<sup>1</sup> Effective 1 January 2019, UBS AG refined the presentation of dividend income and expense. This resulted in a reclassification of dividends from *Interest income (expense) from financial instruments measured at fair value through profit or loss* into *Other net income from financial instruments measured at fair value through profit or loss* (prior to 1 January 2019: *Other net income from fair value changes on financial instruments*). *Net Interest Income* and *Other net income from financial instruments measured at fair value through profit or loss* for prior-year comparative was restated accordingly.

<sup>2</sup> Balance sheet information for year ended 31 December 2017 is derived from the Annual Report 2018.

<sup>3</sup> The leverage ratio denominators as of 30 June 2020 and 31 March 2020, which are used for the return calculation, do not reflect the effects of the temporary exemption that has been granted by FINMA in connection with COVID-19.

<sup>5</sup> The information as published in Swiss francs in the Annual Report 2017 for the period ended on 31 December 2017 (CHF 33,240 million) was audited.

<sup>6</sup> Within the context of the current COVID-19 pandemic and related measures adopted by governments and regulators, FINMA has permitted banks to temporarily exclude central bank sight deposits from the leverage ratio denominator for the purpose of calculating going concern ratios until 1 January 2021.

#### What are the key risks that are specific to the Issuer?

##### **Credit risk in relation to UBS AG as Issuer**

Each investor in securities issued by UBS AG as Issuer is exposed to the credit risk of UBS AG. The assessment of UBS AG's creditworthiness may be affected by a number of factors and developments. These include changes in market and macroeconomic conditions, credit risk exposure to clients and counterparties, results of claims, disputes, legal proceedings and government investigations, availability of funding sources, changes in the laws and regulations affecting financial institutions, heightened regulatory expectations and regulatory changes, and reputational damage and operational risks.

**If UBS experiences financial difficulties, FINMA has the power to open restructuring or liquidation proceedings or impose protective measures in relation to UBS Group AG, UBS AG or UBS Switzerland AG, and such proceedings or measures may have a material adverse effect on UBS's shareholders and creditors.**

If restructuring or liquidation proceedings are instituted against UBS AG, holders of securities may suffer a substantial or **total loss** on the securities.

#### Section C – Key Information on the Securities

##### What are the main features of the Securities?

Type and form of the Securities

The Securities are structured debt securities with no capital protection.

The Securities are issued in the form of bearer securities (§ 793 BGB) under German law. The contents (other than the form) of the Securities as well as all rights and duties arising from the Securities are governed by German law.

Objective of the Security is to provide the Securityholder with a specified entitlement according to predefined conditions. The Security has, unless redeemed early, a fixed lifetime and will become due on the Maturity Date.

In particular, the Redemption Amount, if any, to be received by the Securityholder upon exercise of the Securities depends on the performance of the Underlying. In detail:

The determination of how the Securities are settled, i.e. by way of payment of the Redemption Amount in the Redemption Currency and/or delivery of the Physical Underlying in the relevant number as well as how the Redemption Amount is calculated in accordance with the Conditions of these Securities, depends on whether or not a so-called Kick-In Event has occurred.

A Kick-In Event, occurs if the Settlement Price of the Underlying, is **equal to or lower than the respective Kick In Level**.

#### Payment at Maturity of the Express (Multi) Certificates / Early Redemption

**In case of the occurrence of an Early Redemption Event**, the Securities will expire early on the respective Early Expiration Date, and the Securityholder is entitled to receive the Early Settlement Amount in relation to the relevant Early Expiration Date in the Redemption Currency (the "**Early Redemption Amount**"). In such context, an Early Redemption Event, occurs if the Price of all Underlyings on the Early Redemption Observation Date is **equal to or higher than the respective Early Redemption Level**.

If the Express (Multi) Certificates did not expire early, the Securityholder has the following Security Right:

- (a) **If a Kick-In Event has not occurred**, the Securityholder is entitled to receive the Nominal Amount.
- (b) **If a Kick-In Event has occurred** and if the Settlement Price of all Underlyings, is **equal to or higher than the respective Redemption Level**, the Securityholder is entitled to receive on the Maturity Date the Nominal Amount.
- (c) **If a Kick-In Event has occurred** and if the Settlement Price of **at least one** Underlying, is **lower than the respective Redemption Level**, the Securityholder is entitled to receive on the Maturity Date a Redemption Amount in the Redemption Currency, the amount of which depends on the Settlement Price of the Relevant Underlying. This Redemption Amount is calculated by multiplying the Nominal Amount by the relevant performance of the Relevant Underlying.

#### Payment of Coupon Amount

In addition, the Securityholder is during the term of the Express (Multi) Certificates entitled to receive payment of a Coupon Amount:

The Securityholder is - provided that the UBS Memory Express Certificates did not expire early due to the occurrence of an Early Redemption Event and **that no Coupon Amount Default Event has occurred** - entitled to receive on the relevant Coupon Payment Date in relation to the preceding Coupon Period payment of the relevant Coupon Amount in the Redemption Currency. In case of the occurrence of a Coupon Amount Default Event during a Coupon Period, the Securityholder will not receive payment of the Coupon Amount in relation to the relevant Coupon Period. In such context, a Coupon Amount Default Event, occurs if the Price of the Underlying on the relevant Coupon Observation Date, is **below the Coupon Default Level**.

In case of the occurrence of a Coupon Amount Catch-up Event, the Securityholder will receive payment of the Coupon Amount in relation to the relevant Coupon Period and any preceding Coupon Period for which a Coupon Amount has not been paid due to the occurrence of a Coupon Amount Default Event.

The Issuer is entitled to terminate the Securities with immediate effect if an (extraordinary) termination event occurs. Examples of (extraordinary) termination events include the discontinuation of the determination/publication of the price of the Underlying or the occurrence of a change in law. In such case, the payable termination amount payable to Securityholders may be significantly lower than the capital invested by Securityholders for purchasing the Securities (including the transaction costs).

#### **Relative seniority of the Securities in the Issuer's capital structure in the event of insolvency**

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer, ranking *pari passu* among themselves and with all other present and future unsecured and unsubordinated obligations of the Issuer, other than obligations preferred by mandatory provisions of law.

#### **Restrictions on free transferability of the Securities**

The Securities are freely transferrable.

#### **Where will the Securities be traded?**

It is intended that application for listing of the Securities to trading on EuroTLX will be made.

#### **What are the key risks that are specific to the Securities?**

**The Securityholders are exposed to the risk of a bail-in.** In case FINMA as supervisory authority in respect of the Issuer exercises resolution measures against the Issuer and writes down or converts the Securities into common equity of the Issuer, Securityholders would have no further claim against the Issuer under the Securities.

**The Securities are not protected by any statutory or voluntary deposit guarantee scheme.** The Issuer's obligations under the Securities are not protected by any statutory or voluntary deposit protection scheme or compensation scheme. Further, no third party guarantees or commitments have been provided in respect of the Issuer's obligations under the Securities. Accordingly, in the event of insolvency of the Issuer, investors may thus experience **a total loss of their investment in the Securities.**

**Specific risks related to dependence on the Underlying.** The Redemption Amount payable in accordance with the Conditions of the Securities depends on the performance of the Underlyings. If a Kick In Event has occurred and in case the Settlement Price of the Relevant Underlying is lower than the respective Strike, the Redemption Amount could in case of an unfavorable performance of the Relevant Underlying even be equal to zero. **In such case, the Securityholder will suffer a total loss of the invested capital.**

**Specific risks related to the occurrence of an Early Redemption Event.** In case of the occurrence of an Early Redemption Event, all outstanding Securities are automatically terminated and redeemed early. In such case, Securityholders will receive a payment of the Early Redemption Amount, but will not be entitled to request any further payments on the Securities. In particular, Securityholders are not entitled to request payments of any further Coupon Amounts which would have otherwise potentially been due under the Securities in accordance with the Conditions of the Securities during the scheduled term of the Securities.

**Specific risks related to no further participation in the performance of the Underlying following the termination and early redemption of the Securities.** Potential investors should be aware that the Securities may in accordance with the Conditions of the Securities be terminated and redeemed early in a number of circumstances. In case of a termination and early redemption of the Securities prior to the Expiration Date, the Securityholder is entitled to demand the payment of an amount in the Redemption Currency in relation to this termination and early redemption. However, such amount can be considerably below the amount which would be payable at the scheduled end of the term of the Securities and, if it is lower than the invested capital, Securityholders may even suffer **a total loss of the invested capital.**

**Specific risks related to reinvestment.** The Securityholders bear the risk that the cash amount received by the Securityholder following the termination and early redemption of the Securities (if any) can be reinvested for a term comparable with the scheduled term of the Securities only at market conditions which are less favourable than those prevailing at the time of the acquisition of the Securities. As a result, the yield achieved by this reinvestment may be significantly lower than the return expected by the Securityholder with the purchase of the Securities.

**Specific risks in connection with linkage of payment of conditional Coupon Amounts to the performance of the Underlying.** Whether Securityholders are entitled to receive Coupon Amounts in accordance with the Conditions of the Securities depends on the performance of the Underlying. However, if a Coupon Amount Default Event occurs in respect of any Coupon Period, Securityholders are not entitled to receive payment of a Coupon Amount in respect of such Coupon Period. If a Coupon Amount Catch-up Event occurs in respect of any Coupon Period, Securityholders are entitled to receive payment of a Coupon Amount in relation to the relevant Coupon Period and any preceding Coupon Periods for which a Coupon Amount has not been paid due to the occurrence of a Coupon Amount Default Event. However, Securityholders cannot rely that, following the occurrence of a Coupon Amount Default Event, a Coupon Amount Catch-up Event would also occur. Therefore, Securityholders bear the risk that they do not receive payment of any Coupon Amounts in respect of the Securities.

**Specific risks related to currency exchange rates.** Potential investors should be aware that the Settlement Price of each Underlying determined on the basis of an Underlying Currency other than the Redemption Currency needs to be converted into the Redemption Currency by using a currency exchange rate fixed at the time of issuance of the Securities (so-called "quanto"-feature). Potential investors should be aware that there may be favourable developments in the value of the Underlying Currency against the Redemption Currency. Therefore, the "quanto"-feature of the Securities may preclude the investors from participating in such favourable developments (i.e., because the fixed currency exchange rate used for the purposes of valuing the Underlying in the Redemption Currency is less favourable than the currency exchange rate prevailing in the market at such time) and, therefore, reduce the value of the Securities.

**Specific risks related to the market price of the Securities.** Potential investors bear the risk that the market price of the Securities may fluctuate during the term of the Securities, including, without limitation, as a result of any changes in the performance of the Underlying or any changes in the volatility of the Underlying. Moreover, the value of the Securities may fall even in the event that the price of the Underlying remains constant or rise slightly. Conversely, the value of the Securities may remain constant or rise slightly even if the price of the Underlying decreases. Accordingly, Securityholders bear the risk that if they can sell any Securities prior to their due date, the sale proceeds may fall below (including significantly below) the amount of capital initially invested in the Securities and investors would then **lose some or all of the invested capital.**

**Specific risks related to the liquidity of the Securities.** Potential investors bear the risk that there is no liquid market for trading in the Securities. Due to their structured nature and linkage to the Underlying, the Securities would generally have a more limited secondary market than conventional debt securities. This means that they may not be able to sell the Securities at a time of their own choosing. This could, in turn, result in potential investors receiving a lower sale price than they would have received had a liquid market existed.

**Risk of fluctuations in the value of the Underlying.** Securityholders are subject to the risks related to the Underlying in respect of the Securities, whose performance is subject to fluctuations. Therefore, Securityholders cannot foresee the value of the Securities on a certain day in the future. Likewise, the historical data on the Underlying does not allow for any conclusions to be drawn about the future performance of the Underlying and the Securities. The Underlying may have only a short operating history or may have been in existence only for a short period of time and may deliver results over the longer term that may be lower than originally expected. When the Securities are redeemed, exercised or otherwise disposed of on a certain day, substantial losses in value might occur in comparison to a disposal at a later or earlier point in time. The more volatile the Underlying is, the less predictable the amount to be received by the Securityholders. In case of an unfavourable development of the price of the Underlying, the amount received by the Securityholders may be very low or even be equal to zero.

**Specific risks related to the unwinding of hedging transactions entered into by the Issuer.** If the Issuer enters into hedging transactions in connection with the Securities and such hedging transactions are unwound, this could have an impact on the price of the Underlying and, therefore, on any amounts payable to the Securityholders in respect of the Securities. In such cases, Securityholders could even **suffer a partial loss of the invested capital.**

**Specific risks related to potential conflicts of interest of the Issuer and its affiliates.** The Issuer and its affiliates may have commercial interests that conflict with those of the Securityholders (e.g. as a result of the Issuer's involvement in other transactions or the Issuer's existing business relationship with the issuer of the Underlying) and that may impact the value and/or trading of the Securities. In turn, this could result in Securityholders receiving less when selling any Securities they hold than they would have received but for such conflicts of interest and/or **even suffering a partial loss of the invested capital.**

**Specific risks related to hedging transactions entered into by Securityholders.** Because of the structured nature of the Securities, potential investors bear the risk that they may not be able to fully hedge the risks arising from the Securities. If any of the risks which potential investors have not been able to fully hedge materialise, potential investors could suffer **a loss of some or all of the invested capital**.

Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. ## Sezione C – Informazioni fondamentali sugli Strumenti Finanziari

### Quali sono le principali caratteristiche degli Strumenti Finanziari?

#### *Tipologia e forma degli Strumenti Finanziari*

Gli Strumenti Finanziari di ciascuna Serie sono titoli di debito strutturati che non assicurano la protezione del capitale. Gli Strumenti Finanziari saranno emessi sotto forma di titoli al portatore (Art. 793 del codice civile tedesco, BGB) ai sensi della legge tedesca.

Il contenuto (diversamente dalla forma) degli Strumenti Finanziari e tutti i diritti e gli obblighi derivanti dagli Strumenti Finanziari sono regolati dalla legge tedesca.

#### *Diritti connessi agli Strumenti Finanziari; profilo di pagamento alla scadenza prevista*

In particolare, l'eventuale Importo di Rimborso dovuto al Portatore all'esercizio degli Strumenti Finanziari dipende dall'andamento del Sottostante. Nello specifico:

La determinazione della modalità di regolamento degli Strumenti Finanziari, vale a dire mediante pagamento dell'Importo di Rimborso nella Valuta di Rimborso e/o consegna del Sottostante Fisico nella quantità dovuta nonché, in particolare, della modalità di calcolo dell'Importo di Rimborso in conformità alle Condizioni di detti Strumenti Finanziari, dipende dal fatto che si sia verificato o meno un cosiddetto Evento di Kick-In.

Un Evento Kick-In, si verifica se il Prezzo di Liquidazione del Sottostante, è **uguale o inferiore al rispettivo Livello Kick-In**.

#### **Pagamento alla scadenza degli Express (Multi) Certificates / Rimborso Anticipato**

**In caso in cui si verifichi un Evento di Rimborso Anticipato**, gli Strumenti Finanziari si estingueranno anticipatamente alla rispettiva Data di Rimborso Anticipato, e il Portatore avrà diritto a ricevere l'Importo di Rimborso Anticipato relativo alla rispettiva Data di Rimborso Anticipato nella Valuta di Rimborso (l' "**Importo di Rimborso Anticipato**"). A tal riguardo, Evento di Rimborso Anticipato si verifica se il prezzo di tutti i Sottostanti alla Data di Osservazione di Rimborso Anticipato è **pari o superiore al Livello di Rimborso Anticipato**. Nel caso in cui gli Express (Multi) Certificates non si estinguano anticipatamente, il Portatore vanterà il seguente Diritto connesso al Titolo:

- Nel caso in cui non si verifichi un Evento Kick-In**, l'investitore ha diritto a ricevere il Valore Nominale.
- Nel caso in cui si verifichi un Evento Kick-In** e se il Prezzo di Liquidazione di tutti i Sottostanti, è **uguale o superiore al Livello di Rimborso**, il Portatore ha diritto a ricevere alla Data di Scadenza il Valore Nominale.
- Nel caso in cui si verifichi un Evento Kick-In** e se il Prezzo di Liquidazione di **almeno un Sottostante**, è **inferiore al Livello di Rimborso**, il Portatore ha diritto a ricevere alla Data di Scadenza un Importo di Rimborso nella Valuta di Rimborso, il cui ammontare dipende dal Prezzo di Liquidazione del Sottostante Rilevante, secondo quanto specificato nelle Condizioni del Prodotto. L'Importo di Rimborso è calcolato moltiplicando il Valore Nominale per la relativa performance del Sottostante Rilevanti.

#### **Pagamento della Cedola**

Inoltre, nel corso della durata degli Express (Multi) Certificates, il Portatore ha diritto a ricevere il pagamento di una Cedola.

Il Portatore – a condizione che gli Memory Express Certificates non siano estinti anticipatamente per il verificarsi di un Evento di Rimborso Anticipato e **che non si sia verificato un Evento di Default della Cedola** – ha diritto a ricevere, nella rispettiva Data di Pagamento della Cedola relativa al precedente Periodo della Cedola, il pagamento della relativa Cedola nella Valuta di Rimborso. Nel caso in cui si verifichi un Evento di Default della Cedola durante un Periodo della Cedola, il Portatore non riceverà il pagamento della Cedola relativa allo specifico Periodo della Cedola. A tal riguardo, un Evento di Default della Cedola, si verifica se il Prezzo del Sottostante nella rispettiva Data di Osservazione della Cedola, è **inferiore al Livello di Default della Cedola**.

In caso di Evento di Recupero della Cedola, il Portatore riceverà il pagamento della Cedola relativa al rispettivo Periodo Cedolare e a qualsiasi precedente Periodo Cedolare in relazione a cui non è stata pagata alcuna Cedola a causa del verificarsi di un Evento di Default della Cedola.

<p>L'Emittente intende presentare domanda di ammissione alla negoziazione degli Strumenti Finanziari sul sistema EuroTLX gestito dalla TLX S.p.A .</p>
<p><b>Quali sono i principali rischi specifici degli Strumenti Finanziari?</b></p>
<p><b><i>I Portatori degli Strumenti Finanziari sono esposti al rischio di bail-in.</i></b> Qualora la FINMA, nelle sue funzioni di autorità di vigilanza dell'Emittente, dovesse esercitare misure di risoluzione nei confronti di quest'ultimo e procedesse alla svalutazione o alla conversione degli Strumenti Finanziari in azioni ordinarie dell'Emittente, il Portatore degli Strumenti Finanziari non potrebbe più far valere nei confronti dell'Emittente i diritti associati agli Strumenti Finanziari.</p> <p><b>Gli Strumenti Finanziari non sono assistiti da alcun sistema di garanzia o tutela dei depositi, obbligatorio o volontario.</b> Le obbligazioni che sorgono in capo all'Emittente in relazione agli Strumenti Finanziari non sono assistite da alcun sistema di tutela dei depositi, obbligatorio o volontario, né da un sistema di indennizzo. Non sono altresì stati forniti impegni o garanzie di terzi in relazione agli obblighi dell'Emittente riguardanti gli Strumenti Finanziari. Di conseguenza, in caso di insolvenza dell'Emittente, gli investitori sono pertanto esposti al rischio di <b>perdita totale del loro investimento negli Strumenti Finanziari.</b></p> <p><b><i>Rischi specifici relativi alla dipendenza dal Sottostante.</i></b> L'Importo di Rimborso dovuto in base alle Condizioni degli Strumenti Finanziari dipende dalla performance del Sottostante dei Sottostanti. Se si è verificato un Evento di Kick-In e se il Prezzo di Liquidazione del Relativo Sottostante è inferiore al rispettivo Strike, l'Importo di Rimborso, in caso di performance sfavorevole del Relativo Sottostante, potrebbe addirittura essere pari a zero. <b>In tale ipotesi, il Portatore degli Strumenti Finanziari subirebbe la perdita totale del capitale investito.</b></p> <p><b><i>Rischi specifici relativi al verificarsi di un Evento di Rimborso Anticipato</i></b> Qualora si verifichi un Evento di Rimborso Anticipato, tutti gli Strumenti Finanziari in circolazione scadranno in automatico e saranno rimborsati anticipatamente. In tale ipotesi, il Portatore degli Strumenti Finanziari riceverà il pagamento dell'Importo di Rimborso Anticipato, ma non potrà pretendere il pagamento di ulteriori importi relativi agli Strumenti Finanziari. In particolare, il Portatore degli Strumenti Finanziari non può pretendere il pagamento di ulteriori importi delle Cedole cui diversamente avrebbe diritto in relazione agli Strumenti Finanziari, in base alle relative Condizioni, nel corso della durata naturale degli Strumenti Finanziari.</p> <p><b><i>Rischi specifici relativi alla mancata partecipazione alla performance del Sottostante in seguito all'estinzione e al rimborso anticipato degli Strumenti Finanziari.</i></b> Si fa presente ai potenziali investitori che, in conformità alle Condizioni, in alcune circostanze gli Strumenti Finanziari possono essere oggetto di estinzione e di rimborso anticipato. In caso di estinzione e rimborso anticipato degli Strumenti Finanziari prima della Data di Scadenza, il Portatore degli Strumenti Finanziari potrà pretendere il pagamento di un importo nella Valuta di Rimborso in relazione a tale estinzione e rimborso anticipato. Tuttavia, tale importo potrebbe essere significativamente inferiore all'importo che sarebbe dovuto alla scadenza naturale degli Strumenti Finanziari e, se risulterà inferiore al capitale investito, il Portatore potrà addirittura incorrere nella <b>perdita totale del capitale investito.</b></p> <p><b><i>Rischi specifici relativi al reinvestimento.</i></b> Il Portatore è esposto al rischio che l'eventuale liquidità incassata in seguito all'estinzione e al rimborso anticipato degli Strumenti Finanziari possa essere reinvestita per un periodo corrispondente alla durata naturale degli Strumenti Finanziari a condizioni di mercato meno favorevoli rispetto a quelle prevalenti al momento dell'acquisto degli Strumenti Finanziari. Di conseguenza, il tasso di rendimento ottenuto con il reinvestimento potrebbe essere decisamente inferiore al rendimento atteso dal Portatore al momento dell'acquisto degli Strumenti Finanziari. Inoltre, la probabilità di perdere gli importi così reinvestiti può essere decisamente più elevata.</p> <p><b><i>Rischi specifici connessi al legame tra il pagamento di Importi delle Cedole subordinati a condizioni e la performance del Sottostante.</i></b> Il fatto che il Portatore degli Strumenti Finanziari abbia o meno diritto, in base alle Condizioni degli Strumenti Finanziari, a incassare gli Importi delle Cedole dipende dalla performance del Sottostante. Tuttavia, qualora durante un Periodo della Cedola si verifichi un Evento di Mancato Pagamento dell'Importo della Cedola, il Portatore non avrà diritto a percepire l'Importo della Cedola corrispondente a tale Periodo della Cedola. Qualora si verifichi un Evento di Recupero dell'Importo della Cedola in relazione a un Periodo della Cedola, il Portatore avrà diritto al pagamento di un Importo della Cedola corrispondente al relativo Periodo della Cedola e a ogni precedente Periodo della Cedola per il quale un Importo della Cedola non sia stato pagato a causa di un Evento di Mancato Pagamento dell'Importo della Cedola. Tuttavia, il Portatore non può avere la certezza che, dopo un Evento di Mancato Pagamento dell'Importo della Cedola, si verifichi anche un Evento di Recupero dell'Importo della Cedola. Pertanto, il Portatore degli Strumenti Finanziari è esposto al rischio di non ottenere il pagamento di alcun Importo della Cedola in relazione agli Strumenti Finanziari.</p> <p><b><i>Rischi specifici relativi ai tassi di cambio.</i></b> Si fa presente ai potenziali investitori che il Prezzo di Liquidazione di ciascun Sottostante calcolato sulla base di una Valuta Sottostante diversa dalla Valuta di Rimborso deve essere convertito nella Valuta di Rimborso al tasso di cambio stabilito al momento dell'emissione degli Strumenti Finanziari (la cosiddetta condizione "Quanto"). Si fa presente ai potenziali investitori che il valore della Valuta Sottostante rispetto alla Valuta di Rimborso può variare in modo sfavorevole. Pertanto, la cosiddetta condizione "Quanto" degli Strumenti Finanziari può impedire all'investitore di partecipare a tali variazioni sfavorevoli (in quanto il tasso di cambio fisso utilizzato ai fini della valutazione del Sottostante nella Valuta di Rimborso è meno sfavorevole del tasso di cambio prevalente sul mercato in quel momento) e, di conseguenza, può determinare una riduzione di valore degli Strumenti Finanziari.</p> <p><b><i>Rischi specifici relativi al prezzo di mercato degli Strumenti Finanziari.</i></b> I potenziali investitori sono esposti al rischio di oscillazioni del prezzo di mercato degli Strumenti Finanziari nel corso della vita degli stessi, ivi incluso, in via non limitativa, a seguito di variazioni nella performance del Sottostante o della volatilità del Sottostante. Inoltre, il valore degli Strumenti Finanziari può diminuire anche qualora il prezzo del Sottostante dovesse rimanere costante o aumentare leggermente. Per contro, il valore degli Strumenti Finanziari</p>

può rimanere costante o aumentare leggermente anche qualora il prezzo del Sottostante dovesse diminuire. Di conseguenza, il Portatore è esposto al rischio che, qualora dovesse riuscire a vendere degli Strumenti Finanziari prima della rispettiva scadenza, i proventi della vendita potrebbero essere inferiori (anche in misura significativa) all'ammontare del capitale inizialmente investito negli Strumenti Finanziari, e in tal caso l'investitore potrebbe **perdere il capitale investito in parte o nella sua interezza**.

**Rischi specifici relativi alla liquidità degli Strumenti Finanziari.** I potenziali investitori sono esposti al rischio che non vi sia un mercato liquido per la negoziazione degli Strumenti Finanziari. A causa della loro natura strutturata e del loro legame con il Sottostante, gli Strumenti Finanziari possono in genere avere un mercato secondario più limitato rispetto ai titoli di debito di tipo convenzionale. Ciò potrebbe comportare l'impossibilità di vendere gli Strumenti Finanziari nel momento prescelto. Questo, a sua volta, potrebbe far sì che i potenziali investitori ottengano un prezzo di vendita inferiore a quanto avrebbero potuto percepire in presenza di un mercato liquido.

**Rischio di oscillazioni del valore del Sottostante.** Il Portatore degli Strumenti Finanziari è esposto ai rischi relativi al Sottostante in relazione agli Strumenti Finanziari, la cui performance è soggetta a oscillazioni. Pertanto, il Portatore degli Strumenti Finanziari non può prevedere il valore degli Strumenti Finanziari a una certa data futura. Allo stesso modo, i dati storici relativi al Sottostante non consentono di trarre conclusioni sulla futura performance del Sottostante e degli Strumenti Finanziari. Il Sottostante potrebbe avere uno storico operativo limitato o potrebbe esistere solo da un breve periodo di tempo e i suoi risultati nel lungo periodo potrebbero essere inferiori a quanto inizialmente previsto. Al momento del riscatto, dell'esercizio o comunque della cessione degli Strumenti Finanziari a una certa data, potrebbero verificarsi perdite sostanziali di valore rispetto alla cessione effettuata in un momento precedente o successivo. Più il Sottostante è volatile, meno prevedibile sarà l'importo che il Portatore degli Strumenti Finanziari potrà ricevere. In caso di andamento sfavorevole del prezzo del Sottostante, l'importo ricevuto dal Portatore degli Strumenti Finanziari **potrebbe essere molto basso o addirittura azzerarsi**.

**Rischi specifici relativi a potenziali conflitti di interesse dell'Emittente e delle sue società collegate.** L'Emittente e le sue società collegate potrebbero avere interessi commerciali in conflitto con quelli del Portatore (incluso, a titolo esemplificativo, in conseguenza del coinvolgimento dell'Emittente in altre operazioni o della relazione d'affari in essere tra l'Emittente e l'emittente del Sottostante) che potrebbero avere un impatto sul valore e/o sulla negoziazione degli Strumenti Finanziari. A sua volta, ciò potrebbe far sì che il Portatore ottenga dalla vendita degli Strumenti Finanziari in suo possesso un importo inferiore a quanto avrebbe potuto percepire in assenza di tali conflitti di interesse e/o che possa addirittura subire una perdita parziale del capitale investito.

**Rischi specifici relativi all'estinzione di operazioni di copertura stipulate dall'Emittente.** Se l'Emittente stipula operazioni di copertura in relazione agli Strumenti Finanziari, l'eventuale estinzione di tali operazioni di copertura potrebbe avere un impatto sul prezzo del Sottostante e, pertanto, su eventuali importi spettanti al Portatore in relazione agli Strumenti Finanziari. In tale ipotesi, il Portatore degli Strumenti Finanziari potrebbe anche **subire una perdita parziale del capitale investito**.

###### **Conflitti di interesse più significativi**

È possibile che l'Emittente e le società collegate partecipino a operazioni connesse agli Strumenti Finanziari nel proprio interesse o nell'interesse di un cliente. Tali operazioni possono non portare alcun vantaggio ai Portatori degli Strumenti Finanziari e possono avere effetti negativi o positivi sul valore del Sottostante e, di conseguenza, sul valore degli Strumenti Finanziari. Inoltre, l'Emittente potrebbe stipulare contratti di copertura dei rischi derivanti dagli Strumenti Finanziari con controparti costituite da società collegate. In tale situazione, potrebbero sorgere dei conflitti di interesse tra queste controparti e tra le controparti e gli investitori in relazione agli obblighi relativi alla determinazione del prezzo degli Strumenti Finanziari e agli altri calcoli associati.

È possibile che, nell'ambito dell'offerta e della vendita degli Strumenti Finanziari, l'Emittente o una delle sue società collegate versino, direttamente o indirettamente, commissioni di importo variabile a favore di terzi, tra cui distributori o consulenti per gli investimenti, oppure percepiscano da terzi, direttamente o indirettamente, commissioni di importo variabile, incluse quelle applicate alla distribuzione degli Strumenti Finanziari. Si rammenta ai potenziali investitori che l'Emittente può trattenere, in tutto o in parte, le commissioni.
