<b>B.4b</b>	A description of any known trends affecting the issuer or the industries in which it operates.	<p>Trend Information</p> <p>As indicated in the UBS Group First Quarter 2019 Report, the overall pace of growth has decreased as a result of a synchronized global slowdown. Economic growth and markets are expected to continue to recover and stabilize at different speeds across regions and asset classes. UBS is likely to benefit from this environment as a result of its regional and business diversification. Higher invested assets are expected to lead to an increase in recurring revenues in Global Wealth Management and Asset Management, compared with the first quarter of 2019. Further momentum would require a sustained improvement in market activity and client sentiment across our businesses. UBS will continue to execute its strategy with discipline, focusing on balancing efficiency and investments for growth, to deliver on its capital return objectives and to create sustainable long-term value for UBS shareholders.</p>

In 2016, UBS Americas Holding LLC was designated as the intermediate holding company for UBS's US subsidiaries and UBS merged its wealth management subsidiaries in various European countries into UBS Europe SE, UBS's German-headquartered European subsidiary. Additionally, UBS transferred the majority of Asset Management's operating subsidiaries to UBS Asset Management AG.</p> <p>UBS Business Solutions AG, a wholly owned subsidiary of UBS Group AG, was established in 2015 and acts as the Group service company. In 2017, UBS's shared services functions in Switzerland and the UK were transferred from UBS AG to UBS Business Solutions AG. UBS also completed the transfer of shared services functions in the US to its US service company, UBS Business Solutions US LLC, a wholly owned subsidiary of UBS Americas Holding LLC.</p> <p>In March 2019, UBS Limited, UBS's UK headquartered subsidiary, was merged into UBS Europe SE. <b>C.15</b>	Influence of the underlying on the value of the securities.  The value of the Securities during their term depends on the performance of the Underlying. In case the Price of the Underlying increases, also the value of the Securities (disregarding any special features of the Securities) is likely to increase.  In particular, the Redemption Amount, if any, to be received by the Securityholder upon exercise of the Securities depends on the performance of the Underlying. In detail:  The determination of how the Securities are settled, i.e. by way of payment of the Redemption Amount in the Redemption Currency and/or delivery of the Physical Underlying in the relevant number as well as how the Redemption Amount is calculated in accordance with the Conditions of these Securities, depends on whether or not a so-called Kick-In Event has occurred.  A Kick-In Event, as specified in the Product Terms, occurs if the Settlement Price of the Underlying, as specified in the Product Terms, is <b>lower than the respective Kick In Level</b> .  UBS Express (Multi) Certificates allow investors to participate in the positive development of the Underlying. Element	<b>Section D – Risks</b>	
		The purchase of Securities is associated with certain risks. <b>The Issuer expressly points out that the description of the risks associated with an investment in the Securities describes only the key risks which were known to the Issuer at the date of the Base Prospectus.</b>
<b>D.2</b>	Key information on the key risks that are specific and individual to the issuer.	The Securities entail an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that UBS AG becomes temporarily or permanently unable to meet its obligations under the Securities.  Each investor bears the general risk that the financial situation of the Issuer could deteriorate. The debt or derivative securities of the Issuer will constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, in particular in the case of insolvency of the Issuer, rank <i>pari passu</i> with each other and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The Securities are not bank deposits and an investment in the Securities carries risks which are

	<p>very different from the risk profile of a bank deposit placed with the Issuer or its affiliates. The Issuer's obligations relating to the Securities are not protected by any statutory or voluntary deposit guarantee system or compensation scheme. <b>In the event of insolvency of the Issuer, investors may thus experience a total loss of their investment in the Securities.</b></p> <p>UBS AG as Issuer and UBS are subject to various risks relating to their business activities. Summarised below are the risks that may impact UBS's ability to execute its strategy, and affect its business activities, financial condition, results of operations and prospects, which the Group considers material and is presently aware of:</p> <ul style="list-style-type: none"> <li>• The general assessment of UBS's creditworthiness may affect the value of the Securities</li> <li>• Fluctuation in foreign exchange rates and continuing low or negative interest rates may have a detrimental effect on UBS's capital strength, UBS's liquidity and funding position, and UBS's profitability</li> <li>• Regulatory and legal changes may adversely affect UBS's business and ability to execute its strategic plans</li> <li>• If UBS is unable to maintain its capital strength, this may adversely affect its ability to execute its strategy, client franchise and competitive position</li> <li>• UBS may not be successful in completing its announced strategic plans</li> <li>• Material legal and regulatory risks arise in the conduct of UBS's business</li> <li>• Operational risks affect UBS's business</li> <li>• UBS's reputation is critical to the success of its business</li> <li>• Performance in the financial services industry is affected by market conditions and the macroeconomic climate</li> <li>• UBS may not be successful in implementing changes in its wealth management businesses to meet changing market, regulatory and other conditions</li> <li>• UBS might be unable to identify or capture revenue or competitive opportunities, or retain and attract qualified employees</li> <li>• UBS holds legacy and other risk positions that may be adversely affected by conditions in the financial markets; legacy risk positions may be difficult to liquidate</li> <li>• UBS is dependent on its risk management and control processes to avoid or limit potential losses in its businesses</li> <li>• Valuations of certain positions rely on models; models have inherent limitations and may use inputs which have no observable source</li> <li>• Liquidity and funding management are critical to UBS's ongoing performance</li> </ul>
--	--

		<ul style="list-style-type: none"> <li>• UBS's financial results may be negatively affected by changes to accounting standards</li> <li>• UBS's financial results may be negatively affected by changes to assumptions supporting the value of UBS's goodwill</li> <li>• The effect of taxes on UBS's financial results is significantly influenced by reassessments of its deferred tax assets</li> <li>• UBS's stated capital returns objective is based, in part, on capital ratios that are subject to regulatory change and may fluctuate significantly</li> <li>• UBS AG's operating results, financial condition and ability to pay obligations in the future may be affected by funding, dividends and other distributions received from UBS Switzerland AG or any other direct subsidiary, which may be subject to restrictions</li> <li>• If UBS experiences financial difficulties, FINMA has the power to open resolution or liquidation proceedings or impose protective measures in relation to UBS Group AG, UBS AG or UBS Switzerland AG, and such proceedings or measures may have a material adverse effect on shareholders and creditors</li> </ul>
<b>D.6</b>	Key information on the risks that are specific and individual to the securities.	<p>Potential investors of the Securities should recognise that the Securities <b>constitute a risk investment</b> which can lead to a <b>total loss</b> of their investment in the Securities. Securityholders will incur a loss, if the amounts received in accordance with the Conditions of the Securities are below the purchase price of the Securities (including the transaction costs). Any investor bears the risk of the Issuer's financial situation worsening and the potential subsequent inability of the Issuer to pay its obligations under the Securities. Potential investors must therefore be prepared and able to sustain a partial or even a <b>total loss</b> of the invested capital. Any investors interested in purchasing the Securities should assess their financial situation, to ensure that they are in a position to bear the <b>risks of loss</b> connected with the Securities.</p> <p><b><u>Special risks related to specific features of the Security structure</u></b></p> <p>Potential investors should be aware that the amount of the Redemption Amount payable in accordance with the Conditions of the Securities depends on the performance of the Underlying. In case of an unfavourable development of the Price of the Underlying, any amount received under the Securities may be lower than expected by the investors <b>and may even be equal to zero. In such case the Securityholders will incur a total loss of their investment (including any transaction costs)</b>.</p> <p>Potential investors should consider that the Securities may in case of the occurrence of an Early Redemption Event and in accordance with the Conditions of the Securities expire prior to the Maturity Date without any notice or declaration by the Issuer or the Securityholder being required, so-called express structure. In case the Securities expire prior to the Maturity Date, the Securityholder is entitled to demand the payment of a cash amount in relation to the early expiration. However, the Securityholder is not entitled to request any further payments on the Securities after such early expiration.</p> <p>The Securityholder, therefore, bears the risk of not participating in the performance of the Underlying to the expected extent and during the expected period.</p>

	<p>In the case of an early expiration of the Securities, the Securityholder also bears the so-called <b>risk of reinvestment</b>. The Securityholder may only be able to re-invest any amount paid by the Issuer in the case of an early expiration, if any, at market conditions, which are less favourable than those existing prevailing at the time of the acquisition of the Securities.</p> <p>Potential investors should consider that the Redemption Amount, if any, under the Securities depends on whether the price of the Underlying equals, and/or falls below respectively exceeds a certain threshold, barrier or level as specified in the relevant Final Terms at a given time or, as the case may be, within a given period as determined by the Conditions of the Securities.</p> <p>Only provided that the relevant threshold, barrier or, as the case may be, level has not been reached and/or fallen below respectively exceeded at the time or period as determined by the Conditions of the Securities, the holder of a Security receives an amount, pre-determined in the Conditions of the Securities as Redemption Amount. Otherwise the Securityholder participates in the performance of the Underlying and, therefore, bears the risks of a total loss of the invested capital.</p> <p>Potential investors should consider that the calculation of the level of the Redemption Amount, if any, solely refers to the performance of the Relevant Underlying and, thereby, to the Underlying, showing a certain pre-determined performance, e.g. the worst performance during an observation period.</p> <p>Potential investors should, consequently, be aware that compared to Securities, which refer to only one underlying, the Securities show a higher exposure to loss. This risk may not be reduced by a positive or, as the case may be, negative performance of the remaining Underlyings, because the remaining Underlyings are not taken into account when calculating the level of the Redemption Amount.</p> <p>Potential investors should consider that Securityholders do not have a termination right and the Securities may, hence, not be terminated by the Securityholders during their term. Prior to the maturity of the Securities the realisation of the economic value of the Securities (or parts thereof), is, unless the Securities have been subject to early redemption or termination by the Issuer in accordance with the Conditions of the Securities or, if so specified in the relevant Final Terms, an exercise of the Security Right by the Securityholders in accordance with the Conditions of the Securities, only possible by way of selling the Securities.</p> <p>Selling the Securities requires that market participants are willing to acquire the Securities at a certain price. In case that no market participants are readily available, the value of the Securities may not be realised. The issuance of the Securities does not result in an obligation of the Issuer towards the Securityholders to compensate for this or to repurchase the Securities.</p> <p><b><u>General risks related to the Securities</u></b></p> <p><b><i>Effect of downgrading of the Issuer's rating</i></b></p> <p>The general assessment of the Issuer's creditworthiness may affect the value of the Securities. As a result, any downgrading of the Issuer's rating by a rating agency may have a negative impact on the value of the Securities.</p> <p><b><i>Ratings are not Recommendations</i></b></p> <p>The ratings of UBS AG as Issuer should be evaluated independently from</p>
--	---

	<p>similar ratings of other entities, and from the rating, if any, of the debt or derivative securities issued. A credit rating is not a recommendation to buy, sell or hold securities issued or guaranteed by the rated entity and may be subject to review, revision, suspension, reduction or withdrawal at any time by the assigning rating agency.</p> <p>A rating of the Securities, if any, is not a recommendation to buy, sell or hold the Securities and may be subject to revision or withdrawal at any time by the relevant rating agency. Each rating should be evaluated independently of any other securities rating, both in respect of the rating agency and the type of security. Furthermore, rating agencies which have not been hired by the Issuer or otherwise to rate the Securities could seek to rate the Securities and if such "unsolicited ratings" are lower than the equivalent rating assigned to the Securities by the relevant hired rating agency, such ratings could have an adverse effect on the value of the Securities.</p> <p><b><i>Securityholders are exposed to the risk of a bail-in</i></b></p> <p>The Issuer and the Securities are subject to the Swiss Banking Act and FINMA's bank insolvency ordinance, which empowers FINMA as the competent resolution authority to in particular apply under certain circumstances certain resolution tools to credit institutions. These measures include in particular the write-down or conversion of securities into common equity of such credit institution (the so called bail-in). A write-down or conversion would have the effect that the Issuer would insofar be released from its obligations under the Securities. Securityholders would have no further claim against the Issuer under the Securities. The resolution tools may, hence, have a significant negative impact on the Securityholders' rights by suspending, modifying and wholly or partially extinguishing claims under the Securities. In the worst case, this can lead to a <b>total loss of the Securityholders' investment in the Securities</b>.</p> <p>Such legal provisions and/or regulatory measures may severely affect the rights of the Securityholders and may have a negative impact on the value of the Securities even prior to any non-viability or resolution in relation to the Issuer.</p> <p><b><i>The Conditions of the Securities do not contain any restrictions on the Issuer's or UBS's ability to restructure its business</i></b></p> <p>The Conditions of the Securities contain no restrictions on change of control events or structural changes, such as consolidations or mergers or demergers of the Issuer or the sale, assignment, spin-off, contribution, distribution, transfer or other disposal of all or any portion of the Issuer's or its subsidiaries' properties or assets in connection with the announced changes to its legal structure or otherwise and no event of default, requirement to repurchase the Securities or other event will be triggered under the Conditions of the Securities as a result of such changes. There can be no assurance that such changes, should they occur, would not adversely affect the credit rating of the Issuer and/or increase the likelihood of the occurrence of an event of default. Such changes, should they occur, may adversely affect the Issuer's ability to pay interest on the Securities and/or lead to circumstances in which the Issuer may elect to cancel such interest (if applicable).</p> <p><b><i>Termination and Early Redemption at the option of the Issuer</i></b></p> <p>Potential investors in the Securities should furthermore be aware that the Issuer is, pursuant to the Conditions of the Securities, under certain circumstances, entitled to terminate and redeem the Securities in total prior to the scheduled Maturity Date. In this case the Securityholder is in accordance with the Conditions of the Securities entitled to demand the payment of a redemption amount in relation to this early redemption. However, the Securityholder is not entitled to request any further payments</p>
--	--

	<p>on the Securities after the relevant termination date. Furthermore, the Termination Amount, if any, payable in the case of an early redemption of the Securities by the Issuer can be considerably below the amount, which would be payable at the scheduled end of the term of the Securities.</p> <p>The Securityholder, therefore, bears the risk of not participating in the performance of the Underlying to the expected extent and during the expected period.</p> <p>In the case of a termination of the Securities by the Issuer, the Securityholder bears the risk of a reinvestment, <i>i.e.</i> the investor bears the risk that it will have to re-invest the Termination Amount, if any, paid by the Issuer in the case of termination at market conditions, which are less favourable than those prevailing at the time of the acquisition of the Securities.</p> <p><b><i>Adverse impact of adjustments of the Security Right</i></b></p> <p>It cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying, which potentially lead to changes to the Underlying or result in the underlying concept of the Underlying being changed, so-called Potential Adjustment Events and Replacement Events. In the case of the occurrence of a Potential Adjustment Event, the Issuer shall be entitled to adjust the Conditions of the Securities to account for these events or measures and shall, in the case of the occurrence of a Replacement Event, even be entitled to replace the Underlying. These adjustments might have a negative impact on the value of the Securities.</p> <p><b><i>Substitution of the Issuer</i></b></p> <p>Provided that the Issuer is not in default with its obligations under the Securities, the Issuer is in accordance with the Conditions of the Securities, at any time entitled, without the consent of the Securityholders, to substitute another company within the UBS Group as issuer (the "<b>Substitute Issuer</b>") with respect to all obligations under or in connection with the Securities.</p> <p>This may impact any listing of the Securities and, in particular, it may be necessary for the Substitute Issuer to reapply for listing on the relevant market or stock exchange on which the Securities are listed. In addition, following such a substitution, Securityholders will become subject to the credit risk of the Substitute Issuer.</p> <p><b><i>Trading in the Securities / Illiquidity</i></b></p> <p>It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid.</p> <p>Applications will be or have been made to the Security Exchange(s) specified for admission or listing of the Securities. If the Securities are admitted or listed, no assurance is given that any such admission or listing will be maintained. The fact that the Securities are admitted to trading or listed does not necessarily denote greater liquidity than if this were not the case. If the Securities are not listed or traded on any exchange, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities, if any, may be adversely affected. The liquidity of the Securities, if any, may also be affected by restrictions on the purchase and sale of the Securities in some jurisdictions. Additionally, the Issuer has the right (but no obligation) to purchase Securities at any time and at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation.</p> <p>In addition, it cannot be excluded that the number of Securities actually</p>
--	--

	<p>issued and purchased by investors is less than the intended Issue Size of the Securities. Consequently, there is the risk that due to the low volume of Securities actually issued the liquidity of the Securities is lower than if all Securities were issued and purchased by investors.</p> <p>The Manager(s) intend, under normal market conditions, to provide bid and offer prices for the Securities of an issue on a regular basis. However, the Manager(s) make no firm commitment to the Issuer to provide liquidity by means of bid and offer prices for the Securities, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. <b>Potential investors therefore should not rely on the ability to sell Securities at a specific time or at a specific price.</b></p> <p><b>Taxation in relation to the Securities</b></p> <p>Potential investors should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Securities are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Securities. Potential investors are advised not to rely upon the tax summary contained in the Base Prospectus but to ask for their own tax advisor's advice on their individual taxation with respect to the acquisition, sale and redemption of the Securities. Only these advisors are in a position to duly consider the specific situation of the potential investor.</p> <p><b>Payments under the Securities may be subject to U.S. withholdings</b></p> <p>Securityholders should, consequently, be aware that payments under the Securities may under certain circumstances be subject to U.S. withholding tax. If an amount in respect of such U.S. withholding tax were to be deducted or withheld from payments on the Securities, none of the Issuer, any paying agent or any other person would, pursuant to the Conditions of the Securities, be required to pay additional amounts as a result of the deduction or withholding of such tax.</p> <p><b>Changes in Taxation in relation to the Securities</b></p> <p>The considerations concerning the taxation of the Securities set forth in the Base Prospectus reflect the opinion of the Issuer on the basis of the legal situation identifiable as of the date hereof. However, a different tax treatment by the fiscal authorities and tax courts cannot be excluded. Each investor should seek the advice of his or her personal tax consultant before deciding whether to purchase the Securities.</p> <p>Neither the Issuer nor the Manager assumes any responsibility vis-à-vis the Securityholders for the tax consequences of an investment in the Securities.</p> <p><b>Conflicts of interest</b></p> <p>The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Underlying, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations. In addition, the Issuer and its affiliates may act in other capacities with regard to the Securities, such as calculation agent, paying agent and administrative agent and/or index sponsor.</p>
--	---

	<p>Furthermore, the Issuer and its affiliates may issue other derivative instruments relating to the Underlying or, as the case may be, the Basket Components; introduction of such competing products may affect the value of the Securities. The Issuer and its affiliated companies may receive non-public information relating to the Underlying, and neither the Issuer nor any of its affiliates undertakes to make this information available to Securityholders. In addition, one or more of the Issuer's affiliated companies may publish research reports on the Underlying. Such activities could present conflicts of interest and may negatively affect the value of the Securities.</p> <p>Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full. The Issuer or, as the case may be, the Manager, upon request, will provide information on the amount of these fees.</p>
	<p><b>Risk factors relating to the Underlying</b></p> <p>The Securities depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Securities and the Issuer does not give any explicit or tacit warranty or representation regarding the future performance of the Underlying.</p> <p>Investors should be aware that the Underlying will not be held by the Issuer for the benefit of the Securityholders, and that Securityholders will not obtain any rights of ownership (including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights) with respect to the Underlying.</p>

<b>B.4b</b>	Descrizione delle tendenze note riguardanti l'emittente e i settori in cui opera	<b>Informazioni sulle tendenze</b>  Come indicato nella relazione del Gruppo UBS per il primo trimestre 2019, la crescita generale ha perso slancio per effetto di un rallentamento globale sincronizzato. La crescita dell'economia e i mercati dovrebbero continuare a recuperare e stabilizzarsi, a diverse velocità, in tutte le regioni e per tutte le categorie di attivi. UBS dovrebbe essere favorita da questo contesto, grazie alla sua diversificazione settoriale e geografica. L'aumento degli attivi investiti potrebbe portare a un incremento dei ricavi ricorrenti dei settori Global Wealth Management e Asset Management rispetto al primo trimestre del 2019. Un importante miglioramento dell'attività di mercato e del sentimento dei clienti in tutti i nostri settori genererebbe ulteriore slancio. UBS continuerà a portare avanti la sua strategia con rigore, concentrandosi sul bilanciamento tra efficienza e investimenti finalizzati alla crescita, in modo da conseguire i suoi obiettivi di rendimento del capitale, creando valore sostenibile nel lungo termine a vantaggio degli azionisti di UBS.

Elemento	Sezione D – Rischi
	<p>L'investimento negli Strumenti Finanziari comporta l'assunzione di determinati rischi. <b>Si fa presente che la descrizione dei rischi associati all'investimento negli Strumenti Finanziari è limitata esclusivamente ai rischi noti all'Emittente alla data del Prospetto di Base.</b></p>
<b>D.2</b>	<p>Informazioni fondamentali sui principali rischi specifici dell'emittente</p> <p>L'investimento in Strumenti Finanziari comporta un rischio emittente o rischio di credito, ovvero il rischio che UBS AG non sia in grado di far fronte, in via provvisoria o definitiva, agli obblighi contratti con l'emissione degli Strumenti Finanziari.</p> <p><b>Rischio generale di insolvenza</b></p> <p>L'investitore negli Strumenti Finanziari si assume il rischio generale di un possibile deterioramento della situazione finanziaria dell'Emittente. Gli obblighi nascenti dagli strumenti di debito o derivati a carico dell'Emittente costituiscono passività dirette e non garantite e non sono subordinati ad altre passività dello stesso. Ne consegue che, in caso d'insolvenza dell'Emittente, il credito dei Portatori verso l'Emittente verrà soddisfatto, dopo i crediti privilegiati per legge, in concorso con gli altri crediti di pari grado chirografari e non subordinati dell'Emittente stesso, presenti e futuri, con l'eccezione di quelli che hanno una priorità a causa delle disposizioni statutarie obbligatorie. Gli Strumenti Finanziari non sono depositi bancari e un investimento negli Strumenti Finanziari comporta dei rischi che sono molto diversi dal profilo di rischio di un deposito bancario collocato presso l'Emittente o i suoi affiliati. Le obbligazioni che sorgono in capo all'Emittente in relazione agli Strumenti Finanziari non sono assistite da alcun sistema di garanzia o tutela dei depositi, obbligatorio o volontario, né da un sistema di indennizzo. <b>In caso di insolvenza dell'Emittente, gli investitori sono pertanto esposti al rischio di perdita totale del loro investimento negli Strumenti Finanziari.</b></p> <p>UBS AG, in qualità di Emittente e UBS sono esposte a molteplici rischi riconducibili allo svolgimento delle rispettive attività. Al momento il Gruppo è conoscenza della serie di rischi di seguito sintetizzati che considera rilevanti e verosimilmente in grado di determinare un impatto sulla capacità di UBS di attuare la propria strategia e sulle attività aziendali, condizioni finanziarie, risultati operativi e prospettive della banca:</p> <ul style="list-style-type: none"> <li>• Oscillazioni dei tassi di cambio e tassi d'interessi costantemente bassi o negativi possono avere un effetto negativo sulla solidità patrimoniale, liquidità, posizione di finanziamento e redditività di UBS</li> <li>• Rischio di modifiche al quadro normativo e giuridico avverse allo svolgimento dell'attività di UBS o che potrebbero influire negativamente sulla sua capacità di attuare i piani strategici</li> <li>• Eventuale incapacità di UBS di mantenere la propria solidità patrimoniale che potrebbe avere effetti negativi sulla sua capacità di attuazione della strategia aziendale, di mantenimento della base di clientela e della posizione competitiva</li> <li>• Rischio che UBS non riesca a completare i piani strategici annunciati</li> </ul>

D.3	Informazioni fondamentali sui principali rischi specifici degli strumenti finanziari	<p>I potenziali investitori sono informati del fatto che gli Strumenti Finanziari <b>costituiscono un investimento rischioso</b> che può comportare anche la <b>perdita totale</b> del capitale investito negli Strumenti Finanziari. I Portatori possono subire una perdita se gli importi incassati in accordo con le Condizioni degli Strumenti Finanziari sono inferiori al prezzo di acquisto degli Strumenti Finanziari (comprensivi dei costi di negoziazione). L'investitore è esposto al rischio di un deterioramento della situazione finanziaria dell'Emittente e, di conseguenza, al rischio che il medesimo non sia in grado di far fronte alle obbligazioni derivanti dagli Strumenti Finanziari. I potenziali investitori devono pertanto essere preparati ed in grado di sopportare l'eventuale <b>perdita</b> parziale o persino <b>totale</b> del capitale investito. Chiunque sia interessato a investire negli Strumenti Finanziari deve valutare la propria situazione finanziaria al fine di accettare la propria capacità di sopportare i <b>rischi di perdita</b> connessi agli Strumenti Finanziari.</p> <p><b>Rischi specifici relativi ad alcune caratteristiche degli Strumenti Finanziari</b></p> <p>I potenziali investitori sono informati del fatto che l'ammontare dell'Importo di Rimborso dovuto in base alle Condizioni degli Strumenti Finanziari dipende dall'andamento del Sottostante. In caso di andamento sfavorevole del prezzo del Sottostante, gli importi ricevuti in relazione agli Strumenti Finanziari possono essere inferiori a quelli attesi dagli investitori e possono <b>persino essere pari a zero. In tale ipotesi i Portatori subirebbero la perdita totale dell'investimento (comprese le eventuali commissioni di negoziazione)</b>.</p> <p>La struttura "Express" prevede che, al verificarsi di un Evento di Rimborso Anticipato e in base alle Condizioni degli Strumenti Finanziari, gli Strumenti Finanziari possano scadere prima della Data di Scadenza, senza necessità di preavviso o dichiarazione da parte dell'Emittente o del Portatore. Nel caso in cui gli Strumenti Finanziari scadano prima della Data di Scadenza, il Portatore può chiedere il rimborso in contanti di quanto spettante fino alla scadenza anticipata. Successivamente a tale scadenza anticipata, il Portatore non potrà, tuttavia, richiedere il pagamento di ulteriori importi in relazione agli Strumenti Finanziari.</p> <p>Il Portatore è pertanto esposto al rischio di non partecipare, nella misura e per il periodo attesi, alla performance del Sottostante.</p> <p>In caso di scadenza anticipata degli Strumenti Finanziari, il Portatore è inoltre esposto anche al cosiddetto <b>rischio di reinvestimento</b>. Il Portatore può trovarsi nella situazione di dover reinvestire gli eventuali importi versati dall'Emittente in caso di scadenza anticipata a condizioni di mercato meno favorevoli rispetto a quelle prevalenti al momento dell'acquisto degli Strumenti Finanziari.</p> <p>I potenziali investitori sono informati del fatto che l'eventuale Importo di Rimborso è connesso al raggiungimento di determinate soglie, barriere o livelli da parte del prezzo del Sottostante in un determinato momento o, secondo i casi, entro un determinato periodo, secondo quanto specificato nelle Condizioni degli Strumenti Finanziari.</p> <p>Solo se la condizione posta per la soglia, la barriera o, secondo i casi, il livello non risulta soddisfatta al momento o nel periodo indicato nelle Condizioni degli Strumenti Finanziari, il Portatore degli Strumenti Finanziari ha diritto a ricevere l'Importo di Rimborso, come prestabilito</p>

	<p>nelle Condizioni degli Strumenti Finanziari. In caso contrario, il Portatore partecipa alla performance del Sottostante e, pertanto, è esposto al rischio di una perdita totale del capitale investito.</p> <p>Il calcolo dell'eventuale Importo di Rimborso si riferisce esclusivamente alla performance del Relativo Sottostante, ovvero a una predeterminata performance del Sottostante, ad es. la peggiore performance rilevata in un periodo di osservazione.</p> <p>Occorre pertanto tenere presente che, rispetto agli Strumenti Finanziari che fanno riferimento unicamente a un sottostante, gli Strumenti Finanziari comportano un più elevato rischio di perdita. Tale rischio non viene limitato dall'andamento positivo o, secondo i casi, negativo della performance degli altri Sottostanti, in quanto questi ultimi non vengono presi in considerazione per il calcolo dell'Importo di Rimborso. I Portatori non hanno diritto a richiedere il rimborso anticipato degli Strumenti Finanziari, che pertanto non possono estinguersi su iniziativa del Portatore nel corso della loro durata. Fatti salvi i casi di rimborso anticipato o estinzione anticipata degli Strumenti Finanziari da parte dell'Emittente conformemente alle Condizioni degli Strumenti Finanziari o, se previsto nelle Condizioni Definitive applicabili, il caso di esercizio di Diritti connessi agli Strumenti Finanziari da parte dei rispettivi Portatori conformemente alle Condizioni degli Strumenti Finanziari, la realizzazione (anche parziale) del valore economico degli Strumenti Finanziari prima della loro scadenza è possibile soltanto mediante la vendita degli Strumenti Finanziari.</p> <p>La vendita presuppone che i partecipanti al mercato siano disposti ad acquistare gli Strumenti Finanziari a un determinato prezzo. Qualora non vi siano controparti disposte all'acquisto, il Portatore potrebbe non realizzare il valore degli Strumenti Finanziari. L'emissione degli Strumenti Finanziari non comporta per l'Emittente alcun obbligo di indennizzo a favore del Portatore o di riacquisto degli Strumenti Finanziari.</p> <p><b>Rischi generali relativi agli Strumenti Finanziari</b></p> <p><b>Effetto del declassamento del rating dell'Emittente</b></p> <p>La valutazione generale del merito creditizio dell'Emittente può avere un effetto sul valore degli Strumenti Finanziari. Pertanto, l'eventuale declassamento del rating dell'Emittente da parte di un'agenzia di rating potrebbe avere un effetto negativo sul valore degli Strumenti Finanziari.</p> <p><b>I rating non sono da intendersi come Raccomandazioni</b></p> <p>I rating di UBS AG quale Emittente devono essere valutati in maniera indipendente dai rating simili di altre entità, e dal rating, ove presente, dei titoli di debito o degli strumenti derivati emessi. Il rating creditizio non costituisce una raccomandazione ad acquistare, vendere o detenere strumenti finanziari emessi o garantiti dall'entità oggetto del rating e può essere oggetto di riesame, revisione, sospensione o ritiro dall'agenzia di rating che lo ha emesso in qualsiasi momento.</p> <p>Il rating degli Strumenti Finanziari non costituisce una raccomandazione ad acquistare, vendere o detenere gli Strumenti Finanziari e può essere oggetto di riesame o ritiro dall'agenzia di rating che lo ha emesso in qualsiasi momento. Ciascun rating deve essere valutato in maniera indipendente dai rating di altri strumenti finanziari, in relazione sia all'agenzia di rating sia al tipo di strumento finanziario. Inoltre, le agenzie di rating che non sono state incaricate dall'Emittente o altro di valutare gli Strumenti Finanziari potrebbero cercare di valutare gli Strumenti Finanziari e qualora tali "rating non richiesti "</p>

	<p>fossero inferiori al rating equivalente assegnato agli Strumenti Finanziari dall'agenzia di rating incaricata, potrebbero avere un effetto negativo sul valore degli Strumenti Finanziari.</p> <p><b><i>I Portatori degli Strumenti Finanziari sono esposti al rischio di bail-in</i></b></p> <p>L'Emittente e gli Strumenti Finanziari sono assoggettati alla Legge Bancaria svizzera e all'ordinanza sull'insolvenza bancaria che designa la FINMA quale organo competente per la risoluzione delle crisi, al fine di imporre agli istituti di credito, in talune circostanze, determinate misure di risoluzione. Tali misure includono in particolare la trasformazione o conversione dei titoli di debito in azioni ordinarie dell'istituto di credito (il cosiddetto bail-in), liberando di conseguenza l'Emittente dalle obbligazioni previste dai titoli. In tale evenienza, i Portatori degli Strumenti Finanziari non avrebbero più la facoltà di far valere nei confronti dell'Emittente i diritti in capo ai titoli detenuti. Le misure di risoluzione possono pertanto avere un significativo impatto negativo sui diritti dei Portatori degli Strumenti Finanziari, sospendendoli, modificandoli o estinguendoli, parzialmente o totalmente. Nel peggiore dei casi, ciò può condurre alla <b>perdita totale dell'investimento effettuato dai Portatori degli Strumenti Finanziari</b>.</p> <p>Le suddette disposizioni legislative o misure regolamentari possono modificare sostanzialmente i diritti dei Portatori degli Strumenti Finanziari, influendo negativamente sul valore dei medesimi anche prima dell'eventuale insolvenza dell'Emittente o applicazione di misure di risoluzione.</p> <p><b><i>Le Condizioni degli Strumenti Finanziari non contengono limitazioni alla capacità dell'Emittente o di UBS di ristrutturare l'attività</i></b></p> <p>Le Condizioni degli Strumenti Finanziari non contengono limitazioni al cambiamento degli eventi di controllo o ai cambiamenti strutturali, quali il consolidamento, la fusione o lo scorporo dell'Emittente o la vendita, la cessione, lo spin-off, l'assegnazione, la distribuzione, il trasferimento o altra cessione dell'Emittente, in tutto o in parte, o delle proprietà o delle attività delle sue controllate in seguito ai cambiamenti annunciati relativi alla struttura giuridica o di altra natura. Tali cambiamenti, in conformità alle Condizioni degli Strumenti Finanziari, non daranno luogo a eventi di mancato pagamento, all'obbligo di riacquistare gli Strumenti Finanziari o ad altri eventi. Non è possibile garantire che tali cambiamenti, qualora si verificassero, non avranno un effetto negativo sul rating creditizio dell'Emittente e/o che non faranno aumentare la possibilità di accadimento di un evento di mancato pagamento. Detti cambiamenti, qualora si verificassero, potrebbero avere un effetto negativo sulla capacità dell'Emittente di versare gli interessi sugli Strumenti Finanziari e/o generare circostanze tali per cui l'Emittente potrebbe decidere di eliminare tali interessi (ove applicabile).</p> <p><b><i>Estinzione e Rimborso Anticipato a discrezione dell'Emittente</i></b></p> <p>I potenziali investitori devono altresì tenere presente che, conformemente a quanto previsto nelle Condizioni degli Strumenti Finanziari, l'Emittente può, in determinate circostanze, optare per l'estinzione o il rimborso della totalità degli Strumenti Finanziari prima della Data di Scadenza. In tal caso, conformemente alle Condizioni degli Strumenti Finanziari, il Portatore può pretendere il pagamento dell'importo di rimborso in relazione a tale anticipo della scadenza. Tuttavia, il Portatore non potrà pretendere il pagamento di ulteriori importi relativi agli Strumenti Finanziari successivamente alla data di estinzione dei medesimi. Peraltro, l'eventuale importo dovuto</p>
--	---

	<p>dall'Emittente in caso di rimborso anticipato degli Strumenti Finanziari (Importo di Rimborso Anticipato) potrebbe essere significativamente inferiore all'Importo di Rimborso dovuto dall'Emittente alla scadenza naturale degli Strumenti Finanziari.</p> <p>Il Portatore è pertanto esposto al rischio di non partecipare, nella misura e per il periodo attesi, alla performance del Sottostante.</p> <p>In caso di estinzione anticipata degli Strumenti Finanziari da parte dell'Emittente, il Portatore è esposto al rischio di reinvestimento, ossia al rischio di dover reinvestire l'eventuale Importo di Rimborso Anticipato versato dall'Emittente a condizioni di mercato meno favorevoli rispetto a quelle prevalenti al momento dell'acquisto degli Strumenti Finanziari.</p> <p><b><i>Effetti negativi di modifiche dei Diritti connessi agli Strumenti Finanziari</i></b></p> <p>Vi è la possibilità che si verifichino alcuni eventi o siano adottate alcune misure (da parte di soggetti diversi dall'Emittente) in relazione al Sottostante in grado di determinare modifiche del Sottostante o della struttura del Sottostante. Tali situazioni sono dette Eventi Potenziali di Rettifica ed Eventi di Sostituzione. Al verificarsi di un Evento Potenziale di Rettifica, l'Emittente avrà diritto a rettificare le Condizioni degli Strumenti Finanziari per tenere conto di tali eventi o misure e, nel caso in cui si verifichi un Evento di Sostituzione, avrà anche diritto a sostituire il Sottostante. Le rettifiche eventualmente adottate potrebbero avere un impatto negativo sul valore degli Strumenti Finanziari.</p> <p><b><i>Sostituzione dell'Emittente</i></b></p> <p>A condizione che l'Emittente non sia inadempiente in ordine alle sue obbligazioni ai sensi degli Strumenti Finanziari, ha in qualsiasi momento il diritto - in conformità alle Condizioni degli Strumenti Finanziari e senza il consenso dei Portatori - di nominare un'altra società appartenente al Gruppo UBS quale emittente sostitutivo ("Emittente Sostitutivo") in riferimento a tutte le obbligazioni ai sensi degli Strumenti Finanziari o a essi correlate.</p> <p>Ciò può avere effetti sull'eventuale quotazione degli Strumenti Finanziari; in particolare, l'Emittente Sostitutivo potrebbe trovarsi nella necessità di presentare nuovamente domanda di quotazione sul mercato o sulla borsa valori in cui gli Strumenti Finanziari sono quotati. A seguito di tale sostituzione, i Portatori saranno inoltre soggetti al rischio di credito dell'Emittente Sostitutivo.</p> <p><b><i>Negoziazione degli Strumenti Finanziari / Rischio di liquidità</i></b></p> <p>Non è possibile prevedere se e in che misura possa svilupparsi un mercato secondario degli Strumenti Finanziari e a quale prezzo essi saranno negoziati su tale mercato, né se tale mercato sarà liquido o illiquido.</p> <p>Sarà presentata o è stata presentata domanda di ammissione o quotazione degli Strumenti Finanziari presso la Borsa o le Borse Valori specificate. In caso di esito positivo della domanda, non vi è garanzia che tale ammissione o quotazione si protragga nel tempo. L'eventuale ammissione o quotazione degli Strumenti Finanziari su mercati regolamentati non denota necessariamente una maggiore liquidità degli stessi. Qualora gli Strumenti Finanziari non siano quotati o negoziati su alcuna borsa valori, le relative informazioni di prezzo potrebbero essere più difficili da reperire, con possibili conseguenze negative sulla liquidità degli Strumenti Finanziari. La liquidità può essere influenzata anche dalle eventuali restrizioni imposte in alcune giurisdizioni sulla negoziazione degli Strumenti Finanziari. Inoltre,</p>
--	--

	<p>L'Emittente ha la facoltà (ma non l'obbligo) di riacquistare gli Strumenti Finanziari in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica o accordo privato. L'Emittente può decidere di tenere, rivendere o annullare gli Strumenti Finanziari riacquistati.</p> <p>Non si può peraltro escludere che il numero degli Strumenti Finanziari effettivamente emessi e poi collocati presso gli investitori sia inferiore al Volume di Emissione degli Strumenti Finanziari previsto. Vi è pertanto il rischio che, a causa del basso volume di Strumenti Finanziari effettivamente emessi, la liquidità degli stessi sia ridotta rispetto al caso di emissione e collocamento di tutti gli Strumenti Finanziari.</p> <p>In condizioni di mercato normali, il Gestore o i Gestori intendono presentare proposte d'acquisto e di vendita degli Strumenti Finanziari con regolare frequenza. Tuttavia, il Gestore o i Gestori non si assumono nei confronti dell'Emittente il fermo impegno di garantire la liquidità degli Strumenti Finanziari mediante la pubblicazione di prezzi denaro e lettera e non si assume l'obbligo legale di quotazione, né altro impegno in merito al livello o alla determinazione degli stessi. <b>I potenziali investitori, pertanto, non devono fare affidamento sulla possibilità di vendere gli Strumenti Finanziari in un momento specifico o a un determinato prezzo.</b></p> <p><b>Regime fiscale degli Strumenti Finanziari</b></p> <p>L'investitore negli Strumenti Finanziari può essere assoggettato al pagamento di imposte o altre tasse o tributi previsti dalle leggi e dalle prassi del Paese in cui gli Strumenti Finanziari vengono trasferiti ovvero di altre giurisdizioni. In alcune giurisdizioni non sono disponibili dichiarazioni ufficiali delle autorità fiscali o sentenze di organi giudiziari in relazione a strumenti finanziari innovativi quali gli Strumenti Finanziari. Si consiglia ai potenziali investitori di non basarsi su quanto contenuto nella sezione relativa al regime fiscale del Prospetto di Base, ma di rivolgersi ai propri consulenti fiscali per un parere sulla propria posizione fiscale individuale con riferimento all'acquisto, alla vendita e al rimborso degli Strumenti Finanziari. Solo tali consulenti sono in grado di valutare adeguatamente la specifica situazione del singolo investitore.</p> <p><b>I pagamenti relativi agli Strumenti Finanziari potrebbero essere soggetti a ritenuta negli Stati Uniti</b></p> <p>Pertanto, i portatori degli Strumenti Finanziari devono essere consapevoli che, in alcuni casi, i pagamenti relativi agli Strumenti Finanziari potrebbero essere soggetti a ritenuta negli Stati Uniti. In caso di detrazione o trattenuta di un importo relativo alla ritenuta statunitense sui pagamenti relativi agli Strumenti Finanziari, nessuno tra l'Emittente, l'agente per i pagamenti o qualsivoglia altro soggetto, ai sensi delle Condizioni degli Strumenti Finanziari, sarebbero tenuti a versare ulteriori importi a seguito della detrazione o trattenuta di detta imposta.</p> <p><b>Possibili modifiche del regime fiscale applicabile agli Strumenti Finanziari</b></p> <p>Le considerazioni relative al regime fiscale degli Strumenti Finanziari contenute nel Prospetto di Base rispecchiano l'opinione dell'Emittente in base alla situazione giuridica identificabile alla data in cui sono espresse. Tuttavia, non può essere escluso un diverso trattamento fiscale da parte delle autorità fiscali e dei giudici tributari. Prima di prendere decisioni in merito all'opportunità di investire negli Strumenti Finanziari, il singolo investitore è dunque tenuto a chiedere il parere del proprio consulente fiscale.</p>
--	--

	<p>L'Emittente e il Gestore non si assumono alcuna responsabilità nei confronti dei Portatori rispetto alle conseguenze fiscali di un investimento negli Strumenti Finanziari.</p> <p><b>Conflitti di interessi</b></p> <p>È possibile che l'Emittente e le società collegate partecipino a operazioni connesse agli Strumenti Finanziari nel proprio interesse o nell'interesse di un cliente. Tali operazioni possono non portare alcun vantaggio ai Portatori degli Strumenti Finanziari e possono avere effetti negativi o positivi sul valore del Sottostante e, di conseguenza, sul valore degli Strumenti Finanziari. Inoltre, l'Emittente potrebbe stipulare contratti di copertura dei rischi derivanti dagli Strumenti Finanziari con controparti costituite da società collegate. In tale situazione, potrebbero sorgere dei conflitti di interesse tra queste controparti e tra le controparti e gli investitori in relazione agli obblighi relativi alla determinazione del prezzo degli Strumenti Finanziari e agli altri calcoli associati. L'Emittente e le sue collegate possono anche assumere altri ruoli rispetto agli Strumenti Finanziari, come quello di agente per il calcolo, agente per i pagamenti e agente amministrativo e/o sponsor dell'indice.</p> <p>L'Emittente e le sue collegate possono peraltro emettere strumenti derivati collegati al Sottostante o, secondo i casi, ai Componenti del Panier, determinando, con l'inserimento di tali prodotti, una situazione concorrenziale che può influire sul valore degli Strumenti Finanziari. L'Emittente e le sue collegate possono entrare in possesso di informazioni riguardanti il Sottostante che non sono di dominio pubblico e che non sono tenute a divulgare ai Portatori. Una o più società collegate dell'Emittente può inoltre pubblicare i risultati di studi e analisi condotti sul Sottostante, generando situazioni di potenziale conflitto di interessi, con possibili effetti negativi sul valore degli Strumenti Finanziari.</p> <p>È possibile che, nell'ambito dell'offerta e della vendita degli Strumenti Finanziari, l'Emittente o una delle sue società collegate versino, direttamente o indirettamente, commissioni di importo variabile a favore di terzi, tra cui distributori o consulenti per gli investimenti, oppure percepiscano da terzi, direttamente o indirettamente, commissioni di importo variabile, incluse quelle applicate alla distribuzione degli Strumenti Finanziari. Tali commissioni possono essere trattenute, totalmente o parzialmente, dall'Emittente. Su richiesta, l'Emittente o, se del caso, il Gestore è tenuto a rendere conto di tali commissioni.</p> <p><b>Fattori di rischio relativi al Sottostante</b></p> <p>Il valore degli Strumenti Finanziari è determinato dalle variazioni di prezzo del Sottostante e dal rischio ad esso associato. I fattori che influenzano il valore del Sottostante sono molteplici e possono essere fra loro collegati. Essi comprendono eventi economici, finanziari e politici indipendenti dalla volontà dell'Emittente. La performance storica di un Sottostante non deve essere considerata indicativa della performance degli Strumenti Finanziari nel corso della loro durata. L'Emittente non rilascia alcuna garanzia o dichiarazione, implicita o esplicita, in merito alla futura performance del Sottostante.</p> <p>Si fa presente che l'Emittente non detiene il Sottostante a beneficio dei Portatori e che i Portatori non hanno la titolarità del Sottostante e pertanto non sono titolari dei relativi diritti (compresi, a titolo puramente esemplificativo, il diritto di voto, il diritto ai dividendi o ad altre distribuzioni o altri diritti).</p>

	Avvertenza in merito al rischio di perdita totale o parziale dell'investimento da parte dell'investitore	L'investitore negli Strumenti Finanziari è esposto al rischio di un peggioramento della situazione finanziaria dell'Emittente e, di conseguenza, al rischio che il medesimo non sia in grado di far fronte alle obbligazioni derivanti dagli Strumenti Finanziari. I potenziali investitori devono pertanto essere preparati all'eventualità di una <b>perdita</b> parziale o persino <b>totale</b> del capitale investito ed essere in grado di sostenerla. Chiunque sia interessato a investire negli Strumenti Finanziari deve valutare la propria situazione finanziaria al fine di accettare la propria capacità di sopportare i <b>rischi di perdita</b> connessi agli Strumenti Finanziari.
