ETC on UBS CMCI Copper TR Index (USD)

Key benefits

- UBS ETCs offer a high degree of transparency, cost efficiency and 1:1 index tracking less the management fee
- Clients can benefit from daily exchange liquidity at the exchange (SIX SP)
- CMCI indices are invested across the entire futures curve and therefore allow a better diversification over the liquid maturities
- CMCI indices use an intelligent roll process that can reduce negative roll effects in a contango situation

Key risks

- The investor may lose some or all of the investment
- Each investor bears the general risk that the financial situation of the issuer could deteriorate. In case of insolvency of the issuer, the products constitute immediate, unsecured and unsubordinated obligations of the issuer
- Currency hedged ETCs are exposed to exchange rate risks, as the performance of the USD index is converted into the currency of the ETC on a monthly basis

This material has been prepared by UBS AG or one of its affiliates ("UBS"). This material is only intended for the distribution permitted under the applicable law. It has not been prepared for the needs of a specific recipient. It is only published for information purposes and does not constitute an offer or an invitation to purchase or sell securities or associated financial instruments ("Instruments"). UBS accepts no liability (either expressly or tacitly) for the completeness or reliability of the information contained in this document, except for the information on UBS AG and its affiliates. The information should not be regarded by the recipients as a substitute for their own judgment. All the opinions contained herein may change without prior notice and contradict the opinions of other business areas of UBS due to the application of different assumptions and criteria. UBS is not obliged to keep the information up to date. UBS, its executives, employees or clients may have or have had a participation in the Instruments and may conclude transactions with them at any time. UBS may maintain or have maintained a relationship with the entities specified in this information. Neither UBS nor its affiliates, executives or employees are liable for losses resulting from the use of this information.

Structured derivatives do not constitute participation in collective investment schemes. For this reason they do not require approval from the Swiss Financial Market Supervisory Authority (FINMA). As a result, investors are not entitled to the specific investor protection provided by the Swiss Collective Investment Schemes Act (CISA).

Structured products are complex and involve a high risk. The intrinsic value of the investment instruments depends not only on the performance of the underlying asset, but also on the issuer's creditworthiness (credit risk), which can change over the duration of the product. In relation to any securities, currencies, financial instruments or other assets underlying a transaction to which this material relates, the values may fall as well as rise and past performance is not an indication of future performance. Before entering into any transaction, you should consult your own legal, supervisory, tax, financial and accounting advisors as you consider necessary. You should also make your own investment, hedging and trading decisions (including decisions regarding the suitability of this transaction) at your own discretion and based on your consultation with advisors as you consider necessary. Unless expressly agreed otherwise in writing, UBS does not act as financial advisor or fiduciary in any transaction. The terms and conditions of an investment are subject solely to the detailed provisions, including risk considerations, contained in the relevant product documentation. The product documentation, i.e. the prospectus and the Key Information Document (KID), can be obtained from the website keyinvest.ch.en.ubs.com, by entering the relevant security / ISIN. Before you invest in a product, please read the current prospectus and the Key Information Document (KID) carefully and thoroughly. UBS makes no representations or warranties with regard to any information contained herein, which originates from independent sources. This publication may not be copied or reproduced without UBS's prior written permission.

This document does not constitute an offer of services in jurisdictions where MerQube Inc., and affiliates (collectively "MerQube") do not have the necessary licenses. All information provided by MerQube is impersonal and not tailored to the needs of any person, entity or group of persons. MerQube receives compensation in connection with licensing its indices to third parties and providing custom calculation services. Past performance of an index is not an indication or guarantee of future results.

It is not possible to invest directly in an index. Exposure to an asset class represented by an index is available through investable instruments based on that index. MerQube does not sponsor, endorse, sell, promote or manage any investment fund or other investment vehicle that is offered by third parties and that seeks to provide an investment return based on the performance of any index. MerQube makes no assurance that investment products based on the index will accurately track index performance or provide positive investment returns. MerQube, Inc. is not an investment advisor, and MerQube makes no representation regarding the advisability of investing in any such investment fund or other investment vehicle. A decision to invest in any such investment fund or other investment vehicle should not be made in reliance on any of the statements set forth in this document. Prospective investors are advised to make an investment in any such fund or other vehicle only after carefully considering the risks associated with investing in such funds, as detailed in an offering memorandum or similar document that is prepared by or on behalf of the issuer of the investment fund or other investment product or vehicle. Closing prices for indices are calculated by MerQube based on the closing price of the individual constituents of the index as set by their primary exchange. Closing prices are received by MerQube from one of its third-party vendors and verified by comparing them with prices from an alternative vendor. The vendors receive the closing price from the primary exchanges.
