The contents (other than the form) of the Securities as well as all rights and duties arising from the Securities are governed by German law.

Objective of the Security is to provide the Securityholder with a specified entitlement according to predefined conditions. The Security has, unless redeemed early, a fixed lifetime and will become due on the Maturity Date.

Coupon

The Securityholder will receive a payment of the respective Coupon Amount in the Redemption Currency on the respective Coupon Payment Date in relation to the preceding Coupon Period, conditional, however, upon the performance of the Underlyings. If the official closing price of **at least one** Underlying as determined by the Price Source on a Coupon Observation Date is lower than the respective Coupon Default Level, **the Securityholder will not receive a payment of the respective Coupon Amount in relation to the respective Coupon Period** (such event constitutes a "**Coupon Amount Default Event**").

In case the official closing price of **all** Underlyings as determined by the Price Source on a Coupon Observation Date is equal to or higher than the respective Coupon Amount Catch-up Level, the Securityholder will receive on the respective Coupon Payment Date a payment of the respective Coupon Amount in relation to that Coupon Observation Date and any preceding Coupon Observation Date(s) for which the respective Coupon Amount has not been paid (such event constitutes a "**Coupon Amount Catch-up Event**").

Early Redemption

In case that the official closing price of **all** Underlyings as determined by the respective Price Source on the respective Early Redemption Observation Date is equal to or higher than the respective Early Redemption Level (such event constitutes an "**Early Redemption Event**"), the

Security will be redeemed early on the respective Maturity Date and the Securityholder will receive a payment of the Early Redemption Amount. The Securityholder will not be entitled to any further payments thereafter.

Redemption at maturity

If an Early Redemption Event has not occurred in respect of the Security, on the Maturity Date, the Securityholder is entitled to either receive payment of the Redemption Amount or delivery of the Physical Underlying in an appropriate number, which depends on the performance of the Underlyings and whether or not a so-called Kick In Event has occurred, in each case, determined as of the Valuation Date as follows:

For this purpose, a "**Kick In Event**" shall have occurred, if the Settlement Price of **at least one** Underlying is equal to or lower than the respective Kick In Level.

- (i) If a **Kick In Event has not occurred**, the Securityholder will receive on the Maturity Date the Nominal Amount.
- (ii) If a **Kick In Event has occurred** and the Settlement Price of **all** Underlyings is equal to or higher than the respective Strike Level, the Securityholder will receive on the Maturity Date the Nominal Amount.
- (iii) If a **Kick In Event has occurred** and the Settlement Price of **at least one** Underlying is lower than the respective Strike Level, the Securityholder will receive on the Maturity Date the Physical Underlying in a number equal to the number of Reference Shares per Denomination. Fractions of the Physical Underlying will not be delivered, but compensated in cash.

There will be no separate payments with respect to accrued Coupon Amounts when purchasing the Security during its lifetime. Accrued Coupon Amounts will be reflected in the on-going trading price of the Security (Dirty Price).

The Issuer is entitled to terminate the Securities with immediate effect if an (extraordinary) termination event occurs. Examples of (extraordinary) termination events include the discontinuation of the determination/publication of the price of the Underlying or the occurrence of a change in law. In such case, the payable termination amount payable to Securityholders may be significantly lower than the capital invested by Securityholders for purchasing the Securities (including the transaction costs).

Relative seniority of the Securities in the Issuer's capital structure in the event of insolvency

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking *pari passu* among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.

Restrictions on free transferability of the Securities

The Securities are freely transferrable.

Where will the Securities be traded?

It is intended that application for listing of the Securities to trading on SEDEX will be made.

What are the key risks that are specific to the Securities?

The Securityholders are exposed to the risk of a bail-in. In case FINMA as supervisory authority in respect of the Issuer exercises resolution measures against the Issuer and writes down or converts the Securities into common equity of the Issuer, Securityholders would have no further claim against the Issuer under the Securities.

The Securities are not protected by any statutory or voluntary deposit guarantee scheme. The Issuer's obligations under the Securities are not protected by any statutory or voluntary deposit protection scheme or compensation scheme. Further, no third party guarantees or commitments have been provided in respect of the Issuer's obligations under the Securities. Accordingly, in the event of insolvency of the Issuer, investors may thus experience **a total loss of their investment in the Securities**.

Specific risks related to dependence on the Underlying. Whether Securityholders are entitled in accordance with the Conditions of the Securities to receive payment of a pre-defined Redemption Amount or delivery of the Physical Underlying in the appropriate number depends on the performance of the Underlyings. If a Kick In Event has occurred and in case the Settlement Price of the Underlying with the worst performance is lower than the respective Strike Level, investors are entitled to receive delivery of the Physical Underlying. Therefore, investors are exposed to the issuer- and security-specific risks related to such Underlying. Under certain circumstances, the value of such Underlying may be very low and may even be zero. In such cases, investors may suffer **a total loss of the invested capital**.

Specific risks in connection with rights arising out of or in connection with the Underlying. Investors should be aware that they would become entitled to certain rights arising out of or in connection with the Underlying only when such Physical Underlying is actually delivered to them. If such rights or entitlements (e.g., any voting rights associated with the Underlying or any dividends, coupons or other distributions in connection with the Underlying) arise or are exercisable between the end of the term of the Securities and the actual delivery of the Physical Underlying on the Maturity Date, the Issuer is entitled to benefit from, or as the case maybe, exercise such rights and entitlements. Securityholders should be aware that the Issuer is not required to account to, or as the case may be, compensate the Securityholders for any such rights or entitlements.

Specific risks related to the occurrence of an Early Redemption Event. In case of the occurrence of an Early Redemption Event, all outstanding Securities are automatically terminated and redeemed early. In such case, Securityholders will receive a payment of the Early Redemption Amount, but will not be entitled to request any further payments on the Securities. In particular, Securityholders are not entitled to request payments of any further Coupon Amounts which would have otherwise potentially been due under the Securities in accordance with the Conditions of the Securities during the scheduled term of the Securities.

Specific risks related to no further participation in the performance of the Underlying following the termination and early redemption of the Securities. Potential investors should be aware that the Securities may in accordance with the Conditions of the Securities be terminated and redeemed early in a number of circumstances. In case of a termination and early redemption of the Securities

prior to the Valuation Date, the Securityholder is entitled to demand the payment of an amount in the Redemption Currency in relation to this termination and early redemption. However, such amount can be considerably below the amount which would be payable at the scheduled end of the term of the Securities and, if it is lower than the invested capital, Securityholders may even suffer **a total loss of the invested capital.**

Specific risks related to reinvestment. The Securityholders bear the risk that the cash amount received by the Securityholder following the termination and early redemption of the Securities (if any) can be reinvested for a term comparable with the scheduled term of the Securities only at market conditions which are less favourable than those prevailing at the time of the acquisition of the Securities. As a result, the yield achieved by this reinvestment may be significantly lower than the return expected by the Securityholder with the purchase of the Securities.

Specific risks in connection with linkage of payment of conditional Coupon Amounts to the performance of the Underlying. Whether Securityholders are entitled to receive Coupon Amounts in accordance with the Conditions of the Securities depends on the performance of the Underlyings. However, if a Coupon Amount Default Event occurs in respect of any Coupon Period, Securityholders are not entitled to receive payment of a Coupon Amount in respect of such Coupon Period. If a Coupon Amount Catch-up Event occurs in respect of any Coupon Period, Securityholders are entitled to receive payment of a Coupon Amount in relation to the relevant Coupon Period and any preceding Coupon Periods for which a Coupon Amount has not been paid due to the occurrence of a Coupon Amount Default Event. However, Securityholders cannot rely that, following the occurrence of a Coupon Amount Default Event, a Coupon Amount Catch-up Event would also occur. Therefore, Securityholders bear the risk that they do not receive payment of any Coupon Amounts in respect of the Securities.

Specific risks related to the market price of the Securities. Potential investors bear the risk that the market price of the Securities may fluctuate during the term of the Securities, including, without limitation, as a result of any changes in the performance of the Underlyings or any changes in the volatility of the Underlyings. Moreover, the value of the Securities may fall even in the event that the price of the Underlyings remain constant or rise slightly. Conversely, the value of the Securities may remain constant or rise slightly even if the price of the Underlyings decrease. Accordingly, Securityholders bear the risk that if they can sell any Securities prior to their due date, the sale proceeds may fall below (including significantly below) the amount of capital initially invested in the Securities and investors would then **lose some or all of the invested capital.**

Specific risks related to the liquidity of the Securities. Potential investors bear the risk that there is no liquid market for trading in the Securities. Due to their structured nature and linkage to the Underlying, the Securities would generally have a more limited secondary market than conventional debt securities. This means that they may not be able to sell the Securities at a time of their own choosing. This could, in turn, result in potential investors receiving a lower sale price than they would have received had a liquid market existed.

Risk of fluctuations in the value of the Underlying. Securityholders are subject to the risks related to the Underlyings in respect of the Securities, whose performance is subject to fluctuations. Therefore, Securityholders cannot foresee the value of the Securities on a certain day in the future. Likewise, the historical data on an Underlying does not allow for any conclusions to be drawn about the future performance of an Underlying and the Securities. An Underlying may have only a short operating history or may have been in existence only for a short period of time and may deliver results over the longer term that may be lower than originally expected. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, substantial losses in value might occur in comparison to a disposal at a later or earlier point in time. The more volatile an Underlying is, the less predictable the amount to be received by the Securityholders. In case of an unfavourable development of the price of an Underlying, the amount received by the Securityholders may be very low or even be equal to zero.

Specific risks related to hedging transactions entered into by the Issuer. If the Issuer enters into hedging transactions in connection with the Securities and such hedging transactions are unwound, this could have an impact on the price of the Underlying and, therefore, on any amounts payable to the Securityholders in respect of the Securities. In such cases, Securityholders could even **suffer a partial loss of the invested capital.**

Specific risks related to potential conflicts of interest of the Issuer and its affiliates. The Issuer and its affiliates may have commercial interests that conflict with those of the Securityholders (e.g. as a result of the Issuer's involvement in other transactions or the Issuer's existing business relationship with the issuer of the Underlying) and that may impact the value and/or trading of the Securities. In turn, this could result in Securityholders receiving less when selling any Securities they hold than they would have received but for such conflicts of interest and/or even suffering a partial loss of the invested capital.

Specific risks related to hedging transactions entered into by Securityholders. Because of the structured nature of the Securities, potential investors bear the risk that they may not be able to fully hedge the risks arising from the Securities. If any of the risks which potential investors have not been able to fully hedge materialise, potential investors could suffer **a loss of some or all of the invested capital.**

Section D – Key Information on the offer of Securities to the public and/or the admission to trading on a regulated market

Under which conditions and timetable can I invest in this Security?

It has been agreed that, on or after the respective Issue Date of the Securities, the Manager may purchase Securities and place the Securities for sale in Italy (the "**Public Offer Jurisdictions**") as of the Start of the public offer of the Securities. The Securities may be subscribed from the Manager during normal banking hours between 25 May 2021 and 17 June 2021 (17:00 CEST) (the "**Subscription Period**"). The Issue Price per Security is payable on the Initial Payment Date. The Issuer reserves the right to earlier close or to extend the Subscription Period if market conditions so require.

Underwriting agreement(s)

Most material conflicts of interest

The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Underlying, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations.

Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full.

Quali sono i principali rischi specifici dell'Emittente?

Rischio di credito in relazione a UBS AG in qualità di Emittente

Ciascun investitore in strumenti finanziari emessi da UBS AG in qualità di Emittente è esposto al rischio di credito di UBS AG. La valutazione della solvibilità di UBS AG può essere influenzata da diversi fattori e sviluppi, tra i quali si annoverano la pandemia da Covid-19 e la risposta alla stessa, le condizioni di mercato e il contesto macroeconomico, l'esposizione al rischio di credito di clienti e controparti, i tassi d'interesse bassi e negativi, i rischi legali e normativi rilevanti, le modifiche di ipotesi, valutazioni e principi contabili, il successo di UBS AG nella realizzazione dei suoi piani strategici, oltre ai rischi operativi.

In caso di difficoltà finanziarie di UBS, la FINMA ha facoltà di avviare procedure di ristrutturazione o di liquidazione ovvero di imporre misure protettive in relazione a UBS Group AG, UBS AG o UBS Switzerland AG, e tali procedure o misure potranno avere un effetto negativo sostanziale sugli azionisti e creditori di UBS. Se dovessero essere avviate procedure di ristrutturazione o di liquidazione nei confronti di UBS AG, i portatori di strumenti finanziari potrebbero subire una perdita rilevante o la **perdita totale** degli strumenti finanziari.

Sezione C – Informazioni fondamentali sugli Strumenti Finanziari

Quali sono le principali caratteristiche degli Strumenti Finanziari?

Tipologia e forma degli Strumenti Finanziari

Gli Strumenti Finanziari di ciascuna Serie sono titoli di debito strutturati che non assicurano la protezione del capitale. Gli Strumenti Finanziari saranno emessi sotto forma di titoli al portatore (Art. 793 del codice civile tedesco, BGB) ai sensi della legge tedesca.

Il contenuto (diversamente dalla forma) degli Strumenti Finanziari e tutti i diritti e gli obblighi derivanti dagli Strumenti Finanziari sono regolati dalla legge tedesca.

Pagamento della Cedola

Il Portatore riceverà un pagamento del rispettivo Importo della Cedola nella Valuta di Rimborsa alla rispettiva Data di Pagamento della Cedola in relazione al Periodo della Cedola precedente, subordinato, tuttavia, all'esecuzione dei sottostanti. Se il prezzo di chiusura ufficiale di **almeno un** sottostante come determinato dalla Fonte dei Prezzi in una Data di Osservazione della Cedola è inferiore al rispettivo Livello di Default della

Cedola, il Portatore non riceverà un pagamento del rispettivo Importo della Cedola in relazione al rispettivo Periodo della Cedola (tale evento costituisce un "Evento di default coupon").

Nel caso in cui il prezzo di chiusura ufficiale di **tutti** i Sottostanti determinato dalla Fonte dei Prezzi in una data di osservazione della cedola sia uguale o superiore al rispettivo Livello di Default della Cedola, il Portatore riceverà alla rispettiva Data di Pagamento della Cedola un pagamento del rispettivo Importo della Cedola in relazione a tale Data di Osservazione della Cedola e a qualsiasi Data di Osservazione della Cedola precedente per la quale non è stato pagato il rispettivo Importo della Cedola (tale evento costituisce un "evento di recupero dell'importo della cedola").

Rimborso Anticipato

Nel caso in cui il prezzo di chiusura ufficiale di **tutti** i Sottostanti come determinato dalla Fonte dei Prezzi nella rispettiva Data di Osservazione del Rimborso Anticipato sia uguale o superiore al rispettivo Livello di Rimborso Anticipato (tale evento costituisce un "Evento di rimborso anticipato"), il Titolo sarà riscattato in anticipo la rispettiva Data di Scadenza e il Portatore riceverà un pagamento dell'Importo di Rimborso Anticipato. L'assicurato non avrà diritto ad ulteriori pagamenti in seguito.

Rimborso alla Scadenza

Se non si è verificato un Evento di Rimborso Anticipato in relazione al Titolo, alla Data di Scadenza il Portatore di Titoli ha diritto a ricevere il pagamento dell'Importo di Rimborso o la consegna del Sottostante Fisico in una quantità appropriata, dipendente dalla performance del Sottostanti e dall'eventuale verificarsi di un cosiddetto Evento di Kick In, in ciascun caso, determinato alla Data di Valutazione come segue:

A tale scopo, si deve verificare un "**Kick In Event**", se il Prezzo di Liquidazione di **almeno un** Sottostante è uguale o inferiore al rispettivo livello kick in.

- (i) Se **non si è verificato un Evento di Kick In**, il Portatore di Titoli riceverà alla Data di Scadenza l'Importo Nominale.
- (ii) **Nel caso in cui si verifichi un Evento Kick-In** e se il Prezzo di Liquidazione di **tutti** i Sottostanti, è uguale o superiore al Livello di Rimborso, il Portatore ha diritto a ricevere alla Data di Scadenza il Valore Nominale.
- (iii) Se **si è verificato un Evento di Kick In** e il Prezzo di Liquidazione del Sottostante è inferiore al Livello di Strike, il Portatore di Titoli riceverà alla Data di Scadenza il Sottostante Fisico in una quantità pari al numero di Azioni di Riferimento per la Denominazione. Le frazioni del Sottostante Fisico non saranno consegnate, ma compensate in contanti.

Non verranno effettuati pagamenti separati in relazione agli interessi maturati (interessi cumulati) se il prodotto viene acquistato nel corso della sua durata. L'interesse maturato si rifletterà sul prezzo di contrattazione in corso del prodotto (Dirty Price).

L'Emittente ha la facoltà di estinguere gli Strumenti Finanziari con effetto immediato al verificarsi di un evento (straordinario) di estinzione. Tra gli esempi di eventi (straordinari) di estinzione si annoverano l'interruzione della determinazione/pubblicazione del prezzo del Sottostante o il verificarsi di una modifica legislativa. In tal caso, l'ammontare dovuto al Portatore degli Strumenti Finanziari alla data di cessazione potrebbe essere nettamente inferiore al capitale investito dal Portatore negli Strumenti Finanziari (comprese le commissioni di negoziazione).

Rango degli Strumenti Finanziari nella struttura del capitale dell'Emittente in caso di insolvenza

Gli Strumenti Finanziari costituiscono obbligazioni dirette, non garantite e non subordinate dell'Emittente, e avranno il medesimo grado di diritti tra di loro e rispetto a tutte le altre obbligazioni attuali e future non garantite e non subordinate dell'Emittente, diverse dalle obbligazioni privilegiate secondo inderogabili disposizioni di legge.

Restrizioni alla libera negoziabilità degli Strumenti Finanziari

Gli Strumenti Finanziari sono liberamente negoziabili.

Dove saranno negoziati gli Strumenti Finanziari?

L'Emittente intende presentare domanda di ammissione alla negoziazione degli Strumenti Finanziari sul sistema SEDEX.

Quali sono i principali rischi specifici degli Strumenti Finanziari?

I Portatori degli Strumenti Finanziari sono esposti al rischio di bail-in. Qualora la FINMA, nelle sue funzioni di autorità di vigilanza dell'Emittente, dovesse esercitare misure di risoluzione nei confronti di quest'ultimo e procedesse alla svalutazione o alla conversione degli Strumenti Finanziari in azioni ordinarie dell'Emittente, il Portatore degli Strumenti Finanziari non potrebbe più far valere nei confronti dell'Emittente i diritti associati agli Strumenti Finanziari.

Gli Strumenti Finanziari non sono assistiti da alcun sistema di garanzia o tutela dei depositi, obbligatorio o volontario. Le obbligazioni che sorgono in capo all'Emittente in relazione agli Strumenti Finanziari non sono assistite da alcun sistema di tutela dei depositi, obbligatorio o volontario, né da un sistema di indennizzo. Non sono altresì stati forniti impegni o garanzie di terzi in relazione agli obblighi dell'Emittente riguardanti gli Strumenti Finanziari. Di conseguenza, in caso di insolvenza dell'Emittente, gli investitori sono pertanto esposti al rischio di **perdita totale del loro investimento negli Strumenti Finanziari**.

Rischi specifici relativi alla dipendenza dal Sottostante. La performance del Sottostante determina la possibilità che i Portatori di Titoli abbiano diritto, in conformità alle Condizioni dei Titoli, a ricevere il pagamento di un Importo di Rimborso predefinito o la consegna del Sottostante Fisico in quantità appropriata. Se si è verificato un Evento di Kick In e nel caso in cui il Prezzo di Liquidazione del Sottostante sia

inferiore al Livello di Strike, gli investitori hanno diritto a ricevere la consegna del Sottostante Fisico. Gli investitori sono quindi esposti ai rischi specifici dell'emittente e del titolo in relazione al Sottostante. In determinate circostanze, il valore del Sottostante potrebbe essere molto basso e anche pari a zero. In tali casi, gli investitori potrebbero subire **la perdita totale del capitale investito**.

Rischi specifici in relazione ai diritti derivanti dal Sottostante o in relazione ad esso. Gli investitori devono essere consapevoli che acquisiranno determinati diritti derivanti dal Sottostante o in relazione ad esso solo nel momento in cui tale Sottostante Fisico verrà loro effettivamente consegnato. Se tali diritti o prerogative (ad esempio, diritti di voto associati al Sottostante o dividendi, cedole o altre distribuzioni relative al Sottostante) sorgono o sono esercitabili tra la fine della durata dei Titoli e l'effettiva consegna del Sottostante Fisico alla Data di Scadenza, l'Emittente è autorizzato a beneficiare di tali diritti e prerogative o, a seconda dei casi, ad esercitarli. I Portatori di Titoli devono essere consapevoli che l'Emittente non è tenuto a rendere conto a, o a seconda dei casi, compensare i Portatori di Titoli per tali diritti o prerogative.

Rischi specifici relativi al verificarsi di un Evento di Rimborso Anticipato Nel caso in cui si verifichi un Evento di Rimborso Anticipato, tutti i Titoli in circolazione sono automaticamente cessati e rimborsati anticipatamente. In tal caso, i Portatori di Titoli riceveranno il pagamento dell'Importo di Rimborso Anticipato, ma non avranno diritto a richiedere ulteriori pagamenti sui Titoli. In particolare, i Portatori di Titoli non hanno il diritto di richiedere il pagamento di qualsiasi ulteriore Importo della Cedola che sarebbe altrimenti dovuto secondo le Condizioni dei Titoli durante la loro durata prevista.

Rischi specifici relativi all'impossibilità di partecipare ulteriormente alla performance del Sottostante in seguito alla cessazione e al rimborso anticipato dei Titoli. I potenziali investitori devono sapere che i Titoli possono, conformemente alle Condizioni per essi previste, essere cessati e rimborsati anticipatamente in una serie di circostanze. In caso di cessazione e rimborso anticipato dei Titoli prima della Data di Valutazione, il Portatore di Titoli ha diritto a richiedere il pagamento di un importo nella Valuta di Rimborso in relazione a tale cessazione e rimborso anticipato. Tuttavia, tale importo può essere notevolmente inferiore a quello che sarebbe pagabile alla fine prevista della durata dei Titoli e, se è inferiore al capitale investito, i Portatori di Titoli possono anche subire **una perdita totale del capitale investito**.

Rischi specifici relativi al reinvestimento. I Portatori di Titoli si assumono il rischio che l'importo in contanti da essi ricevuto a seguito dell'eventuale cessazione e rimborso anticipato dei Titoli possa essere reinvestito per un periodo comparabile con la durata prevista dei Titoli solo a condizioni di mercato meno favorevoli di quelle prevalenti al momento dell'acquisto dei Titoli. Di conseguenza, il rendimento ottenuto da questo reinvestimento potrebbe essere significativamente inferiore rispetto al rendimento atteso dal Portatore di Titoli con l'acquisto dei Titoli..

Rischi specifici connessi al legame tra il pagamento di Importi delle Cedole subordinati a condizioni e la performance del Sottostante. Il fatto che il Portatore degli Strumenti Finanziari abbia o meno diritto, in base alle Condizioni degli Strumenti Finanziari, a incassare gli Importi delle Cedole dipende dalla performance del Sottostante. Tuttavia, qualora durante un Periodo della Cedola si verifichi un Evento di Mancato Pagamento dell'Importo della Cedola, il Portatore non avrà diritto a percepire l'Importo della Cedola corrispondente a tale Periodo della Cedola. Qualora si verifichi un Evento di Recupero dell'Importo della Cedola in relazione a un Periodo della Cedola, il Portatore avrà diritto al pagamento di un Importo della Cedola corrispondente al relativo Periodo della Cedola e a ogni precedente Periodo della Cedola per il quale un Importo della Cedola non sia stato pagato a causa di un Evento di Mancato Pagamento dell'Importo della Cedola. Tuttavia, il Portatore non può avere la certezza che, dopo un Evento di Mancato Pagamento dell'Importo della Cedola, si verifichi anche un Evento di Recupero dell'Importo della Cedola. Pertanto, il Portatore degli Strumenti Finanziari è esposto al rischio di non ottenere il pagamento di alcun Importo della Cedola in relazione agli Strumenti Finanziari.

Rischi specifici relativi al prezzo di mercato dei Titoli. I potenziali investitori si assumono il rischio che il prezzo di mercato dei Titoli possa oscillare durante la loro durata ivi incluso, a titolo esemplificativo e non esaustivo, a seguito di eventuali variazioni della performance del Sottostante o di eventuali variazioni della volatilità del Sottostante. Inoltre, il valore dei Titoli può diminuire anche nel caso in cui il prezzo del Sottostante rimanga costante o aumenti leggermente. Per contro, il valore dei Titoli può rimanere costante o aumentare leggermente anche nel caso in cui il prezzo del Sottostante diminuisca. Di conseguenza, i Portatori di Titoli si assumono il rischio che se possono vendere Titoli prima della loro data di scadenza, i proventi della vendita possono scendere al di sotto (anche significativamente) dell'importo del capitale inizialmente investito nei Titoli e gli investitori **perderebbero quindi il capitale investito in tutto o in parte**.

Rischi specifici relativi alla liquidità dei Titoli. I potenziali investitori si assumono il rischio che non esiste un mercato liquido per la negoziazione dei Titoli. A causa della loro natura strutturata e del collegamento al Sottostante, i Titoli avranno generalmente un mercato secondario più limitato rispetto ai titoli di debito convenzionali. Ciò significa che gli investitori potrebbero non essere in grado di vendere i Titoli in un momento da loro stabilito. Di conseguenza, i potenziali investitori potrebbero ricevere un prezzo di vendita inferiore a quello che avrebbero ricevuto se fosse esistito un mercato liquido.

Rischi di oscillazioni nel valore del Sottostante. I Portatori di Titoli sono soggetti ai rischi relativi al Sottostante nei confronti dei Titoli, la cui performance è soggetta a oscillazioni. Pertanto, i Portatori di Titoli non possono prevedere il valore dei Titoli in un determinato giorno futuro. Analogamente, i dati storici di un Sottostante non consentono di trarre alcuna conclusione sulla performance futura di un Sottostante e dei Titoli. Un Sottostante può avere solo una breve storia operativa o può essere esistito solo per un breve periodo di tempo e può fornire risultati a lungo termine che potrebbero essere inferiori alle aspettative iniziali. Quando i Titoli vengono rimborsati, esercitati o altrimenti ceduti in un determinato giorno, potrebbero verificarsi perdite sostanziali di valore rispetto a una cessione avvenuta in un momento successivo o precedente. Più un Sottostante è volatile, meno prevedibile è l'importo che i Portatori di Titoli possono ricevere. In caso di un'evoluzione sfavorevole del prezzo di un Sottostante, l'importo ricevuto dai Portatori di Titoli può essere molto basso o addirittura pari a zero.

Rischi specifici relativi alle operazioni di copertura concluse dall'Emittente. Qualora l'Emittente effettui operazioni di copertura in relazione ai Titoli e tali operazioni di copertura siano liquidate, ciò potrebbe avere un impatto sul prezzo del Sottostante e, pertanto, sugli importi pagabili ai Portatori di Titoli in relazione ad essi. In tali casi, i Portatori di Titoli potrebbero subire **una perdita parziale del capitale investito**.

Rischi specifici relativi a potenziali conflitti di interesse dell'Emittente e delle sue società collegate. L'Emittente e le sue società collegate possono avere interessi commerciali in conflitto con quelli dei Portatori di Titoli (ad esempio a seguito del coinvolgimento dell'Emittente in altre operazioni o del rapporto commerciale esistente tra l'Emittente e l'emittente del Sottostante). Tali interessi potrebbero influire sul valore e/o sulla negoziazione dei Titoli. Ciò potrebbe a sua volta comportare che i Portatori di Titoli ricevano, al momento della vendita dei Titoli detenuti, un importo inferiore a quello che avrebbero ricevuto in assenza di tali conflitti d'interesse e/o **che subiscano addirittura una perdita parziale del capitale investito**.

Rischi specifici relativi alle operazioni di copertura concluse dai Portatori di Titoli. A causa della natura strutturata dei Titoli, i potenziali investitori si assumono il rischio di non essere in grado di coprire completamente i rischi derivanti dai Titoli. Qualora si verificasse uno qualsiasi

dei rischi che i potenziali investitori non sono stati in grado di coprire completamente, i potenziali investitori potrebbero subire **una perdita del capitale investito, in tutto o in parte.**

Sezione D – Informazioni fondamentali sull'offerta pubblica di Strumenti Finanziari e/o l'ammissione alla negoziazione in un mercato regolamentato

A quali condizioni posso investire in questo Strumento Finanziario e qual è il calendario previsto?

Si è convenuto che, alla rispettiva Data di Emissione degli Strumenti Finanziari o successivamente ad essa, il Gestore potrà acquistare Strumenti Finanziari e collocare gli Strumenti Finanziari per la vendita in Italy (le "**Giurisdizioni dell'Offerta Pubblica**") all'inizio dell'offerta pubblica degli Strumenti Finanziari. In seguito, il prezzo di vendita sarà continuativamente adeguato per riflettere le condizioni di mercato.

L'Emittente si riserva la facoltà di chiudere anticipatamente o di prorogare il Periodo di Offerta qualora le condizioni di mercato lo richiedano.

Chi è l'offerente e/o il soggetto che chiede l'ammissione alla negoziazione?

UBS Europe SE, società di capitali quotata di diritto tedesco e domiciliata in Germania (il "**Gestore**").

Perché è redatto il presente Prospetto?

Impiego dei proventi

L'Emittente intende emettere e offrire gli Strumenti Finanziari al pubblico allo scopo di procurarsi finanziamenti per finalità generali di gestione del Gruppo UBS.

Conflitti di interesse più significativi

È possibile che l'Emittente e le società collegate partecipino a operazioni connesse agli Strumenti Finanziari nel proprio interesse o nell'interesse di un cliente. Tali operazioni possono non portare alcun vantaggio ai Portatori degli Strumenti Finanziari e possono avere effetti negativi o positivi sul valore del Sottostante e, di conseguenza, sul valore degli Strumenti Finanziari. Inoltre, l'Emittente potrebbe stipulare contratti di copertura dei rischi derivanti dagli Strumenti Finanziari con controparti costituite da società collegate. In tale situazione, potrebbero sorgere dei conflitti di interesse tra queste controparti e tra le controparti e gli investitori in relazione agli obblighi relativi alla determinazione del prezzo degli Strumenti Finanziari e agli altri calcoli associati.

È possibile che, nell'ambito dell'offerta e della vendita degli Strumenti Finanziari, l'Emittente o una delle sue società collegate versino, direttamente o indirettamente, commissioni di importo variabile a favore di terzi, tra cui distributori o consulenti per gli investimenti, oppure percepiscano da terzi, direttamente o indirettamente, commissioni di importo variabile, incluse quelle applicate alla distribuzione degli Strumenti Finanziari. Si rammenta ai potenziali investitori che l'Emittente può trattenere, in tutto o in parte, le commissioni.
