without limitation, as a result of any changes in the performance of the Underlying or any changes in the volatility of the Underlying. Moreover, the value of the Securities may fall even in the event that the price of the Underlying remains constant or rises slightly. Conversely, the value of the Securities may remain constant or rise slightly even if the price of the Underlying decreases. Accordingly, Securityholders bear the risk that if they can sell any Securities prior to their due date, the sale proceeds may fall below (including significantly below) the amount of capital initially invested in the Securities and investors would then **lose some or all of the invested capital.**

Specific risks related to the liquidity of the Securities. Potential investors bear the risk that there is no liquid market for trading in the Securities. Due to their structured nature and linkage to the Underlying, the Securities would generally have a more limited secondary market than conventional debt securities. This means that they may not be able to sell the Securities at a time of their own choosing. This could, in turn, result in potential investors receiving a lower sale price than they would have received had a liquid market existed.

Risk of fluctuations in the value of the Underlying. Securityholders are subject to the risks related to the Underlying in respect of the Securities, whose performance is subject to fluctuations. Therefore, Securityholders cannot foresee the value of the Securities on a certain day in the future. Likewise, the historical data on an Underlying does not allow for any conclusions to be drawn about the future performance of an Underlying and the Securities. An Underlying may have only a short operating history or may have been in existence only for a short period of time and may deliver results over the longer term that may be lower than originally expected. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, substantial losses in value might occur in comparison to a disposal at a later or earlier point in time. The more volatile an Underlying is, the less predictable the amount to be received by the Securityholders. In case of an unfavourable development of the price of an Underlying, the amount received by the Securityholders may be very low or even be equal to zero.

Specific risks related to hedging transactions entered into by the Issuer. If the Issuer enters into hedging transactions in connection with the Securities and such hedging transactions are unwound, this could have an impact on the price of the Underlying and, therefore, on any amounts payable to the Securityholders in respect of the Securities. In such cases, Securityholders could even **suffer a partial loss of the invested capital.**

Specific risks related to potential conflicts of interest of the Issuer and its affiliates. The Issuer and its affiliates may have commercial interests that conflict with those of the Securityholders (e.g. as a result of the Issuer's involvement in other transactions or the Issuer's existing business relationship with the issuer of the Underlying) and that may impact the value and/or trading of the Securities. In turn, this could result in Securityholders receiving less when selling any Securities they hold than they would have received but for such conflicts of interest and/or **even suffering a partial loss of the invested capital.**

Specific risks related to hedging transactions entered into by Securityholders. Because of the structured nature of the Securities, potential investors bear the risk that they may not be able to fully hedge the risks arising from the Securities. If any of the risks which potential investors have not been able to fully hedge materialise, potential investors could suffer **a loss of some or all of the invested capital.**

Section D – Key Information on the offer of Securities to the public and/or the admission to trading on a regulated market
Under which conditions and timetable can I invest in this Security?
It has been agreed that, on or after the respective Issue Date of the Securities, the Manager may purchase Securities and place the Securities for sale in Italy (the "Public Offer Jurisdictions") as of the Start of the public offer of the Securities. Thereafter, the selling price will be adjusted on a continuous basis to reflect the prevailing market situation. The total expenses of the issue and/or offer are not separately identifiable and included in the general operating expenses of the Issuer. The Securities may be subscribed from the Manager during normal banking hours between 25 May 2026 and 5 June 2026 (16:30 CEST) (the "Subscription Period"). The Issue Price per Security is payable on the Initial Payment Date. The Issuer reserves the right to early close or to extend the Subscription Period if market conditions so require.
Who is the offeror and/or the person asking for admission to trading?
UBS Europe SE, a stock corporation incorporated under German law and domiciled in Germany (the "Manager").
Why is this Prospectus being produced?
Use of proceeds The Issuer intends to issue and offer the Securities to the public in order to raise funding for general business purposes of the UBS Group. Underwriting agreement(s) It has been agreed that the Manager shall underwrite the Securities on or after the respective Issue Date by means of an underwriting agreement and shall place them for sale under terms subject to change in the Public Offer Jurisdictions. Most material conflicts of interest The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Underlying, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations. Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full.

Quali sono i principali rischi specifici dell'Emittente?

Rischio di credito in relazione a UBS AG in qualità di Emittente

Ciascun investitore in strumenti finanziari emessi da UBS AG in qualità di Emittente è esposto al rischio di credito di UBS AG. La valutazione della solvibilità di UBS AG può essere influenzata da diversi fattori e sviluppi. Tra questi figurano l'acquisizione di Credit Suisse Group AG da parte di UBS Group AG e l'integrazione del gruppo, cambiamenti sostanziali della regolamentazione e il successo di UBS AG nella realizzazione dei propri piani strategici, la reputazione di UBS, i rischi operativi, la gestione del rischio e i processi di controllo, le condizioni di mercato e il contesto macroeconomico, l'esposizione al rischio di credito di clienti e controparti, rischi legali e normativi rilevanti, e la gestione della liquidità e dei finanziamenti.

In caso di gravi difficoltà finanziarie di UBS AG, la FINMA ha facoltà di avviare procedure di ristrutturazione o di liquidazione ovvero di imporre misure protettive in relazione a UBS Group AG, UBS AG o UBS Switzerland AG, e tali procedure o misure potranno avere un effetto negativo sostanziale sui creditori di UBS AG. Se dovessero essere avviate procedure di ristrutturazione o di liquidazione nei confronti di UBS AG, i portatori di strumenti finanziari potrebbero subire una perdita rilevante o la **perdita totale** degli strumenti finanziari.

Sezione C – Informazioni fondamentali sugli Strumenti Finanziari

Quali sono le principali caratteristiche degli Strumenti Finanziari?

Tipologia e forma degli Strumenti Finanziari

Gli Strumenti Finanziari di ciascuna Serie sono titoli di debito strutturati che non assicurano la protezione del capitale. Gli Strumenti Finanziari saranno emessi sotto forma di titoli al portatore (Art. 793 del codice civile tedesco, BGB) ai sensi della legge tedesca. Il contenuto (diversamente dalla forma) degli Strumenti Finanziari e tutti i diritti e gli obblighi derivanti dagli Strumenti Finanziari sono regolati dalla legge tedesca.

L'obiettivo dello Strumento Finanziario è conferire al Portatore un determinato diritto sulla base di condizioni prestabilite. Lo Strumento Finanziario ha durata fissa e sarà rimborsato alla Data di Scadenza.

Rimborso alla scadenza

Alla Data di Scadenza, il Portatore dello Strumento Finanziario ha diritto a ricevere l'Importo di Rimborso, che dipende dalla performance del Sottostante e dal prodursi o meno del cosiddetto Evento di Kick-In, il quale sarà in ogni caso determinato alla Data di Valutazione come specificato di seguito:

A tale scopo, un **"Evento di Kick-In"** si verifica se il Prezzo di Liquidazione del Sottostante è uguale o inferiore al Livello di Kick-In.

- (i) Se il Prezzo di Liquidazione del Sottostante è **pari o superiore al Livello Cap**, il Portatore dello Strumento Finanziario riceverà alla Data di Scadenza (indipendentemente dal verificarsi di un Evento di Kick-In) l'Importo di Rimborso. L'Importo di Rimborso corrisponde (con un arrotondamento commerciale) al prodotto tra l'Importo di Calcolo e il quoziente tra (i) la somma tra (A) il Livello Cap e (B) il prodotto tra (x) la Partecipazione al Rialzo meno 1 e (y) il Livello Cap meno il Livello di Strike Superiore e (ii) il Livello di Riferimento.
- (ii) Se **non si è verificato alcun Evento di Kick-In** e il Prezzo di Liquidazione del Sottostante è **pari o inferiore al Livello Cap e pari o superiore al Livello Bonus**, il Portatore dello Strumento Finanziario riceverà alla Data di Scadenza l'Importo di Rimborso. L'Importo di Rimborso corrisponde (con un arrotondamento commerciale) al prodotto tra l'Importo di Calcolo e il quoziente tra (i) la somma tra (A) il Prezzo di Liquidazione del Sottostante e (B) il prodotto tra (x) la Partecipazione al Rialzo meno 1 e (y) il maggiore tra (1) zero e (2) il Prezzo di Liquidazione del Sottostante meno il Livello di Strike Superiore e (ii) il Livello di Riferimento.
- (iii) Se **non si è verificato alcun Evento di Kick-In** e il Prezzo di Liquidazione del Sottostante è **inferiore al Livello Bonus**, il Portatore dello Strumento Finanziario riceverà alla Data di Scadenza l'Importo di Rimborso. L'Importo di Rimborso corrisponde (con un arrotondamento commerciale) al prodotto tra l'Importo di Calcolo e il quoziente tra il Livello Bonus e il Livello di Riferimento.
- (iv) Se **si è verificato un Evento di Kick-In** e il Prezzo di Liquidazione del Sottostante è **pari o inferiore al Livello Cap e pari o superiore al Livello di Strike Inferiore**, il Portatore dello Strumento Finanziario riceverà alla Data di Scadenza l'Importo di Rimborso. L'Importo di Rimborso corrisponde (con un arrotondamento commerciale) al prodotto tra l'Importo di Calcolo e il quoziente tra (i) il maggiore tra (A) il Livello di Riferimento e (B) la somma tra (x) il Prezzo di Liquidazione del Sottostante e (y) il prodotto tra (1) la Partecipazione al

L'Emittente ha la facoltà di estinguere gli Strumenti Finanziari con effetto immediato al verificarsi di un evento (straordinario) di estinzione. Tra gli esempi di eventi (straordinari) di estinzione si annoverano l'interruzione della determinazione/pubblicazione del prezzo del Sottostante o il verificarsi di una modifica legislativa. In tal caso, l'ammontare dovuto al Portatore degli Strumenti Finanziari alla data di cessazione potrebbe essere nettamente inferiore al capitale investito dal Portatore negli Strumenti Finanziari (comprese le commissioni di negoziazione).

Rango degli Strumenti Finanziari nella struttura del capitale dell'Emittente in caso di insolvenza

Gli Strumenti Finanziari costituiscono obbligazioni dirette, non garantite e non subordinate dell'Emittente, e avranno il medesimo grado di diritti tra di loro e rispetto a tutte le altre obbligazioni attuali e future non garantite e non subordinate dell'Emittente, diverse dalle obbligazioni privilegiate secondo inderogabili disposizioni di legge.

Restrizioni alla libera negoziabilità degli Strumenti Finanziari

Gli Strumenti Finanziari sono liberamente negoziabili.

Dove saranno negoziati gli Strumenti Finanziari?

L'Emittente intende presentare domanda di ammissione alla negoziazione degli Strumenti Finanziari sul sistema EuroTLX.

Quali sono i principali rischi specifici degli Strumenti Finanziari?

I Portatori degli Strumenti Finanziari sono esposti al rischio di bail-in. Qualora la FINMA, nelle sue funzioni di autorità di vigilanza dell'Emittente, dovesse esercitare misure di risoluzione nei confronti di quest'ultimo e procedesse alla svalutazione o alla conversione degli Strumenti Finanziari in azioni ordinarie dell'Emittente, il Portatore degli Strumenti Finanziari non potrebbe più far valere nei confronti dell'Emittente i diritti associati agli Strumenti Finanziari.

Gli Strumenti Finanziari non sono assistiti da alcun sistema di garanzia o tutela dei depositi, obbligatorio o volontario. Le obbligazioni che sorgono in capo all'Emittente in relazione agli Strumenti Finanziari non sono assistite da alcun sistema di tutela dei depositi, obbligatorio o volontario, né da un sistema di indennizzo. Non sono altresì stati forniti impegni o garanzie di terzi in relazione agli obblighi dell'Emittente riguardanti gli Strumenti Finanziari. Di conseguenza, in caso di insolvenza dell'Emittente, gli investitori sono pertanto esposti al rischio di **perdita totale del loro investimento negli Strumenti Finanziari**.

Rischi specifici relativi alla dipendenza del Sottostante. L'Importo di Rimborso dovuto in base alle Condizioni degli Strumenti Finanziari dipende dalla performance del Sottostante. Se si è verificato un Evento di Kick-In e se il Prezzo di Liquidazione del Sottostante è inferiore al Livello Bonus, l'Importo di Rimborso, in caso di performance sfavorevole del Sottostante, potrebbe addirittura essere pari a zero. **In tale ipotesi, il Portatore degli Strumenti Finanziari subirebbe la perdita totale del capitale investito.**

Rischi specifici relativi alla mancata partecipazione alla performance del Sottostante oltre il Livello Cap. L'Importo di Rimborso dovuto in base alle Condizioni degli Strumenti Finanziari sarà in ogni caso limitato al Livello Cap. Pertanto, si sottolinea che, diversamente da quanto accade con l'investimento diretto nel Sottostante, il Portatore degli Strumenti Finanziari non partecipa alla performance del Sottostante oltre il Livello Cap e il rendimento potenziale degli Strumenti Finanziari è, pertanto, limitato.

Rischi specifici relativi alla mancata partecipazione alla performance del Sottostante in seguito all'estinzione e al rimborso anticipato degli Strumenti Finanziari. Si fa presente ai potenziali investitori che, in conformità alle Condizioni, in alcune circostanze gli Strumenti Finanziari possono essere oggetto di estinzione e di rimborso anticipato. In caso di estinzione e rimborso anticipato degli Strumenti Finanziari prima della Data di Scadenza, il Portatore degli Strumenti Finanziari potrà pretendere il pagamento di un importo nella Valuta di Rimborso in relazione a tale estinzione e rimborso anticipato. Tuttavia, tale importo potrebbe essere significativamente inferiore all'importo che sarebbe dovuto alla scadenza naturale degli Strumenti Finanziari e, se risulterà inferiore al capitale investito, il Portatore potrà addirittura incorrere nella **perdita totale del capitale investito**.

Rischi specifici relativi al reinvestimento. Il Portatore è esposto al rischio che l'eventuale liquidità incassata in seguito all'estinzione e al rimborso anticipato degli Strumenti Finanziari possa essere reinvestita per un periodo corrispondente alla durata naturale degli Strumenti Finanziari a condizioni di mercato meno favorevoli rispetto a quelle prevalenti al momento dell'acquisto degli Strumenti Finanziari. Di conseguenza, il tasso di rendimento ottenuto con il reinvestimento potrebbe essere decisamente inferiore al rendimento atteso dal Portatore al momento dell'acquisto degli Strumenti Finanziari. Inoltre, la probabilità di perdere gli importi così reinvestiti può essere decisamente più elevata.

Rischi specifici relativi al prezzo di mercato degli Strumenti Finanziari. I potenziali investitori sono esposti al rischio di oscillazioni del prezzo di mercato degli Strumenti Finanziari nel corso della vita degli stessi, ivi incluso, in via non limitativa, a seguito di variazioni nella performance del Sottostante o della volatilità del Sottostante. Inoltre, il valore degli Strumenti Finanziari può diminuire anche qualora il prezzo del Sottostante dovesse rimanere costante o aumentare leggermente. Per contro, il valore degli Strumenti Finanziari può rimanere costante o aumentare leggermente anche qualora il prezzo del Sottostante dovesse diminuire. Di conseguenza, il Portatore è esposto al rischio che, qualora dovesse riuscire a vendere gli Strumenti Finanziari prima della rispettiva scadenza, i proventi della vendita potrebbero essere inferiori (anche in misura significativa) all'ammontare del capitale inizialmente investito negli Strumenti Finanziari, e in tal caso l'investitore potrebbe **perdere il capitale investito in parte o nella sua interezza**.

Rischi specifici relativi alla liquidità degli Strumenti Finanziari. I potenziali investitori sono esposti al rischio che non vi sia un mercato liquido per la negoziazione degli Strumenti Finanziari. A causa della loro natura strutturata e del loro legame con il Sottostante, gli Strumenti Finanziari possono in genere avere un mercato secondario più limitato rispetto ai titoli di debito di tipo convenzionale. Ciò potrebbe comportare l'impossibilità di vendere gli Strumenti Finanziari nel momento prescelto. Questo, a sua volta, potrebbe far sì che i potenziali investitori ottengano un prezzo di vendita inferiore a quanto avrebbero potuto percepire in presenza di un mercato liquido.

Rischio di oscillazioni del valore del Sottostante. Il Portatore degli Strumenti Finanziari è esposto ai rischi relativi al Sottostante in relazione agli Strumenti Finanziari, la cui performance è soggetta a oscillazioni. Pertanto, il Portatore degli Strumenti Finanziari non può prevedere il valore degli Strumenti Finanziari a una certa data futura. Allo stesso modo, i dati storici relativi al Sottostante non consentono di trarre conclusioni sulla futura performance del Sottostante e degli Strumenti Finanziari. Il Sottostante potrebbe avere uno storico operativo limitato o potrebbe esistere solo da un breve periodo di tempo e i suoi risultati nel lungo periodo potrebbero essere inferiori a quanto inizialmente previsto. Al momento del riscatto, dell'esercizio o comunque della cessione degli Strumenti Finanziari a una certa data, potrebbero verificarsi perdite sostanziali di valore rispetto alla cessione effettuata in un momento precedente o successivo. Più il Sottostante è volatile, meno prevedibile sarà l'importo che il Portatore degli Strumenti Finanziari potrà ricevere. In caso di andamento sfavorevole del prezzo del Sottostante, **l'importo ricevuto dal Portatore degli Strumenti Finanziari potrebbe essere molto basso o addirittura azzerarsi**.

Rischi specifici relativi all'estinzione di operazioni di copertura stipulate dall'Emittente. Se l'Emittente stipula operazioni di copertura in relazione agli Strumenti Finanziari, l'eventuale estinzione di tali operazioni di copertura potrebbe avere un impatto sul prezzo del Sottostante e, pertanto, su eventuali importi spettanti al Portatore in relazione agli Strumenti Finanziari. In tale ipotesi, il Portatore degli Strumenti Finanziari potrebbe anche **subire una perdita parziale del capitale investito**.

Rischi specifici relativi a potenziali conflitti di interesse dell'Emittente e delle sue società collegate. L'Emittente e le sue società collegate potrebbero avere interessi commerciali in conflitto con quelli del Portatore (incluso, a titolo esemplificativo, in conseguenza del coinvolgimento dell'Emittente in altre operazioni o della relazione d'affari in essere tra l'Emittente e l'emittente del Sottostante) che potrebbero avere un impatto sul valore e/o sulla negoziazione degli Strumenti Finanziari. A sua volta, ciò potrebbe far sì che il Portatore ottenga dalla vendita degli Strumenti Finanziari in suo possesso un importo inferiore a quanto avrebbe potuto percepire in assenza di tali conflitti di interesse e/o **che possa addirittura subire una perdita parziale del capitale investito**.

Rischi specifici relativi allo smobilizzo delle operazioni di copertura poste in essere dal Portatore. A causa della natura strutturata dei Titoli, i potenziali investitori comportano il rischio di non essere in grado di coprire appieno i rischi derivanti dai Titoli. Se uno dei rischi che i potenziali investitori non sono stati in grado di coprire completamente si materializza, i potenziali investitori potrebbero **subire una perdita di parte o di tutto il capitale investito**.

Conflitti di interesse più significativi

È possibile che l’Emittente e le società collegate partecipino a operazioni connesse agli Strumenti Finanziari nel proprio interesse o nell’interesse di un cliente. Tali operazioni possono non portare alcun vantaggio ai Portatori degli Strumenti Finanziari e possono avere effetti negativi o positivi sul valore del Sottostante e, di conseguenza, sul valore degli Strumenti Finanziari. Inoltre, l’Emittente potrebbe stipulare contratti di copertura dei rischi derivanti dagli Strumenti Finanziari con controparti costituite da società collegate. In tale situazione, potrebbero sorgere dei conflitti di interesse tra queste controparti e tra le controparti e gli investitori in relazione agli obblighi relativi alla determinazione del prezzo degli Strumenti Finanziari e agli altri calcoli associati.

È possibile che, nell’ambito dell’offerta e della vendita degli Strumenti Finanziari, l’Emittente o una delle sue società collegate versino, direttamente o indirettamente, commissioni di importo variabile a favore di terzi, tra cui distributori o consulenti per gli investimenti, oppure percepiscano da terzi, direttamente o indirettamente, commissioni di importo variabile, incluse quelle applicate alla distribuzione degli Strumenti Finanziari. Si rammenta ai potenziali investitori che l’Emittente può trattenere, in tutto o in parte, le commissioni.
