What are the key risks that are specific to the Issuer?

Credit risk in relation to UBS AG as Issuer

Each investor in securities issued by UBS AG as Issuer is exposed to the credit risk of UBS AG. The assessment of UBS AG's creditworthiness may be affected by a number of factors and developments. These include market conditions and macroeconomic climate, credit risk exposure to clients and counterparties, material legal and regulatory risks, substantial changes in regulation, UBS AG's success in executing its strategic plans, operational risks, risk management and control processes, and liquidity and funding management.

If UBS experiences financial difficulties, FINMA has the power to open restructuring or liquidation proceedings or impose protective measures in relation to UBS Group AG, UBS AG or UBS Switzerland AG, and such proceedings or measures may have a material adverse effect on UBS's shareholders and creditors. If restructuring or liquidation proceedings are instituted against UBS AG, holders of securities may suffer a substantial or **total loss** on the securities.

Section C – Key Information on the Securities

What are the main features of the Securities?

Type and form of the Securities

The Securities are structured debt securities with no capital protection. The Securities are issued in the form of bearer securities (§ 793 BGB) under German law. The contents (other than the form) of the Securities as well as all rights and duties arising from the Securities are governed by German law.

Objective of the Security is to provide the Securityholder with a specified entitlement according to predefined conditions. The Security has, unless redeemed early, a fixed lifetime and will become due on the Maturity Date.

Coupon

The Securityholder will receive a payment of the respective Coupon Amount in the Redemption Currency on the respective Coupon Payment Date in relation to the preceding Coupon Period, irrespective of the performance of the Underlyings.

Early Redemption

In case that the official closing price of **all** Underlyings as determined by the respective Price Source on the respective Early Redemption Observation Date is equal to or higher than the respective Early Redemption Level (such event constitutes an "**Early Redemption Event**"), the Security will be redeemed early on the respective Maturity Date and the Securityholder will receive a payment of the Early Redemption Amount. The Securityholder will not be entitled to any further payments thereafter.

Redemption at maturity

If an Early Redemption Event has not occurred in respect of the Security, on the Maturity Date, the Securityholder is entitled to receive the Redemption Amount, which depends on the performance of the Underlyings and whether or not a so-called Kick In Event has occurred, in each case, determined as of the Valuation Date as follows:

For this purpose, a "**Kick In Event**" shall have occurred, if the Settlement Price **of at least one** Underlying is equal to or lower than the respective Kick In Level.

- (i) If a **Kick In Event has not occurred**, the Securityholder will receive on the Maturity Date the Nominal Amount.
- (ii) If a **Kick In Event has occurred** and the Settlement Price of **all** Underlyings is equal to or higher than the respective Strike Level, the Securityholder will receive on the Maturity Date the Nominal Amount.
- (iii) If a **Kick In Event has occurred** and the Settlement Price of **at least one** Underlying is lower than the respective Strike Level, the Securityholder will receive on the Maturity Date an amount in the Redemption Currency which depends on the Settlement Price of the Underlying with the worst performance. Such amount equals (commercially rounded) the Nominal Amount multiplied by the respective Settlement Price of the Underlying with the worst performance divided by the respective Strike Level.

There will be no separate payments with respect to accrued Coupon Amounts when purchasing the Security during its lifetime. Accrued Coupon Amounts will be reflected in the on-going trading price of the Security (Dirty Price).

<p>The Issuer is entitled to terminate the Securities with immediate effect if an (extraordinary) termination event occurs. Examples of (extraordinary) termination events include the discontinuation of the determination/publication of the price of the Underlying or the occurrence of a change in law. In such case, the payable termination amount payable to Securityholders may be significantly lower than the capital invested by Securityholders for purchasing the Securities (including the transaction costs).</p> <p>Relative seniority of the Securities in the Issuer's capital structure in the event of insolvency</p> <p>The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking <i>pari passu</i> among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.</p> <p>Restrictions on free transferability of the Securities</p> <p>The Securities are freely transferrable.</p>

Where will the Securities be traded?

It is intended that application for listing of the Securities to trading on EuroTLX will be made.

What are the key risks that are specific to the Securities?

The Securityholders are exposed to the risk of a bail-in. In case FINMA as supervisory authority in respect of the Issuer exercises resolution measures against the Issuer and writes down or converts the Securities into common equity of the Issuer, Securityholders would have no further claim against the Issuer under the Securities.

The Securities are not protected by any statutory or voluntary deposit guarantee scheme. The Issuer's obligations under the Securities are not protected by any statutory or voluntary deposit protection scheme or compensation scheme. Further, no third party guarantees or commitments have been provided in respect of the Issuer's obligations under the Securities. Accordingly, in the event of insolvency of the Issuer, investors may thus experience **a total loss of their investment in the Securities.**

Specific risks related to dependence on the Underlying. The Redemption Amount payable in accordance with the Conditions of the Securities depends on the performance of the Underlyings. If a Kick In Event has occurred and in case the Settlement Price of the Underlying with the worst performance is lower than the respective Strike Level, the Redemption Amount could in case of an unfavourable performance of the Underlying with the worst performance even be equal to zero. **In such case, the Securityholder will suffer a total loss of the invested capital.**

Specific risks related to the occurrence of an Early Redemption Event. In case of the occurrence of an Early Redemption Event, all outstanding Securities are automatically terminated and redeemed early. In such case, Securityholders will receive a payment of the Early Redemption Amount, but will not be entitled to request any further payments on the Securities. In particular, Securityholders are not entitled to request payments of any further Coupon Amounts which would have otherwise been due under the Securities in accordance with the Conditions of the Securities during the scheduled term of the Securities.

Specific risks related to no further participation in the performance of the Underlying following the termination and early redemption of the Securities. Potential investors should be aware that the Securities may in accordance with the Conditions of the Securities be terminated and redeemed early in a number of circumstances. In case of a termination and early redemption of the Securities prior to the Valuation Date, the Securityholder is entitled to demand the payment of an amount in the Redemption Currency in relation to this termination and early redemption. However, such amount can be considerably below the amount which would be payable at the scheduled end of the term of the Securities and, if it is lower than the invested capital, Securityholders may even suffer **a total loss of the invested capital.**

Specific risks related to reinvestment. The Securityholders bear the risk that the cash amount received by the Securityholder following the termination and early redemption of the Securities (if any) can be reinvested for a term comparable with the scheduled term of the Securities only at market conditions which are less favourable than those prevailing at the time of the acquisition of the Securities. As a result, the yield achieved by this reinvestment may be significantly lower than the return expected by the Securityholder with the purchase of the Securities.

Specific risks related to the market price of the Securities. Potential investors bear the risk that the market price of the Securities may fluctuate during the term of the Securities, including, without limitation, as a result of any changes in the performance of the Underlyings or any changes in the volatility of the Underlyings. Moreover, the value of the Securities may fall even in the event that the price of the Underlyings remain constant or rise slightly. Conversely, the value of the Securities may remain constant or rise slightly even if the price of the Underlyings decrease. Accordingly, Securityholders bear the risk that if they can sell any Securities prior to their due date, the sale proceeds may fall below (including significantly below) the amount of capital initially invested in the Securities and investors would then **lose some or all of the invested capital.**

Specific risks related to the liquidity of the Securities. Potential investors bear the risk that there is no liquid market for trading in the Securities. Due to their structured nature and linkage to the Underlying, the Securities would generally have a more limited secondary market than conventional debt securities. This means that they may not be able to sell the Securities at a time of their own choosing. This could, in turn, result in potential investors receiving a lower sale price than they would have received had a liquid market existed.

Risk of fluctuations in the value of the Underlying. Securityholders are subject to the risks related to the Underlyings in respect of the Securities, whose performance is subject to fluctuations. Therefore, Securityholders cannot foresee the value of the Securities on a certain day in the future. Likewise, the historical data on an Underlying does not allow for any conclusions to be drawn about the future performance of an Underlying and the Securities. An Underlying may have only a short operating history or may have been in existence only for a short period of time and may deliver results over the longer term that may be lower than originally expected. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, substantial losses in value might occur in comparison to a disposal at a later or earlier point in time. The more volatile an Underlying is, the less predictable the amount to be received by the Securityholders. In case of an unfavourable development of the price of an Underlying, the amount received by the Securityholders may be very low or even be equal to zero.

Specific risks related to hedging transactions entered into by the Issuer. If the Issuer enters into hedging transactions in connection with the Securities and such hedging transactions are unwound, this could have an impact on the price of the Underlying and, therefore, on any amounts payable to the Securityholders in respect of the Securities. In such cases, Securityholders could even **suffer a partial loss of the invested capital.**

Specific risks related to potential conflicts of interest of the Issuer and its affiliates. The Issuer and its affiliates may have commercial interests that conflict with those of the Securityholders (e.g. as a result of the Issuer's involvement in other transactions or the Issuer's existing business relationship with the issuer of the Underlying) and that may impact the value and/or trading of the Securities. In turn, this could result in Securityholders receiving less when selling any Securities they hold than they would have received but for such conflicts of interest and/or **even suffering a partial loss of the invested capital.**

Specific risks related to hedging transactions entered into by Securityholders. Because of the structured nature of the Securities, potential investors bear the risk that they may not be able to fully hedge the risks arising from the Securities. If any of the risks which potential investors have not been able to fully hedge materialise, potential investors could suffer **a loss of some or all of the invested capital.**

Most material conflicts of interest

The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the Underlying, and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations.

Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities, from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full.

Quali sono i principali rischi specifici dell'Emittente?

Rischio di credito in relazione a UBS AG in qualità di Emittente

Ciascun investitore in strumenti finanziari emessi da UBS AG in qualità di Emittente è esposto al rischio di credito di UBS AG. La valutazione della solvibilità di UBS AG può essere influenzata da diversi fattori e sviluppi, tra i quali si annoverano le condizioni di mercato e il contesto macroeconomico, l'esposizione al rischio di credito di clienti e controparti, rischi legali e normativi rilevanti, cambiamenti sostanziali della regolamentazione, il successo di UBS AG nella realizzazione dei suoi piani strategici, rischi operativi, i processi di controllo e gestione del rischio e la gestione della liquidità e dei finanziamenti.

In caso di difficoltà finanziarie di UBS, la FINMA ha facoltà di avviare procedure di ristrutturazione o di liquidazione ovvero di imporre misure protettive in relazione a UBS Group AG, UBS AG o UBS Switzerland AG, e tali procedure o misure potranno avere un effetto negativo sostanziale sugli azionisti e creditori di UBS. Se dovessero essere avviate procedure di ristrutturazione o di liquidazione nei confronti di UBS AG, i portatori di strumenti finanziari potrebbero subire una perdita rilevante o la **perdita totale** degli strumenti finanziari.

Sezione C – Informazioni fondamentali sugli Strumenti Finanziari

Quali sono le principali caratteristiche degli Strumenti Finanziari?

Tipologia e forma degli Strumenti Finanziari

Gli Strumenti Finanziari di ciascuna Serie sono titoli di debito strutturati che non assicurano la protezione del capitale. Gli Strumenti Finanziari saranno emessi sotto forma di titoli al portatore (Art. 793 del codice civile tedesco, BGB) ai sensi della legge tedesca.

Il contenuto (diversamente dalla forma) degli Strumenti Finanziari e tutti i diritti e gli obblighi derivanti dagli Strumenti Finanziari sono regolati dalla legge tedesca.

Coupon/Cedola

Il Portatore riceverà un pagamento del rispettivo Importo della Cedola nella Valuta di Rimborso nella rispettiva Data di Pagamento Cedola in relazione al Periodo della Cedola precedente, indipendentemente dall'andamento dei Sottostanti.

Rimborso Anticipato

Nel caso in cui il prezzo di chiusura ufficiale di **tutti** i Sottostanti come determinato dalla Fonte dei Prezzi nella rispettiva Data di Osservazione del Rimborso Anticipato sia uguale o superiore al rispettivo Livello di Rimborso Anticipato (tale evento costituisce un "**Evento di rimborso anticipato**"), il Titolo sarà riscattato in anticipo la rispettiva Data di Scadenza e il Portatore riceverà un pagamento dell'Importo di Rimborso Anticipato. L'assicurato non avrà diritto ad ulteriori pagamenti in seguito.

Rimborso a scadenza

Se non si è verificato un evento di rimborso anticipato per quanto riguarda il Titolo, alla Data di Scadenza, il Portatore ha il diritto di ricevere l'Importo di Rimborso, che dipende dall'esecuzione del Sottostante e dal fatto che si sia verificato o meno un cosiddetto Kick In Event, in ogni caso, determinato alla Data di Valutazione come segue:

A tale scopo, si deve verificare un "**Kick In Event**", se il Prezzo di Liquidazione di **almeno un** Sottostante è uguale o inferiore al rispettivo livello kick in.

- (i) **Nel caso in cui non si verifichi un Evento Kick-In**, l'investitore ha diritto a ricevere il Valore Nominale.
- (ii) **Nel caso in cui si verifichi un Evento Kick-In** e se il Prezzo di Liquidazione di **tutti** i Sottostanti, è uguale o superiore al Livello di Rimborso, il Portatore ha diritto a ricevere alla Data di Scadenza il Valore Nominale.
- (iii) **Nel caso in cui si verifichi un Evento Kick-In** e se il Prezzo di Liquidazione di **almeno un** Sottostante, è inferiore al Livello di Rimborso, il Portatore ha diritto a ricevere alla Data di Scadenza un Importo di Rimborso nella Valuta di Rimborso, il cui ammontare dipende dal Prezzo di Liquidazione del Sottostante con la peggiore performance. L'Importo di Rimborso è uguale (commercialmente arrotondato) all'Importo Nominale moltiplicato per il rispettivo Prezzo di Liquidazione del Sottostante con la peggiore performance divisa per il rispettivo Strike.

Non verranno effettuati pagamenti separati in relazione agli interessi maturati (interessi cumulati) se il prodotto viene acquistato nel corso della sua durata. L'interesse maturato si rifletterà sul prezzo di contrattazione in corso del prodotto (Dirty Price).

L'Emittente ha la facoltà di estinguere gli Strumenti Finanziari con effetto immediato al verificarsi di un evento (straordinario) di estinzione. Tra gli esempi di eventi (straordinari) di estinzione si annoverano l'interruzione della determinazione/pubblicazione del prezzo del Sottostante o il verificarsi di una modifica legislativa. In tal caso, l'ammontare dovuto al Portatore degli Strumenti Finanziari alla data di cessazione potrebbe essere nettamente inferiore al capitale investito dal Portatore negli Strumenti Finanziari (comprese le commissioni di negoziazione).

Rango degli Strumenti Finanziari nella struttura del capitale dell'Emittente in caso di insolvenza

Gli Strumenti Finanziari costituiscono obbligazioni dirette, non garantite e non subordinate dell'Emittente, e avranno il medesimo grado di diritti tra di loro e rispetto a tutte le altre obbligazioni attuali e future non garantite e non subordinate dell'Emittente, diverse dalle obbligazioni privilegiate secondo inderogabili disposizioni di legge.

Restrizioni alla libera negoziabilità degli Strumenti Finanziari

Gli Strumenti Finanziari sono liberamente negoziabili.

Dove saranno negoziati gli Strumenti Finanziari?

L'Emittente intende presentare domanda di ammissione alla negoziazione degli Strumenti Finanziari sul sistema EuroTLX.

Quali sono i principali rischi specifici degli Strumenti Finanziari?

I Portatori degli Strumenti Finanziari sono esposti al rischio di bail-in. Qualora la FINMA, nelle sue funzioni di autorità di vigilanza dell'Emittente, dovesse esercitare misure di risoluzione nei confronti di quest'ultimo e procedesse alla svalutazione o alla conversione degli Strumenti Finanziari in azioni ordinarie dell'Emittente, il Portatore degli Strumenti Finanziari non potrebbe più far valere nei confronti dell'Emittente i diritti associati agli Strumenti Finanziari.

Gli Strumenti Finanziari non sono assistiti da alcun sistema di garanzia o tutela dei depositi, obbligatorio o volontario. Le obbligazioni che sorgono in capo all'Emittente in relazione agli Strumenti Finanziari non sono assistite da alcun sistema di tutela dei depositi, obbligatorio o volontario, né da un sistema di indennizzo. Non sono altresì stati forniti impegni o garanzie di terzi in relazione agli obblighi dell'Emittente riguardanti gli Strumenti Finanziari. Di conseguenza, in caso di insolvenza dell'Emittente, gli investitori sono pertanto esposti al rischio di **perdita totale del loro investimento negli Strumenti Finanziari.**

Rischi specifici relativi alla dipendenza dal Sottostante. L'Importo di Rimborso dovuto in base alle Condizioni degli Strumenti Finanziari dipende dalla performance del Sottostante dei Sottostanti. Se si è verificato un Evento di Kick-In e se il Prezzo di Liquidazione del Sottostante con la peggiore performance è inferiore al rispettivo Strike, l'Importo di Rimborso, in caso di performance sfavorevole del Sottostante con la peggiore performance, potrebbe addirittura essere pari a zero. **In tale ipotesi, il Portatore degli Strumenti Finanziari subirebbe la perdita totale del capitale investito.**

Rischi specifici relativi al verificarsi di un Evento di Rimborso Anticipato. Qualora si verifichi un Evento di Rimborso Anticipato, tutti gli Strumenti Finanziari in circolazione scadranno in automatico e saranno rimborsati anticipatamente. In tale ipotesi, il Portatore degli Strumenti Finanziari riceverà il pagamento dell'Importo di Rimborso Anticipato, ma non potrà pretendere il pagamento di ulteriori importi relativi agli Strumenti Finanziari. In particolare, il Portatore degli Strumenti Finanziari non può pretendere il pagamento di ulteriori Importi delle Cedole cui diversamente avrebbe diritto in relazione agli Strumenti Finanziari, in base alle relative Condizioni, nel corso della durata naturale degli Strumenti Finanziari.

Rischi specifici relativi alla mancata partecipazione alla performance del Sottostante in seguito all'estinzione e al rimborso anticipato degli Strumenti Finanziari. Si fa presente ai potenziali investitori che, in conformità alle Condizioni, in alcune circostanze gli Strumenti Finanziari possono essere oggetto di estinzione e di rimborso anticipato. In caso di estinzione e rimborso anticipato degli Strumenti Finanziari prima della Data di Scadenza, il Portatore degli Strumenti Finanziari potrà pretendere il pagamento di un importo nella Valuta di Rimborso in relazione a tale estinzione e rimborso anticipato. Tuttavia, tale importo potrebbe essere significativamente inferiore all'importo che sarebbe dovuto alla scadenza naturale degli Strumenti Finanziari e, se risulterà inferiore al capitale investito, il Portatore potrà addirittura incorrere nella **perdita totale del capitale investito.**

Rischi specifici relativi al reinvestimento. Il Portatore è esposto al rischio che l'eventuale liquidità incassata in seguito all'estinzione e al rimborso anticipato degli Strumenti Finanziari possa essere reinvestita per un periodo corrispondente alla durata naturale degli Strumenti Finanziari a condizioni di mercato meno favorevoli rispetto a quelle prevalenti al momento dell'acquisto degli Strumenti Finanziari. Di conseguenza, il tasso di rendimento ottenuto con il reinvestimento potrebbe essere decisamente inferiore al rendimento atteso dal Portatore al momento dell'acquisto degli Strumenti Finanziari. Inoltre, la probabilità di perdere gli importi così reinvestiti può essere decisamente più elevata.

Rischi specifici relativi al prezzo di mercato degli Strumenti Finanziari. I potenziali investitori sono esposti al rischio di oscillazioni del prezzo di mercato degli Strumenti Finanziari nel corso della vita degli stessi, ivi incluso, in via non limitativa, a seguito di variazioni nella performance del Sottostante o della volatilità del Sottostante. Inoltre, il valore degli Strumenti Finanziari può diminuire anche qualora il prezzo del Sottostante dovesse rimanere costante o aumentare leggermente. Per contro, il valore degli Strumenti Finanziari può rimanere costante o aumentare leggermente anche qualora il prezzo del Sottostante dovesse diminuire. Di conseguenza, il Portatore è esposto al rischio che, qualora dovesse riuscire a vendere gli Strumenti Finanziari prima della rispettiva scadenza, i proventi della vendita potrebbero essere inferiori (anche in misura significativa) all'ammontare del capitale inizialmente investito negli Strumenti Finanziari, e in tal caso l'investitore potrebbe **perdere il capitale investito in parte o nella sua interezza.**

Rischi specifici relativi alla liquidità degli Strumenti Finanziari. I potenziali investitori sono esposti al rischio che non vi sia un mercato liquido per la negoziazione degli Strumenti Finanziari. A causa della loro natura strutturata e del loro legame con il Sottostante, gli Strumenti Finanziari possono in genere avere un mercato secondario più limitato rispetto ai titoli di debito di tipo convenzionale. Ciò potrebbe comportare l'impossibilità di vendere gli Strumenti Finanziari nel momento prescelto. Questo, a sua volta, potrebbe far sì che i potenziali investitori ottengano un prezzo di vendita inferiore a quanto avrebbero potuto percepire in presenza di un mercato liquido.

Rischio di oscillazioni del valore del Sottostante. Il Portatore degli Strumenti Finanziari è esposto ai rischi relativi al Sottostante in relazione agli Strumenti Finanziari, la cui performance è soggetta a oscillazioni. Pertanto, il Portatore degli Strumenti Finanziari non può prevedere il valore degli Strumenti Finanziari a una certa data futura. Allo stesso modo, i dati storici relativi al Sottostante non consentono di trarre conclusioni sulla futura performance del Sottostante e degli Strumenti Finanziari. Il Sottostante potrebbe avere uno storico operativo limitato o potrebbe esistere solo da un breve periodo di tempo e i suoi risultati nel lungo periodo potrebbero essere inferiori a quanto inizialmente previsto. Al momento del riscatto, dell'esercizio o comunque della cessione degli Strumenti Finanziari a una certa data, potrebbero verificarsi perdite sostanziali di valore rispetto alla cessione effettuata in un momento precedente o successivo. Più il Sottostante è volatile, meno prevedibile sarà l'importo che il Portatore degli Strumenti Finanziari potrà ricevere. In caso di andamento sfavorevole del prezzo del Sottostante, l'**importo ricevuto dal Portatore degli Strumenti Finanziari potrebbe essere molto basso o addirittura azzerarsi.**

Rischi specifici relativi all'estinzione di operazioni di copertura stipulate dall'Emittente. Se l'Emittente stipula operazioni di copertura in relazione agli Strumenti Finanziari, l'eventuale estinzione di tali operazioni di copertura potrebbe avere un impatto sul prezzo del Sottostante e, pertanto, su eventuali importi spettanti al Portatore in relazione agli Strumenti Finanziari. In tale ipotesi, il Portatore degli Strumenti Finanziari potrebbe anche **subire una perdita parziale del capitale investito.**

Rischi specifici relativi a potenziali conflitti di interesse dell'Emittente e delle sue società collegate. L'Emittente e le sue società collegate potrebbero avere interessi commerciali in conflitto con quelli del Portatore (incluso, a titolo esemplificativo, in conseguenza del coinvolgimento dell'Emittente in altre operazioni o della relazione d'affari in essere tra l'Emittente e l'emittente del Sottostante) che potrebbero avere un impatto sul valore e/o sulla negoziazione degli Strumenti Finanziari. A sua volta, ciò potrebbe far sì che il Portatore ottenga dalla vendita degli Strumenti Finanziari in suo possesso un importo inferiore a quanto avrebbe potuto percepire in assenza di tali conflitti di interesse e/o che possa addirittura subire una perdita parziale del capitale investito.

Rischi specifici relativi allo smobilizzo delle operazioni di copertura poste in essere dal Portatore. A causa della natura strutturata dei Titoli, i potenziali investitori comportano il rischio di non essere in grado di coprire appieno i rischi derivanti dai Titoli. Se uno dei rischi che i potenziali investitori non sono stati in grado di coprire completamente si materializza, i potenziali investitori potrebbero subire una perdita di parte o di tutto il capitale investito.

Sezione D – Informazioni fondamentali sull'offerta pubblica di Strumenti Finanziari e/o l'ammissione alla negoziazione in un mercato regolamentato

A quali condizioni posso investire in questo Strumento Finanziario e qual è il calendario previsto?

Si è convenuto che, alla rispettiva Data di Emissione degli Strumenti Finanziari o successivamente ad essa, il Gestore potrà acquistare Strumenti Finanziari e collocare gli Strumenti Finanziari per la vendita in Italia (le "Giurisdizioni dell'Offerta Pubblica") all'inizio dell'offerta pubblica degli Strumenti Finanziari. In seguito, il prezzo di vendita sarà continuamente adeguato per riflettere le condizioni di mercato.

Le spese totali connesse all'emissione e/o all'offerta non sono identificabili separatamente e sono incluse nei costi operativi generali dell'Emittente.

Dal 23 maggio 2022 ("Inizio dell'offerta pubblica degli Strumenti Finanziari"), gli Strumenti Finanziari possono essere acquistati presso il Gestore durante il normale orario di apertura delle banche. Non è previsto un periodo di sottoscrizione. Il pagamento del Prezzo di Emissione per Strumento Finanziario dovrà essere effettuato in Data di Emissione.

Chi è l'offerente e/o il soggetto che chiede l'ammissione alla negoziazione?

UBS Europe SE, società di capitali quotata di diritto tedesco e domiciliata in Germania (il "Gestore").

Perché è redatto il presente Prospetto?

Impiego dei proventi

L'Emittente intende emettere e offrire gli Strumenti Finanziari al pubblico allo scopo di procurarsi finanziamenti per finalità generali di gestione del Gruppo UBS.

Accordo/i di sottoscrizione

Si è convenuto che il Gestore provvederà alla sottoscrizione degli Strumenti Finanziari alla rispettiva Data di Emissione o successivamente alla stessa per mezzo di un accordo di sottoscrizione, e provvederà al loro collocamento per la vendita alle condizioni soggette a modifica nelle Giurisdizioni dell'Offerta Pubblica.

Conflitti di interesse più significativi

È possibile che l'Emittente e le società collegate partecipino a operazioni connesse agli Strumenti Finanziari nel proprio interesse o nell'interesse di un cliente. Tali operazioni possono non portare alcun vantaggio ai Portatori degli Strumenti Finanziari e possono avere effetti negativi o positivi sul valore del Sottostante e, di conseguenza, sul valore degli Strumenti Finanziari. Inoltre, l'Emittente potrebbe stipulare contratti di copertura dei rischi derivanti dagli Strumenti Finanziari con controparti costituite da società collegate. In tale situazione, potrebbero sorgere dei conflitti di interesse tra queste controparti e tra le controparti e gli investitori in relazione agli obblighi relativi alla determinazione del prezzo degli Strumenti Finanziari e agli altri calcoli associati.

È possibile che, nell'ambito dell'offerta e della vendita degli Strumenti Finanziari, l'Emittente o una delle sue società collegate versino, direttamente o indirettamente, commissioni di importo variabile a favore di terzi, tra cui distributori o consulenti per gli investimenti, oppure percepiscano da terzi, direttamente o indirettamente, commissioni di importo variabile, incluse quelle applicate alla distribuzione degli Strumenti Finanziari. Si rammenta ai potenziali investitori che l'Emittente può trattenere, in tutto o in parte, le commissioni.
