Supplement No. 3 pursuant to § 16 (1) of the German Securities Prospectus Act dated 20 August 2015 to the already published tripartite Prospectus comprising the Summary and Securities Note dated 17 February 2015 for the issuance of UBS Open End Certificates linked to the UBS Risk Adjusted Dynamic Alpha (RADA) Net Total Return Index (EUR) on EURO STOXX 50® Index (ISIN CH0188195264) and the Registration Document dated 16 April 2015
Supplement No. 2 pursuant to § 16 (1) of the German Securities Prospectus Act dated 20 August 2015 to the already published tripartite Prospectus comprising the Summary and Securities Note dated 27 April 2015 for the issuance of UBS Memory (Multi) Express Certificates (ISIN DE000UZ59NT9) and the Registration Document dated 16 April 2015
Supplement No. 2 pursuant to § 16 (1) of the German Securities Prospectus Act dated 20 August 2015 to the already published Base Prospectus dated 11 May 2015 for the issue of Warrants
Supplement No. 1 pursuant to § 16 (1) of the German Securities Prospectus Act dated 20 August 2015 to the already published tripartite Prospectus comprising the Summary and Securities Note dated 4 June 2015 for the issuance of UBS Memory Express Certificates (ISIN DE000OUT012S1)

Supplement No. 1 pursuant to § 16 (1) of the German Securities Prospectus Act

dated 20 August 2015 to the already published tripartite Prospectus comprising the Summary and Securities Note dated 4 June 2015 for the issuance of UBS Memory Express Certificates (ISIN DE000UT1KES3)

Supplement No. 2 pursuant to § 16 (1) of the German Securities Prospectus Act

dated 20 August 2015 to the already published Base Prospectus dated 1 June 2015 for the issue of Securities

Supplement No. 1 pursuant to § 16 (1) of the German Securities Prospectus Act

dated 20 August 2015 to the already published Base Prospectus dated 17 July 2015 for the issue of Fixed Income Securities (Cash)

This supplement serves as update to the Registration Document, the Base Prospectuses and the Prospectuses mentioned above in connection to the following occurrence:

Confirmation of UBS AG's long-term senior debt rating from Moody's on 8 July 2015 and publication of the second quarter financial report as per 30 June 2015 of UBS Group AG on 28 July 2015 and of UBS AG on 31 July 2015.

In the course of supplementing the Registration Document, the Base Prospectuses or the Prospectuses, as mentioned above, UBS AG has also taken the occasion to update in this Supplement certain updated information that has become available after the date of the Registration Document, the Base Prospectuses and the Prospectuses, as mentioned above.

The following table shows the updated information that has become available after the date of the Registration Document, Base Prospectuses and Prospectuses, as mentioned above, and the revisions that have been made as a result thereof.

Updated information	Revisions
Certain information regarding UBS AG have been updated.	The information in the Elements B.4b, B.5, B.12, B.15, B.16 and B.17 of the Summary as well as the relevant sections/paragraphs of the Registration Document have been updated pursuant to the second quarter financial report as well as the change of the outlook of the Issuer's long-term senior debt rating issued by Moody's on 8 July 2015.
Risk Factors	A risk factor has been added to the sections headed "C. Risk Factors" and in the relevant section of the summary both in English and German language

The attention of the investors is in particular drawn to the following: Investors who have already agreed to purchase or subscribe for the Notes, Certificates, Bonds or Securities, as the case may be, before this supplement is published have, pursuant to § 16 (3) of the German Securities Prospectus Act, the right, exercisable within a time limit of two working days after the publication of this supplement, to withdraw their acceptances, provided that the new circumstances or the incorrectness causing the supplement occurred before the closing of the public offering and before the delivery of the securities. A withdrawal, if any, of an order must be communicated in writing to the Issuer at its registered office specified in the address list hereof.

- 1) In relation to the Registration Document as listed introductory on page 1 the following adjustments have been made:

In the section headed "III. Risk Factors" the first sentence of the second subparagraph (page 4 of the Registration Document) is replaced as follows:

"As a global financial services provider, the business activities of UBS AG ("**Issuer**") with its subsidiaries (together, "**UBS AG Group**" or "**UBS AG (consolidated)**") and together with UBS Group AG, the holding company of UBS AG, "**UBS Group**", or "**Group**" or "**UBS**" or "**UBS Group AG (consolidated)**") are affected by certain risks, including those described below, which may impact UBS's ability to execute its strategy and affect its business activities, financial condition, results of operations and prospects."

In the section headed "IV. Information about UBS AG" the second and third subparagraphs (page 23, et seq., of the Registration Document) are completely replaced by the following text:

"On 30 June 2015, UBS AG (consolidated) common equity tier 1 capital ratio¹ was 15.6 % on a fully applied basis and 18.5 % on a phase-in basis, invested assets stood at CHF 2,628 billion and equity attributable to UBS AG shareholders was CHF 51,685 million. On the same date, UBS AG Group employed 59,648 people².

On 30 June 2015, UBS Group AG (consolidated) common equity tier 1 capital ratio¹ was 14.4 % on a fully applied basis and 18.2 % on a phase-in basis, invested assets stood at CHF 2,628 billion, equity attributable to UBS Group AG shareholders was CHF 50,211 million and market capitalization was CHF 74,547 million. On the same date, UBS employed 59,648 people²."

Furthermore the last sentence of the fourth subparagraph has been replaced as follows:

"UBS AG has long-term counterparty credit rating of A (stable outlook) from Standard & Poor's, long-term senior debt rating of A2 (stable outlook) from Moody's and long-term issuer default rating of A (stable outlook) from Fitch Ratings."

In the section headed "V. Business Overview" the subparagraph headed "Recent Developments" (page 27, et seq., of the Registration Document) is completely replaced by the following text:

1. UBS AG (consolidated) key figures

UBS AG derived the selected consolidated financial information included in the table below for the years ended 31 December 2012, 2013 and 2014 from its annual report 2014, which contains the audited consolidated financial statements of UBS AG, as well as additional unaudited consolidated financial information, for the year ended 31 December 2014 and comparative figures for the years ended 31 December 2013 and 2012. The selected consolidated financial information included in the table below for the six months ended 30 June 2015 and 30 June 2014 was derived from the second quarter 2015 report, which contains the unaudited consolidated financial statements of UBS AG, as well as additional unaudited consolidated financial information, for the six months ended 30 June 2015 and comparative figures for the six months ended 30 June 2014. The consolidated financial

¹ Based on the Basel III framework as applicable to Swiss systemically relevant banks. The common equity tier 1 capital ratio is the ratio of common equity tier 1 capital to risk-weighted assets. The information provided on a fully applied basis entirely reflects the effects of the new capital deductions and the phase out of ineligible capital instruments. The information provided on a phase-in basis gradually reflects those effects during the transition period. For information as to how common equity tier 1 capital is calculated, refer to the section "Capital management" in the second quarter 2015 financial report of UBS Group AG.

² Full-time equivalents.

statements were prepared in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and stated in Swiss francs (CHF). The annual report 2014 and the second quarter 2015 report are incorporated by reference herein. In the opinion of management, all necessary adjustments were made for a fair presentation of the UBS AG consolidated financial position and results of operations. Information for the years ended 31 December 2012, 2013 and 2014 which is indicated as being unaudited in the below table was included in the annual report 2014 but has not been audited on the basis that the respective disclosures are not required under IFRS, and therefore are not part of the audited financial statements. As described in more detail in Note 1b to the consolidated financial statements contained in the annual report 2014, certain information which was included in the consolidated financial statements to the annual report 2013 was restated in the annual report 2014. The figures contained in the below table in respect of the year ended 31 December 2013 reflect the restated figures as contained in the annual report 2014. Prospective investors should read the whole of this document and the documents incorporated by reference herein and should not rely solely on the summarized information set out below:

¹ Net profit / loss attributable to UBS AG shareholders before amortization and impairment of goodwill and intangible assets (annualized as applicable) / average equity attributable to UBS AG shareholders less average goodwill and intangible assets. ² Operating income before credit loss (expense) or recovery (annualized as applicable) / average total assets. ³ Operating expenses / operating income before credit loss (expense) or recovery. ⁴ Change in net profit attributable to UBS AG shareholders from continuing operations between current and comparison periods / net profit attributable to UBS AG shareholders from continuing operations of comparison period. Not meaningful and not included if either the reporting period or the comparison period is a loss period. ⁵ Combined Wealth Management's and Wealth Management Americas' net new money for the period (annualized as applicable) / invested assets at the beginning of the period. Based on adjusted net new money which excludes the negative effect on net new money of CHF 6.6 billion in Wealth Management from UBS's balance sheet and capital optimization efforts in the second quarter of 2015. ⁶ Common equity tier 1 capital / risk-weighted assets. ⁷ Based on the Basel III framework as applicable to Swiss systemically relevant banks (SRB), which became effective in Switzerland on 1 January 2013. The information provided on a fully applied basis entirely reflects the effects of the new capital deductions and the phase out of ineligible capital instruments. The information provided on a phase-in basis gradually reflects those effects during the transition period. Numbers for 31 December 2012 are calculated on an estimated basis described below and are referred to as "pro-forma". Some of the models applied when calculating 31 December 2012 pro-forma information required regulatory approval and included estimates (as discussed with UBS's primary regulator) of the effect of new capital charges. These figures are not required to be presented, because Basel III requirements were not in effect on 31 December 2012. They are nevertheless included for comparison reasons. ⁸ Common equity tier 1 capital and loss-absorbing capital / total adjusted exposure (leverage ratio denominator). ⁹ In accordance with Swiss SRB rules. The Swiss SRB leverage ratio came into force on 1 January 2013. Numbers for 31 December 2012 are on a pro-forma basis (see footnote 7 above). ¹⁰ Net profit / loss attributable to UBS AG shareholders (annualized as applicable) / average equity attributable to UBS AG shareholders. ¹¹ Based on Basel III risk-weighted assets (phase-in) for 2015, 2014 and 2013, and on Basel 2.5 risk-weighted assets for 2012. ¹² Includes invested assets for Retail & Corporate.

2. Changes to UBS's legal structure

UBS has undertaken a series of measures to improve the resolvability of the Group in response to too big to fail requirements in Switzerland and other countries in which the Group operates.

In June 2015, UBS transferred its Retail & Corporate and Wealth Management business booked in Switzerland from UBS AG to UBS Switzerland AG. As of the transfer date, 14 June 2015, UBS Switzerland AG had over CHF 300 billion in assets, 2.7 million customers and 11,000 employees. Under the terms of the asset transfer agreement, UBS Switzerland AG is jointly liable for the contractual obligations of UBS AG existing on the asset transfer date. Under the Swiss Merger Act, UBS AG is jointly liable for obligations existing on the asset transfer date that have been transferred to UBS Switzerland AG. Neither UBS AG nor UBS Switzerland AG has any liability for new obligations incurred by the other entity after the asset transfer date. Accordingly, any new contractual obligations of UBS AG, including in connection with debt instruments of any kind with a settlement date occurring only after the asset transfer date, are not covered by UBS Switzerland AG's contractual joint liability. Under certain circumstances, the Swiss Banking Act and the bank insolvency ordinance of FINMA authorize FINMA to modify, extinguish or convert to common equity the liabilities of a bank in connection with a resolution or insolvency of such bank.

UBS Group AG filed a request with the Commercial Court of the Canton of Zurich for a procedure under article 33 of the Swiss Stock Exchange Act (the "SESTA procedure"). The time allotted for UBS AG minority shareholders to intervene in the SESTA procedure closed on 14 July 2015 without any application for intervention being filed. UBS therefore expects the court to rule on the proceeding during the third quarter of 2015. Upon successful completion of the SESTA procedure, the shares of the remaining minority shareholders of UBS AG will be cancelled and the holders will receive UBS Group AG shares. UBS Group AG will then become the 100% owner of UBS AG. After the SESTA procedure is completed, UBS expects to pay a supplementary capital return of CHF 0.25 per share to shareholders of UBS Group AG.

During the second quarter of 2015, UBS completed the implementation of a more self-sufficient business and operating model for UBS Limited under which UBS Limited bears and retains a larger proportion of the risk and reward in its business activities.

To comply with new rules for foreign banks in the US under the Dodd-Frank Act, by 1 July 2016 UBS will designate an intermediate holding company that will own all of UBS's US operations except US branches of UBS AG.

In the third quarter of 2015, UBS intends to establish a Group service company as a subsidiary of UBS Group AG. UBS expects that the transfer of shared service and support functions to the service company structure will start in 2015 and will be implemented in a staged approach through 2018. The purpose of the service company structure is to improve the resolvability of the Group by enabling UBS to maintain operational continuity of critical services should a recovery or resolution event occur.

UBS's strategy, its business and the way it serves the vast majority of its clients are not affected by these changes. These plans do not require UBS to raise additional common equity capital and are not expected to materially affect the firm's capital-generating capability.

UBS is confident that the establishment of UBS Group AG and UBS Switzerland AG, along with UBS's other announced measures will substantially enhance the resolvability of the Group. UBS expects that the Group will qualify for a rebate on the progressive buffer capital requirement applicable to Swiss systemically relevant banks, which should result in lower overall capital requirements for the Group. FINMA has confirmed that UBS's announced measures are in principle suitable to warrant a rebate, although the amount and timing of any such rebate will depend on the actual execution of these measures and can therefore only be specified once all measures are implemented.

UBS continues to consider further changes to the Group's legal structure in response to capital and other regulatory requirements and in order to obtain any reduction in capital requirements for which the Group may be eligible. Such changes may include the transfer of operating subsidiaries of UBS AG to become direct subsidiaries of UBS Group AG and adjustments to the booking entity or location of products and services. These structural changes are being discussed on an ongoing basis with FINMA and other regulatory authorities and remain subject to a number of uncertainties that may affect their feasibility, scope or timing.

3. FINMA provides further guidance on the internal ratings-based multiplier

During 2012, FINMA began requiring banks using the internal ratings-based ("IRB") approach to apply a bank-specific IRB multiplier when calculating risk-weighted assets ("RWA") for owner-occupied Swiss residential mortgages. The entire owner-occupied Swiss residential mortgage portfolio is subject to this multiplier, which is being phased in through 2019.

The Basel Committee on Banking Supervision ("BCBS") is considering substantive changes to the standardized approach and a capital requirement floor based on the standardized approach. Against this background, FINMA has extended the multiplier approach to Swiss income-producing residential and commercial real estate ("IPRE"), as well as to credit exposure in the Basel II asset class "corporate" for the Investment Bank. The multipliers are

designed to be applied to the corresponding exposures starting with the first quarter of 2015 for IPRE and the second quarter of 2015 for investment bank corporates, and will increase over time and reach full implementation by December 2018.

Assuming no change in portfolio size or other characteristics, UBS expects these multipliers to result in an aggregate increase in RWA of CHF 5 to 6 billion each year from 2015 through 2018 and CHF 2 billion in 2019. Furthermore, FINMA has introduced a model moratorium under which it will restrict the approval of adjustments to IRB models. FINMA has requested that UBS discloses further information about standardized approach and internal model-based RWA calculations from year-end 2015."

The paragraph headed "VI. Organisational Structure of the Issuer" (page 31 of the Registration Document) is completely replaced as follows:

UBS AG is a Swiss bank. It is the sole subsidiary of UBS Group AG. It is also the parent company of the UBS AG Group.

UBS has undertaken a series of measures to improve the resolvability of the Group in response to too big to fail requirements in Switzerland and other countries in which the Group operates, including the establishment in 2014 of UBS Group AG as the holding company of the Group.

As of 30 June 2015, UBS Group held 97.8% of total UBS AG shares issued and 98.1% of UBS AG shares registered in the commercial register. UBS Group AG filed a request with the Commercial Court of the Canton of Zurich for a procedure under article 33 of the Swiss Stock Exchange Act ("SESTA procedure"). Upon successful completion of the SESTA procedure, the shares of the remaining minority shareholders of UBS AG will be cancelled and the holders will receive UBS Group AG shares. UBS Group AG will then become the 100% owner of UBS AG. UBS Group AG expects the court to rule on the proceeding during the third quarter of 2015.

In June 2015, UBS AG transferred its Retail & Corporate and Wealth Management business booked in Switzerland to UBS Switzerland AG, a banking subsidiary of UBS AG in Switzerland. As of the transfer date, 14 June 2015, UBS Switzerland AG had over CHF 300 billion in assets, 2.7 million customers and 11,000 employees.

In the UK, UBS completed the implementation of a more self-sufficient business and operating model for UBS Limited under which UBS Limited bears and retains a larger proportion of the risk and reward in its business activities.

In the US, to comply with new rules for foreign banks under the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act"), by 1 July 2016 UBS will designate an intermediate holding company that will own all of UBS's US operations except US branches of UBS AG.

In the third quarter of 2015, UBS intends to establish a Group service company as a subsidiary of UBS Group AG. UBS expects that the transfer of shared service and support functions to the service company structure will start in 2015 and will be implemented in a staged approach through 2018. The purpose of the service company structure is to improve the resolvability of the Group by enabling UBS to maintain operational continuity of critical services should a recovery or resolution event occur.

UBS continues to consider further changes to the Group's legal structure in response to capital and other regulatory requirements and in order to obtain any reduction in capital requirements for which the Group may be eligible. Such changes may include the transfer of operating subsidiaries of UBS AG to become direct subsidiaries of UBS Group AG and adjustments to the booking entity or location of products and services. These structural changes are being discussed on an ongoing basis with FINMA and other regulatory authorities and remain subject to a number of uncertainties that may affect their feasibility, scope or timing. For more information, see "*Recent Developments - Changes to UBS's legal structure*" below.

UBS Group AG's interests in subsidiaries and other entities as of 31 December 2014, including information on UBS Group AG's significant subsidiaries, are discussed in the UBS Group AG and UBS AG annual report as of 31 December 2014 published on 13 March 2015 (the "**Annual Report 2014**"), on pages 527-536 (inclusive) of the English version.

UBS AG's interests in subsidiaries and other entities as of 31 December 2014, including information on UBS AG's significant subsidiaries, are discussed in the Annual Report 2014, on pages 691-699 (inclusive) of the English version.

The paragraph headed "VII. Trend Information" (page 31 of the Registration Document) is replaced by the following text:

"As stated in the second quarter 2015 financial report of UBS Group AG issued on 28 July 2015, as in previous years, seasonal impacts are likely to affect revenues and profits in the third quarter. In addition, many of the underlying macroeconomic challenges and geopolitical issues that UBS has previously highlighted remain and are unlikely to be resolved in the foreseeable future. Despite ongoing and new challenges, UBS continues to be committed to the disciplined execution of its strategy in order to ensure the firm's long-term success and to deliver sustainable returns for shareholders."

In the section headed "VIII. Administrative, Management and Supervisory Bodies of UBS AG" (page 32, et seq. of the Registration Document) the following two rows of the table headed "Members of the Board of Directors" are replaced as by the following text:

Member and business address	Title	Term of office	Current principal positions outside UBS AG
Reto Francioni Hansfluhsteig 21 CH-5200 Brugg	Member	2016	Member of the Board of Directors of UBS Group AG. Professor, University of Basel; member of the Strategic Advisory Group of VHV Insurance and of the Strategic Advisory Group of VSUD (Association of Swiss companies in Germany).
Axel P. Lehmann Zurich Insurance Group, Mythenquai 2, CH-8002 Zurich	Member	2016	Member of the Board of Directors of UBS Group AG. Regional Chairman Europe, Middle East and Africa of Zurich Insurance Group, Zurich; Chairman of the board of Farmers Group, Inc., Los Angeles; Chairman of Zurich Insurance plc., Dublin; Chairman of the Board of Trustees of the Pension Plans 1 and 2 of the Zurich Insurance Group; member of the supervisory board of Zurich Beteiligungs-AG, Frankfurt am Main; member of the board of Economiesuisse; Chairman of the Global Agenda Council on the Global Financial System of World Economic Forum (WEF); Chairman of the Board of the Institute of Insurance Economics of University of St. Gallen; member of the International and Alumni Advisory Board of University of St. Gallen; former chairman and member of the Chief Risk Officer Forum.

In the section headed "VIII. Administrative, Management and Supervisory Bodies of UBS AG" (page 32, et seq. of the Registration Document) the table headed "Members of the Group Executive Board" and the sentence below the table is replaced as follows:

Member and business address	Function
Sergio P. Ermotti UBS AG, Bahnhofstrasse 45, CH-8001 Zurich	Group Chief Executive Officer
Markus U. Diethelm UBS AG, Bahnhofstrasse 45,	Group General Counsel

CH-8001 Zurich	
Ulrich Körner UBS AG, Bahnhofstrasse 45, CH-8001 Zurich	President Global Asset Management and President Europe, Middle East and Africa
Philip J. Lofts UBS AG, 677 Washington Boulevard, Stamford, CT 06901 USA	Group Chief Risk Officer
Robert J. McCann UBS AG, 1200 Harbor Boulevard, Weehawken, NJ 07086 USA	President Wealth Management Americas and President Americas
Tom Naratil UBS AG, Bahnhofstrasse 45, CH-8001 Zurich	Group Chief Financial Officer and Group Chief Operating Officer
Andrea Orcel UBS AG, Bahnhofstrasse 45, CH-8001 Zurich	President Investment Bank
Chi-Won Yoon UBS AG, 2 International Finance Centre 52/F, 8 Finance Street, Central, Hong Kong	President Asia Pacific
Jürg Zeltner UBS AG, Bahnhofstrasse 45, CH-8001 Zurich	President Wealth Management

No member of the GEB has any significant business interests UBS. "

The section headed "IX. Major Shareholders" (page 36 of the Registration Document) is completely replaced as follows:

"As of 30 June 2015, UBS Group held 97.8% of total UBS AG shares issued and 98.1% of UBS AG shares registered in the commercial register.

UBS Group AG filed a request with the Commercial Court of the Canton of Zurich for a procedure under article 33 of the Swiss Stock Exchange Act ("SESTA procedure"). The time allotted for UBS AG minority shareholders to intervene in the SESTA procedure closed on 14 July 2015 without any application for intervention being filed. UBS Group AG therefore expects the court to rule on the proceeding during the third quarter of 2015. Upon successful completion of the SESTA procedure, the shares of the remaining minority shareholders of UBS AG will be cancelled and the holders will receive UBS Group AG shares. UBS Group AG will then become the 100% owner of UBS AG."

In the section headed "X. Financial Information concerning the Issuer's Assets and Liabilities, Financial Position and Profits and Losses" (page 36, et seq., of the Registration Document) the following subparagraph is added before the last subparagraph on page 37:

"As described in the UBS AG second quarter 2015 financial report (Note 1 "Basis of accounting"), in the second quarter of 2015 UBS AG has (i) changed segment reporting related to fair value gains and losses on certain internal funding transactions and own credit, and (ii) revised the presentation of services and personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units. Prior periods have been restated for these changes. These changes did not affect the UBS AG Group's total operating income, total operating expenses or net profit for any period presented."

In the section headed "X. Financial Information concerning the Issuer's Assets and Liabilities, Financial Position and Profits and Losses" (page 36, et seq., of the Registration Document) the following subparagraph has been replaced after the subparagraph headed "Auditing of Historical Annual Financial Information" on page 37:

"Interim Financial Information

Reference is also made to the (i) first and second quarter 2015 financial reports of UBS Group AG, which contain information on the financial condition and results of operations of UBS AG (consolidated) as of and for the quarter ended 31 March 2015, and as of, for the quarter and for the six months ended 30 June 2015, respectively; and (ii) the first and second quarter 2015 financial reports of UBS AG, which contain the interim consolidated financial statements of UBS AG for the periods ended 31 March 2015 and 30 June 2015, respectively, and certain supplemental information. Refer to the section "*Historical Annual Financial Information*" above for information on financial reporting and accounting changes made in the second quarter 2015. The interim consolidated financial statements of UBS AG, contained in the first and the second quarter 2015 financial reports of UBS AG, are not audited."

In the section headed "XI. Litigation, Regulatory and Similar Matters" (page 37, et seq., of the Registration Document) the following text following the second paragraph on page 38 is completely replaced by the following:

"XI. Litigation, Regulatory and Similar Matters

The aggregate amount provisioned for litigation, regulatory and similar matters as a class is disclosed in Note 16a to the unaudited consolidated financial statements of UBS AG, contained in UBS AG's second quarter 2015 financial report. It is not practicable to provide an aggregate estimate of liability for UBS's litigation, regulatory and similar matters as a class of contingent liabilities. Doing so would require UBS to provide speculative legal assessments as to claims and proceedings that involve unique fact patterns or novel legal theories, which have not yet been initiated or are at early stages of adjudication, or as to which alleged damages have not been quantified by the claimants. Although UBS therefore cannot provide a numerical estimate of the future losses that could arise from the class of litigation, regulatory and similar matters, it believes that the aggregate amount of possible future losses from this class that are more than remote substantially exceeds the level of current provisions. Litigation, regulatory and similar matters may also result in non-monetary penalties and consequences. For example the non-prosecution agreement ("NPA") described in paragraph 6 of this section, which UBS entered into with the US Department of Justice ("DOJ"), Criminal Division, Fraud Section in connection with UBS's submissions of benchmark interest rates, including among others the British Bankers' Association London Interbank Offered Rate ("LIBOR"), was terminated by the DOJ based on its determination that UBS had committed a US crime in relation to foreign exchange matters. As a consequence, UBS AG has pleaded guilty to one count of wire fraud for conduct in the LIBOR matter, and has agreed to pay a USD 203 million fine and accept a three-year term of probation. A guilty plea to, or conviction of, a crime (including as a result of termination of the NPA) could have material consequences for UBS. Resolution of regulatory proceedings may require UBS to obtain waivers of regulatory disqualifications to maintain certain operations, may entitle regulatory authorities to limit, suspend or terminate licenses and regulatory authorizations and may permit financial market utilities to limit, suspend or terminate UBS's participation in such utilities. Failure to obtain such waivers, or any limitation, suspension or termination of licenses, authorizations or participations could have material consequences for UBS.

The risk of loss associated with litigation, regulatory and similar matters is a component of operational risk for purposes of determining UBS's capital requirements. Information concerning UBS's capital requirements and the calculation of operational risk for this

purpose is included in the "Capital management" section of the second quarter 2015 financial report of UBS Group AG.

Provisions for litigation, regulatory and similar matters by business division and Corporate Center unit^{1, 2}

¹ WM = Wealth Management; WMA = Wealth Management Americas; R&C = Retail & Corporate; GI AM = Global Asset Management; IB = Investment Bank; CC–Services = Corporate Center – Services; CC – Group ALM = Corporate Center – Group Asset and Liability Management; CC-NcLP = Corporate Center - Non-core and Legacy Portfolio. ² Provisions, if any, for the matters described in this section are recorded in Wealth Management (item 3), Wealth Management Americas (item 4), Investment Bank (item 9), Corporate Center – Services (item 7) and Corporate Center – Non-core and Legacy Portfolio (items 2 and 8). Provisions, if any, for the matters described in items 1 and 6 are allocated between Wealth Management and Retail & Corporate, and provisions for the matter described in item 5 are allocated between the Investment Bank and Corporate Center– Services.

1. Inquiries regarding cross-border wealth management businesses

Tax and regulatory authorities in a number of countries have made inquiries, served requests for information or examined employees located in their respective jurisdictions relating to the cross-border wealth management services provided by UBS and other financial institutions. It is possible that implementation of automatic tax information exchange and other measures relating to cross-border provision of financial services could give rise to further inquiries in the future.

As a result of investigations in France, in 2013, UBS (France) S.A. and UBS AG were put under formal examination ("*mise en examen*") for complicity in having illicitly solicited clients on French territory, and were declared witness with legal assistance ("*témoign assisté*") regarding the laundering of proceeds of tax fraud and of banking and financial solicitation by unauthorized persons. In 2014, UBS AG was placed under formal examination with respect to the potential charges of laundering of proceeds of tax fraud, and the investigating judges ordered UBS to provide bail ("*caution*") of EUR 1.1 billion. UBS AG appealed the determination of the bail amount, but both the appeal court ("*Cour d'Appel*") and the French Supreme Court ("*Cour de Cassation*") upheld the bail amount and rejected the appeal in full in late 2014. UBS AG has filed an application with the European Court of Human Rights to challenge various aspects of the French court's decision.

In March 2015, UBS (France) S.A. was placed under formal examination for complicity regarding the laundering of proceeds of tax fraud and of banking and financial solicitation by unauthorized persons for the years 2004 until 2008 and declared witness with legal assistance for the years 2009 to 2012. A bail of EUR 40 million was imposed, and was reduced by the Court of Appeals in May 2015 to EUR 10 million. UBS (France) S.A. is considering whether or not to further appeal that decision.

In addition, the investigating judges have sought to issue arrest warrants against three Swiss-based former employees of UBS AG who did not appear when summoned by the investigating judge. Separately, in 2013, the French banking supervisory authority's disciplinary commission reprimanded UBS (France) S.A. for having had insufficiencies in its

control and compliance framework around its cross-border activities and "know your customer" obligations. It imposed a penalty of EUR 10 million, which was paid.

In January 2015, UBS received inquiries from the US Attorney's Office for the Eastern District of New York and from the US Securities and Exchange Commission ("SEC"), which are investigating potential sales to US persons of bearer bonds and other unregistered securities in possible violation of the Tax Equity and Fiscal Responsibility Act of 1982 ("TEFRA") and the registration requirements of the US securities laws. UBS is cooperating with the authorities in these investigations.

UBS's balance sheet at 30 June 2015 reflected provisions with respect to matters described in this item 1 in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which UBS has established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that UBS has recognized.

2. Claims related to sales of residential mortgage-backed securities and mortgages

From 2002 through 2007, prior to the crisis in the US residential loan market, UBS was a substantial issuer and underwriter of US residential mortgage-backed securities ("RMBS") and was a purchaser and seller of US residential mortgages. A subsidiary of UBS, UBS Real Estate Securities Inc. ("UBS RESI"), acquired pools of residential mortgage loans from originators and (through an affiliate) deposited them into securitization trusts. In this manner, from 2004 through 2007, UBS RESI sponsored approximately USD 80 billion in RMBS, based on the original principal balances of the securities issued.

UBS RESI also sold pools of loans acquired from originators to third-party purchasers. These whole loan sales during the period 2004 through 2007 totaled approximately USD 19 billion in original principal balance.

UBS was not a significant originator of US residential loans. A subsidiary of UBS originated approximately USD 1.5 billion in US residential mortgage loans during the period in which it was active from 2006 to 2008, and securitized less than half of these loans.

RMBS-related lawsuits concerning disclosures: UBS is named as a defendant relating to its role as underwriter and issuer of RMBS in a large number of lawsuits related to approximately USD 11 billion in original face amount of RMBS underwritten or issued by UBS. Of the USD 11 billion in original face amount of RMBS that remains at issue in these cases, approximately USD 4 billion was issued in offerings in which a UBS subsidiary transferred underlying loans (the majority of which were purchased from third-party originators) into a securitization trust and made representations and warranties about those loans ("UBS-sponsored RMBS"). The remaining USD 7 billion of RMBS to which these cases relate was issued by third parties in securitizations in which UBS acted as underwriter ("third-party RMBS").

In connection with certain of these lawsuits, UBS has indemnification rights against surviving third-party issuers or originators for losses or liabilities incurred by UBS, but UBS cannot predict the extent to which it will succeed in enforcing those rights. A class action in which UBS was named as a defendant was settled by a third-party issuer and received final approval by the district court in 2013. The settlement reduced the original face amount of third-party RMBS at issue in the cases pending against UBS by approximately USD 24 billion. The third-party issuer will fund the settlement at no cost to UBS. In 2014, certain objectors to the settlement filed a notice of appeal from the district court's approval of the settlement.

UBS is also named as a defendant in several cases asserting fraud and other claims brought by entities that purchased collateralized debt obligations that had RMBS exposure and that were arranged or sold by UBS.

UBS is a defendant in two lawsuits brought by the National Credit Union Administration ("NCUA"), as conservator for certain failed credit unions, asserting misstatements and omissions in the offering documents for RMBS purchased by the credit unions. Both lawsuits were filed in US

District Courts, one in the District of Kansas and the other in the Southern District of New York ("Southern District of New York"). The Kansas court partially granted UBS's motion to dismiss in 2013 and held that the NCUA's claims for ten of the 22 RMBS certificates on which it had sued were time-barred. As a result, the original principal balance at issue in that case was reduced from USD 1.15 billion to approximately USD 400 million. The original principal balance at issue in the Southern District of New York case is approximately USD 400 million. In May 2015 the Kansas court, relying on a March 2015 decision rendered by the US Court of Appeals for the Tenth Circuit in a case filed by the NCUA against Barclays Capital, Inc., granted a motion for reconsideration filed by the NCUA and reinstated the NCUA's claims against UBS for the ten certificates that had been dismissed in 2013.

Loan repurchase demands related to sales of mortgages and RMBS: When UBS acted as an RMBS sponsor or mortgage seller, it generally made certain representations relating to the characteristics of the underlying loans. In the event of a material breach of these representations, UBS was in certain circumstances contractually obligated to repurchase the loans to which they related or to indemnify certain parties against losses. UBS has received demands to repurchase US residential mortgage loans as to which UBS made certain representations at the time the loans were transferred to the securitization trust. UBS has been notified by certain institutional purchasers of mortgage loans and RMBS of their contention that possible breaches of representations may entitle the purchasers to require that UBS repurchase the loans or to other relief. The table "Loan repurchase demands by year received – original principal balance of loans" summarizes repurchase demands received by UBS and UBS's repurchase activity from 2006 through 23 July 2015. In the table, "Resolved demands" are considered to be finally resolved, and include demands that are time-barred under the decision rendered by the New York Court of Appeals on 11 June 2015 in *Ace Securities vs. DB Structured Products* ("Ace Decision"). Repurchase demands in all other categories are not finally resolved.

Loan repurchase demands by year received – original principal balance of loans ¹

USD million	2006-2008	2009	2010	2011	2012	2013	2014	2015, through 23 July	Total

Demands in review by UBS				1					1
Total	122	205	368	1,084	1,404	618	332	0	4,133

¹ Loans submitted by multiple counterparties are counted only once.

Payments that UBS has made to date to resolve repurchase demands equate to approximately 62% of the original principal balance of the related loans. Most of the payments that UBS has made to date have related to so-called "Option ARM" loans; severity rates may vary for other types of loans with different characteristics. Losses upon repurchase would typically reflect the estimated value of the loans in question at the time of repurchase, as well as, in some cases, partial repayment by the borrowers or advances by servicers prior to repurchase.

In most instances in which UBS would be required to repurchase loans due to misrepresentations, UBS would be able to assert demands against third-party loan originators who provided representations when selling the related loans to UBS. However, many of these third parties are insolvent or no longer exist. UBS estimates that, of the total original principal balance of loans sold or securitized by UBS from 2004 through 2007, less than 50% was purchased from surviving third-party originators. In connection with approximately 60% of the loans (by original principal balance) for which UBS has made payment or agreed to make payment in response to demands received in 2010, UBS has asserted indemnity or repurchase demands against originators. Since 2011, UBS has advised certain surviving originators of repurchase demands made against UBS for which UBS would be entitled to indemnity, and has asserted that such demands should be resolved directly by the originator and the party making the demand.

Any future repurchase demands should be time-barred by virtue of the Ace Decision.

Lawsuits related to contractual representations and warranties concerning mortgages and RMBS: In 2012, certain RMBS trusts filed an action ("Trustee Suit") in the Southern District of New York seeking to enforce UBS RESI's obligation to repurchase loans in the collateral pools for three RMBS securitizations ("Transactions") with an original principal balance of approximately USD 2 billion for which Assured Guaranty Municipal Corp. ("Assured Guaranty"), a financial guaranty insurance company, had previously demanded repurchase. In January 2015, the court rejected plaintiffs' efforts to seek damages for all loans purportedly in breach of representations and warranties in any of the three Transactions and limited plaintiffs to pursuing claims based solely on alleged breaches for loans identified in the complaint or other breaches that plaintiffs can establish were independently discovered by UBS. In February 2015, the court denied plaintiffs' motion seeking reconsideration of its ruling. With respect to the loans subject to the Trustee Suit that were originated by institutions still in existence, UBS intends to enforce its indemnity rights against those institutions. Related litigation brought by Assured Guaranty was resolved in 2013.

In 2012, the Federal Housing Finance Agency, on behalf of the Federal Home Loan Mortgage Corporation ("Freddie Mac"), filed a notice and summons in New York Supreme Court initiating suit against UBS RESI for breach of contract and declaratory relief arising from alleged breaches of representations and warranties in connection with certain mortgage loans and UBS RESI's alleged failure to repurchase such mortgage loans. The lawsuit seeks, among other relief, specific performance of UBS RESI's alleged loan repurchase obligations for at least USD 94 million in original principal balance of loans for which Freddie Mac had previously demanded repurchase; no damages are specified. In 2013, the Court dismissed the complaint for lack of standing, on the basis that only the RMBS trustee could assert the claims in the complaint, and the complaint was unclear as to whether the trustee was the plaintiff and had proper authority to bring suit. The trustee subsequently filed an amended complaint, which UBS moved to dismiss. The motion remains pending.

UBS also has tolling agreements with certain institutional purchasers of RMBS concerning their potential claims related to substantial purchases of UBS-sponsored or third-party RMBS.

As reflected in the table "*Provision for claims related to sales of residential mortgage-backed securities and mortgages*," UBS's balance sheet at 30 June 2015 reflected a provision of USD 772 million with respect to matters described in this item 2. As in the case of other matters for which UBS has established provisions, the future outflow of resources in respect of this matter cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that UBS has recognized.

Provision for claims related to sales of residential mortgage-backed securities and mortgages

<i>USD million</i>

Balance as of 30 June 2015	772

Mortgage-related regulatory matters: In 2014, UBS received a subpoena from the US Attorney's Office for the Eastern District of New York issued pursuant to the Financial Institutions Reform, Recovery and Enforcement Act of 1989 ("FIRREA"), which seeks documents and information related to UBS's RMBS business from 2005 through 2007. UBS continues to respond to the FIRREA subpoena and to subpoenas from the New York State Attorney General ("NYAG") relating to its RMBS business. In addition, UBS has also been responding to inquiries from both the Special Inspector General for the Troubled Asset Relief Program ("SIGTARP") (who is working in conjunction with the US Attorney's Office for Connecticut and the DOJ) and the SEC relating to trading practices in connection with purchases and sales of mortgage-backed securities in the secondary market from 2009 through the present. UBS is cooperating with the authorities in these matters. Numerous other banks reportedly are responding to similar inquiries from these authorities.

3. Madoff

In relation to the Bernard L. Madoff Investment Securities LLC ("BMIS") investment fraud, UBS AG, UBS (Luxembourg) SA and certain other UBS subsidiaries have been subject to inquiries by a number of regulators, including the FINMA and the Luxembourg Commission de Surveillance du Secteur Financier ("CSSF"). Those inquiries concerned two third-party funds established under Luxembourg law, substantially all assets of which were with BMIS, as well as certain funds established in offshore jurisdictions with either direct or indirect exposure to BMIS. These funds now face severe losses, and the Luxembourg funds are in liquidation. The last reported net asset value of the two Luxembourg funds before revelation of the Madoff scheme was approximately USD 1.7 billion in the aggregate, although that figure likely includes fictitious profit reported by BMIS. The documentation establishing both funds identifies UBS entities in various roles including custodian, administrator, manager, distributor and promoter, and indicates that UBS employees serve as board members. UBS (Luxembourg) SA and certain other UBS subsidiaries are responding to inquiries by Luxembourg investigating authorities, without however being named as parties in those investigations. In 2009 and 2010, the liquidators of the two Luxembourg funds filed claims on behalf of the funds against UBS entities, non-UBS entities and certain individuals including current and former UBS employees. The amounts claimed are approximately EUR 890 million and EUR 305 million, respectively. The liquidators have filed supplementary claims for amounts that the funds may possibly be held liable to pay the BMIS Trustee. These amounts claimed by the liquidator are approximately EUR 564 million and EUR 370 million, respectively. In addition, a large number of alleged beneficiaries have filed claims against UBS entities (and non-UBS entities) for purported losses relating to the Madoff scheme. The majority of these cases are pending in Luxembourg, where appeals were filed by the claimants against the 2010 decisions of the court in which the claims in a number of test cases were held to be inadmissible. In July 2015 the Luxembourg Court of Appeals dismissed one test appeal in its entirety, which decision has been appealed by the investor. In the US, the BMIS Trustee filed claims in 2010 against UBS entities, among others, in relation to the two Luxembourg funds and one of the offshore funds. The total amount claimed against all defendants in these actions was not less than USD 2 billion. Following a motion by UBS, in 2011, the US District Court for the Southern District of New York dismissed all of the BMIS Trustee's claims other than claims for recovery of fraudulent conveyances and preference payments that were allegedly transferred to UBS on the ground that the BMIS Trustee lacks standing to bring such claims. In 2013, the Second Circuit affirmed the District Court's decision and, in June 2014, the US Supreme Court denied the BMIS Trustee's petition seeking review of the Second Circuit ruling. In December 2014, several claims, including a purported class action, were filed in the US by BMIS customers against UBS entities, asserting claims similar to the ones made by the BMIS Trustee, seeking unspecified damages. In Germany, certain clients of UBS are exposed to Madoff-managed positions through third-party funds and funds administered by UBS entities in Germany. A small number of claims have been filed with respect to such funds. In January 2015, a court of appeal reversed a lower court decision in favor of UBS in one such case and ordered UBS to pay EUR 49 million, plus interest. UBS has filed an application for leave to appeal the decision.

4. Puerto Rico

Declines since August 2013 in the market prices of Puerto Rico municipal bonds and of closed-end funds (the "funds") that are sole-managed and co-managed by UBS Trust Co. of Puerto Rico and distributed by UBS Financial Services Inc. of Puerto Rico ("UBS PR") have led to multiple regulatory inquiries, as well as customer complaints, and arbitrations with aggregate claimed damages exceeding USD 1.1 billion. The claims are filed by clients in Puerto Rico who own the funds or Puerto Rico municipal bonds and/or who used their UBS account assets as collateral for UBS non-

purpose loans; customer complaint and arbitration allegations include fraud, misrepresentation and unsuitability of the funds and of the loans. A shareholder derivative action was filed in 2014 against various UBS entities and current and certain former directors of the funds, alleging hundreds of millions in losses in the funds. Defendants' motion to dismiss was denied. In 2014, a federal class action complaint also was filed against various UBS entities, certain members of UBS PR senior management, and the co-manager of certain of the funds seeking damages for investor losses in the funds during the period from May 2008 through May 2014. In March 2015 a class action was filed in Puerto Rico state court against UBS PR seeking equitable relief in the form of a stay of any effort by UBS PR to collect on non-purpose loans it acquired from UBS Bank USA in December 2013 based on plaintiffs' allegation that the loans are not valid.

An internal review also disclosed that certain clients, many of whom acted at the recommendation of one financial advisor, invested proceeds of non-purpose loans in closed-end fund securities in contravention of their loan agreements.

In 2014 UBS reached a settlement with the Office of the Commissioner of Financial Institutions for the Commonwealth of Puerto Rico ("OCFI") in connection with OCFI's examination of UBS's operations from January 2006 through September 2013. Pursuant to the settlement, UBS contributed USD 3.5 million to an investor education fund, offered USD 1.68 million in restitution to certain investors and, among other things, committed to undertake an additional review of certain client accounts to determine if additional restitution would be appropriate.

UBS is responding to requests from the SEC relating to an investigation into the practice of certain customers and a UBS financial advisor of using non-purpose loans to invest in closed-end fund securities in violation of their loan agreements and UBS policies, and related supervision issues. UBS also has been responding to information requests from FINRA regarding an investigation of investments in closed-end funds by certain customers who used such funds to collateralize non-purpose loans, and related sales practice and supervision issues. UBS also understands that the DOJ is conducting a criminal inquiry into the practice of certain customers and a UBS financial advisor of using non-purpose loans to invest in closed-end fund securities in violation of their loan agreements and UBS policies. UBS is cooperating with the authorities in these matters.

In 2011, a purported derivative action was filed on behalf of the Employee Retirement System of the Commonwealth of Puerto Rico ("System") against over 40 defendants, including UBS PR and other consultants and underwriters, trustees of the System, and the President and Board of the Government Development Bank of Puerto Rico. The plaintiffs alleged that defendants violated their purported fiduciary duties and contractual obligations in connection with the issuance and underwriting of approximately USD 3 billion of bonds by the System in 2008 and sought damages of over USD 800 million. UBS is named in connection with its underwriting and consulting services. In 2013, the case was dismissed by the Puerto Rico Court of First Instance on the grounds that plaintiffs did not have standing to bring the claim. That dismissal was subsequently overturned by the Puerto Rico Court of Appeals. UBS's petitions for appeal and reconsideration have been denied by the Supreme Court of Puerto Rico.

Also, in 2013, an SEC Administrative Law Judge dismissed a case brought by the SEC against two UBS executives, finding no violations. The charges had stemmed from the SEC's investigation of UBS's sale of closed-end funds in 2008 and 2009, which UBS settled in 2012. Beginning in 2012 two federal class action complaints, which were subsequently consolidated, were filed against various UBS entities, certain of the funds, and certain members of UBS PR senior management, seeking damages for investor losses in the funds during the period from January 2008 through May 2012 based on allegations similar to those in the SEC action. Plaintiffs' motion to consolidate that action with the federal class action filed in 2014 described above was denied. A motion for class certification was denied without prejudice to the right to refile the motion after limited discovery.

In June 2015 Puerto Rico's Governor stated that the Commonwealth is unable to meet its obligations. The Governor's statement and market reaction to it may increase the number of, and potential damages sought in, claims against UBS concerning Puerto Rico securities.

UBS's balance sheet at 30 June 2015 reflected provisions with respect to matters described in this item 4 in amounts that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which UBS has established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provisions that UBS has recognized.

5. Foreign exchange, LIBOR, and benchmark rates

Foreign exchange-related regulatory matters: Following an initial media report in 2013 of widespread irregularities in the foreign exchange markets, UBS immediately commenced an internal review of its foreign exchange business, which includes UBS's precious metals and related structured products businesses. Since then, various authorities have commenced investigations concerning possible manipulation of foreign exchange markets, including FINMA, the Swiss Competition Commission ("WEKO"), the DOJ, the SEC, the US Commodity Futures Trading Commission ("CFTC"), the Board of Governors of the Federal Reserve System ("Federal Reserve Board"), the UK Financial Conduct Authority ("FCA") (to which certain responsibilities of the UK Financial Services Authority ("FSA") have passed), the UK Serious Fraud Office ("SFO"), the Australian Securities and Investments Commission ("ASIC") and the Hong Kong Monetary Authority ("HKMA"). WEKO stated in 2014 that it had reason to believe that certain banks may have colluded to manipulate foreign exchange rates. A number of authorities also reportedly are investigating potential manipulation of precious metals prices. UBS and other financial institutions have received requests from various authorities relating to their foreign exchange businesses, and UBS is cooperating with the authorities. UBS has taken and will take appropriate action with respect to certain personnel as a result of its ongoing review.

In 2014, UBS reached settlements with the FCA and the CFTC in connection with their foreign exchange investigations, and FINMA issued an order concluding its formal proceedings with respect to UBS relating to its foreign exchange and precious metals businesses. UBS has paid a total of approximately CHF 774 million to these authorities, including GBP 234 million in fines to the FCA, USD 290 million in fines to the CFTC, and CHF 134 million to FINMA representing confiscation of costs avoided and profits. The conduct described in the settlements and the FINMA order includes certain UBS personnel: engaging in efforts, alone or in cooperation/collusion with traders at other banks, to manipulate foreign exchange benchmark rates involving multiple currencies, attempts to trigger client stop-loss orders for UBS's benefit, and inappropriate sharing of confidential client information. UBS has ongoing obligations to cooperate with these authorities and to undertake certain remediation, including actions to improve processes and controls and requirements imposed by FINMA to apply compensation restrictions for certain employees and to automate at least 95% of UBS's global foreign exchange and precious metals trading by 31 December 2016. In 2014, the HKMA announced the conclusion of its investigation into foreign exchange trading operations of banks in Hong Kong. The HKMA found no evidence of collusion among the banks or of manipulation of foreign exchange benchmark rates in Hong Kong. The HKMA also found that banks had internal control deficiencies with respect to their foreign exchange trading operations.

In May 2015, the DOJ's Criminal Division ("Criminal Division") terminated the NPA with UBS AG. As a result, UBS AG entered into a plea agreement with the Criminal Division pursuant to which UBS AG agreed to and did plead guilty to a one-count criminal information filed in the US District Court for the District of Connecticut charging UBS AG with one count of wire fraud in violation of 18 USC Sections 1343 and 2. Under the plea agreement, UBS AG agreed to a sentence that includes a USD 203 million penalty and a three-year term of probation. The criminal information charges that between approximately 2001 and 2010, UBS AG engaged in a scheme to defraud counterparties to interest rate derivatives transactions by manipulating benchmark interest rates, including Yen LIBOR. Sentencing is currently scheduled for 9 November 2015. The Criminal Division terminated the NPA based on its determination, in its sole discretion, that certain of UBS AG's employees committed criminal conduct that violated the NPA, including fraudulent and deceptive currency trading and sales practices in conducting certain foreign exchange market transactions with customers and collusion with other participants in certain foreign exchange markets.

In May 2015, the Federal Reserve Board and the Connecticut Department of Banking issued an Order to Cease and Desist and Order of Assessment of a Civil Monetary Penalty Issued upon Consent (the "Federal Reserve Order") to UBS AG. As part of the Federal Reserve Order, UBS AG

paid a USD 342 million civil monetary penalty. The Federal Reserve Order is based on the Federal Reserve Board's finding that UBS AG had deficient policies and procedures that prevented UBS AG from detecting and addressing unsafe and unsound conduct by foreign exchange traders and salespeople, including disclosures to traders of other institutions of confidential customer information, agreements with traders of other institutions to coordinate foreign exchange trading in a manner to influence certain foreign exchange benchmarks fixes and market prices, and trading strategies that raised potential conflicts of interest, possible agreements with traders of other institutions regarding bid/offer spreads offered to foreign exchange customers, the provision of information to customers regarding price quotes and how a customer's foreign exchange order is filled.

UBS has been granted conditional immunity by the Antitrust Division of the DOJ ("Antitrust Division") from prosecution for EUR/USD collusion and entered into a non-prosecution agreement covering other currency pairs. As a result, UBS AG will not be subject to prosecutions, fines or other sanctions for antitrust law violations by the Antitrust Division, subject to UBS AG's continuing cooperation. However, the conditional immunity grant does not bar government agencies from asserting other claims and imposing sanctions against UBS AG, as evidenced by the settlements and ongoing investigations referred to above.

Investigations relating to foreign exchange matters by numerous authorities, including the SEC and CFTC, remain ongoing notwithstanding these resolutions.

Foreign exchange-related civil litigation: Putative class actions have been filed since November 2013 in US federal courts against UBS and other banks. These actions are on behalf of putative classes of persons who engaged in foreign currency transactions with any of the defendant banks. They allege collusion by the defendants and assert claims under the antitrust laws and for unjust enrichment. In March 2015, UBS entered into a settlement agreement to resolve those actions. The agreement, which is subject to court approval, requires among other things that UBS pay USD 135 million and provide cooperation to the settlement class. In 2015, UBS has been added to putative class actions pending against other banks in federal court in New York on behalf of putative classes of persons who bought or sold physical precious metals and various precious metal products and derivatives. The complaints in these lawsuits assert claims under the US antitrust laws and the US Commodity Exchange Act ("CEA") and for unjust enrichment. Since February 2015, putative class actions have been filed in federal court in New York against UBS and other banks on behalf of a putative class of persons who entered into or held any foreign exchange futures contracts and options on foreign exchange futures contracts since January 1, 2003. The complaints assert claims under the CEA and the US antitrust laws. In June 2015, a putative class action was filed in federal court in New York against UBS and other banks on behalf of participants, beneficiaries, and named fiduciaries of plans qualified under the Employee Retirement Income Security Act of 1974 ("ERISA") for whom a defendant bank provided foreign currency exchange transactional services, exercised discretionary authority or discretionary control over management of such ERISA plan, or authorized or permitted the execution of any foreign currency exchange transactional services involving such plan's assets. The complaint asserts claims under ERISA.

LIBOR and other benchmark-related regulatory matters: Numerous government agencies, including the SEC, the CFTC, the DOJ, the FCA, the SFO, the Monetary Authority of Singapore ("MAS"), the HKMA, FINMA, the various state attorneys general in the US, and competition authorities in various jurisdictions have conducted or are continuing to conduct investigations regarding submissions with respect to LIBOR and other benchmark rates, including HIBOR (Hong Kong Interbank Offered Rate) and ISDAFIX, a benchmark rate used for various interest rate derivatives and other financial instruments. These investigations focus on whether there were improper attempts by UBS (among others), either acting on its own or together with others, to manipulate LIBOR and other benchmark rates at certain times.

In 2012, UBS reached settlements with the FSA, the CFTC and the Criminal Division of the DOJ in connection with their investigations of benchmark interest rates. At the same time FINMA issued an order concluding its formal proceedings with respect to UBS relating to benchmark interest rates. UBS has paid a total of approximately CHF 1.4 billion in fines and disgorgement – including GBP 160 million in fines to the FSA, USD 700 million in fines to the CFTC, USD 500 million in fines to the DOJ, and CHF 59 million in disgorgement to FINMA. UBS Securities Japan Co. Ltd. ("UBSSJ") entered into a plea agreement with the DOJ under which it entered a plea to one count of wire fraud relating to the manipulation of certain benchmark interest rates, including Yen

LIBOR. UBS entered into an NPA with the DOJ, which (along with the plea agreement) covered conduct beyond the scope of the conditional leniency / immunity grants described below, required UBS to pay the USD 500 million fine to DOJ after the sentencing of UBSSJ, and provided that any criminal penalties imposed on UBSSJ at sentencing be deducted from the USD 500 million fine. The conduct described in the various settlements and the FINMA order includes certain UBS personnel: engaging in efforts to manipulate submissions for certain benchmark rates to benefit trading positions; colluding with employees at other banks and cash brokers to influence certain benchmark rates to benefit their trading positions; and giving inappropriate directions to UBS submitters that were in part motivated by a desire to avoid unfair and negative market and media perceptions during the financial crisis. The benchmark interest rates encompassed by one or more of these resolutions include Yen LIBOR, GBP LIBOR, Swiss franc ("CHF") LIBOR, Euro LIBOR, USD LIBOR, EURIBOR (Euro Interbank Offered Rate) and Euroyen TIBOR (Tokyo Interbank Offered Rate). UBS has ongoing obligations to cooperate with authorities with which it has reached resolutions and to undertake certain remediation with respect to benchmark interest rate submissions. Under the NPA, UBS agreed, among other things, that for two years from 18 December 2012 UBS would not commit any US crime, and it would advise DOJ of any potentially criminal conduct by UBS or any of its employees relating to violations of US laws concerning fraud or securities and commodities markets. The term of the NPA was extended by one year to 18 December 2015. In May 2015, the Criminal Division terminated the NPA based on its determination, in its sole discretion, that certain of UBS AG's employees committed criminal conduct that violated the NPA. As a result, UBS entered into a plea agreement with the DOJ under which it entered a guilty plea to one count of wire fraud relating to the manipulation of certain benchmark interest rates, including Yen LIBOR, and agreed to pay a fine of USD 203 million and accept a three year term of probation. The MAS, HKMA, ASIC and the Japan Financial Services Agency have all resolved investigations of UBS (and in some cases other banks). The orders or undertakings in connection with these investigations generally require UBS to take remedial actions to improve its processes and controls, impose monetary penalties or other measures. Investigations by the CFTC, ASIC and other governmental authorities remain ongoing notwithstanding these resolutions. In 2014, UBS reached a settlement with the European Commission ("EC") regarding its investigation of bid-ask spreads in connection with Swiss franc interest rate derivatives and has paid a EUR 12.7 million fine, which was reduced to this level based in part on UBS's cooperation with the EC.

UBS has been granted conditional leniency or conditional immunity from authorities in certain jurisdictions, including the Antitrust Division of the DOJ, WEKO and the EC, in connection with potential antitrust or competition law violations related to submissions for Yen LIBOR and Euroyen TIBOR. WEKO has also granted UBS conditional immunity in connection with potential competition law violations related to submissions for CHF LIBOR and certain transactions related to Swiss franc LIBOR. The Canadian Competition Bureau ("Bureau") had granted UBS conditional immunity in connection with potential competition law violations related to submissions for Yen LIBOR, but in January 2014, the Bureau discontinued its investigation into Yen LIBOR for lack of sufficient evidence to justify prosecution under applicable laws. As a result of these conditional grants, UBS will not be subject to prosecutions, fines or other sanctions for antitrust or competition law violations in the jurisdictions where it has conditional immunity or leniency in connection with the matters covered by the conditional grants, subject to its continuing cooperation. However, the conditional leniency and conditional immunity grants UBS has received do not bar government agencies from asserting other claims and imposing sanctions against UBS, as evidenced by the settlements and ongoing investigations referred to above. In addition, as a result of the conditional leniency agreement with the DOJ, UBS is eligible for a limit on liability to actual rather than treble damages were damages to be awarded in any civil antitrust action under US law based on conduct covered by the agreement and for relief from potential joint and several liability in connection with such civil antitrust action, subject to UBS satisfying the DOJ and the court presiding over the civil litigation of its cooperation. The conditional leniency and conditional immunity grants do not otherwise affect the ability of private parties to assert civil claims against UBS.

LIBOR and other benchmark-related civil litigation: A number of putative class actions and other actions are pending in, or expected to be transferred to, the federal courts in New York against UBS and numerous other banks on behalf of parties who transacted in certain interest rate benchmark-based derivatives linked directly or indirectly to US dollar LIBOR, Yen LIBOR, Euroyen TIBOR, EURIBOR, CHF LIBOR, GBP LIBOR, and US Dollar ISDAFIX. Also pending are actions asserting losses related to various products whose interest rate was linked to US dollar LIBOR, including adjustable rate mortgages, preferred and debt securities, bonds pledged as collateral, loans, depository accounts, investments and other interest-bearing instruments. All of the complaints

allege manipulation, through various means, of various benchmark interest rates, including LIBOR, Euroyen TIBOR, EURIBOR or US Dollar ISDAFIX rates and seek unspecified compensatory and other damages, including treble and punitive damages, under varying legal theories that include violations of the CEA, the federal racketeering statute, federal and state antitrust and securities laws and other state laws. In May 2015, a putative class action was filed in federal court in New York against UBS and other financial institutions on behalf of US parties who transacted in financial instruments tied to GBP LIBOR. Plaintiffs allege that defendants conspired to manipulate GBP LIBOR and the prices of GBP LIBOR-based derivatives in violation of US antitrust laws and the CEA, among other theories, and seek unspecified compensatory damages, including treble damages. In 2013, a federal court in New York dismissed the federal antitrust and racketeering claims of certain US dollar LIBOR plaintiffs and a portion of their claims brought under the CEA and state common law. The court has granted certain plaintiffs permission to assert claims for unjust enrichment and breach of contract against UBS and other defendants, and limited the CEA claims to contracts purchased between 15 April 2009 and May 2010. Certain plaintiffs have also appealed the dismissal of their antitrust claims. UBS and other defendants in other lawsuits including the one related to Euroyen TIBOR have filed motions to dismiss. In 2014, the court in the Euroyen TIBOR lawsuit dismissed the plaintiff's federal antitrust and state unfair enrichment claims, and dismissed a portion of the plaintiff's CEA claims. Discovery is currently stayed.

Since September 2014, putative class actions have been filed in federal court in New York and New Jersey against UBS and other financial institutions, among others, on behalf of parties who entered into interest rate derivative transactions linked to ISDAFIX. The complaints, which have since been consolidated into an amended complaint, allege that the defendants conspired to manipulate ISDAFIX rates from 1 January 2006 through January 2014, in violation of US antitrust laws and the CEA, among other theories, and seeks unspecified compensatory damages, including treble damages.

With respect to additional matters and jurisdictions not encompassed by the settlements and order referred to above, UBS's balance sheet at 30 June 2015 reflected a provision in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which UBS has established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that UBS has recognized.

6. Swiss retrocessions

The Swiss Supreme Court ruled in 2012, in a test case against UBS, that distribution fees paid to a bank for distributing third party and intra-group investment funds and structured products must be disclosed and surrendered to clients who have entered into a discretionary mandate agreement with the bank, absent a valid waiver.

FINMA has issued a supervisory note to all Swiss banks in response to the Supreme Court decision. The note sets forth the measures Swiss banks are to adopt, which include informing all affected clients about the Supreme Court decision and directing them to an internal bank contact for further details. UBS has met the FINMA requirements and has notified all potentially affected clients.

The Supreme Court decision has resulted, and may continue to result, in a number of client requests for UBS to disclose and potentially surrender retrocessions. Client requests are assessed on a case-by-case basis. Considerations taken into account when assessing these cases include, among others, the existence of a discretionary mandate and whether or not the client documentation contained a valid waiver with respect to distribution fees.

UBS's balance sheet at 30 June 2015 reflected a provision with respect to matters described in this item 6 in an amount that UBS believes to be appropriate under the applicable accounting standard. The ultimate exposure will depend on client requests and the resolution thereof, factors that are difficult to predict and assess. Hence, as in the case of other matters for which UBS has established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that UBS has recognized.

7. Banco UBS Pactual tax indemnity

Pursuant to the 2009 sale of Banco UBS Pactual S.A. ("Pactual") by UBS to BTG Investments, LP ("BTG"), BTG has submitted contractual indemnification claims that UBS estimates amount to approximately BRL 2.2 billion, including interest and penalties, which is net of liabilities retained by BTG. The claims pertain principally to several tax assessments issued by the Brazilian tax authorities against Pactual relating to the period from December 2006 through March 2009, when UBS owned Pactual. The majority of these assessments relate to the deductibility of goodwill amortization in connection with UBS's 2006 acquisition of Pactual and payments made to Pactual employees through various profit sharing plans. These assessments are being challenged in administrative proceedings. In May 2015, the administrative court issued a decision that was largely in favor of the tax authority with respect to the goodwill amortization assessment. This decision will be appealed.

8. Matters relating to the CDS market

In 2013, the EC issued a Statement of Objections against thirteen credit default swap ("CDS") dealers including UBS, as well as data service provider Markit and the International Swaps and Derivatives Association ("ISDA"). The Statement of Objections broadly alleges that the dealers infringed European Union antitrust rules by colluding to prevent exchanges from entering the credit derivatives market between 2006 and 2009. UBS submitted its response to the Statement of Objections and presented UBS's position in an oral hearing in 2014. Since mid-2009, the Antitrust Division of the DOJ has also been investigating whether multiple dealers, including UBS, conspired with each other and with Markit to restrain competition in the markets for CDS trading, clearing and other services. In 2014, putative class action plaintiffs filed consolidated amended complaints in the Southern District of New York against twelve dealers, including UBS, as well as Markit and ISDA, alleging violations of the US Sherman Antitrust Act and common law. Plaintiffs allege that the defendants unlawfully conspired to restrain competition in and / or monopolize the market for CDS trading in the US in order to protect the dealers' profits from trading CDS in the over-the-counter market. Plaintiffs assert claims on behalf of all purchasers and sellers of CDS that transacted directly with any of the dealer defendants since 1 January 2008, and seek unspecified trebled compensatory damages and other relief. In 2014, the court granted in part and denied in part defendants' motions to dismiss the complaint.

9. Equities trading systems and practices

UBS is responding to inquiries concerning the operation of UBS's alternative trading system ("ATS") (also referred to as a dark pool) and its securities order routing and execution practices from various authorities, including the SEC, the NYAG and the Financial Industry Regulatory Authority, who reportedly are pursuing similar investigations industry-wide.

The specific litigation, regulatory and other matters described above include all such matters that management considers to be material and others that management believes to be of significance due to potential financial, reputational and other effects as described in Note 16a to the unaudited consolidated financial statements included in the UBS AG second quarter 2015 financial report. The proceedings indicated below are matters that have recently been considered material, but are not currently considered material, by UBS AG Group. Besides the proceedings described above and those described below, there are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened, of which UBS AG is aware) which may have, or have had in the recent past, significant effects on UBS AG's and/or the UBS AG Group's financial position or profitability and are or have been pending during the last twelve months until the date of this document.

Inquiries regarding cross-border wealth management businesses. In Germany, two different authorities have been conducting investigations against UBS Deutschland AG and UBS AG, respectively, and against certain employees of these entities concerning certain matters relating to UBS's past cross-border business. UBS is cooperating with these authorities within the limits of financial privacy obligations under Swiss and other applicable laws. UBS reached a settlement in July 2014 with the authorities in Bochum, concluding those proceedings. The settlement included a payment of approximately EUR 302 million. The proceedings by the authorities in Mannheim have not revealed sufficient evidence supporting the allegations being investigated.

Claims related to UBS disclosure. A putative consolidated class action has been filed in the United States District Court for the Southern District of New York against UBS, a number of current and former directors and senior officers and certain banks that underwrote UBS's May 2008 Rights Offering (including UBS Securities LLC ("UBSS")) alleging violation of the US securities laws in connection with UBS's disclosures relating to UBS's positions and losses in mortgage-related securities, UBS's positions and losses in auction rate securities, and UBS's US cross-border business. In 2011, the court dismissed all claims based on purchases or sales of UBS ordinary shares made outside the US, and, in 2012, the court dismissed with prejudice the remaining claims based on purchases or sales of UBS ordinary shares made in the US for failure to state a claim. In May 2014, the Second Circuit upheld the dismissal of the complaint and the matter is now concluded. UBS, a number of senior officers and employees and various UBS committees have also been sued in a putative consolidated class action for breach of fiduciary duties brought on behalf of current and former participants in two UBS Employee Retirement Income Security Act ("ERISA") retirement plans in which there were purchases of UBS stock. In 2011, the court dismissed the ERISA complaint. In 2012, the court denied plaintiffs' motion for leave to file an amended complaint. On appeal, the Second Circuit upheld the dismissal of all counts relating to one of the retirement plans. With respect to the second retirement plan, the Court upheld the dismissal of some of the counts, and vacated and remanded for further proceedings with regard to the counts alleging that defendants had violated their fiduciary duty to prudently manage the plan's investment options, as well as the claims derivative of that duty. In September 2014, the trial court dismissed the remaining claims. Plaintiffs appealed that ruling and in April 2015, the Second Circuit affirmed the trial court's dismissal of the remaining claims.

In 2012, a consolidated complaint was filed in a putative securities fraud class action pending in federal court in Manhattan against UBS AG and certain of its current and former officers relating to the unauthorized trading incident that occurred in the Investment Bank and was announced in September 2011. The lawsuit was filed on behalf of parties who purchased publicly traded UBS securities on any US exchange, or where title passed within the US, during the period 17 November 2009 through 15 September 2011. In 2013, the district court granted UBS's motion to dismiss the complaint in its entirety, from which plaintiffs filed an appeal. In 2015, the appellate court affirmed the district court's dismissal of the action.

Transactions with Italian public sector entities. A number of transactions that UBS Limited and UBS AG respectively entered into with public sector entity counterparties in Italy have been called into question or become the subject of legal proceedings and claims for damages and other awards. In Milan, in 2012, civil claims brought by the City of Milan against UBS Limited, UBS Italia SIM Spa and three other international banks in relation to a 2005 bond issue and associated derivatives transactions entered into with Milan between 2005 and 2007 were settled without admission of liability. In 2012, the criminal court in Milan issued a judgment convicting two current UBS employees and one former employee, together with employees from the three other banks, of fraud against a public entity in relation to the same bond issue and the execution, and subsequent restructuring, of the related derivative transactions. In the same proceedings, the Milan criminal court also found UBS Limited and three other banks liable for the administrative offense of failing to have in place a business organizational model capable of preventing the criminal offenses of which its employees were convicted. The sanctions imposed against UBS Limited, which could only become effective after all appeals were exhausted, were confiscation of the alleged level of profit flowing from the criminal findings (EUR 16.6 million), a fine in respect of the finding of the administrative offense (EUR 1 million) and payment of legal fees. UBS Limited and the individuals appealed that judgment and, in March 2014, the Milan Court of Appeal overturned all findings of liability against UBS Limited and the convictions of the UBS individuals and acquitted them. It issued a full judgment setting out the reasons for its rulings in June 2014. The appellate prosecutor did not pursue a further appeal and the acquittals are now final.

Derivative transactions with the Regions of Calabria, Tuscany, Lombardy, Lazio and Campania, and the City of Florence have also been called into question or become the subject of legal proceedings and claims for damages and other awards. UBS AG and UBS Limited have settled all civil disputes with the Regions of Tuscany, Lombardy, Lazio and Calabria and the City of Florence without any admission of liability.

Equities trading systems and practices. UBS was among dozens of defendants, including broker dealers, trading exchanges, high frequency trading firms, and dark pool sponsors, named in putative class actions pending in New York federal court, which have been filed on behalf of purchasers and sellers of equity securities. The lawsuits allege principally that the defendants'

equities order handling practices favored high frequency trading firms at the expense of other market participants, in violation of the federal securities laws. Plaintiffs filed a consolidated amended complaint in September 2014 in which UBS is no longer named as a defendant. In January 2015, the SEC announced the resolution of its investigation concerning the operation of UBS's ATS between 2008 and 2012, which focused on certain order types and disclosure practices that were discontinued two years ago. Under the SEC settlement order, which charges UBS with, among other things, violations of Section 17(a)(2) of the Securities Act of 1933 and Rule 612 of Regulation NMS (known as the sub-penny rule), UBS has paid a total of USD 14.5 million, which includes a fine of USD 12 million and disgorgement of USD 2.4 million. UBS is cooperating in the ongoing regulatory matters, including by the SEC.

Kommunale Wasserwerke Leipzig GmbH (KWL). In 2006, KWL entered into a single-tranche collateralized debt obligation/credit default swap (STCDO/CDS) transaction with UBS, with latter legs being intermediated in 2006 and 2007 by Landesbank Baden-Württemberg (LBBW) and Depfa Bank plc (Depfa). KWL retained UBS Global Asset Management to act as portfolio manager under the STCDO/CDS. UBS and the intermediating banks terminated the STCDO/CDS following non-payment by KWL under the STCDOs. UBS initiated proceedings against KWL, Depfa and LBBW seeking declarations and/or to enforce the terms of the STCDO/CDS contracts, and each of KWL, Depfa and LBBW filed counterclaims. Following trial, the Court ruled that UBS cannot enforce the STCDO/CDS entered into with KWL, LBBW or Depfa, which have been rescinded, granted the fraudulent misrepresentation claims of LBBW and Depfa against UBS, ruled that UBS Global Asset Management breached its duty in the management of the underlying portfolios and dismissed KWL's monetary counterclaim against UBS. These rulings have been implemented and additional claims relating to interest on collateral and the costs of separate proceedings in Germany have been deferred. UBS has sought leave to appeal the judgment. The court has denied leave to appeal on written submissions and oral argument to reconsider the denial is scheduled for October 2015. UBS has also been ordered to pay part of the other parties' costs in the proceedings, which have not been fully determined.

In separate proceedings brought by KWL against LBBW in Leipzig, Germany, the court ruled in LBBW's favor in June 2013 and upheld the validity of the STCDO as between LBBW and KWL. KWL has appealed against that ruling and, in December 2014, the appeal court stayed the appeal proceedings following the judgment and UBS's request for permission to appeal in the proceedings in England. KWL and LBBW have been given permission by the English trial judge to make applications to recover their costs in the German proceedings as damages from UBS in the English proceedings after the German proceedings conclude.

In 2011 and 2013, the former managing director of KWL and two financial advisers were convicted in Germany on criminal charges related to certain KWL transactions, including swap transactions with UBS. All three have lodged appeals.

Since 2011, the SEC has been conducting an investigation focused on, among other things, the suitability of the KWL transaction, and information provided by UBS to KWL. UBS has provided documents and testimony to the SEC and is continuing to cooperate with the SEC.

Banco UBS Pactual tax indemnity: In May 2014, UBS was notified that the administrative court had rendered a decision in favor of the taxpayer, Pactual, in connection with a profit-sharing plan assessment relating to an affiliate company. That decision became final in October 2014.

From 2013 through 2015, approximately BRL 180 million in tax claims relating to the period for which UBS has indemnification obligations were submitted for settlement through amnesty programs announced by the Brazilian government.

Besides the proceedings specified in this section XI. no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened, of which UBS AG is aware) which may have, or have had in the recent past, significant effects on UBS AG's and/or UBS AG Group's financial position or profitability, are or have been pending during the last twelve months until the date of this document.

In the section headed "XII. Significant Changes in the Financial or Trading Position; Material Adverse Change in Prospects" (page 50 of the Registration Document) the wording is replaced as follows:

"There has been no significant change in the financial or trading position of UBS AG Group since 30 June 2015. Refer to "*Recent Developments – Changes to UBS's legal structure*" above for more information on the transfer of the Retail & Corporate and Wealth Management business booked in Switzerland from UBS AG to UBS Switzerland AG, a banking subsidiary of UBS AG in Switzerland, effective on 14 June 2015."

There has been no material adverse change in the prospects of UBS AG or UBS AG Group since 31 December 2014."

In the section headed "XIII. Material Contracts" (page 50 of the Registration Document) the following wording has been added after the first sentence:

"Refer to "*Recent Developments – Changes to UBS's legal*" above for more information on the transfer of the Retail & Corporate and Wealth Management business booked in Switzerland from UBS AG to UBS Switzerland AG, a banking subsidiary of UBS AG in Switzerland, effective on 14 June 2015."

In the section headed "XIV. Documents on Display" (page 50 of the Registration Document) a third bullet point is added before the bullet point "the Articles of Association of UBS AG":

- the first quarter and second 2015 financial reports of UBS Group AG and the first and second quarter 2015 financial reports of UBS AG;

The first and second quarter 2015 financial reports of UBS Group AG and the first and second quarter 2015 financial reports of UBS AG contained in the Appendix hereto are added as Appendix 3 to the Registration Document.

the Elements B.4b, B.5 and B.12 are completely replaced as follows:

B.4b	Trends.	Trend Information As stated in the second quarter 2015 financial report of UBS Group AG issued on 28 July 2015, as in previous years, seasonal impacts are likely to affect revenues and profits in the third quarter. In addition, many of the underlying macroeconomic challenges and geopolitical issues that UBS has previously highlighted remain and are unlikely to be resolved in the foreseeable future. Despite ongoing and new challenges, UBS continues to be committed to the disciplined execution of its strategy in order to ensure the firm's long-term success and to deliver sustainable returns for shareholders.
B.5	Description of the group and the issuer's position within the group	UBS AG is a Swiss bank. It is the sole subsidiary of UBS Group AG. It is also the parent company of the UBS AG Group. The UBS Group operates as a group with five business divisions and a Corporate Center.

		<p>In June 2015, UBS AG transferred its Retail & Corporate and Wealth Management business booked in Switzerland to UBS Switzerland AG, a banking subsidiary of UBS AG in Switzerland. As of the transfer date, 14 June 2015, UBS Switzerland AG had over CHF 300 billion in assets, 2.7 million customers and 11,000 employees. Under the terms of the asset transfer agreement, UBS Switzerland AG is jointly liable for the contractual obligations of UBS AG existing on the asset transfer date. Under the Swiss Merger Act, UBS AG is jointly liable for obligations existing on the asset transfer date that have been transferred to UBS Switzerland AG. Neither UBS AG nor UBS Switzerland AG has any liability for new obligations incurred by the other entity after the asset transfer date. Accordingly, any new contractual obligations of UBS AG, including in connection with debt instruments of any kind with a settlement date occurring only after the asset transfer date, are not covered by UBS Switzerland AG's contractual joint liability.</p> <p>In the UK, UBS completed the implementation of a more self-sufficient business and operating model for UBS Limited under which UBS Limited bears and retains a larger proportion of the risk and reward in its business activities.</p> <p>In the US, to comply with new rules for foreign banks under the Dodd-Frank Wall Street Reform and Consumer Protection Act, by 1 July 2016 UBS will designate an intermediate holding company that will own all of UBS's US operations except US branches of UBS AG.</p> <p>In the third quarter of 2015, UBS intends to establish a Group service company as a subsidiary of UBS Group AG. UBS expects that the transfer of shared service and support functions to the service company structure will start in 2015 and will be implemented in a staged approach through 2018.</p> <p>As of 30 June 2015, UBS Group held 97.8% of total UBS AG shares issued and 98.1% of UBS AG shares registered in the commercial register. UBS Group AG filed a request with the Commercial Court of the Canton of Zurich for a procedure under article 33 of the Swiss Stock Exchange Act ("SESTA procedure"). Upon successful completion of the SESTA procedure, the shares of the remaining minority shareholders of UBS AG will be cancelled and the holders will receive UBS Group AG shares. UBS Group AG will then become the 100% owner of UBS AG. UBS Group AG expects the court to rule on the proceeding during the third quarter of 2015.</p> <p>UBS continues to consider further changes to the Group's legal structure in response to capital and other regulatory requirements and in order to obtain any reduction in capital requirements for which the Group may be eligible. Such changes may include the transfer of operating subsidiaries of UBS AG to become direct subsidiaries of UBS Group AG and adjustments to the booking entity or location of products and services. These structural changes are being discussed on an ongoing basis with the FINMA and other regulatory authorities and remain subject to a number of uncertainties that may affect their feasibility, scope or timing.</p>
B.12	Selected historical key	UBS AG derived the selected consolidated financial information included in the table below for the years ended 31 December

	financial information.	<p>2012, 2013 and 2014 from its annual report 2014, which contains the audited consolidated financial statements of UBS AG, as well as additional unaudited consolidated financial information, for the year ended 31 December 2014 and comparative figures for the years ended 31 December 2013 and 2012. The selected consolidated financial information included in the table below for the six months ended 30 June 2015 and 30 June 2014 was derived from the second quarter 2015 report, which contains the unaudited consolidated financial statements of UBS AG, as well as additional unaudited consolidated financial information, for the six months ended 30 June 2015 and comparative figures for the six months ended 30 June 2014. The consolidated financial statements were prepared in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and stated in Swiss francs (CHF). The annual report 2014 and the second quarter 2015 report are incorporated by reference herein. In the opinion of management, all necessary adjustments were made for a fair presentation of the UBS AG consolidated financial position and results of operations. Information for the years ended 31 December 2012, 2013 and 2014 which is indicated as being unaudited in the below table was included in the annual report 2014 but has not been audited on the basis that the respective disclosures are not required under IFRS, and therefore are not part of the audited financial statements. Certain information which was included in the consolidated financial statements to the annual report 2013 was restated in the annual report 2014. The figures contained in the below table in respect of the year ended 31 December 2013 reflect the restated figures as contained in the annual report 2014. Prospective investors should read the whole of the documentation and should not rely solely on the summarized information set out below:</p>

	<p>* unaudited</p> <p>¹ Net profit / loss attributable to UBS AG shareholders before amortization and impairment of goodwill and intangible assets (annualized as applicable) / average equity attributable to UBS AG shareholders less average goodwill and intangible assets. ² Operating income before credit loss (expense) or recovery (annualized as applicable) / average total assets. ³ Operating expenses / operating income before credit loss (expense) or recovery. ⁴ Change in net profit attributable to UBS AG shareholders from continuing operations between current and comparison periods / net profit attributable to UBS AG shareholders from continuing operations of comparison period. Not meaningful and not included if either the reporting period or the comparison period is a loss period. ⁵ Combined Wealth Management's and Wealth Management Americas' net new money for the period (annualized as applicable) / invested assets at the beginning of the period. Based on adjusted net new money which excludes the negative effect on net new money of CHF 6.6 billion in Wealth Management from UBS's balance sheet and capital optimization efforts in the second quarter of 2015. ⁶ Common equity tier 1 capital / risk-weighted assets. ⁷ Based on the Basel III framework as applicable to Swiss systemically relevant banks (SRB), which became effective in Switzerland on 1 January 2013. The information provided on a fully applied basis entirely reflects the effects of the new capital deductions and the phase out of ineligible capital instruments. The information provided on a phase-in basis gradually reflects those effects during the transition period. Numbers for 31 December 2012 are calculated on an estimated basis described below and are referred to as "pro-forma". The term "pro-forma" as used in this prospectus does not refer to the term "pro forma financial information" within the meaning of Regulation (EC) 809/2004. Some of the models applied when calculating 31 December 2012 pro-forma information required regulatory approval and included estimates (as discussed with UBS's primary regulator) of the effect of new capital charges. These figures are not required to be presented, because Basel III requirements were not in effect on 31 December 2012. They are nevertheless included for comparison reasons. ⁸ Common equity tier 1 capital and loss-absorbing capital / total adjusted exposure (leverage ratio denominator). ⁹ In accordance with Swiss SRB rules. The Swiss SRB leverage ratio came into force on 1 January 2013. Numbers for 31 December 2012 are on a pro-forma basis (see footnote 7 above). ¹⁰ Net profit / loss attributable to UBS AG shareholders (annualized as applicable) / average equity attributable to UBS AG shareholders. ¹¹ Based on Basel III risk-weighted assets (phase-in) for 2015, 2014 and 2013, and on Basel 2.5 risk-weighted assets for 2012. ¹² Includes invested assets for Retail & Corporate.</p>				
	Material adverse change statement.	There has been no material adverse change in the prospects of UBS AG or UBS AG Group since 31 December 2014.			
	Significant changes statement.	Not applicable, there has been no significant change in the financial or trading position of UBS AG Group since 30 June 2015. Refer to B.5 above for more information on the transfer of the Retail & Corporate and Wealth Management business booked in Switzerland from UBS AG to UBS Switzerland AG, a banking subsidiary of UBS AG in Switzerland, effective on 14 June 2015.			

In the Baseprospectuses / Prospectuses listed on page 1 to 3, apart from (i) Base Prospectus for the issue of Warrants dated 11 May 2015, (ii) Base prospectus for the issue of Securities dated 1 June 2015 and (iii) Base Prospectus for the issue of Fixed Income Securities dated 17 July 2015, the second subparagraph of Element B.15 is replaced as follows:

B.15	Issuer's principal activities	According to article 2 of the Articles of Association of UBS AG, dated 7 May 2015 (" Articles of Association "), the purpose of UBS AG is the operation of a bank. Its scope of operations extends to all types of banking, financial, advisory, trading and service activities in Switzerland and abroad. UBS AG may establish branches and representative offices as well as banks, finance companies and other enterprise of any kind in Switzerland and abroad, hold equity interests in these companies, and conduct their management. UBS AG is authorized to acquire, mortgage and sell real estate and building rights in Switzerland and abroad. UBS AG may provide loans, guarantees and other kinds of financing and security for Group companies and borrow and invest money on the money and capital markets.
-------------	-------------------------------	---

In the Baseprospectuses / Prospectuses listed on page 1 to 3 Element B.16 is completely replaced as follows:

B.16	Direct or indirect shareholdings or control agreements of the issuer	<p>As of 30 June 2015, UBS Group held 97.8% of total UBS AG shares issued and 98.1% of UBS AG shares registered in the commercial register.</p> <p>UBS Group AG filed a request with the Commercial Court of the Canton of Zurich for a procedure under article 33 of the Swiss Stock Exchange Act ("SESTA procedure"). The time allotted for UBS AG minority shareholders to intervene in the SESTA procedure closed on 14 July 2015 without any application for intervention being filed. UBS Group AG therefore expects the court to rule on the proceeding during the third quarter of 2015. Upon successful completion of the SESTA procedure, the shares of the remaining minority shareholders of UBS AG will be cancelled and the holders will receive UBS Group AG shares. UBS Group AG will then become the 100% owner of UBS AG.</p>

the Elements B.4b, B.5 and B.12 are completely replaced as follows:

B.4b	Trends.	Trend Information Wie in dem am 28. Juli 2015 veröffentlichten Finanzbericht der UBS Group AG für das zweite Quartal 2015 dargestellt, beeinflussen – wie in den vergangenen Jahren – saisonale Einflüsse wahrscheinlich Einnahmen und Gewinne im dritten Quartal 2015. Zudem bleiben viele der bereits früher von UBS hervorgehobenen grundsätzlichen makroökonomischen Herausforderungen und geopolitische Themen bestehen und können in absehbarer Zukunft wahrscheinlich nicht gelöst werden. UBS ist ungeachtet der bisherigen und neuen Herausforderungen weiterhin der disziplinierten Umsetzung ihrer Strategie verpflichtet, um so den langfristigen Erfolg des Unternehmens sicherzustellen und für die Aktionäre nachhaltige Renditen zu erwirtschaften.
B.5	Organisationsstruktur.	Die UBS AG ist eine Schweizer Bank. Sie ist die einzige Tochtergesellschaft der UBS Group AG und Muttergesellschaft der UBS AG Gruppe. Die UBS Gruppe ist ein Konzern mit fünf Unternehmensbereichen und einem Corporate Center.

		<p>Im Juni 2015 hat die UBS AG ihr in der Schweiz gebuchtes Retail & Corporate und Wealth Management Geschäft auf die UBS Switzerland AG, eine Tochtergesellschaft der UBS AG in der Schweiz übertragen. Am Übertragungsdatum des 14. Juni 2015 hatte die UBS Switzerland AG Vermögenswerte im Wert von über CHF 300 Mrd., 2,7 Mio. Kunden sowie 11.000 Arbeitnehmer. Nach den Bestimmungen des Übertragungsvertrags ist die UBS Switzerland AG gesamthänderische Schuldnerin für die vertraglichen Verpflichtungen der UBS AG zum Asset-Übertragungsdatum. Nach dem Schweizerischen Fusionsgesetz ist die UBS AG gesamthänderische Schuldnerin für die am Asset-Übertragungsdatum bestehenden Verbindlichkeiten, die auf die UBS Switzerland AG übertragen wurden. Weder die UBS AG noch die UBS Switzerland AG haften für von dem jeweils anderen Unternehmen nach dem Asset-Übertragungsdatum eingegangene Verbindlichkeiten. Dementsprechend sind neue vertragliche Verpflichtungen der UBS AG, insbesondere im Zusammenhang mit Schuldtiteln jeglicher Art, deren Abrechnungstermin nach dem Asset-Übertragungsdatum liegt, nicht von der vertraglichen gesamtschuldnerischen Haftung der UBS Switzerland AG erfasst.</p> <p>Im Vereinigten Königreich schloss UBS die Umsetzung eines autarkeren Geschäfts- und Betriebsmodells ab, nach welchem die UBS Limited bei ihrer Geschäftstätigkeit ein höheres Risiko trägt und eine höhere Vergütung erhält.</p> <p>In den USA wird UBS zur Einhaltung der neuen Regeln für ausländische Banken gemäß dem <i>Dodd-Frank Wall Street Reform and Consumer Protection Act</i> bis zum 1. Juli 2016 eine Zwischenholdinggesellschaft benennen, unter der alle Geschäfte der UBS in den USA, mit Ausnahme der US-Zweigniederlassungen der UBS AG, zusammengefasst werden.</p> <p>Im dritten Quartal 2015 strebt UBS die Gründung einer Dienstleistungsgesellschaft als Tochtergesellschaft der UBS Group AG an. UBS erwartet, dass die Übertragung der gemeinsamen Dienstleistungs- und Unterstützungsfunktionen auf die Dienstleistungsgesellschaft im Jahre 2015 beginnen und bis 2018 stufenweise umgesetzt sein wird.</p> <p>Am 30. Juni 2015 hielt die UBS Gruppe 97,8 Prozent aller ausgegebenen und 98,1 Prozent aller im Handelsregister registrierten Aktien der UBS AG. Die UBS Group AG hat beim Handelsgericht des Kantons Zürich einen Antrag auf ein Verfahren gemäß Art. 33 des Schweizer Aktiengesetzes (das "SESTA Verfahren") gestellt. Bei erfolgreichem Abschluss des SESTA Verfahrens werden die Minderheitsaktionäre der UBS AG von ihrer Beteiligung ausgeschlossen und erhalten stattdessen Aktien der UBS Group AG. Die UBS Group AG wird ihrerseits alleinige Aktionärin der UBS AG. Die UBS Group AG erwartet, dass das Gericht im Laufe des dritten Quartals 2015 entscheidet.</p> <p>UBS behält sich auch weiterhin Änderungen ihrer rechtlichen Gruppenstruktur vor, um regulatorische Anforderungen, insbesondere Eigenmittelerfordernisse, erfüllen zu können und um in den Genuss etwaiger Senkungen der Eigenmittelanforderungen zu kommen, die auf die Gruppe anwendbar sein können. Bei diesen Änderungen kann es sich beispielsweise um die Übertragung von operativen</p>

		<p>Tochtergesellschaften der UBS AG in direkte Tochtergesellschaften der UBS Group AG sowie um Anpassungen der verbuchenden Einheit oder des Standortes von Produkten und Dienstleistungen handeln. Diese strukturellen Änderungen werden kontinuierlich mit der FINMA und anderen regulatorischen Aufsichtsbehörden erörtert. Sie unterliegen weiterhin diversen Unsicherheiten, die deren Machbarkeit, Umfang oder den Zeitpunkt ihrer Umsetzung beeinflussen könnten.</p>
B.12	Ausgewählte wesentliche historische Finanzinformationen	<p>Die UBS AG hat die ausgewählten konsolidierten Finanzinformationen für die jeweils zum 31. Dezember endenden Geschäftsjahre 2012, 2013 und 2014 aus ihrem Geschäftsbericht 2014 entnommen, welcher die geprüften Konzernabschlüsse der UBS AG sowie zusätzliche ungeprüfte konsolidierte Finanzinformationen für das Jahr mit Stand 31. Dezember 2014 und den vergleichbaren Zahlen für die Jahre mit Stand 31. Dezember 2013 und 2012 enthält. Die ausgewählten konsolidierten Finanzinformationen in der folgenden Tabelle zu den jeweils am 30. Juni 2015 und 2014 endenden (ersten) Halbjahren wurden dem zweiten Quartalsbericht 2015 entnommen, der die ungeprüften konsolidierten Periodenabschlüsse der UBS AG sowie zusätzliche ungeprüfte konsolidierte Finanzinformation für das zum 30. Juni 2015 endende Halbjahr und vergleichende Darstellungen für das zum 30. Juni 2014 endende Halbjahr enthält. Die Konzernabschlüsse wurden in Übereinstimmung mit den International Financial Reporting Standards (IFRS) verfasst, die von dem International Accounting Standards Board (IASB) veröffentlicht wurden und sind in Schweizer Franken (CHF) ausgewiesen. Der Jahresabschluss für das Jahr 2014 und der Halbjahresabschluss für das zweite Halbjahr 2015 wurden mit Verweis herein einbezogen. Nach Auffassung des Managements wurden alle notwendigen Anpassungen vorgenommen, um die konsolidierte Finanzlage und die operativen Ergebnisse der UBS AG angemessen darzustellen. Finanzinformation in Bezug auf die am 31. Dezember 2012, 2013 und 2014 endenden Geschäftsjahre, die als ungeprüft in den nachfolgenden Tabellen ausgewiesen ist, war zwar in dem Jahresabschluss enthalten, wurde jedoch nicht geprüft, da dies nach den IFRS nicht erforderlich ist und diesen Finanzinformation folglich keinen Teil des geprüften Jahresabschlusses bildet. Bestimmte Informationen, die bereits im Konzernabschluss aus dem Geschäftsbericht 2013 enthalten waren, wurden im Geschäftsbericht 2014 angepasst. Die Zahlen in der nachfolgenden Tabelle aus dem zum 31. Dezember 2013 endenden Geschäftsjahr spiegeln die angepassten Zahlen aus dem Geschäftsbericht 2014 wieder. Potenzielle Investoren sollten die gesamte Dokumentation lesen und sich nicht nur auf die unten zusammengefassten Angaben verlassen:</p>

Basierend auf den angepassten Nettoneugeldern unter Ausschluss des negativen Effekts auf die Nettoneugelder von CHF 6,6 Mrd. bei Verwalteten Vermögen von UBS's Bilanz und Kapitaloptimierungsanstrengungen im 2. Quartal 2015. ⁶Hartes Kernkapital (CET1) / Risikogewichtete Aktiven. ⁷Basiert auf den Basel-III-Richtlinien, soweit auf systemrelevante Banken (SRB) anwendbar, die am ersten Januar 2013 in der Schweiz in Kraft traten. Die auf einer vollständigen Umsetzung basierenden Informationen berücksichtigen die Auswirkungen der neuen Kapitalabzüge wie auch den Wegfall der nicht anrechenbaren Kapitalinstrumente in vollem Umfang. Die auf einer stufenweisen Umsetzung basierenden Informationen reflektieren diese Auswirkungen schrittweise während der Übergangsperiode. Zahlen per 31. Dezember 2012 sind auf Grundlage der unten beschriebenen Schätzungen berechnet und werden als „pro-forma“ bezeichnet. Der in diesem Prospekt verwendete Begriff „pro-forma“ bezieht sich nicht auf den in der Verordnung (EG) 809/2004 verwendeten Begriff „Pro forma-Finanzinformationen“. Einige bei der Berechnung der Pro-forma-Informationen angewandten Modelle erforderten eine regulatorische Bewilligung und enthielten Schätzungen (gemäß Diskussion mit primärer Aufsichtsstelle von UBS) der Auswirkung der neuen Eigenkapitalanforderungen. Diese Zahlen müssen nicht dargestellt werden, da die Basel III-Anforderungen am 31. Dezember 2012 noch nicht in Kraft waren. Sie werden jedoch aus Vergleichszwecken aufgeführt. ⁸Hartes Kernkapital (CET1) und verlustabsorbierendes Kapital / Adjustiertes Gesamtengagement (Leverage Ratio Denominator). ⁹Gemäß der Schweizer SRB-Regelungen trat die Schweizer Leverage Ratio für SRB am 1. Januar 2013 in Kraft. Die Zahlen per 31. Dezember 2012 sind Pro-forma-basiert (siehe Fußnote 7 oben). ¹⁰Das den UBS AG-Aktionären zurechenbare Konzernergebnis (gegebenenfalls annualisiert) / das den UBS AG-Aktionären zurechenbare durchschnittliche Eigenkapital. ¹¹Für 2015, 2014 und 2013 basieren die risikogewichteten Aktiva (stufenweise umgesetzt) auf den Basel-III-Richtlinien und für 2012 basieren die risikogewichteten Aktiva auf den Basel-2.5-Richtlinien. ¹²Beinhaltet Vermögen unter der Verwaltung von Retail & Corporate.</p>					
	Erklärung hinsichtlich wesentlicher Verschlechterung.	Seit dem 31. Dezember 2014 sind keine wesentlichen nachteiligen Veränderungen in den Aussichten der UBS AG oder der UBS AG Gruppe eingetreten.				
	Beschreibung wesentlicher Veränderungen der Finanzlage oder Handelsposition.	Entfällt; seit dem 30. Juni 2015 sind keine erheblichen Veränderungen der Finanzlage oder der Handelsposition der UBS AG Gruppe eingetreten. Bezüglich weiterer Informationen zu der Vermögensübertragung des in der Schweiz gebuchten Retail & Corporate und Wealth Management Geschäfts von der UBS AG auf die UBS Switzerland AG, eine Tochtergesellschaft der UBS AG in der Schweiz, wirksam ab dem 14. Juni 2015, siehe bitte B.5.				

In the Baseprospectuses / Prospectuses listed on page 1 to 3, apart from (i) Base Prospectus for the issue of Warrants dated 11 May 2015, (ii) Base prospectus for the issue of Securities dated 1 June 2015 and (iii) Base Prospectus for the issue of Fixed Income Securities dated 17 July 2015, the second subparagraph of Element B.15 the is replaced as follows:

B.15	Haupttätigkeiten der Emittentin.	Gemäß Artikel 2 der Statuten der UBS AG vom 7. Mai 2015 (" Statuten ") ist der Zweck der UBS AG der Betrieb einer Bank. Ihr Geschäftskreis umfasst alle Arten Bank-, Finanz-, Beratungs-, Dienstleistungs- und Handelsgeschäften in der Schweiz und im Ausland. Die UBS AG kann in der Schweiz und im Ausland Unternehmen aller Art gründen, sich an solchen beteiligen und deren Geschäftsführung übernehmen. Die UBS AG ist berechtigt, in der Schweiz und im Ausland Grundstücke und Baurechte zu erwerben, zu belasten und zu verkaufen. Die UBS AG kann an Gesellschaften der Gruppe Darlehen ausgeben, Garantien für sie übernehmen und ihnen bzw. für sie andere Arten von Finanzierungen und Sicherheiten stellen sowie Geld auf den Geld- und Kapitalmärkten leihen und investieren.
-------------	----------------------------------	--

In the Baseprospectuses / Prospectuses listed on page 1 to 3 Element B.16 is completely replaced as follows:

B.16	Beteiligungen oder Beherrschungsverhältnisse	<p>Seit dem 30. Juni 2015 hält die UBS Group 97,8 Prozent aller ausgegebenen Aktien der UBS AG und 98,1 Prozent ihrer im Handelsregister registrierten Aktien.</p> <p>Die UBS Group AG hat beim Handelsgericht des Kantons Zürich einen Antrag auf ein Verfahren gemäß Art. 33 des Schweizer Aktiengesetzes (das "SESTA Verfahren") gestellt. Das Zeitfenster, in dem Minderheitsaktionäre der UBS AG im SESTA Verfahren intervenieren konnten, hat sich am 14. Juli 2015 ohne einen Antrag eines Minderheitsaktionärs geschlossen. Die UBS Group AG erwartet, dass das Gericht im Laufe des dritten Quartals 2015 entscheidet. Bei erfolgreichem Abschluss des SESTA Verfahrens werden die Minderheitsaktionäre der UBS AG von ihrer Beteiligung ausgeschlossen und erhalten stattdessen Aktien der UBS Group AG. Die UBS Group AG wird ihrerseits alleinige Aktionärin der UBS AG. Die UBS Group AG erwartet, dass das Gericht im Laufe des dritten Quartals 2015 entscheidet.</p>

in the section

"Summary of the Base Prospectus (in the German Language)" in the section headed

"Abschnitt B – Emittentin"

- In Element B.17 the second paragraph is replaced as follows:

"UBS AG verfügt über ein langfristiges Schuldnerbonitätsrating von A (stabiler Ausblick) von Standard & Poor's, für ihre langfristigen vorrangigen Schuldpapiere über ein Rating von A2 (stabiler Ausblick) von Moody's, sowie über ein langfristiges Emittentenbonitätsrating von A (stabiler Ausblick) von Fitch Ratings."

5) Risk Factor

- (i) (a) in relation to the Base Prospectus dated 11 May 2015 for the issue of Warrants in the section
"1. Risk Factors (in the English language)" in the section headed
"1. Special risks related to specific features of the Warrant structure"
the following risk factor has been added after the risk factor headed "2. No statutory or voluntary deposit guarantee scheme" and as a consequence the numbering of all subsequent risk factors is adjusted accordingly:

"3. Securityholders are exposed to the risk of a bail-in

The Issuer and the Securities are subject to the Swiss Banking Act and the Swiss Financial Market Supervisory Authority's ("FINMA") bank insolvency ordinance, which empowers FINMA as the competent resolution authority to in particular apply under certain circumstances certain resolution tools to credit institutions. These measures include in particular the write-down or conversion of securities into common equity of such credit institution (the so called bail-in). A write-down or conversion would have the effect that the Issuer would insofar be released from its obligations under the Securities. Securityholders would have no further claim against the Issuer under the Securities. The resolution tools may, hence, have a significant negative impact on the Securityholders' rights by suspending, modifying and wholly or partially extinguishing claims under the Securities. In the worst case, this can lead to a **total loss of the Securityholders' investment in the Securities**.

Such legal provisions and/or regulatory measures may severely affect the rights of the Securityholders and may have a negative impact on the value of the Securities even prior to any non-viability or resolution in relation to the Issuer."

In the same section the following risk factor has been added before the risk factor headed "Potential conflicts of interest" and as a consequence the numbering of the subsequent risk factor is adjusted accordingly:

"20. Specific risks in relation to the the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period

The Issuer reserves the right to refrain from commencing the invitation to make offers regarding the Securities prior to the commencement of the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period or withdrawing the invitation to make offers regarding the Securities at any time during the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period. If the invitation to make offers regarding such Securities is withdrawn, such no purchase offers regarding the securities will be accepted. In such case, any amounts paid by an investor to the Authorised Offeror in relation to the purchase of any Securities will be returned to such investor by the Authorised Offeror but, depending on the agreement(s) in place between the investor and the Authorised Offeror and/or the Authorised Offeror's distribution policies, interest may or may not accrue on such amounts. There may also be a time lag between the cancellation or withdrawal of the invitation to make offers as applicable, and the return of any such amounts and, unless otherwise agreed with, and paid by, the Authorised Offeror, no amount will be payable to investors as compensation in respect thereof and investors may be subject to reinvestment risk.

In addition, the Issuer may close the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period early, whether or not subscriptions have reached the maximum size of the offer, by immediately suspending the acceptance of further subscription requests and by giving notice thereof. In such circumstances, the early closing of the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period will have an impact on the Issue Size or, as the case may be, the Aggregate Nominal Amount of the Securities issued and therefore may have a negative effect on the liquidity of the Securities.

Furthermore, in certain circumstances, the Issuer may have the right to postpone the originally designated Issue Date of the Securities. In the event that the Issue Date is so delayed, no compensation or other amount in respect of interest shall accrue and be payable in relation to the Securities, unless otherwise agreed with the Authorised Offeror and/or specified in its distribution policies, and paid by the Authorised Offeror. Investors will have the right, within a prescribed time period, to withdraw their offer as a result of such postponement."

- (aa) in relation to the Base Prospectus dated 11 May 2015 for the issue of Warrants in the section
"Summary" in the section
"D.3" headed "Key Information on the risks that are specific and individual to the securities"
the following risk factor has been added in the sub-paragraph headed "General risks related to the Warrants" before the risk factor headed "Termination and Early Redemption at the option of the Issuer":

" Securityholders are exposed to the risk of a bail-in

The Issuer and the Securities are subject to the Swiss Banking Act and the Swiss Financial Market Supervisory Authority's ("FINMA") bank insolvency ordinance, which empowers FINMA as the competent resolution authority to in particular apply under certain circumstances certain resolution tools to credit institutions. These measures include in particular the write-down or conversion of securities into common equity of such credit institution (the so called bail-in). A write-down or conversion would have the effect that the Issuer would insofar be released from its obligations under the Securities. Securityholders would have no further claim against the Issuer under the Securities. The resolution tools may, hence, have a significant negative impact on the Securityholders' rights by suspending, modifying and wholly or partially extinguishing claims under the Securities. In the worst case, this can lead to a **total loss of the Securityholders' investment in the Securities**.

Such legal provisions and/or regulatory measures may severely affect the rights of the Securityholders and may have a negative impact on the value of the Securities even prior to any non-viability or resolution in relation to the Issuer."

- (i) (b) in relation to the Base Prospectus dated 11 May 2015 for the issue of Warrants in the section
"1. Risk Factors (in the German language)" in the section headed
"1. Spezielle Risiken im Zusammenhang mit Besonderheiten der Options-scheinstruktur"
the following risk factor has been added after the risk factor headed "2. Keine gesetzliche oder freiwillige Einlagensicherung" and as a consequence the numbering of all subsequent risk factors is adjusted accordingly:

"3. Wertpapiergläubiger sind dem Risiko eines Bail-in ausgesetzt

Die Emittentin und die Wertpapiere unterliegen dem Schweizer Bankengesetz sowie der Bankeninsolvenzverordnung der Eidgenössischen Finanzmarktaufsicht ("FINMA"), die die FINMA als zuständige Abwicklungsbehörde insbesondere ermächtigt, unter Umständen bestimmte Abwicklungsinstrumente gegenüber Kreditinstituten anzuwenden. Dies schließt die Herabschreibung oder die Umwandlung von Schuldverschreibungen in Eigenkapital (sogenannter Bail-In) ein. Eine Herabschreibung oder Umwandlung würde die Emittentin insoweit von ihren Verpflichtungen unter den Wertpapieren befreien und die Wertpapiergläubiger hätten keinen weiteren Anspruch aus den Wertpapieren gegen die Emittentin. Die Abwicklungsinstrumente können daher die Rechte der Wertpapiergläubiger deutlich nachteilig beeinflussen, indem sie Ansprüche aus den Wertpapieren aussetzen, modifizieren und ganz oder teilweise zum Erlöschen bringen können. Dies kann im schlechtesten Fall zum **Totalverlust der Investition der Wertpapiergläubiger in die Wertpapiere** führen.

Die genannten rechtlichen Bestimmungen und/oder Verwaltungsmaßnahmen können die Rechte von Wertpapiergläubigern erheblich nachteilig beeinträchtigen und können, auch im Vorfeld der Bestandsgefährdung oder Abwicklung, einen negativen Einfluss auf den Wert der Wertpapiere haben."

In the same section the following risk factor has been added before the risk factor headed "Potenzielle Interessenkonflikte" and as a consequence the numbering of the subsequent risk factor is adjusted accordingly:

"20. Besondere Risiken im Zusammenhang mit der Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, der Zeichnungsfrist

Die Emittentin behält sich das Recht vor, von der Aufforderung, Angebote bezüglich der Wertpapiere zu unterbreiten bereits vor Beginn der Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, der Zeichnungsfrist Abstand zu nehmen, oder die Aufforderung, Angebote bezüglich der Wertpapiere zu unterbreiten zu einem beliebigen Zeitraum während der Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, der Zeichnungsfrist zurückzunehmen. Im Falle einer Rücknahme der Einladung Angebote bezüglich der Wertpapiere zu unterbreiten, werden keinerlei Kaufangebote angenommen werden. In einem solchen Fall werden Zahlungen, die ein Anleger in Zusammenhang mit dem Kauf von Wertpapieren an die Berechtigter Anbieter geleistet hat, von dem Berechtigten Anbieter an den Anleger zurückgezahlt; ob eine Verzinsung solcher Beträge erfolgt, ist allerdings abhängig von dem oder den zwischen dem Anleger und dem Berechtigten Anbieter geltenden Vereinbarung(en) und/oder den Vertriebsrichtlinien des Berechtigten Anbieters. Es kann auch zu zeitlichen Verzögerungen zwischen der Aufhebung oder Rücknahme der Einladung Angebote zu unterbreiten und der Rückzahlung der Beträge kommen; Anleger erhalten insoweit keine Ausgleichszahlungen - sofern nicht mit dem Berechtigten Anbieter abweichend geregelt und von dem Berechtigten Anbieters gezahlt - und tragen das Wiederanlagerisiko selbst.

Die Emittentin kann die Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, die Zeichnungsfrist zudem vorzeitig beenden - unabhängig davon, ob das Angebotsvolumen in maximalem Umfang ausgeschöpft wurde oder nicht - indem sie die Annahme weiterer Zeichnungsanträge mit sofortiger Wirkung aussetzt und dies mitteilt. In solchen Fällen hat die vorzeitige Beendigung der Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, der Zeichnungsfrist Auswirkungen auf das tatsächliche Ausgabevolumen bzw. den Gesamtnennbetrag der ausgegebenen Wertpapiere und kann damit nachteilige Folgen für die Liquidität der Wertpapiere haben.

Außerdem kann die Emittentin in bestimmten Fällen berechtigt sein, den ursprünglich vorgesehenen Ausgabetag der Wertpapiere zu verschieben. Im Falle einer solchen Verschiebung des Ausgabetales werden in Zusammenhang mit den Wertpapieren keine Ausgleichszahlungen geleistet und es werden keine Zinsen fällig und zahlbar, sofern nicht mit dem Berechtigten Anbieter abweichend geregelt und/oder in seinen Vertriebsrichtlinien vorgesehen, und von dem Berechtigten Anbieter gezahlt. Bei einer solchen Verschiebung sind Anleger berechtigt, ihr Angebot innerhalb eines dafür vorgesehenen Zeitrahmens zurückzunehmen."

- (bb) in relation to the Base Prospectus dated 11 May 2015 for the issue of Warrants in the section
 "Zusammenfassung" in the section
 "D.3" headed "Zentrale Angaben zu den zentralen Risiken, die den Wertpapieren eigen sind"
 the following risk factor has been added in the sub-paragraph headed "Allgemeine Risiken im Zusammenhang mit den Wertpapieren" before the risk factor headed "Kündigung und vorzeitige Tilgung der Wertpapiere durch die Emittentin":

"Wertpapiergläubiger sind dem Risiko eines Bail-in ausgesetzt"

Die Emittentin und die Wertpapiere unterliegen dem Schweizer Bankengesetz sowie der Bankeninsolvenzverordnung der Eidgenössischen Finanzmarktaufsicht ("FINMA"), die die FINMA als zuständige Abwicklungsbehörde insbesondere ermächtigt, unter Umständen bestimmte Abwicklungsinstrumente gegenüber Kreditinstituten anzuwenden. Dies schließt die Herabschreibung oder die Umwandlung von Schuldverschreibungen in Eigenkapital (sogenannter Bail-In) ein. Eine Herabschreibung oder Umwandlung würde die Emittentin insoweit von ihren Verpflichtungen unter den Wertpapieren befreien und die Wertpapiergläubiger hätten keinen weiteren Anspruch aus den Wertpapieren gegen die Emittentin. Die Abwicklungsinstrumente können daher die Rechte der Wertpapiergläubiger deutlich nachteilig beeinflussen, indem sie Ansprüche aus den Wertpapieren aussetzen, modifizieren und ganz oder teilweise zum Erlöschen bringen können. Dies kann im schlechtesten Fall zum **Totalverlust der Investition der Wertpapiergläubiger in die Wertpapiere** führen.

Die genannten rechtlichen Bestimmungen und/oder Verwaltungsmaßnahmen können die Rechte von Wertpapiergläubigern erheblich nachteilig beeinträchtigen und können, auch im Vorfeld der Bestandsgefährdung oder Abwicklung, einen negativen Einfluss auf den Wert der Wertpapiere haben."

- (ii) (a) in relation to the Base Prospectus dated 1 June 2015 for the issue of Securities in the section
 "1. Risk Factors (in the English language)" in the section headed
 "1. Special risks related to specific features of the Security structure"
 the following risk factor has been added after the risk factor headed "2. No statutory or voluntary deposit guarantee scheme" and as a consequence the numbering of all subsequent risk factors is adjusted accordingly:

"3. Securityholders are exposed to the risk of a bail-in"

The Issuer and the Securities are subject to the Swiss Banking Act and the Swiss Financial Market Supervisory Authority's ("FINMA") bank insolvency ordinance, which empowers FINMA as the competent resolution authority to in particular apply under certain circumstances certain resolution tools to credit institutions. These measures include in particular the write-down or conversion of securities into common equity of such credit institution (the so called bail-in). A write-down or conversion would have the effect that the Issuer would insofar be released from its obligations under the Securities. Securityholders would have no further claim against the Issuer under the Securities. The resolution tools may, hence, have a significant negative impact on the Securityholders' rights by suspending, modifying and wholly or partially extinguishing claims under the Securities. In the worst case, this can lead to a **total loss of the Securityholders' investment in the Securities**.

Such legal provisions and/or regulatory measures may severely affect the rights of the Securityholders and may have a negative impact on the value of the Securities even prior to any non-viability or resolution in relation to the Issuer."

In the same section the following risk factor has been added before the risk factor headed "Conflicts of interests" and as a consequence the numbering of the subsequent risk factor is adjusted accordingly:

"21. Specific risks in relation to the the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period

The Issuer reserves the right to refrain from commencing the invitation to make offers regarding the Securities prior to the commencement of the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period or withdrawing the invitation to make offers regarding the Securities at any time during the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period. If the invitation to make offers regarding such Securities is withdrawn, such no purchase offers regarding the securities will be accepted. In such case, any amounts paid by an investor to the Authorised Offeror in relation to the purchase of any Securities will be returned to such investor by the Authorised Offeror but, depending on the agreement(s) in place between the investor and the Authorised Offeror and/or the Authorised Offeror's distribution policies, interest may or may not accrue on such amounts. There may also be a time lag between the cancellation or withdrawal of the invitation to make offers as applicable, and the return of any such amounts and, unless otherwise agreed with, and paid by, the Authorised Offeror, no amount will be payable to investors as compensation in respect thereof and investors may be subject to reinvestment risk.

In addition, the Issuer may close the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period early, whether or not subscriptions have reached the maximum size of the offer, by immediately suspending the acceptance of further subscription requests and by giving notice thereof. In such circumstances, the early closing of the Offer Period or, as the case may be and as specified in the relevant Final Terms, the Subscription Period will have an impact on the Issue Size or, as the case may be, the Aggregate Nominal Amount of the Securities issued and therefore may have a negative effect on the liquidity of the Securities.

Furthermore, in certain circumstances, the Issuer may have the right to postpone the originally designated Issue Date of the Securities. In the event that the Issue Date is so delayed, no compensation or other amount in respect of interest shall accrue and be payable in relation to the Securities, unless otherwise agreed with the Authorised Offeror and/or specified in its distribution policies, and paid by the Authorised Offeror. Investors will have the right, within a prescribed time period, to withdraw their offer as a result of such postponement."

- (aa) in relation to the Base Prospectus dated 1 June 2015 for the issue of Securities in the section
"Summary" in the section
"D.3" headed "Key Information on the risks that are specific and individual to the securities"
the following risk factor has been added in the sub-paragraph headed "General risks related to the Securities" before the risk factor headed "Termination and Early Redemption at the option of the Issuer":

"Securityholders are exposed to the risk of a bail-in

The Issuer and the Securities are subject to the Swiss Banking Act and the Swiss Financial Market Supervisory Authority's ("FINMA") bank insolvency ordinance, which empowers FINMA as the competent resolution authority to in particular apply under certain circumstances certain resolution tools to credit institutions. These measures include in particular the write-down or conversion of securities into common equity of such credit institution (the so called bail-in). A write-down or conversion would have the effect that the Issuer would insofar be released from its obligations under the Securities. Securityholders would have no further claim against the Issuer under the Securities. The resolution tools may, hence, have a significant negative impact on the Securityholders' rights by suspending, modifying and wholly

or partially extinguishing claims under the Securities. In the worst case, this can lead to a **total loss of the Securityholders' investment in the Securities**.

Such legal provisions and/or regulatory measures may severely affect the rights of the Securityholders and may have a negative impact on the value of the Securities even prior to any non-viability or resolution in relation to the Issuer."

- (ii) (b) in relation to the Base Prospectus dated 1 June 2015 for the issue of Securities in the section
"1. Risk Factors (in the German language)" in the section headed
"1. Spezielle Risiken im Zusammenhang mit Besonderheiten der Wertpapierstruktur"
the following risk factor has been added after the risk factor headed "2. Keine gesetzliche oder freiwillige Einlagensicherung" and as a consequence the numbering of all subsequent risk factors is adjusted accordingly:

"3. Wertpapiergläubiger sind dem Risiko eines Bail-in ausgesetzt

Die Emittentin und die Wertpapiere unterliegen dem Schweizer Bankengesetz sowie der Bankeninsolvenzverordnung der Eidgenössischen Finanzmarktaufsicht ("FINMA"), die die FINMA als zuständige Abwicklungsbehörde insbesondere ermächtigt, unter Umständen bestimmte Abwicklungsinstrumente gegenüber Kreditinstituten anzuwenden. Dies schließt die Herabschreibung oder die Umwandlung von Schuldverschreibungen in Eigenkapital (sogenannter Bail-In) ein. Eine Herabschreibung oder Umwandlung würde die Emittentin insoweit von ihren Verpflichtungen unter den Wertpapieren befreien und die Wertpapiergläubiger hätten keinen weiteren Anspruch aus den Wertpapieren gegen die Emittentin. Die Abwicklungsinstrumente können daher die Rechte der Wertpapiergläubiger deutlich nachteilig beeinflussen, indem sie Ansprüche aus den Wertpapieren aussetzen, modifizieren und ganz oder teilweise zum Erlöschen bringen können. Dies kann im schlechtesten Fall zum **Totalverlust der Investition der Wertpapiergläubiger in die Wertpapiere** führen.

Die genannten rechtlichen Bestimmungen und/oder Verwaltungsmaßnahmen können die Rechte von Wertpapiergläubigern erheblich nachteilig beeinträchtigen und können, auch im Vorfeld der Bestandsgefährdung oder Abwicklung, einen negativen Einfluss auf den Wert der Wertpapiere haben."

In the same section the following risk factor has been added before the risk factor headed "Interessenkonflikte" and as a consequence the numbering of the subsequent risk factor is adjusted accordingly:

"20. Besondere Risiken im Zusammenhang mit der Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, der Zeichnungsfrist

Die Emittentin behält sich das Recht vor, von der Aufforderung, Angebote bezüglich der Wertpapiere zu unterbreiten bereits vor Beginn der Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, der Zeichnungsfrist Abstand zu nehmen, oder die Aufforderung, Angebote bezüglich der Wertpapiere zu unterbreiten zu einem beliebigen Zeitraum während der Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, der Zeichnungsfrist zurückzunehmen. Im Falle einer Rücknahme der Einladung Angebote bezüglich der Wertpapiere zu unterbreiten, werden keinerlei Kaufangebote angenommen werden. In einem solchen Fall werden Zahlungen, die ein Anleger in Zusammenhang mit dem Kauf von Wertpapieren an die Berechtigter Anbieter geleistet hat, von dem Berechtigten Anbieter an den Anleger zurückgezahlt; ob eine Verzinsung solcher Beträge erfolgt, ist allerdings abhängig von dem oder den zwischen dem Anleger und dem Berechtigten Anbieter geltenden Vereinbarung(en) und/oder den Vertriebsrichtlinien des Berechtigten Anbieters. Es kann auch zu zeitlichen Verzögerungen zwischen der Aufhebung oder Rücknahme der Einladung Angebote zu unterbreiten und der Rückzahlung der Beträge kommen; Anleger erhalten insoweit keine Ausgleichszahlungen - sofern nicht mit dem Berechtigten Anbieter

abweichend geregelt und von dem Berechtigten Anbieters gezahlt - und tragen das Wiederanlagerisiko selbst.

Die Emittentin kann die Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, die Zeichnungsfrist zudem vorzeitig beenden - unabhängig davon, ob das Angebotsvolumen in maximalem Umfang ausgeschöpft wurde oder nicht - indem sie die Annahme weiterer Zeichnungsanträge mit sofortiger Wirkung aussetzt und dies mitteilt. In solchen Fällen hat die vorzeitige Beendigung der Angebotsfrist bzw., wie in den maßgeblichen Endgültigen Bedingungen festgelegt, der Zeichnungsfrist Auswirkungen auf das tatsächliche Ausgabevolumen bzw. den Gesamtnennbetrag der ausgegebenen Wertpapiere und kann damit nachteilige Folgen für die Liquidität der Wertpapiere haben.

Außerdem kann die Emittentin in bestimmten Fällen berechtigt sein, den ursprünglich vorgesehenen Ausgabebetrag der Wertpapiere zu verschieben. Im Falle einer solchen Verschiebung des Ausgabebetrages werden in Zusammenhang mit den Wertpapieren keine Ausgleichszahlungen geleistet und es werden keine Zinsen fällig und zahlbar, sofern nicht mit dem Berechtigten Anbieter abweichend geregelt und/oder in seinen Vertriebsrichtlinien vorgesehen, und von dem Berechtigten Anbieter gezahlt. Bei einer solchen Verschiebung sind Anleger berechtigt, ihr Angebot innerhalb eines dafür vorgesehenen Zeitrahmens zurückzunehmen."

- (bb) in relation to the Base Prospectus dated 1 June 2015 for the issue of Securities in the section
"Zusammenfassung" in the section
"D.3" headed "Zentrale Angaben zu den zentralen Risiken, die den Wertpapieren eigen sind"
the following risk factor has been added in the sub-paragraph headed "Allgemeine Risiken im Zusammenhang mit den Wertpapieren" before the risk factor headed "Kündigung und vorzeitige Tilgung der Wertpapiere durch die Emittentin":

"Wertpapiergläubiger sind dem Risiko eines Bail-in ausgesetzt"

Die Emittentin und die Wertpapiere unterliegen dem Schweizer Bankengesetz sowie der Bankeninsolvenzverordnung der Eidgenössischen Finanzmarktaufsicht ("FINMA"), die die FINMA als zuständige Abwicklungsbehörde insbesondere ermächtigt, unter Umständen bestimmte Abwicklungsinstrumente gegenüber Kreditinstituten anzuwenden. Dies schließt die Herabschreibung oder die Umwandlung von Schuldverschreibungen in Eigenkapital (sogenannter Bail-In) ein. Eine Herabschreibung oder Umwandlung würde die Emittentin insoweit von ihren Verpflichtungen unter den Wertpapieren befreien und die Wertpapiergläubiger hätten keinen weiteren Anspruch aus den Wertpapieren gegen die Emittentin. Die Abwicklungsinstrumente können daher die Rechte der Wertpapiergläubiger deutlich nachteilig beeinflussen, indem sie Ansprüche aus den Wertpapieren aussetzen, modifizieren und ganz oder teilweise zum Erlöschen bringen können. Dies kann im schlechtesten Fall zum **Totalverlust der Investition der Wertpapiergläubiger in die Wertpapiere** führen.

Die genannten rechtlichen Bestimmungen und/oder Verwaltungsmaßnahmen können die Rechte von Wertpapiergläubigern erheblich nachteilig beeinträchtigen und können, auch im Vorfeld der Bestandsgefährdung oder Abwicklung, einen negativen Einfluss auf den Wert der Wertpapiere haben."

6) Miscellaneous

(i) in relation to the Base Prospectus dated 18 October 2013 for the Issuance of Fixed Income Securities (Cash)

(a) on page 214 the first sentence in the section headed "Description of UBS AG" shall be replaced as follows:

"The description of UBS AG is contained in the Registration Document (as defined below), as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015."

(b) on page 215 in the section headed "Incorporation by Reference" the table shall be replaced by the following:

Document	Referred to in	Information	Place of Publication
Registration Document dated 16 April 2015 as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015 (the " Registration Document ")	Risk Factors relating to the Issuer, page 55 Description of UBS AG, page 214	III. Risk Factors (pages 4 to 23) IV. Information about UBS AG to XIV. Documents on Display (pages 23 to 51)	www.ubs.com/keyinvest

(ii) in relation to the Base Prospectus dated 14 January 2014 for the Issuance of Fixed Income Securities (Rates)

(a) on page 258 the first sentence in the section headed "Description of UBS AG" shall be replaced as follows:

"The description of UBS AG is contained in the Registration Document (as defined below), as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015."

(b) On page 259 in the section headed "Incorporation by Reference" the table shall be replaced by the following:

Document	Referred to in	Information	Place of Publication
Registration Document dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015." (the " Registration Document ")	Risk Factors relating to the Issuer, page 58 Description of UBS AG, page 258	III. Risk Factors (pages 4 to 23) IV. Information about UBS AG to XIV. Documents on Display (pages 23 to 51)	www.ubs.com/keyinvest

(iii) in relation to the Base Prospectus dated 10 March 2014 for the Issuance of Performance Securities

- (a) On page 51 in the section headed "I. Issuer Specific Risks" the second paragraph shall be replaced as follows:

"In order to assess the risks related to the Issuer of the Securities, potential investors should consider the risk factors described in the section "Risk Factors" in the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 29 May 2015 and Supplement No. 2 20 August 2015, which is incorporated by reference into this Base Prospectus."

- (b) On page 644 in the section headed "K. Description of the Issuer" the wording shall be replaced as follows:

"A description of UBS AG is set out in the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015."

The Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015, is incorporated by reference into this Base Prospectus."

- (c) On page 646 in the section headed "6. Documents incorporated by Reference" the bullet points no (1) to (4) shall be replaced as follows:

"(1) the Registration Document of UBS AG 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015;"

- (d) On page 647 in the section headed "Availability of the Base Prosepctus and other documents" the bullet points no (1) shall be replaced as follows:

"(1) the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015;"

(iv) in relation to the Base Prospectus dated 3 June 2014 for the issue of Warrants

- (a) On page 78 in the section headed "I. Issuer specific Risks" the second paragraph shall be replaced as follows:

"In order to assess the risks related to the Issuer of the Securities, potential investors should consider the risk factors described in the section "Risk Factors" in the Registration Document of UBS AG dated 16 April 2015 as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015, which is incorporated by reference into this Base Prospectus."

- (b) On page 475 in the section headed "K. Description of the Issuer" the first subparagraph shall be replaced as follows:

"A description of UBS AG is set out in the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015, is incorporated by reference into, and form part of this Base Prospectus."

- (c) On page 475 in the section headed "K. Description of the Issuer" in the second subparagraph the last sentence shall be replaced as follows:

"UBS AG has long-term counterparty credit rating of A (stable outlook) from Standard & Poor's, longterm senior debt rating of A2 (stable outlook) from Moody's and long-term issuer default rating of A (stable outlook) from Fitch Ratings."
- (d) On page 477 in the section headed "6. Information incorporated by Reference" the first bullet point shall be replaced as follows:

"(1) the Registration Document of UBS AG 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015;"
- (e) On page 477 in the section headed "7. Availability of the Base Prospectus and other documents" the second bullet point shall be replaced as follows:

"(b) a copy of the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015;"
- (v) in relation to the Base Prospectus dated 30 June 2014 for the Issuance of Securities
 - (a) On page 217 in the section headed "I. Issuer specific Risks" the second paragraph shall be replaced as follows:

"In order to assess the risks related to the Issuer of the Securities, potential investors should consider the risk factors described in the section "Risk Factors" in the Registration Document of UBS AG 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015, which is incorporated by reference into this Base Prospectus."
 - (b) On page 877 in the section headed "K. Description of the Issuer" the first paragraph shall be replaced as follows:

"A description of UBS AG is set out in the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015. The Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015, is incorporated by reference into, and form part of this Base Prospectus."
 - (c) On page 877 in the section headed " K. Description of the Issuer" in the second subparagraph the last sentence shall be replaced as follows:

"UBS AG has long-term counterparty credit rating of A (stable outlook) from Standard & Poor's, longterm senior debt rating of A2 (stable outlook) from Moody's and long-term issuer default rating of A (stable outlook) from Fitch Ratings."
 - (d) On page 879 in the section headed "6. Information incorporated by Reference" the first bullet point shall be replaced as follows:

"(1) the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015 ;"

- (e) On page 879 in the section headed "7. Availability of the Base Prospectus and other documents" the second bullet point shall be replaced as follows:

"(b) a copy of the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015;"

- (vi) in relation to the Prospectus dated 7 July 2014 for the Issuance of up to 100,000 Strategy Certificates (ISIN DE000UBS1CF4)

- (a) On page 90 in the section headed "H. General Information" the wording in the subsection headed "1. Form of Document" shall be replaced by the following wording:

"This document comprises a securities note (the "**Securities Note**") and a summary (the "**Summary**") and, together with the registration document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015, (the "**Registration Document**"), constitutes a prospectus (the "**Prospectus**") according to Art. 5 (3) of the Prospectus Directive (Directive 2003/71/EC, as amended), as implemented by the relevant provisions of the EU member states, in connection with Regulation 809/2004 of the European Commission, as amended."

- (b) On page 91 in the section headed "6. Availability of the Prospectus and other documents" the second bullet point shall be replaced by the following wording:

"(b) a copy of the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015;"

- (vii) in relation to the Base Prospectus dated 17 July 2014 for the Issuance of Fixed Income Securities (Cash)

- (a) on page 68 in the section headed "Risk Factors" the second paragraph is replaced as follows:

"In order to assess the risks related to the Issuer of the Securities, potential investors should consider the risk factors described in the section "III. Risk Factors" in the Registration Document of UBS AG, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015, as incorporated by reference into this Base Prospectus."

- (b) on page 288 in the section headed "Incorporation by Reference" (page 288) the wording in the column headed "Document" shall be replaced by the following:

"- Registration Document dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015 (the "**Registration Document**")"

- (viii) in relation to the Prospectus dated 11 September 2014 for the issuance of up to 1,000,000 Leverage Certificates Short (open end) (CHF) (ISIN CH0224696473)

- (a) On page 102 in the section headed "H. General Information" the wording in the subsection headed "1. Form of Document" shall be replaced by the following wording:

"This document comprises a securities note (the "**Securities Note**") and a summary (the "**Summary**") and, together with the registration document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015, (the "**Registration Document**"), constitutes a prospectus (the "**Prospectus**") according to Art. 5 (3) of the Prospectus Directive (Directive 2003/71/EC, as amended), as implemented by the relevant provisions of the EU member states, in connection with Regulation 809/2004 of the European Commission, as amended."

- (b) On page 103 in the section headed "6. Availability of the Prospectus and other documents" the second bullet point shall be replaced by the following wording:

"(b) a copy of the Registration Document of UBS AG dated 16 April 2015, as supplemented by Supplement No. 1 dated 25 June 2015 and Supplement No. 2 dated 20 August 2015;"

- (ix) in relation to the Prospectus dated 11 September 2014 for the issuance of up to 1,000,000 Leverage Certificates Short (open end) (EUR) (ISIN CH0224696499), and

Introduction

Structure of this report

Following the establishment of UBS Group AG as the holding company for the UBS Group and the parent company of UBS AG, UBS Group AG is the primary financial reporting entity for the UBS Group. Financial information for UBS AG (consolidated) does not differ materially from that for UBS Group AG (consolidated).

This quarterly report for UBS AG includes the interim consolidated financial statements of UBS AG for the quarter ended 30 June 2015 and certain supplemental information. For additional information regarding UBS Group and UBS AG, refer to the UBS Group second quarter 2015 report, which includes information on the UBS AG (consolidated) risk profile, capital ratios, leverage ratios and outstanding shares.

→ Refer to www.ubs.com/investors for the UBS Group second quarter 2015 report

Group holding company

During 2014, we established UBS Group AG as the holding company of the UBS Group and the parent company of UBS AG through an offer to acquire all the issued shares of UBS AG in exchange for shares of UBS Group AG on a one-for-one basis. As of 30 June

2015, UBS Group held 97.8% of total UBS AG shares issued and 98.1% of UBS AG shares registered in the commercial register.

The consolidated assets and liabilities of the UBS Group were not affected by the transaction. No cash offer was made for UBS AG shares and therefore no cash proceeds have resulted from the issuance of UBS Group AG shares in connection with the exchange offer.

As previously announced, UBS Group AG filed a request with the Commercial Court of the Canton of Zurich for a procedure under article 33 of the Swiss Stock Exchange Act (SESTA procedure). The time allotted for UBS AG minority shareholders to intervene in the SESTA procedure closed on 14 July 2015 without any application for intervention being filed. We therefore expect the court to rule on the proceeding during the third quarter of 2015. Upon successful completion of the SESTA procedure, the shares of the remaining minority shareholders of UBS AG will be cancelled and the holders will receive UBS Group AG shares. UBS Group AG will then become the 100% owner of UBS AG. After the SESTA procedure is completed, we expect to pay a supplementary capital return of CHF 0.25 per share to shareholders of UBS Group AG.

→ Refer to the "Recent developments" section of the UBS Group second quarter 2015 report for more information on the changes to our legal structure

Comparison UBS Group AG (consolidated) vs UBS AG (consolidated)

The table on the next page shows the differences between UBS Group AG (consolidated) and UBS AG (consolidated) selected financial, capital and liquidity and funding information as of or for the period ended 30 June 2015. These differences relate to:

- Assets, liabilities, operating income, operating expenses and operating profit before tax relating to UBS Group AG are reflected in the consolidated financial statements of UBS Group AG but not of UBS AG. UBS AG's assets, liabilities, operating income, and operating expenses related to transactions with UBS Group AG are not subject to elimination in the UBS AG (consolidated) financial statements, but are eliminated in the UBS Group AG (consolidated) financial statements.
- The accounting policies applied under International Financial Reporting Standards (IFRS) in both financial statements are identical. However, there are differences in equity and net profit, as a small portion of UBS AG shares is still held by shareholders with a non-controlling interest (NCI) and due to different presentation requirements related to preferred notes issued by UBS AG.
- Total equity of UBS Group AG (consolidated) includes non-controlling interests in UBS AG. Most of the difference in equity attributable to shareholders between the consolidated equity of UBS Group AG and UBS AG relates to these non-controlling interests. Net profit attributable to minority shareholders of UBS AG is presented as net profit attributable to NCI in the consolidated income statement of UBS Group AG.
- Preferred notes issued by UBS AG are presented in the consolidated UBS Group AG balance sheet as equity attributable to NCI, while in the consolidated UBS AG balance sheet, these preferred notes are required to be presented as equity attributable to preferred noteholders.
- Fully applied total capital of UBS AG (consolidated) is lower than for UBS Group AG (consolidated), reflecting lower AT1 capital and lower tier 2 capital, partly offset by higher CET1 capital. The difference in CET1 capital was primarily due to compensation-related regulatory capital accruals, liabilities and capital instruments which are reflected on the level of UBS Group AG following the transfer of the grantor function for the Group's employee deferred compensation plans from UBS AG to UBS Group AG. The difference in AT1 capital relates to the issuances of AT1 capital notes and the 2014 deferred contingent capital plan (DCCP) award held at the UBS Group AG level. The difference in tier 2 capital relates to 2012 and 2013 DCCP awards held at the UBS Group AG level.

Comparison UBS Group AG (consolidated) versus UBS AG (consolidated)

CHF million, except where indicated	As of or for the quarter ended 30.6.15

Refer to Note 25 in the Annual Report 2014 for more information. ³ Includes dividends received from associates reported within cash flow from/(used) investing activities.

Notes to the UBS AG interim consolidated financial statements

Note 1 Basis of accounting

The consolidated financial statements (the Financial Statements) of UBS AG and its subsidiaries (together referred to in these Financial Statements as "UBS AG") are prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), and are stated in Swiss francs (CHF), the currency of Switzerland where UBS AG is incorporated. UBS Group AG is the holding company of the Group and the parent company of UBS AG. These interim Financial Statements are presented in accordance with IAS 34, *Interim Financial Reporting*.

In preparing these interim Financial Statements, the same accounting policies and methods of computation have been applied as in the UBS AG consolidated annual Financial Statements for the period ended 31 December 2014, except for the changes described below and those identified in "Note 1 Basis of accounting" in the UBS AG first quarter 2015 report. These interim Financial Statements are unaudited and should be read in conjunction with UBS AG's audited consolidated Financial Statements included in the UBS AG Annual Report 2014. In the opinion of management, all necessary adjustments were made for a fair presentation of the UBS AG's financial position, results of operations and cash flows.

Preparation of these interim Financial Statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities. These estimates and assumptions are based on the best available information. Actual results in the future could differ from such estimates and such differences may be material to the Financial Statements. Revisions to estimates, based on regular reviews, are recognized in the period in which they occur. For more information on areas of estimation uncertainty considered to require critical judgment, refer to item 2 of "Note 1a) Significant accounting policies" of the UBS AG Annual Report 2014.

Change in segment reporting related to fair value gains and losses on certain internal funding transactions and own credit

Consistent with changes in the manner in which operating segment performance is assessed, beginning in the second quarter of 2015, UBS AG now applies fair value accounting for certain internal funding transactions between Corporate Center – Group ALM and the Investment Bank and Corporate Center – Non-core and

Legacy Portfolio, rather than applying amortized cost accounting. This treatment better aligns with the mark-to-market basis on which these internal transactions are risk managed within the Investment Bank and Corporate Center – Non-core and Legacy Portfolio. The terms of the funding transactions remain otherwise unchanged. In connection with this change, we now present own credit gains and losses on financial liabilities designated at fair value in Corporate Center – Group ALM instead of Corporate Center – Services. Prior periods have been restated to reflect these changes. As a result, operating income and performance before tax for the first quarter of 2015 decreased by CHF 8 million in the Investment Bank, increased by CHF 40 million in Corporate Center – Non-core and Legacy Portfolio and decreased by CHF 226 million in Corporate Center – Services, with an offsetting increase of CHF 195 million in Corporate Center – Group ALM. These changes did not affect the UBS AG's total operating income or net profit for any period presented.

We are also exploring further enhancements to the manner in which we measure own credit gains and losses and expect to implement a refined methodology in the second half of 2015. Additionally, we expect to early adopt the own credit presentation requirements of IFRS 9 for financial liabilities designated at fair value through profit and loss as of the first quarter of 2016. Under IFRS 9, changes in the fair value of such liabilities related to own credit will be recognized in *Other comprehensive income* and will not be reclassified to the income statement. We will adopt the other requirements of IFRS 9 (classification and measurement, impairment and hedge accounting) as of the mandatory effective date in 2018.

→ Refer to Note 2 for more information

Service allocations from Corporate Center – Services to business divisions and other Corporate Center units

In the second quarter of 2015, UBS AG revised the presentation of service allocations from Corporate Center – Services to the business divisions and other Corporate Center units to better reflect the economic relationship between them. These cost allocations were previously presented within the *Personnel expenses, General and administrative expenses and Depreciation and impairment of property, equipment and software* line items and are newly presented in the *Services (to)/from business divisions and Corporate Center* reporting line items. Prior period information

was restated to reflect this change. This change in presentation did not affect total operating expenses or performance before tax of the business divisions and Corporate Center units for any period presented.

→ Refer to Note 2 for more information

Review of actuarial assumptions used in calculating the defined benefit obligations of the non-Swiss pension plans

UBS AG regularly reviews the actuarial assumptions used in calculating its defined benefit obligations to determine their continuing

relevance. In connection with its detailed methodology review of the actuarial assumptions used in calculating its defined benefit obligation for its Swiss pension plan performed in the first quarter of 2015, UBS AG performed a similar review for its non-Swiss pension plans in the second quarter of 2015. As a result, UBS AG enhanced methodologies and refined approaches used to estimate various actuarial assumptions. These improvements in estimates resulted in a net decrease in the defined benefit obligations of the non-Swiss pension plans of approximately CHF 0.1 billion and a corresponding increase in *Other comprehensive income*.

Note 2 Segment reporting

UBS AG's businesses are organized globally into five business divisions: Wealth Management, Wealth Management Americas, Retail & Corporate, Global Asset Management and the Investment Bank, supported by the Corporate Center. The five business divisions qualify as reportable segments for the purpose of segment reporting and, together with the Corporate Center and its units, reflect the management structure of UBS AG. The non-core activities and positions formerly in the Investment Bank are managed and reported in the Corporate Center. Together with the Legacy Portfolio, these non-core activities and positions are reported as a separate reportable segment within the Corporate Center as Non-core and Legacy Portfolio. Financial information about the five business divisions and the Corporate Center (with its units) is presented separately in internal management reports to the Group Executive Board, which is considered the "chief operating decision maker" within the context of IFRS 8 Operating Segments.

UBS AG's internal accounting policies, which include management accounting policies and service level agreements, determine the revenues and expenses directly attributable to each reportable segment. Internal charges and transfer pricing adjustments are reflected in operating results of the reportable segments. Transactions between the reportable segments are carried out at internally agreed rates or at arm's length and are also reflected in the operating results of the reportable segments. Revenue-sharing agreements are used to allocate external client revenues to reportable segments where several reportable segments are involved in the value-creation chain. Commissions are credited to the reportable segments based on the corresponding client relationship. Net interest income is generally allocated to the reportable segments based on their balance sheet positions. Interest income earned from managing UBS AG's consolidated equity is allocated to the reportable segments based on average attributed equity. Own credit gains and losses on financial liabilities desig-

nated at fair value are excluded from the measurement of performance of the business divisions and are reported in Corporate Center – Group ALM. Total intersegment revenues for UBS AG are immaterial as the majority of the revenues are allocated across the segments by means of revenue-sharing agreements.

Assets and liabilities of the reportable segments are funded through, and invested with, Corporate Center – Group ALM and the net interest margin is reflected in the results of each reportable segment.

As part of the annual business planning cycle, Corporate Center – Services agrees with the business divisions and other Corporate Center units cost allocations for services at fixed amounts or at variable amounts based on fixed formulas, depending on capital and service consumption levels, as well as the nature of the services performed. Because actual costs incurred may differ from those expected, however, Corporate Center – Services may recognize significant under or over-allocation depending on various factors. Each year these cost allocations will be reset, taking account of the prior years' experience and plans for the forthcoming period.

Segment balance sheet assets are based on a third-party view and do not include intercompany balances. This view is in line with internal reporting to management. Certain assets managed centrally by Corporate Center – Services and Corporate Center – Group ALM (including property, equipment and software and certain financial assets) are allocated to the segments on a basis different to which the corresponding costs and/or revenues are allocated. Specifically, certain assets are reported in Corporate Center – Services and Corporate Center – Group ALM, whereas the corresponding costs and/or revenues are entirely or partially allocated to the segments based on various internally determined allocations. Similarly, certain assets are reported in the business divisions, whereas the corresponding costs and/or revenues are entirely or partially allocated to Corporate Center – Services.

Total general and administrative expenses³	1,723	1,747	1,871	(1)	(8)	3,470	3,550

¹ Reflects the net increase/release of provisions for litigation, regulatory and similar matters recognized in the income statement. In addition, the second quarter of 2015 included recoveries from third parties of CHF 0 million (first quarter of 2015: CHF 9 million; second quarter of 2014: CHF 5 million). ² Refer to Note 16 for more information. ³ Includes restructuring charges. Refer to Note 18 for more information.

Note 8 Income taxes

UBS AG recognized a net income tax expense of CHF 443 million for the second quarter of 2015 compared with a net expense of CHF 669 million in the first quarter. The second quarter net expense included a tax expense of CHF 209 million in respect of the amortization of deferred tax assets previously recognized in relation to tax losses carried forward and deductible temporary differences to reflect their offset against Swiss taxable profits for the

quarter. It also included net tax expenses of CHF 216 million, which mainly relates to branches and subsidiaries that incur current tax expenses. In addition, following the reassessment of deferred tax asset recognition in the first quarter to reflect changes in tax law and updated local profit forecasts in certain locations, a further decrease in deferred tax assets of CHF 18 million was recognized in the second quarter.

Note 10 Fair value measurement

This note provides fair value measurement information for both financial and non-financial instruments and should be read in conjunction with "Note 24 Fair Value Measurement" of the Annual Report 2014 which provides more information on valuation

principles, valuation governance, valuation techniques, valuation adjustments, fair value hierarchy classification, sensitivity of fair value measurements and methods applied to calculate fair values for financial instruments not measured at fair value.

a) Valuation adjustments

Day-1 reserves

The table below provides the changes in deferred day-1 profit or loss reserves during the respective period. Amounts deferred are

released and gains or losses are recorded in Net trading income when pricing of equivalent products or the underlying parameters become observable or when the transaction is closed out.

Deferred day-1 profit or loss

CHF million	For the quarter ended			Year-to-date	
	30.6.15	31.3.15	30.6.14	30.6.15	30.6.14
Balance at the beginning of the period	458	480	514	480	486
Profit/(loss) deferred on new transactions	69	76	44	145	147
(Profit)/loss recognized in the income statement	(86)	(81)	(93)	(167)	(163)
Foreign currency translation	(16)	(17)	5	(33)	0
Balance at the end of the period	425	458	469	425	469

Credit valuation, funding valuation, debit valuation and other valuation adjustments

The effects of credit valuation, funding valuation, debit valuation and other valuation adjustments are summarized in the table below.

Valuation adjustments on financial instruments

Life-to-date gain/(loss), CHF billion	As of		
	30.6.15	31.3.15	31.12.14
Credit valuation adjustments¹	(0.4)	(0.5)	(0.5)

Debit valuation adjustments	0.0	0.0	0.0
Other valuation adjustments	(0.8)	(0.8)	(0.9)
of which: bid-offer	(0.5)	(0.5)	(0.5)
of which: model uncertainty	(0.4)	(0.4)	(0.4)

¹ Amounts do not include reserves against defaulted counterparties.

Own credit adjustments on financial liabilities designated at fair value

The effects of own credit adjustments related to financial liabilities designated at fair value (predominantly issued structured products) as of 30 June 2015, 31 March 2015 and 30 June 2014, respectively, are summarized in the table below. Life-to-date

amounts reflect the cumulative change since initial recognition. The change in own credit for the period ended consists of changes in fair value that are attributable to the change in UBS AG's credit spreads as well as the effect of changes in fair values attributable to factors other than credit spreads, such as redemptions, effects from time decay and changes in interest and other market rates.

Own credit adjustments on financial liabilities designated at fair value

CHF million	As of or for the quarter ended			Year-to-date

¹ Bifurcated embedded derivatives are presented on the same balance sheet lines as their host contracts and are excluded from this table. As of 30 June 2015, net bifurcated embedded derivative assets held at fair value, totaling CHF 0.2 billion (of which CHF 0.6 billion were net Level 2 assets and CHF 0.5 billion net Level 2 liabilities) were recognized on the balance sheet within Debt issued. As of 31 March 2015, net bifurcated embedded derivative assets held at fair value, totaling CHF 0.1 billion (of which CHF 0.7 billion were net Level 2 assets and CHF 0.6 billion net Level 2 liabilities) were recognized on the balance sheet within Debt issued. As of 31 December 2014, net bifurcated embedded derivative liabilities held at fair value, totaling CHF 0.0 billion (of which CHF 0.3 billion were net Level 2 assets and CHF 0.3 billion net Level 2 liabilities) were recognized on the balance sheet within Debt issued. ² Financial assets held for trading do not include precious metals and commodities. ³ Other assets and other liabilities primarily consist of assets held for sale as well as assets and liabilities of a disposal group held for sale, which are measured at the lower of their net carrying amount or fair value less costs to sell. Refer to Note 18 for more information on the disposal group held for sale.

All financial and non-financial assets and liabilities measured or disclosed at fair value are categorized into one of three fair value hierarchy levels. In certain cases, the inputs used to measure fair value may fall within different levels of the fair value hierarchy. For disclosure purposes, the level in the hierarchy within which the instrument is classified in its entirety is based on the lowest level input that is significant to the position's fair value measurement:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets and liabilities;
- Level 2 – valuation techniques for which all significant inputs are, or are based on, observable market data or
- Level 3 – valuation techniques for which significant inputs are not based on observable market data.

Note 10 Fair value measurement (continued)

c) Transfers between Level 1 and Level 2 in the fair value hierarchy

The amounts disclosed reflect transfers between Level 1 and Level 2 for instruments which were held for the entire reporting period.

Assets totaling approximately CHF 1.0 billion, which were mainly comprised of financial investments available-for-sale, primarily corporate and municipal bonds, and financial assets held for trading, and liabilities totaling approximately CHF 0.1 billion were transferred from Level 2 to Level 1 during the first six months of 2015, generally due to increased levels of trading activity observed within the market.

Assets totaling approximately CHF 0.5 billion, which were mainly comprised of financial investments available-for-sale, primarily corporate bonds and municipal bonds, and financial assets held for trading, were transferred from Level 1 to Level 2 during the first six months of 2015, generally due to diminished levels of trading activity observed within the market. Transfers of financial liabilities from Level 1 to Level 2 during the first six months of 2015 were not significant.

d) Movements of Level 3 instruments

Significant changes in Level 3 instruments

The table on the following pages presents additional information about Level 3 assets and liabilities measured at fair value on a recurring basis. Level 3 assets and liabilities may be hedged with instruments classified as Level 1 or Level 2 in the fair value hierarchy and, as a result, realized and unrealized gains and losses included in the table may not include the effect of related hedging activity. Further, the realized and unrealized gains and losses presented within the table are not limited solely to those arising from Level 3 inputs, as valuations are generally derived from both observable and unobservable parameters.

Assets and liabilities transferred into or out of Level 3 are presented as if those assets or liabilities had been transferred at the beginning of the year.

As of 30 June 2015, financial instruments measured with valuation techniques using significant non-market-observable inputs (Level 3) were mainly comprised of:

- structured reverse repurchase and securities borrowing agreements;
- credit derivative contracts;
- equity/index contracts;
- non-structured fixed-rate bonds and
- structured debt instruments issued (equity and credit-linked).

Significant movements in Level 3 instruments during the first six months of 2015 are described below.

Financial assets held for trading

Financial assets held for trading decreased to CHF 2.8 billion from CHF 3.5 billion during the first six months of 2015. Issuances of CHF 3.0 billion and purchases of CHF 0.3 billion, mainly comprised of loans and corporate bonds, were more than offset by sales of CHF 3.2 billion, primarily comprised of loans, and net losses included in comprehensive income totaling CHF 0.6 billion. Transfers out of Level 3 during the first six months of 2015 amounted to CHF 0.5 billion and were primarily comprised of loans and corporate bonds, reflecting increased observability of the respective credit spread inputs. Transfers into Level 3 amounted to CHF 0.4 billion and were mainly comprised of equity instruments and mortgage-backed securities due to decreased observability of the respective equity market pricing and credit spread inputs.

Financial assets designated at fair value

Financial assets designated at fair value decreased to CHF 3.4 billion from CHF 3.5 billion during the first six months of 2015, mainly reflecting net losses of CHF 0.6 billion included in comprehensive income and transfers out of Level 3 totaling CHF 0.4 billion, mostly offset by issuances of CHF 0.9 billion.

Note 10 Fair value measurement (continued)

Financial investments available-for-sale

Financial investments available-for-sale decreased to CHF 0.5 billion from CHF 0.6 billion during the first six months of 2015, reflecting sales totaling CHF 0.1 billion.

Positive replacement values

Positive replacement values decreased to CHF 3.8 billion from CHF 4.4 billion during the first six months of 2015. Settlements and issuances amounted to CHF 1.7 billion and CHF 1.5 billion, respectively, and were primarily related to credit derivative contracts and equity / index contracts. Transfers into Level 3 amounted to CHF 0.4 billion and were mainly comprised of interest rate contracts and equity/index contracts, primarily resulting from changes in the correlation between the portfolios held and the representative market portfolio used to independently verify market data. Transfers out of Level 3 amounted to CHF 0.3 billion and were mainly comprised of equity / index contracts and credit derivative contracts resulting from changes in the availability of observable inputs for equity volatility and credit spreads.

Negative replacement values

Negative replacement values decreased to CHF 3.7 billion from CHF 5.0 billion during the first six months of 2015. Settlements and issuances amounted to CHF 1.0 billion and CHF 0.4 billion,

respectively, and were primarily comprised of equity / index contracts and credit derivative contracts. Transfers into and out of Level 3 amounted to CHF 0.4 billion and CHF 0.3 billion, respectively, and were mainly comprised of equity / index contracts and credit derivative contracts resulting from changes in the availability of observable inputs for equity volatility and credit spreads.

Financial liabilities designated at fair value

Financial liabilities designated at fair value decreased to CHF 10.9 billion from CHF 11.9 billion during the first six months of 2015. Settlements of CHF 3.7 billion, primarily comprised of equity and credit-linked structured debt instruments issued, structured over-the-counter debt instruments and structured repurchase agreements, were more than offset by issuances of CHF 3.8 billion, mainly comprised of equity and credit-linked structured debt instruments issued and non-structured fixed-rate bonds, as well as net losses of CHF 0.4 billion included in comprehensive income. Foreign currency translation effects reduced financial liabilities designated at fair value by CHF 0.9 billion. Transfers into and out of Level 3 amounted to CHF 1.0 billion and CHF 1.6 billion, respectively, and were primarily comprised of equity-linked structured debt instruments issued and non-structured fixed-rate bonds, resulting from changes in the availability of observable equity volatility and credit spread inputs used to determine the fair value of the embedded options in these structures.

² Total Level 3 assets as of 30 June 2015 were CHF 10.5 billion (31 March 2015: CHF 11.2 billion, 31 December 2014: CHF 12.2 billion). Total Level 3 liabilities as of 30 June 2015 were CHF 14.8 billion (31 March 2015: CHF 15.6 billion, 31 December 2014: CHF 17.0 billion).

Note 10 Fair value measurement (continued)**e) Valuation of assets and liabilities classified as Level 3**

The table on the following pages presents assets and liabilities recognized at fair value and classified as Level 3, together with the valuation techniques used to measure fair value, the significant inputs used in the valuation technique that are considered unobservable and a range of values for those unobservable inputs.

The range of values represents the highest and lowest level input used in the valuation techniques. Therefore, the range does not reflect the level of uncertainty regarding a particular input, but rather the different underlying characteristics of the relevant assets and liabilities. The ranges will therefore vary from period to period and parameter to parameter based on characteristics of the instruments held at each balance sheet date. Further, the ranges of unobservable inputs may differ across other financial institutions due to the diversity of the products in each firm's inventory.

Significant unobservable inputs in Level 3 positions

This section discusses the significant unobservable inputs identified in the table on the following pages and assesses the potential effect that a change in each unobservable input in isolation may have on a fair value measurement, including information to facilitate an understanding of factors that give rise to the input ranges shown. Relationships between observable and unobservable inputs have not been included in the summary below.

Bond price equivalent: Where market prices are not available for a bond, fair value is measured by comparison with observable pricing data from similar instruments. Factors considered when selecting comparable instruments include credit quality, maturity and industry of the issuer. Fair value may be measured either by a direct price comparison or by conversion of an instrument price into a yield (either as an outright yield or as a spread to LIBOR). Bond prices are expressed as points of the nominal, where 100 represents a fair value equal to the nominal value (i.e., par).

For corporate and municipal bonds, the range of 1–158 points represents the range of prices from reference issuances used in determining fair value. Bonds priced at 0 are distressed to the point that no recovery is expected, while prices significantly in excess of 100 or par relate to inflation-linked or structured issuances that pay a coupon in excess of the market benchmark as of the measurement date. The weighted average price is approximately 100 points, with a majority of positions concentrated around this price.

For asset-backed securities, the bond price range of 0–99 points represents the range of prices for reference securities used in determining fair value. An instrument priced at 0 is not expected to pay any principal or interest, while an instrument priced close to 100 points is expected to be repaid in full as well as pay a yield close to the market yield. More than 85% of the portfolio is priced at 80 points or higher, and the weighted average price for

Level 3 assets within this portion of the Level 3 portfolio is 78 points.

For credit derivatives, the bond price range of 0–105 points disclosed represents the range of prices used for reference instruments that are typically converted to an equivalent yield or credit spread as part of the valuation process. The range is comparable to that for corporate and asset-backed issuances described above.

Loan price equivalent: Where market prices are not available for a traded loan, fair value is measured by comparison with observable pricing data for similar instruments. Factors considered when selecting comparable instruments include industry segment, collateral quality, maturity and issuer-specific covenants. Fair value may be measured either by a direct price comparison or by conversion of an instrument price into a yield. The range of 85–100 points represents the range of prices derived from reference issuances of a similar credit quality used in measuring fair value for loans classified as Level 3. Loans priced at 0 are distressed to the point that no recovery is expected, while a current price of 100 represents a loan that is expected to be repaid in full, and also pays a yield marginally higher than market yield. The weighted average is approximately 95 points.

Credit spread: Valuation models for many credit derivatives require an input for the credit spread, which is a reflection of the credit quality of the associated referenced underlying. The credit spread of a particular security is quoted in relation to the yield on a benchmark security or reference rate, typically either US Treasury or LIBOR, and is generally expressed in terms of basis points. An increase/(decrease) in credit spread will increase/(decrease) the value of credit protection offered by CDS and other credit derivative products. The income statement impact from such changes depends on the nature and direction of the positions held. Credit spreads may be negative where the asset is more creditworthy than the benchmark against which the spread is calculated. A wider credit spread represents decreasing creditworthiness. The ranges of 37–137 basis points in loans and 0–787 basis points in credit derivatives represents a diverse set of underlyings, with the lower end of the range representing credits of the highest quality (e.g., approximating the risk of LIBOR) and the upper end of the range representing greater levels of credit risk.

Constant prepayment rate: A prepayment rate represents the amount of unscheduled principal repayment for a pool of loans. The prepayment estimate is based on a number of factors, such as historical prepayment rates for previous loans that are similar pool loans and the future economic outlook, considering factors including, but not limited to, future interest rates. In general, a significant increase/(decrease) in this unobservable input in isolation would result in a significantly higher/(lower) fair value for bonds

Note 10 Fair value measurement (continued)

trading at a discount. For bonds trading at a premium the reverse would apply, with a decrease in fair value when the constant prepayment rate increases. However, in certain cases the effect of a change in prepayment speed upon instrument price is more complicated and is dependent upon both the precise terms of the securitization and the position of the instrument within the securitization capital structure.

For asset-backed securities, the range of 0–18% represents inputs across various classes of asset-backed securities. Securities with an input of 0% typically reflect no current prepayment behavior within their underlying collateral with no expectation of this changing in the immediate future, while the high range of 18% relates to securities that are currently experiencing high prepayments. Different classes of asset-backed securities typically show different ranges of prepayment characteristics depending on a combination of factors, including the borrowers' ability to refinance, prevailing refinancing rates, and the quality or characteristics of the underlying loan collateral pools. The weighted average constant prepayment rate for the portfolio is 4.4%.

For credit derivatives, the range of 1–20% represents the input assumption for credit derivatives on asset-backed securities. The range is driven in a similar manner to that for asset-backed securities.

For FX contracts and interest rate contracts, the ranges of 0–15% and 0–3%, respectively, represent the prepayment assumptions on securitizations underlying the BGS portfolio.

Constant default rate (CDR): The CDR represents the percentage of outstanding principal balances in the pool that are projected to default and liquidate and is the annualized rate of default for a group of mortgages or loans. The CDR estimate is based on a number of factors, such as collateral delinquency rates in the pool and the future economic outlook. In general, a significant increase/(decrease) in this unobservable input in isolation would result in significantly lower/(higher) cash flows for the deal (and thus lower/(higher) valuations). However, different instruments within the capital structure can react differently to changes in the CDR rate. Generally, subordinated bonds will decrease in value as CDR increases, but for well protected senior bonds an increase in CDR may cause an increase in price. In addition, the presence of a guarantor wrap on the collateral pool of a security may result in notes at the junior end of the capital structure experiencing a price increase with an increase in the default rate.

The range of 0–10% for credit derivatives represents the expected default percentage across the individual instruments' underlying collateral pools.

Loss severity/recovery rate: The projected loss severity/recovery rate reflects the estimated loss that will be realized given expected defaults. Loss severity is generally applied to collateral within asset-backed securities while the recovery rate is the analogous pricing input for corporate or sovereign credits. Recovery is the re-

verse of loss severity, so a 100% recovery rate is the equivalent of a 0% loss severity. Increases in loss severity levels/decreases in recovery rates will result in lower expected cash flows into the structure upon the default of the instruments. In general, a significant decrease/(increase) in the loss severity in isolation would result in significantly higher/(lower) fair value for the respective asset-backed securities. The impact of a change in recovery rate on a credit derivative position will depend upon whether credit protection has been bought or sold.

Loss severity is ultimately driven by the value recoverable from collateral held after foreclosure occurs relative to the loan principal and possibly unpaid interest accrued at that point. For credit derivatives, the loss severity range of 0–100% applies to derivatives on asset-backed securities. The recovery rate range of 0–95% represents a wide range of expected recovery levels on credit derivative contracts within the Level 3 portfolio.

Discount margin (DM) spread: The DM spread represents the discount rates used to present value cash flows of an asset to reflect the market return required for uncertainty in the estimated cash flows. DM spreads are a rate or rates applied on top of a floating index (e.g., LIBOR) to discount expected cash flows. Generally, a decrease/(increase) in the unobservable input in isolation would result in a significantly higher/(lower) fair value.

The different ranges represent the different discount rates across loans (0–13%), asset-backed securities (0–17%) and credit derivatives (0–36%). The high end of the range relates to securities that are priced very low within the market relative to the expected cash flow schedule and there is significant discounting relative to the expected cash flow schedule. This indicates that the market is pricing an increased risk of credit loss into the security that is greater than what is being captured by the expected cash flow generation process. The low ends of the ranges are typical of funding rates on better quality instruments. For asset-backed securities, the weighted average DM is 8.2%. For loans, the average effective DM is 1.72% compared with the disclosed range of 0–13%.

Equity dividend yields: The derivation of a forward price for an individual stock or index is important both for measuring fair value for forward or swap contracts and for measuring fair value using option pricing models. The relationship between the current stock price and the forward price is based on a combination of expected future dividend levels and payment timings, and, to a lesser extent, the relevant funding rates applicable to the stock in question. Dividend yields are generally expressed as an annualized percentage of share price with the lowest limit of 0% representing a stock that is not expected to pay any dividend. The dividend yield and timing represents the most significant parameter in determining fair value for instruments that are sensitive to an equity forward price. The range of 0–28% reflects the expected range of dividend rates for the portfolio.

Note 10 Fair value measurement (continued)

Volatility: Volatility measures the variability of future prices for a particular instrument and is generally expressed as a percentage, where a higher number reflects a more volatile instrument for which future price movements are more likely to occur. The minimum level of volatility is 0% and there is no theoretical maximum. Volatility is a key input into option models, where it is used to derive a probability-based distribution of future prices for the underlying instrument. The effect of volatility on individual positions within the portfolio is driven primarily by whether the option contract is a long or short position. In most cases, the fair value of an option increases as a result of an increase in volatility and is reduced by a decrease in volatility. Generally, volatility used in the measurement of fair value is derived from active market option prices (referred to as implied volatility). A key feature of implied volatility is the volatility "smile" or "skew," which represents the effect of pricing options of different option strikes at different implied volatility levels.

- Volatility of interest rates – the range of 16–93% reflects the range of unobservable volatilities across different currencies and related underlying interest rate levels. Volatilities of low interest rates tend to be much higher than volatilities of high interest rates. In addition, different currencies may have significantly different implied volatilities.
- Volatility of equity stocks, equity and other indices – the range of 1–143% is reflective of the range of underlying stock volatilities.

Correlation: Correlation measures the inter-relationship between the movements of two variables. It is expressed as a percentage between (100)% and +100%, where +100% are perfectly correlated variables (meaning a movement of one variable is associated with a movement of the other variable in the same direction), and (100)% are inversely correlated variables (meaning a movement of one variable is associated with a movement of the other vari-

Valuation techniques and inputs used in the fair value measurement of Level 3 assets and liabilities

Note 10 Fair value measurement (continued)

able in the opposite direction). The effect of correlation on the measurement of fair value is dependent on the specific terms of the instruments being valued, due to the range of different payoff features within such instruments.

- Rate-to-rate correlation – the correlation between interest rates of two separate currencies. The range of 84–94% results from the different pairs of currency involved.

- Intra-curve correlation – the correlation between different tenor points of the same yield curve. Correlations are typically fairly high, as reflected by the range of 50–94%.
- Credit index correlation of 10–85% reflects the implied correlation derived from different indices across different parts of the benchmark index capital structure. The input is particularly important for bespoke and Level 3 index tranches.

Valuation techniques and inputs used in the fair value measurement of Level 3 assets and liabilities (continued)

						Discount rate					
						Assessment of the particular property's condition					

¹ The ranges of significant unobservable inputs are represented in points, percentages and basis points. Points are a percentage of par. For example, 100 points would be 100% of par. ² The range of inputs is not disclosed for 30 June 2015 because this unobservable input parameter was not significant to the respective valuation technique as of that date. ³ The range of inputs is not disclosed due to the dispersion of possible values given the diverse nature of the investments. ⁴ Valuation techniques, significant unobservable inputs and the respective input ranges for structured debt instruments and non-structured fixed-rate bonds are the same as the equivalent derivative or structured financing instruments presented elsewhere in this table. ⁵ Non-financial assets include investment properties at fair value and other assets which primarily consist of assets held for sale.

Note 10 Fair value measurement (continued)

- Credit pair correlation is particularly important for first to default credit structures. The range of 57–94% reflects the difference between credits with low correlation and similar highly correlated credits.
- Rate-to-FX correlation – captures the correlation between interest rates and FX rates. The range for the portfolio is (57)–60%, which represents the relationship between interest rates and foreign exchange levels. The signage on such correlations is dependent on the quotation basis of the underlying FX rate (e.g., EUR/USD and USD/EUR correlations to the same interest rate will have opposite signs).
- FX-to-FX correlation is particularly important for complex options that incorporate different FX rates in the projected payoff. The range of (70)–80% reflects the underlying characteristics across the main FX pairs to which UBS AG has exposures.
- Equity-to-equity correlation is particularly important for complex options that incorporate, in some manner, different equities in the projected payoff. The closer the correlation is to 100%, the more related one equity is to another. For example, equities with a very high correlation could be from different parts of the same corporate structure. The range of (4)–99% is reflective of this.
- Equity-to-FX correlation is important for equity options based on a currency different than the currency of the underlying stock. The range of (44)–86% represents the range of the relationship between underlying stock and foreign exchange volatilities.

Funding spread: Structured financing transactions are valued using synthetic funding curves that best represent the assets that are pledged as collateral to the transactions. They are not representative of where UBS AG can fund itself on an unsecured basis, but provide an estimate of where UBS AG can source and deploy secured funding with counterparties for a given type of collateral. The funding spreads are expressed in terms of basis points over or

under LIBOR and if funding spreads widen this increases the impact of discounting. The range of 10–163 basis points for both structured repurchase agreements and structured reverse repurchase agreements represents the range of asset funding curves, where wider spreads are due to a reduction in liquidity of underlying collateral for funding purposes.

A small proportion of structured debt instruments and non-structured fixed-rate bonds within financial liabilities designated at fair value had an exposure to funding spreads that is longer in duration than the actively traded market. Such positions are within the range of 10–163 basis points reported above.

Upfront price points: A component in the price quotation of credit derivative contracts, whereby the overall fair value price level is split between the credit spread (basis points running over the life of the contract as described above) and a component that is quoted and settled upfront on transacting a new contract. This latter component is referred to as upfront price points and represents the difference between the credit spread paid as protection premium on a current contract versus a small number of standard contracts defined by the market. Distressed credit names frequently trade and quote CDS protection only in upfront points rather than as a running credit spread. An increase/(decrease) in upfront points will increase/(decrease) the value of credit protection offered by CDS and other credit derivative products. The effect of increases or decreases in upfront price points depends on the nature and direction of the positions held. Upfront pricing points may be negative where a contract is quoting for a narrower premium than the market standard, but are generally positive, reflecting an increase in credit premium required by the market as creditworthiness deteriorates. The range of 10–65% within the table below represents the variety of current market credit spread levels relative to the benchmarks used as a quotation basis. Upfront points of 65% represent a distressed credit.

Note 10 Fair value measurement (continued)

f) Sensitivity of fair value measurements to changes in unobservable input assumptions

The table below summarizes those financial assets and liabilities classified as Level 3 for which a change in one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, and the estimated effect thereof. As of 30 June 2015, the total favorable and unfavorable effects of changing one or more of the unobservable inputs to reflect reasonably possible alternative assumptions for financial instruments classified as Level 3 were CHF 0.7 billion and CHF 0.6 billion, respectively (31 March 2015: CHF 0.8 billion and CHF 0.7 billion, respectively; 31 December 2014: CHF 1.0 billion and CHF 0.8 billion, respectively). The table shown presents the favorable and unfavorable effects for each class of financial assets and liabilities for which the potential change in fair value is con-

sidered significant. The sensitivity data presented represents an estimation of valuation uncertainty based on reasonably possible alternative values for Level 3 inputs at the balance sheet date and does not represent the estimated effect of stress scenarios. Typically, these financial assets and liabilities are sensitive to a combination of inputs from Levels 1–3. Although well-defined interdependencies may exist between Levels 1–2 and Level 3 parameters (e.g., between interest rates, which are generally Level 1 or Level 2, and prepayments, which are generally Level 3), these have not been incorporated in the table. Further, direct inter-relationships between the Level 3 parameters are not a significant element of the valuation uncertainty.

Sensitivity of fair value measurements to changes in unobservable input assumptions

CHF million	30.6.15		31.3.15		31.12.14

Guarantees ¹	0.0	(0.1)	0.0	(0.1)	0.0	(0.1)
Loan commitments	0.0	0.0	0.0	0.0	0.0	0.0

¹ The carrying value of guarantees represented a liability of CHF 0.0 billion as of 30 June 2015 (31 March 2015: CHF 0.0 billion, 31 December 2014: CHF 0.0 billion). The estimated fair value of guarantees represented an asset of CHF 0.1 billion as of 30 June 2015 (31 March 2015: CHF 0.1 billion, 31 December 2014: CHF 0.1 billion).

The fair values included in the table above were calculated for disclosure purposes only. The fair value valuation techniques and assumptions used relate only to the fair value of UBS AG's financial instruments not measured at fair value. Other institutions may use different methods and assumptions for their fair value estimation, and therefore such fair value disclosures cannot necessarily

be compared from one financial institution to another. UBS AG applies significant judgments and assumptions to arrive at these fair values, which are more holistic and less sophisticated than established fair value and model governance policies and processes applied to financial instruments accounted for at fair value whose fair values impact UBS AG's balance sheet and net profit.

¹ Bifurcated embedded derivatives are presented on the same balance sheet lines as their host contracts and are excluded from this table. As of 30 June 2015, these derivatives amounted to a PRV of CHF 0.6 billion (related notional values of CHF 13.0 billion) and an NRV of CHF 0.5 billion (related notional values of CHF 11.9 billion). As of 31 March 2015, bifurcated embedded derivatives amounted to a PRV of CHF 0.7 billion (related notional values of CHF 10.5 billion) and an NRV of CHF 0.6 billion (related notional values of CHF 11.9 billion). As of 31 December 2014, bifurcated embedded derivatives amounted to a PRV of CHF 0.3 billion (related notional values of CHF 6.5 billion) and an NRV of CHF 0.3 billion (related notional values of CHF 7.8 billion). ² In cases where replacement values are presented on a net basis on the balance sheet, the respective notional values of the netted replacement values are still presented on a gross basis. ³ Other notional values relate to derivatives which are cleared through either a central clearing counterparty or an exchange. The fair value of these derivatives is presented on the balance sheet net of the corresponding cash margin under Cash collateral receivables on derivative instruments and Cash collateral payables on derivative instruments and was not material for all periods presented. ⁴ Changes in the fair value of purchased and sold non-derivative financial investments between trade date and settlement date are recognized as replacement values. ⁵ Includes exchange-traded agency transactions and OTC cleared transactions entered into on behalf of clients with a combined PRV of CHF 6.2 billion as of 30 June 2015 (31 March 2015: CHF 6.8 billion, 31 December 2014: CHF 6.8 billion), and a combined NRV of CHF 6.5 billion as of 30 June 2015 (31 March 2015: CHF 6.7 billion, 31 December 2014: CHF 6.8 billion), for which notional values were not included in the table above due to their significantly different risk profile. Refer to Note 12 for more information on netting arrangements.

Note 12 Offsetting financial assets and financial liabilities

UBS AG enters into netting agreements with counterparties to manage the credit risks associated primarily with repurchase and reverse repurchase transactions, securities borrowing and lending and over-the-counter and exchange-traded derivatives. These netting agreements and similar arrangements generally enable the counterparties to set-off liabilities against available assets received in the ordinary course of business and/or in the event that the counterparty to the transaction is unable to fulfill its contractual obligations. The right of set-off is a legal right to settle or

otherwise eliminate all or a portion of an amount due by applying an amount receivable from the same counterparty against it, thus reducing credit exposure.

Financial assets

The table below provides a summary of financial assets subject to offsetting, enforceable master netting arrangements and similar agreements, as well as financial collateral received to mitigate

¹ The net amount of Cash collateral receivables on derivative instruments recognized on the balance sheet includes certain OTC derivatives which are in substance net settled on a daily basis under IAS 32, and ETD derivatives which are economically settled on a daily basis. In addition, this balance includes OTC and ETD cash collateral balances which correspond with the cash portion of collateral pledged, reflected on the Negative replacement values line in the table presented on the following pages. ² The logic of the table results in amounts presented in the "Netting with gross liabilities" column corresponding directly to the amounts presented in the "Netting with gross assets" column in the liabilities table presented on the following pages. ³ For the purpose of this disclosure, the amounts of financial instruments and cash collateral not set off in the balance sheet have been capped by relevant netting agreement so as not to exceed the net amount of financial assets presented on the balance sheet; i.e., over-collateralization, where it exists, is not reflected in the table.

⁴ Includes assets not subject to enforceable netting arrangements and other out-of-scope items.

credit exposures for these financial assets. The gross financial assets that are subject to offsetting, enforceable netting arrangements and similar agreements are reconciled to the net amounts presented within the associated balance sheet line, after giving effect to financial liabilities with the same counterparties that have been offset on the balance sheet and other financial assets not subject to an enforceable netting arrangement or similar agreement. Further, related amounts for financial liabilities and

collateral received that are not offset on the balance sheet are shown to arrive at financial assets after consideration of netting potential.

UBS AG engages in a variety of counterparty credit mitigation strategies in addition to netting and collateral arrangements. Therefore, the net amounts presented in the tables on this and on the next page do not purport to represent actual credit exposure.

Note 12 Offsetting financial assets and financial liabilities (continued)**Financial liabilities**

The table below provides a summary of financial liabilities subject to offsetting, enforceable master netting arrangements and similar agreements, as well as financial collateral pledged to mitigate credit exposures for these financial liabilities. The gross financial liabilities that are subject to offsetting, enforceable netting arrangements and similar agreements are reconciled to the net

amounts presented within the associated balance sheet line, after giving effect to financial assets with the same counterparties that have been offset on the balance sheet and other financial liabilities not subject to an enforceable netting arrangement or similar agreement. Further, related amounts for financial assets and collateral pledged that are not offset on the balance sheet are shown to arrive at financial liabilities after consideration of netting potential.

¹ Comprises provisions for losses resulting from security risks and transaction processing risks. ² Comprises provisions for losses resulting from legal, liability and compliance risks. ³ Includes personnel related restructuring provisions of CHF 123 million as of 30 June 2015 (31 March 2015: CHF 89 million; 31 December 2014: CHF 116 million) and provisions for onerous lease contracts of CHF 546 million as of 30 June 2015 (31 March 2015: CHF 609 million; 31 December 2014: CHF 530 million). ⁴ Includes reinstatement costs for leasehold improvements of CHF 92 million as of 30 June 2015 (31 March 2015: CHF 93 million; 31 December 2014: CHF 98 million) and provisions for onerous lease contracts of CHF 65 million as of 30 June 2015 (31 March 2015: CHF 76 million; 31 December 2014: CHF 55 million). ⁵ Includes provisions for sabbatical and anniversary awards as well as provisions for severance which are not part of restructuring provisions.

Restructuring provisions primarily relate to onerous lease contracts and severance payments. The utilization of onerous lease provisions is driven by the maturities of the underlying lease contracts, which cover a period of up to 11 years. Severance-related provisions are utilized within a short time period, usually within six months, but potential changes in amount may be triggered when

natural staff attrition reduces the number of people affected by a restructuring and therefore the estimated costs.

Information on provisions and contingent liabilities in respect of Litigation, regulatory and similar matters, as a class, is included in Note 16b. There are no material contingent liabilities associated with the other classes of provisions.

b) Litigation, regulatory and similar matters

UBS operates in a legal and regulatory environment that exposes it to significant litigation and similar risks arising from disputes and regulatory proceedings. As a result, UBS (which for purposes of this note may refer to UBS AG and/or one or more of its subsidiaries, as applicable) is involved in various disputes and legal proceedings, including litigation, arbitration, and regulatory and criminal investigations.

Such matters are subject to many uncertainties and the outcome is often difficult to predict, particularly in the earlier stages of a case. There are also situations where UBS may enter into a settlement agreement. This may occur in order to avoid the expense, management distraction or reputational implications of continuing to contest liability, even for those matters for which UBS believes it should be exonerated. The uncertainties inherent in all such matters affect the amount and timing of any potential outflows for both matters with respect to which provisions have been established and other contingent liabilities. UBS makes provisions for such matters brought against it when, in the opinion of management after seeking legal advice, it is more likely than not that UBS has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required, and the amount can be reliably estimated. If any of

those conditions is not met, such matters result in contingent liabilities. If the amount of an obligation cannot be reliably estimated, a liability exists that is not recognized even if an outflow of resources is probable. Accordingly, no provision is established even if the potential outflow of resources with respect to select matters could be significant.

Specific litigation, regulatory and other matters are described below, including all such matters that management considers to be material and others that management believes to be of significance due to potential financial, reputational and other effects. The amount of damages claimed, the size of a transaction or other information is provided where available and appropriate in order to assist users in considering the magnitude of potential exposures.

In the case of certain matters below, we state that we have established a provision, and for the other matters we make no such statement. When we make this statement and we expect disclosure of the amount of a provision to prejudice seriously our position with other parties in the matter, because it would reveal what UBS believes to be the probable and reliably estimable outflow, we do not disclose that amount. In some cases we are subject to confidentiality obligations that preclude such disclosure.

Note 16 Provisions and contingent liabilities (continued)

With respect to the matters for which we do not state whether we have established a provision, either (a) we have not established a provision, in which case the matter is treated as a contingent liability under the applicable accounting standard or (b) we have established a provision but expect disclosure of that fact to prejudice seriously our position with other parties in the matter because it would reveal the fact that UBS believes an outflow of resources to be probable and reliably estimable.

With respect to certain litigation, regulatory and similar matters for which we have established provisions, we are able to estimate the expected timing of outflows. However, the aggregate amount of the expected outflows for those matters for which we are able to estimate expected timing is immaterial relative to our current and expected levels of liquidity over the relevant time periods.

The aggregate amount provisioned for litigation, regulatory and similar matters as a class is disclosed in Note 16a above. It is not practicable to provide an aggregate estimate of liability for our litigation, regulatory and similar matters as a class of contingent liabilities. Doing so would require us to provide speculative legal assessments as to claims and proceedings that involve unique fact patterns or novel legal theories, which have not yet been initiated or are at early stages of adjudication, or as to which alleged damages have not been quantified by the claimants. Although we therefore cannot provide a numerical estimate of the future losses that could arise from the class of litigation, regulatory and similar matters, we believe that the aggregate amount of possible future losses from this class that are more than remote substantially exceeds the level of current provisions. Litigation,

regulatory and similar matters may also result in non-monetary penalties and consequences. For example, the non-prosecution agreement (NPA) described in paragraph 5 of this note, which we entered into with the US Department of Justice (DOJ), Criminal Division, Fraud Section in connection with our submissions of benchmark interest rates, including among others the British Bankers' Association London Interbank Offered Rate (LIBOR), was terminated by the DOJ based on its determination that we had committed a US crime in relation to foreign exchange matters. As a consequence, UBS AG has pleaded guilty to one count of wire fraud for conduct in the LIBOR matter, and has agreed to pay a USD 203 million fine and accept a three-year term of probation. A guilty plea to, or conviction of, a crime (including as a result of termination of the NPA) could have material consequences for UBS. Resolution of regulatory proceedings may require us to obtain waivers of regulatory disqualifications to maintain certain operations, may entitle regulatory authorities to limit, suspend or terminate licenses and regulatory authorizations and may permit financial market utilities to limit, suspend or terminate our participation in such utilities. Failure to obtain such waivers, or any limitation, suspension or termination of licenses, authorizations or participations, could have material consequences for UBS.

The risk of loss associated with litigation, regulatory and similar matters is a component of operational risk for purposes of determining our capital requirements. Information concerning our capital requirements and the calculation of operational risk for this purpose is included in the "Capital management" section of this report.

¹ Provisions, if any, for the matters described in Note 16b are recorded in Wealth Management (item 3), Wealth Management Americas (item 4), Investment Bank (item 9), Corporate Center – Services (item 7) and Corporate Center – Non-core and Legacy Portfolio (items 2 and 8). Provisions, if any, for the matters described in items 1 and 6 are allocated between Wealth Management and Retail & Corporate, and provisions for the matter described in item 5 are allocated between the Investment Bank and Corporate Center – Services.

1. Inquiries regarding cross-border wealth management businesses

Tax and regulatory authorities in a number of countries have made inquiries, served requests for information or examined employees located in their respective jurisdictions relating to the cross-border wealth management services provided by UBS and other financial institutions. It is possible that implementation of

automatic tax information exchange and other measures relating to cross-border provision of financial services could give rise to further inquiries in the future.

As a result of investigations in France, in 2013, UBS (France) S.A. and UBS AG were put under formal examination ("mise en examen") for complicity in having illicitly solicited clients on French territory, and were declared witness with legal assistance

Note 16 Provisions and contingent liabilities (continued)

("témoin assisté") regarding the laundering of proceeds of tax fraud and of banking and financial solicitation by unauthorized persons. In 2014, UBS AG was placed under formal examination with respect to the potential charges of laundering of proceeds of tax fraud, and the investigating judges ordered UBS to provide bail ("caution") of EUR 1.1 billion. UBS AG appealed the determination of the bail amount, but both the appeal court ("Cour d'Appel") and the French Supreme Court ("Cour de Cassation") upheld the bail amount and rejected the appeal in full in late 2014. UBS AG has filed an application with the European Court of Human Rights to challenge various aspects of the French court's decision.

In March 2015, UBS (France) S.A. was placed under formal examination for complicity regarding the laundering of proceeds of tax fraud and of banking and financial solicitation by unauthorized persons for the years 2004 until 2008 and declared witness with legal assistance for the years 2009 to 2012. A bail of EUR 40 million was imposed, and was reduced by the Court of Appeals in May 2015 to EUR 10 million. UBS (France) S.A. is considering whether or not to further appeal that decision.

In addition, the investigating judges have sought to issue arrest warrants against three Swiss-based former employees of UBS AG who did not appear when summoned by the investigating judge. Separately, in 2013, the French banking supervisory authority's disciplinary commission reprimanded UBS (France) S.A. for having had insufficiencies in its control and compliance framework around its cross-border activities and "know your customer" obligations. It imposed a penalty of EUR 10 million, which was paid.

In January 2015, we received inquiries from the US Attorney's Office for the Eastern District of New York and from the US Securities and Exchange Commission (SEC), which are investigating potential sales to US persons of bearer bonds and other unregistered securities in possible violation of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) and the registration requirements of the US securities laws. We are cooperating with the authorities in these investigations.

Our balance sheet at 30 June 2015 reflected provisions with respect to matters described in this item 1 in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

2. Claims related to sales of residential mortgage-backed securities and mortgages

From 2002 through 2007, prior to the crisis in the US residential loan market, UBS was a substantial issuer and underwriter of US residential mortgage-backed securities (RMBS) and was a purchaser and seller of US residential mortgages. A subsidiary of UBS,

UBS Real Estate Securities Inc. (UBS RESI), acquired pools of residential mortgage loans from originators and (through an affiliate) deposited them into securitization trusts. In this manner, from 2004 through 2007, UBS RESI sponsored approximately USD 80 billion in RMBS, based on the original principal balances of the securities issued.

UBS RESI also sold pools of loans acquired from originators to third-party purchasers. These whole loan sales during the period 2004 through 2007 totaled approximately USD 19 billion in original principal balance.

We were not a significant originator of US residential loans. A subsidiary of UBS originated approximately USD 1.5 billion in US residential mortgage loans during the period in which it was active from 2006 to 2008, and securitized less than half of these loans.

RMBS-related lawsuits concerning disclosures: UBS is named as a defendant relating to its role as underwriter and issuer of RMBS in a large number of lawsuits related to approximately USD 11 billion in original face amount of RMBS underwritten or issued by UBS. Of the USD 11 billion in original face amount of RMBS that remains at issue in these cases, approximately USD 4 billion was issued in offerings in which a UBS subsidiary transferred underlying loans (the majority of which were purchased from third-party originators) into a securitization trust and made representations and warranties about those loans (UBS-sponsored RMBS). The remaining USD 7 billion of RMBS to which these cases relate was issued by third parties in securitizations in which UBS acted as underwriter (third-party RMBS).

In connection with certain of these lawsuits, UBS has indemnification rights against surviving third-party issuers or originators for losses or liabilities incurred by UBS, but UBS cannot predict the extent to which it will succeed in enforcing those rights. A class action in which UBS was named as a defendant was settled by a third-party issuer and received final approval by the district court in 2013. The settlement reduced the original face amount of third-party RMBS at issue in the cases pending against UBS by approximately USD 24 billion. The third-party issuer will fund the settlement at no cost to UBS. In 2014, certain objectors to the settlement filed a notice of appeal from the district court's approval of the settlement.

UBS is also named as a defendant in several cases asserting fraud and other claims brought by entities that purchased collateralized debt obligations that had RMBS exposure and that were arranged or sold by UBS.

UBS is a defendant in two lawsuits brought by the National Credit Union Administration (NCUA), as conservator for certain failed credit unions, asserting misstatements and omissions in the offering documents for RMBS purchased by the credit unions. Both lawsuits were filed in US District Courts, one in the District of Kansas and the other in the Southern District of New York (Southern District of New York). The Kansas court partially granted UBS's motion to dismiss in 2013 and held that the NCUA's claims for ten

Note 16 Provisions and contingent liabilities (continued)

of the 22 RMBS certificates on which it had sued were time-barred. As a result, the original principal balance at issue in that case was reduced from USD 1.15 billion to approximately USD 400 million. The original principal balance at issue in the Southern District of New York case is approximately USD 400 million. In May 2015 the Kansas court, relying on a March 2015 decision rendered by the US Court of Appeals for the Tenth Circuit in a case filed by the NCUA against Barclays Capital, Inc., granted a motion for reconsideration filed by the NCUA and reinstated the NCUA's claims against UBS for the ten certificates that had been dismissed in 2013.

Loan repurchase demands related to sales of mortgages and RMBS: When UBS acted as an RMBS sponsor or mortgage seller, we generally made certain representations relating to the characteristics of the underlying loans. In the event of a material breach of these representations, we were in certain circumstances contractually obligated to repurchase the loans to which they related

or to indemnify certain parties against losses. UBS has received demands to repurchase US residential mortgage loans as to which UBS made certain representations at the time the loans were transferred to the securitization trust. We have been notified by certain institutional purchasers of mortgage loans and RMBS of their contention that possible breaches of representations may entitle the purchasers to require that UBS repurchase the loans or to other relief. The table "Loan repurchase demands by year received – original principal balance of loans" summarizes repurchase demands received by UBS and UBS's repurchase activity from 2006 through 23 July 2015. In the table, "Resolved demands" are considered to be finally resolved, and include demands that are time-barred under the decision rendered by the New York Court of Appeals on 11 June 2015 in *Ace Securities vs. DB Structured Products* (Ace Decision). Repurchase demands in all other categories are not finally resolved.

Loan repurchase demands by year received – original principal balance of loans¹

USD million	2006–2008	2009	2010	2011	2012	2013	2014	2015, through 23 July	Total

Demands resolved or expected to be resolved through enforcement of indemnification rights against third-party originators		77	2	45	107	99	72		403
Demands in dispute									
Demands in litigation			346	732	1,041				2,118
Demands in review by UBS				1					1
Total	122	205	368	1,084	1,404	618	332	0	4,133

¹ Loans submitted by multiple counterparties are counted only once.

Payments that UBS has made to date to resolve repurchase demands equate to approximately 62% of the original principal balance of the related loans. Most of the payments that UBS has made to date have related to so-called "Option ARM" loans; severity rates may vary for other types of loans with different characteristics. Losses upon repurchase would typically reflect the estimated value of the loans in question at the time of repurchase, as well as, in some cases, partial repayment by the borrowers or advances by servicers prior to repurchase.

In most instances in which we would be required to repurchase loans due to misrepresentations, we would be able to assert demands against third-party loan originators who provided representations when selling the related loans to UBS. However, many of these third parties are insolvent or no longer exist. We estimate that, of the total original principal balance of loans sold or securi-

tized by UBS from 2004 through 2007, less than 50% was purchased from surviving third-party originators. In connection with approximately 60% of the loans (by original principal balance) for which UBS has made payment or agreed to make payment in response to demands received in 2010, UBS has asserted indemnity or repurchase demands against originators. Since 2011, UBS has advised certain surviving originators of repurchase demands made against UBS for which UBS would be entitled to indemnity, and has asserted that such demands should be resolved directly by the originator and the party making the demand.

Any future repurchase demands should be time-barred by virtue of the Ace Decision.

Lawsuits related to contractual representations and warranties concerning mortgages and RMBS: In 2012, certain RMBS trusts filed an action (Trustee Suit) in the Southern District of New York

Note 16 Provisions and contingent liabilities (continued)

seeking to enforce UBS RESI's obligation to repurchase loans in the collateral pools for three RMBS securitizations (Transactions) with an original principal balance of approximately USD 2 billion for which Assured Guaranty Municipal Corp. (Assured Guaranty), a financial guaranty insurance company, had previously demanded repurchase. In January 2015, the court rejected plaintiffs' efforts to seek damages for all loans purportedly in breach of representations and warranties in any of the three Transactions and limited plaintiffs to pursuing claims based solely on alleged breaches for loans identified in the complaint or other breaches that plaintiffs can establish were independently discovered by UBS. In February 2015, the court denied plaintiffs' motion seeking reconsideration of its ruling. With respect to the loans subject to the Trustee Suit that were originated by institutions still in existence, UBS intends to enforce its indemnity rights against those institutions. Related litigation brought by Assured Guaranty was resolved in 2013.

In 2012, the Federal Housing Finance Agency, on behalf of the Federal Home Loan Mortgage Corporation (Freddie Mac), filed a notice and summons in New York Supreme Court initiating suit against UBS RESI for breach of contract and declaratory relief arising from alleged breaches of representations and warranties in connection with certain mortgage loans and UBS RESI's alleged

failure to repurchase such mortgage loans. The lawsuit seeks, among other relief, specific performance of UBS RESI's alleged loan repurchase obligations for at least USD 94 million in original principal balance of loans for which Freddie Mac had previously demanded repurchase; no damages are specified. In 2013, the Court dismissed the complaint for lack of standing, on the basis that only the RMBS trustee could assert the claims in the complaint, and the complaint was unclear as to whether the trustee was the plaintiff and had proper authority to bring suit. The trustee subsequently filed an amended complaint, which UBS moved to dismiss. The motion remains pending.

We also have tolling agreements with certain institutional purchasers of RMBS concerning their potential claims related to substantial purchases of UBS-sponsored or third-party RMBS.

As reflected in the table "Provision for claims related to sales of residential mortgage-backed securities and mortgages," our balance sheet at 30 June 2015 reflected a provision of USD 772 million with respect to matters described in this item 2. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of this matter cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

Mortgage-related regulatory matters: In 2014, UBS received a subpoena from the US Attorney's Office for the Eastern District of New York issued pursuant to the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA), which seeks documents and information related to UBS's RMBS business from 2005 through 2007. UBS continues to respond to the FIRREA subpoena and to subpoenas from the New York State Attorney General (NYAG) relating to its RMBS business. In addition, UBS has also been responding to inquiries from both the Special Inspector General for the Troubled Asset Relief Program (SIGTARP) (who is working in conjunction with the US Attorney's Office for Connecticut and the DOJ) and the SEC relating to trading practices in connection with purchases and sales of mortgage-backed securities in the secondary market from 2009 through the present. We are cooperating with the authorities in these matters. Numerous other banks reportedly are responding to similar inquiries from these authorities.

3. Madoff

In relation to the Bernard L. Madoff Investment Securities LLC (BMIS) investment fraud, UBS AG, UBS (Luxembourg) SA and certain other UBS subsidiaries have been subject to inquiries by a number of regulators, including the Swiss Financial Market Supervisory Authority (FINMA) and the Luxembourg Commission de Surveillance du Secteur Financier (CSSF). Those inquiries concerned two third-party funds established under Luxembourg law, substantially all assets of which were with BMIS, as well as certain funds established in offshore jurisdictions with either direct or indirect exposure to BMIS. These funds now face severe losses, and the Luxembourg funds are in liquidation. The last reported net asset value of the two Luxembourg funds before revelation of the Madoff scheme was approximately USD 1.7 billion in the aggregate, although that figure likely includes fictitious profit reported by BMIS. The documentation establishing both funds identifies UBS entities in various roles including custodian, administrator,

Note 16 Provisions and contingent liabilities (continued)

manager, distributor and promoter, and indicates that UBS employees serve as board members. UBS (Luxembourg) SA and certain other UBS subsidiaries are responding to inquiries by Luxembourg investigating authorities, without however being named as parties in those investigations. In 2009 and 2010, the liquidators of the two Luxembourg funds filed claims on behalf of the funds against UBS entities, non-UBS entities and certain individuals including current and former UBS employees. The amounts claimed are approximately EUR 890 million and EUR 305 million, respectively. The liquidators have filed supplementary claims for amounts that the funds may possibly be held liable to pay the BMIS Trustee. These amounts claimed by the liquidator are approximately EUR 564 million and EUR 370 million, respectively. In addition, a large number of alleged beneficiaries have filed claims against UBS entities (and non-UBS entities) for purported losses relating to the Madoff scheme. The majority of these cases are pending in Luxembourg, where appeals were filed by the claimants against the 2010 decisions of the court in which the claims in a number of test cases were held to be inadmissible. In July 2015 the Luxembourg Court of Appeals dismissed one test appeal in its entirety, which decision has been appealed by the investor. In the US, the BMIS Trustee filed claims in 2010 against UBS entities, among others, in relation to the two Luxembourg funds and one of the offshore funds. The total amount claimed against all defendants in these actions was not less than USD 2 billion. Following a motion by UBS, in 2011, the US District Court for the Southern District of New York dismissed all of the BMIS Trustee's claims other than claims for recovery of fraudulent conveyances and preference payments that were allegedly transferred to UBS on the ground that the BMIS Trustee lacks standing to bring such claims. In 2013, the Second Circuit affirmed the District Court's decision and, in June 2014, the US Supreme Court denied the BMIS Trustee's petition seeking review of the Second Circuit ruling. In December 2014, several claims, including a purported class action, were filed in the US by BMIS customers against UBS entities, asserting claims similar to the ones made by the BMIS Trustee, seeking unspecified damages. In Germany, certain clients of UBS are exposed to Madoff-managed positions through third-party funds and funds administered by UBS entities in Germany. A small number of claims have been filed with respect to such funds. In January 2015, a court of appeal reversed a lower court decision in favor of UBS in one such case and ordered UBS to pay EUR 49 million, plus interest. UBS has filed an application for leave to appeal the decision.

4. Puerto Rico

Declines since August 2013 in the market prices of Puerto Rico municipal bonds and of closed-end funds (the funds) that are sole-managed and co-managed by UBS Trust Co. of Puerto Rico and distributed by UBS Financial Services Inc. of Puerto Rico (UBS PR) have led to multiple regulatory inquiries, as well as customer complaints, and arbitrations with aggregate claimed damages ex-

ceeding USD 1.1 billion. The claims are filed by clients in Puerto Rico who own the funds or Puerto Rico municipal bonds and/or who used their UBS account assets as collateral for UBS non-purpose loans; customer complaint and arbitration allegations include fraud, misrepresentation and unsuitability of the funds and of the loans. A shareholder derivative action was filed in 2014 against various UBS entities and current and certain former directors of the funds, alleging hundreds of millions in losses in the funds. Defendants' motion to dismiss was denied. In 2014, a federal class action complaint also was filed against various UBS entities, certain members of UBS PR senior management, and the co-manager of certain of the funds seeking damages for investor losses in the funds during the period from May 2008 through May 2014. In March 2015 a class action was filed in Puerto Rico state court against UBS PR seeking equitable relief in the form of a stay of any effort by UBS PR to collect on non-purpose loans it acquired from UBS Bank USA in December 2013 based on plaintiffs' allegation that the loans are not valid.

An internal review also disclosed that certain clients, many of whom acted at the recommendation of one financial advisor, invested proceeds of non-purpose loans in closed-end fund securities in contravention of their loan agreements.

In 2014 UBS reached a settlement with the Office of the Commissioner of Financial Institutions for the Commonwealth of Puerto Rico (OCFI) in connection with OCFI's examination of UBS's operations from January 2006 through September 2013. Pursuant to the settlement, UBS contributed USD 3.5 million to an investor education fund, offered USD 1.68 million in restitution to certain investors and, among other things, committed to undertake an additional review of certain client accounts to determine if additional restitution would be appropriate.

UBS is responding to requests from the SEC relating to an investigation into the practice of certain customers and a UBS financial advisor of using non-purpose loans to invest in closed-end fund securities in violation of their loan agreements and UBS policies, and related supervision issues. UBS also has been responding to information requests from FINRA regarding an investigation of investments in closed-end funds by certain customers who used such funds to collateralize non-purpose loans, and related sales practice and supervision issues. We also understand that the DOJ is conducting a criminal inquiry into the practice of certain customers and a UBS financial advisor of using non-purpose loans to invest in closed-end fund securities in violation of their loan agreements and UBS policies. We are cooperating with the authorities in these matters.

In 2011, a purported derivative action was filed on behalf of the Employee Retirement System of the Commonwealth of Puerto Rico (System) against over 40 defendants, including UBS PR and other consultants and underwriters, trustees of the System, and the President and Board of the Government Development Bank of Puerto Rico. The plaintiffs alleged that defendants violated their purported fiduciary duties and contractual obligations in connection with the issuance and underwriting of approximately USD 3 billion of bonds

Note 16 Provisions and contingent liabilities (continued)

by the System in 2008 and sought damages of over USD 800 million. UBS is named in connection with its underwriting and consulting services. In 2013, the case was dismissed by the Puerto Rico Court of First Instance on the grounds that plaintiffs did not have standing to bring the claim. That dismissal was subsequently overturned by the Puerto Rico Court of Appeals. UBS's petitions for appeal and reconsideration have been denied by the Supreme Court of Puerto Rico.

Also, in 2013, an SEC Administrative Law Judge dismissed a case brought by the SEC against two UBS executives, finding no violations. The charges had stemmed from the SEC's investigation of UBS's sale of closed-end funds in 2008 and 2009, which UBS settled in 2012. Beginning in 2012 two federal class action complaints, which were subsequently consolidated, were filed against various UBS entities, certain of the funds, and certain members of UBS PR senior management, seeking damages for investor losses in the funds during the period from January 2008 through May 2012 based on allegations similar to those in the SEC action. Plaintiffs' motion to consolidate that action with the federal class action filed in 2014 described above was denied. A motion for class certification was denied without prejudice to the right to refile the motion after limited discovery.

In June 2015 Puerto Rico's Governor stated that the Commonwealth is unable to meet its obligations. The Governor's statement and market reaction to it may increase the number of, and potential damages sought in, claims against UBS concerning Puerto Rico securities.

Our balance sheet at 30 June 2015 reflected provisions with respect to matters described in this item 4 in amounts that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provisions that we have recognized.

5. Foreign exchange, LIBOR, and benchmark rates

Foreign exchange-related regulatory matters: Following an initial media report in 2013 of widespread irregularities in the foreign exchange markets, UBS immediately commenced an internal review of its foreign exchange business, which includes our precious metals and related structured products businesses. Since then, various authorities have commenced investigations concerning possible manipulation of foreign exchange markets, including FINMA, the Swiss Competition Commission (WEKO), the DOJ, the SEC, the US Commodity Futures Trading Commission (CFTC), the Board of Governors of the Federal Reserve System (Federal Reserve Board), the UK Financial Conduct Authority (FCA) (to which certain responsibilities of the UK Financial Services Authority (FSA) have passed), the UK Serious Fraud Office (SFO), the Australian Securities and Investments Commission (ASIC) and the Hong

Kong Monetary Authority (HKMA). WEKO stated in 2014 that it had reason to believe that certain banks may have colluded to manipulate foreign exchange rates. A number of authorities also reportedly are investigating potential manipulation of precious metals prices. UBS and other financial institutions have received requests from various authorities relating to their foreign exchange businesses, and UBS is cooperating with the authorities. UBS has taken and will take appropriate action with respect to certain personnel as a result of its ongoing review.

In 2014, UBS reached settlements with the FCA and the CFTC in connection with their foreign exchange investigations, and FINMA issued an order concluding its formal proceedings with respect to UBS relating to its foreign exchange and precious metals businesses. UBS has paid a total of approximately CHF 774 million to these authorities, including GBP 234 million in fines to the FCA, USD 290 million in fines to the CFTC, and CHF 134 million to FINMA representing confiscation of costs avoided and profits. The conduct described in the settlements and the FINMA order includes certain UBS personnel: engaging in efforts, alone or in cooperation/collusion with traders at other banks, to manipulate foreign exchange benchmark rates involving multiple currencies, attempts to trigger client stop-loss orders for UBS's benefit, and inappropriate sharing of confidential client information. We have ongoing obligations to cooperate with these authorities and to undertake certain remediation, including actions to improve processes and controls and requirements imposed by FINMA to apply compensation restrictions for certain employees and to automate at least 95% of our global foreign exchange and precious metals trading by 31 December 2016. In 2014, the HKMA announced the conclusion of its investigation into foreign exchange trading operations of banks in Hong Kong. The HKMA found no evidence of collusion among the banks or of manipulation of foreign exchange benchmark rates in Hong Kong. The HKMA also found that banks had internal control deficiencies with respect to their foreign exchange trading operations.

In May 2015, the DOJ's Criminal Division (Criminal Division) terminated the NPA with UBS AG. As a result, UBS AG entered into a plea agreement with the Criminal Division pursuant to which UBS AG agreed to and did plead guilty to a one-count criminal information filed in the US District Court for the District of Connecticut charging UBS AG with one count of wire fraud in violation of 18 USC Sections 1343 and 2. Under the plea agreement, UBS AG agreed to a sentence that includes a USD 203 million penalty and a three-year term of probation. The criminal information charges that between approximately 2001 and 2010, UBS AG engaged in a scheme to defraud counterparties to interest rate derivatives transactions by manipulating benchmark interest rates, including Yen LIBOR. Sentencing is currently scheduled for 9 November 2015. The Criminal Division terminated the NPA based on its determination, in its sole discretion, that certain of UBS AG's employees committed criminal conduct that violated the NPA, including fraudulent and deceptive currency trading and

Note 16 Provisions and contingent liabilities (continued)

sales practices in conducting certain foreign exchange market transactions with customers and collusion with other participants in certain foreign exchange markets.

In May 2015, the Federal Reserve Board and the Connecticut Department of Banking issued an Order to Cease and Desist and Order of Assessment of a Civil Monetary Penalty Issued upon Consent (Federal Reserve Order) to UBS AG. As part of the Federal Reserve Order, UBS AG paid a USD 342 million civil monetary penalty. The Federal Reserve Order is based on the Federal Reserve Board's finding that UBS AG had deficient policies and procedures that prevented UBS AG from detecting and addressing unsafe and unsound conduct by foreign exchange traders and salespeople, including disclosures to traders of other institutions of confidential customer information, agreements with traders of other institutions to coordinate foreign exchange trading in a manner to influence certain foreign exchange benchmarks fixes and market prices, and trading strategies that raised potential conflicts of interest, possible agreements with traders of other institutions regarding bid/offer spreads offered to foreign exchange customers, the provision of information to customers regarding price quotes and how a customer's foreign exchange order is filled.

UBS has been granted conditional immunity by the Antitrust Division of the DOJ (Antitrust Division) from prosecution for EUR/USD collusion and entered into a non-prosecution agreement covering other currency pairs. As a result, UBS AG will not be subject to prosecutions, fines or other sanctions for antitrust law violations by the Antitrust Division, subject to UBS AG's continuing cooperation. However, the conditional immunity grant does not bar government agencies from asserting other claims and imposing sanctions against UBS AG, as evidenced by the settlements and ongoing investigations referred to above.

Investigations relating to foreign exchange matters by numerous authorities, including the SEC and CFTC, remain ongoing notwithstanding these resolutions.

Foreign exchange-related civil litigation: Putative class actions have been filed since November 2013 in US federal courts against UBS and other banks. These actions are on behalf of putative classes of persons who engaged in foreign currency transactions with any of the defendant banks. They allege collusion by the defendants and assert claims under the antitrust laws and for unjust enrichment. In March 2015, UBS entered into a settlement agreement to resolve those actions. The agreement, which is subject to court approval, requires among other things that UBS pay USD 135 million and provide cooperation to the settlement class. In 2015, UBS has been added to putative class actions pending against other banks in federal court in New York on behalf of putative classes of persons who bought or sold physical precious metals and various precious metal products and derivatives. The complaints in these lawsuits assert claims under the US antitrust laws and the US Commodity Exchange Act (CEA) and for unjust enrichment. Since February 2015, putative class actions have been filed in federal court in New York against UBS and other

banks on behalf of a putative class of persons who entered into or held any foreign exchange futures contracts and options on foreign exchange futures contracts since January 1, 2003. The complaints assert claims under the CEA and the US antitrust laws. In June 2015, a putative class action was filed in federal court in New York against UBS and other banks on behalf of participants, beneficiaries, and named fiduciaries of plans qualified under the Employee Retirement Income Security Act of 1974 (ERISA) for whom a defendant bank provided foreign currency exchange transactional services, exercised discretionary authority or discretionary control over management of such ERISA plan, or authorized or permitted the execution of any foreign currency exchange transactional services involving such plan's assets. The complaint asserts claims under ERISA.

LIBOR and other benchmark-related regulatory matters: Numerous government agencies, including the SEC, the CFTC, the DOJ, the FCA, the SFO, the Monetary Authority of Singapore (MAS), the HKMA, FINMA, the various state attorneys general in the US, and competition authorities in various jurisdictions have conducted or are continuing to conduct investigations regarding submissions with respect to LIBOR and other benchmark rates, including HIBOR (Hong Kong Interbank Offered Rate) and ISDAFIX, a benchmark rate used for various interest rate derivatives and other financial instruments. These investigations focus on whether there were improper attempts by UBS (among others), either acting on our own or together with others, to manipulate LIBOR and other benchmark rates at certain times.

In 2012, UBS reached settlements with the FSA, the CFTC and the Criminal Division of the DOJ in connection with their investigations of benchmark interest rates. At the same time FINMA issued an order concluding its formal proceedings with respect to UBS relating to benchmark interest rates. UBS has paid a total of approximately CHF 1.4 billion in fines and disgorgement – including GBP 160 million in fines to the FSA, USD 700 million in fines to the CFTC, USD 500 million in fines to the DOJ, and CHF 59 million in disgorgement to FINMA. UBS Securities Japan Co. Ltd. (UBSSJ) entered into a plea agreement with the DOJ under which it entered a plea to one count of wire fraud relating to the manipulation of certain benchmark interest rates, including Yen LIBOR. UBS entered into an NPA with the DOJ, which (along with the plea agreement) covered conduct beyond the scope of the conditional leniency/immunity grants described below, required UBS to pay the USD 500 million fine to DOJ after the sentencing of UBSSJ, and provided that any criminal penalties imposed on UBSSJ at sentencing be deducted from the USD 500 million fine. The conduct described in the various settlements and the FINMA order includes certain UBS personnel: engaging in efforts to manipulate submissions for certain benchmark rates to benefit trading positions; colluding with employees at other banks and cash brokers to influence certain benchmark rates to benefit their trading positions; and giving inappropriate directions to UBS submitters that were in part motivated by a desire to avoid unfair and

Note 16 Provisions and contingent liabilities (continued)

negative market and media perceptions during the financial crisis. The benchmark interest rates encompassed by one or more of these resolutions include Yen LIBOR, GBP LIBOR, Swiss franc (CHF) LIBOR, Euro LIBOR, USD LIBOR, EURIBOR (Euro Interbank Offered Rate) and Euroyen TIBOR (Tokyo Interbank Offered Rate). We have ongoing obligations to cooperate with authorities with which we have reached resolutions and to undertake certain remediation with respect to benchmark interest rate submissions. Under the NPA, we agreed, among other things, that for two years from 18 December 2012 UBS would not commit any US crime, and we would advise DOJ of any potentially criminal conduct by UBS or any of its employees relating to violations of US laws concerning fraud or securities and commodities markets. The term of the NPA was extended by one year to 18 December 2015. In May 2015, the Criminal Division terminated the NPA based on its determination, in its sole discretion, that certain of UBS AG's employees committed criminal conduct that violated the NPA. As a result, UBS entered into a plea agreement with the DOJ under which it entered a guilty plea to one count of wire fraud relating to the manipulation of certain benchmark interest rates, including Yen LIBOR, and agreed to pay a fine of USD 203 million and accept a three-year term of probation. The MAS, HKMA, ASIC and the Japan Financial Services Agency have all resolved investigations of UBS (and in some cases other banks). The orders or undertakings in connection with these investigations generally require UBS to take remedial actions to improve its processes and controls, impose monetary penalties or other measures. Investigations by the CFTC, ASIC and other governmental authorities remain ongoing notwithstanding these resolutions. In 2014, UBS reached a settlement with the European Commission (EC) regarding its investigation of bid-ask spreads in connection with Swiss franc interest rate derivatives and has paid a EUR 12.7 million fine, which was reduced to this level based in part on UBS's cooperation with the EC.

UBS has been granted conditional leniency or conditional immunity from authorities in certain jurisdictions, including the Anti-trust Division of the DOJ, WEKO and the EC, in connection with potential antitrust or competition law violations related to submissions for Yen LIBOR and Euroyen TIBOR. WEKO has also granted UBS conditional immunity in connection with potential competition law violations related to submissions for CHF LIBOR and certain transactions related to Swiss franc LIBOR. The Canadian Competition Bureau (Bureau) had granted UBS conditional immunity in connection with potential competition law violations related to submissions for Yen LIBOR, but in January 2014, the Bureau discontinued its investigation into Yen LIBOR for lack of sufficient evidence to justify prosecution under applicable laws. As a result of these conditional grants, we will not be subject to prosecutions, fines or other sanctions for antitrust or competition law violations in the jurisdictions where we have conditional immunity or leniency in connection with the matters covered by the conditional grants, subject to our continuing cooperation. However, the conditional

leniency and conditional immunity grants we have received do not bar government agencies from asserting other claims and imposing sanctions against us, as evidenced by the settlements and ongoing investigations referred to above. In addition, as a result of the conditional leniency agreement with the DOJ, we are eligible for a limit on liability to actual rather than treble damages were damages to be awarded in any civil antitrust action under US law based on conduct covered by the agreement and for relief from potential joint and several liability in connection with such civil antitrust action, subject to our satisfying the DOJ and the court presiding over the civil litigation of our cooperation. The conditional leniency and conditional immunity grants do not otherwise affect the ability of private parties to assert civil claims against us.

LIBOR and other benchmark-related civil litigation: A number of putative class actions and other actions are pending in, or expected to be transferred to, the federal courts in New York against UBS and numerous other banks on behalf of parties who transacted in certain interest rate benchmark-based derivatives linked directly or indirectly to US dollar LIBOR, Yen LIBOR, Euroyen TIBOR, EURIBOR, CHF LIBOR, GBP LIBOR, and US Dollar ISDAFIX. Also pending are actions asserting losses related to various products whose interest rate was linked to US dollar LIBOR, including adjustable rate mortgages, preferred and debt securities, bonds pledged as collateral, loans, depository accounts, investments and other interest-bearing instruments. All of the complaints allege manipulation, through various means, of various benchmark interest rates, including LIBOR, Euroyen TIBOR, EURIBOR or US Dollar ISDAFIX rates and seek unspecified compensatory and other damages, including treble and punitive damages, under varying legal theories that include violations of the CEA, the federal racketeering statute, federal and state antitrust and securities laws and other state laws. In May 2015, a putative class action was filed in federal court in New York against UBS and other financial institutions on behalf of US parties who transacted in financial instruments tied to GBP LIBOR. Plaintiffs allege that defendants conspired to manipulate GBP LIBOR and the prices of GBP LIBOR-based derivatives in violation of US antitrust laws and the CEA, among other theories, and seek unspecified compensatory damages, including treble damages. In 2013, a federal court in New York dismissed the federal antitrust and racketeering claims of certain US dollar LIBOR plaintiffs and a portion of their claims brought under the CEA and state common law. The court has granted certain plaintiffs permission to assert claims for unjust enrichment and breach of contract against UBS and other defendants, and limited the CEA claims to contracts purchased between 15 April 2009 and May 2010. Certain plaintiffs have also appealed the dismissal of their antitrust claims. UBS and other defendants in other lawsuits including the one related to Euroyen TIBOR have filed motions to dismiss. In 2014, the court in the Euroyen TIBOR lawsuit dismissed the plaintiff's federal antitrust and state unfair enrichment claims, and dismissed a portion of the plaintiff's CEA claims. Discovery is currently stayed.

Note 16 Provisions and contingent liabilities (continued)

Since September 2014, putative class actions have been filed in federal court in New York and New Jersey against UBS and other financial institutions, among others, on behalf of parties who entered into interest rate derivative transactions linked to ISDAFIX. The complaints, which have since been consolidated into an amended complaint, allege that the defendants conspired to manipulate ISDAFIX rates from 1 January 2006 through January 2014, in violation of US antitrust laws and the CEA, among other theories, and seeks unspecified compensatory damages, including treble damages.

With respect to additional matters and jurisdictions not encompassed by the settlements and order referred to above, our balance sheet at 30 June 2015 reflected a provision in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

6. Swiss retrocessions

The Swiss Supreme Court ruled in 2012, in a test case against UBS, that distribution fees paid to a bank for distributing third party and intra-group investment funds and structured products must be disclosed and surrendered to clients who have entered into a discretionary mandate agreement with the bank, absent a valid waiver.

FINMA has issued a supervisory note to all Swiss banks in response to the Supreme Court decision. The note sets forth the measures Swiss banks are to adopt, which include informing all affected clients about the Supreme Court decision and directing them to an internal bank contact for further details. UBS has met the FINMA requirements and has notified all potentially affected clients.

The Supreme Court decision has resulted, and may continue to result, in a number of client requests for UBS to disclose and potentially surrender retrocessions. Client requests are assessed on a case-by-case basis. Considerations taken into account when assessing these cases include, among others, the existence of a discretionary mandate and whether or not the client documentation contained a valid waiver with respect to distribution fees.

Our balance sheet at 30 June 2015 reflected a provision with respect to matters described in this item 6 in an amount that UBS believes to be appropriate under the applicable accounting standard. The ultimate exposure will depend on client requests and the resolution thereof, factors that are difficult to predict and assess. Hence, as in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

7. Banco UBS Pactual tax indemnity

Pursuant to the 2009 sale of Banco UBS Pactual S.A. (Pactual) by UBS to BTG Investments, LP (BTG), BTG has submitted contractual indemnification claims that UBS estimates amount to approximately BRL 2.2 billion, including interest and penalties, which is net of liabilities retained by BTG. The claims pertain principally to several tax assessments issued by the Brazilian tax authorities against Pactual relating to the period from December 2006 through March 2009, when UBS owned Pactual. The majority of these assessments relate to the deductibility of goodwill amortization in connection with UBS's 2006 acquisition of Pactual and payments made to Pactual employees through various profit sharing plans. These assessments are being challenged in administrative proceedings. In May 2015, the administrative court issued a decision that was largely in favor of the tax authority with respect to the goodwill amortization assessment. This decision will be appealed.

8. Matters relating to the CDS market

In 2013, the EC issued a Statement of Objections against thirteen credit default swap (CDS) dealers including UBS, as well as data service provider Markit and the International Swaps and Derivatives Association (ISDA). The Statement of Objections broadly alleges that the dealers infringed European Union antitrust rules by colluding to prevent exchanges from entering the credit derivatives market between 2006 and 2009. We submitted our response to the Statement of Objections and presented our position in an oral hearing in 2014. Since mid-2009, the Antitrust Division of the DOJ has also been investigating whether multiple dealers, including UBS, conspired with each other and with Markit to restrain competition in the markets for CDS trading, clearing and other services. In 2014, putative class action plaintiffs filed consolidated amended complaints in the Southern District of New York against twelve dealers, including UBS, as well as Markit and ISDA, alleging violations of the US Sherman Antitrust Act and common law. Plaintiffs allege that the defendants unlawfully conspired to restrain competition in and/or monopolize the market for CDS trading in the US in order to protect the dealers' profits from trading CDS in the over-the-counter market. Plaintiffs assert claims on behalf of all purchasers and sellers of CDS that transacted directly with any of the dealer defendants since 1 January 2008, and seek unspecified trebled compensatory damages and other relief. In 2014, the court granted in part and denied in part defendants' motions to dismiss the complaint.

9. Equities trading systems and practices

UBS is responding to inquiries concerning the operation of UBS's alternative trading system (ATS) (also referred to as a dark pool) and its securities order routing and execution practices from various authorities, including the SEC, the NYAG and the Financial Industry Regulatory Authority, who reportedly are pursuing similar investigations industry-wide.

Note 17 Guarantees, commitments and forward starting transactions

The table below shows the maximum irrevocable amount of guarantees, commitments and forward starting transactions.

CHF million	30.6.15			31.3.15			31.12.14

Note 18 Changes in organization and disposals

Restructuring charges

Restructuring charges arise from programs that materially change either the scope of business undertaken by UBS AG or the manner in which such business is conducted. Restructuring charges are temporary costs that are necessary to effect such programs and include items such as severance and other personnel-related charges, duplicate headcount costs, impairment and accelerated

depreciation of assets, contract termination costs, consulting fees, and related infrastructure and system costs. These costs are presented in the income statement according to the underlying nature of the expense. As the costs associated with restructuring programs are temporary in nature, and in order to provide a more thorough understanding of business performance, such costs are separately presented below.

Net restructuring charges by business division and Corporate Center unit

CHF million	For the quarter ended			Year-to-date

Note 18 Changes in organization and disposals (continued)**Disposal group held for sale**

In the second quarter of 2015, UBS AG agreed to sell Global Asset Management's Alternative Fund Services (AFS) business to Mitsubishi UFJ Financial Group Investor Services. The Global Asset Management Investment Fund Services business, which provides fund administration for traditional mutual funds, is not included in the sale. The sale is expected to close in the fourth quarter of 2015, subject to regulatory approval and other customary closing conditions.

The assets and liabilities of the AFS business which will be transferred to Mitsubishi UFJ Financial Group Investor Services upon completion of the transaction are almost entirely held within Global Asset Management and, as of 30 June 2015, totaled CHF 254 million and CHF 2,759 million, respectively. These assets and liabilities are presented as a disposal group held-for-sale within *Other assets* and *Other liabilities* and do not include receivables and payables the AFS business has with UBS AG or its consolidated subsidiaries. Such intercompany assets and liabilities totaled approximately CHF 3,100 million and CHF 350 million, respectively.

Note 19 Currency translation rates

The following table shows the rates of the main currencies used to translate the financial information of UBS AG's foreign operations into Swiss francs.

	Spot rate				Average rate ¹				
	As of				For the quarter ended			Year-to-date	
	30.6.15	31.3.15	31.12.14	30.6.14	30.6.15	31.3.15	30.6.14	30.6.15	30.6.14
1 USD	0.94	0.97	0.99	0.89	0.94	0.95	0.89	0.94	0.89
1 EUR	1.04	1.04	1.20	1.21	1.04	1.05	1.22	1.04	1.22
1 GBP	1.47	1.44	1.55	1.52	1.45	1.43	1.50	1.44	1.49
100 JPY	0.76	0.81	0.83	0.88	0.77	0.80	0.87	0.78	0.87

¹ Monthly income statement items of foreign operations with a functional currency other than Swiss franc are translated with month-end rates into Swiss francs. Disclosed average rates for a quarter represent an average of three month-end rates, weighted according to the income and expense volumes of all foreign operations of UBS AG with the same functional currency for each month. Weighted average rates for individual business divisions may deviate from the weighted average rates for UBS AG.

Supplemental information
(unaudited) for UBS AG (standalone)

Business transfer to UBS Switzerland AG

On 14 June 2015, UBS AG transferred its Retail & Corporate and Wealth Management businesses booked in Switzerland to UBS Switzerland AG, which was incorporated on 3 September 2014 as a wholly owned subsidiary of UBS AG. This business transfer was executed by way of transfer of assets and liabilities in accordance with articles 69 ff. of the Swiss Federal Act on Merger, Scission, Conversion and Transfer of Assets and Liabilities (Merger Act) as an equity contribution to UBS Switzerland AG, thereby increasing UBS AG's investment in UBS Switzerland AG. The transfer was recorded retrospectively as of 1 April 2015 and transactions impacting the businesses transferred to UBS Switzerland AG which occurred on or after 1 April 2015 were recorded in UBS Switzerland AG.

¹ Comparative balances presented for 31 March 2015 and 31 December 2014 include the Retail & Corporate and Wealth Management businesses booked in Switzerland, which were transferred from UBS AG to UBS Switzerland AG effective 1 April 2015. Refer to "Changes in legal structure" in the "Financial information" section of the UBS Group second quarter 2015 report for more information. ² Refer to "UBS shares" in the "Capital management" section of the UBS Group second quarter 2015 report for information on the issuance of UBS AG shares during the second quarter of 2015. ³ During the second quarter of 2015, the 2014 net profit of CHF 7,849 million was appropriated to the General reserve and a payment of a cash dividend of CHF 0.50 per dividend-bearing share, totaling CHF 1,632 million, was made out of the capital contribution reserve within the General reserve, as approved at the Annual General Meeting of shareholders held on 7 May 2015.

Basis of accounting

The UBS AG standalone financial statements are prepared in accordance with Swiss GAAP (FINMA Circular 2008/2 and the Banking Ordinance). UBS AG is making use of a transition period and will adopt revised Swiss GAAP (in accordance with the amended Banking Ordinance and the new FINMA circular 2015/1) as part of the 2015 year-end reporting. The accounting policies are principally the same as the IFRS-based accounting policies for the consolidated financial statements outlined in Note 1 of the consolidated financial statements in the UBS AG Annual Report 2014. Major differences between the Swiss GAAP requirements and IFRS are described in Note 38 to the consolidated financial statements in

the UBS AG Annual Report 2014. Further information on the accounting policies applied for the standalone financial statements of UBS AG can be found in Note 2 to the UBS AG standalone financial statements in the UBS AG Annual Report 2014.

In preparing the interim financial information for UBS AG, the same accounting policies and methods of computation have been applied as in the annual financial statements of UBS AG as of 31 December 2014. This interim financial information is unaudited and should be read in conjunction with the audited financial statements included in the UBS AG Annual Report 2014.

Joint and several liability

In June 2015, the Retail & Corporate and Wealth Management businesses booked in Switzerland were transferred from UBS AG to UBS Switzerland AG through an asset transfer in accordance with the Swiss Merger Act (refer to "Changes in legal structure" in the "Financial information" section of the UBS Group second quarter 2015 report for more information.) Under the Swiss Merger Act, UBS AG assumed joint liability for obligations existing on the asset transfer date, 14 June 2015, that were transferred to UBS Swit-

zerland AG. UBS AG has no liability for new obligations incurred by UBS Switzerland AG after the asset transfer date.

As of the asset transfer date, UBS AG assumed joint liability for approximately CHF 260 billion of obligations of UBS Switzerland AG, excluding the collateralized portion of secured contractual obligations. The joint liability amount will decline as obligations mature, terminate or are novated following the asset transfer date.

UBS AG (standalone) regulatory information

This section contains information as of 30 June 2015 related to capital adequacy, leverage ratio, supplemental leverage ratio and liquidity coverage ratio, as required by the revised FINMA Circular 2008/22 "Disclosure – banks."

Swiss SRB Basel III capital requirements and capital information

Under Swiss SRB regulations, article 125 "Reliefs for financial groups and individual institutions" of the Swiss Capital Ordinance (CAO), stipulates that the Swiss Financial Market Supervisory Authority (FINMA) may grant, under certain conditions, capital relief to individual institutions, to ensure that an individual institution's compliance with the capital requirements does not lead to a de facto overcapitalization of the group of which it is part.

FINMA granted relief concerning the regulatory capital requirements of UBS AG on a standalone basis by means of a decree issued on 20 December 2013, which became effective on 1 January 2014.

→ Refer to the document "UBS AG (standalone) regulatory information" for the first quarter of 2015 in the section "Quarterly reporting" of our Investor Relations website at www.ubs.com/investors for more information

The capital requirements of UBS AG (standalone) following the transfer of assets and liabilities to UBS Switzerland AG in June 2015 are unchanged, with the exception of the countercyclical buffer requirement, which is now insignificant following the transfer of the Swiss mortgage business to UBS Switzerland AG.

→ Refer to the "Recent developments" section and "Changes in legal structure" in the "Financial information" section of the UBS Group second quarter 2015 report for more information

Swiss SRB leverage ratio requirements and information

The Swiss SRB leverage ratio requirement is equal to 24% of the capital ratio requirements (excluding the countercyclical buffer requirement).

As of 30 June 2015, the effective total leverage ratio requirement for UBS AG (standalone) was 3.4%, resulting from multiplying the total capital ratio requirement (excluding the countercyclical buffer requirement) of 14.0% by 24%.

¹ Spot numbers are reported for the second quarter of 2015, due to the business transfer to UBS Switzerland AG effective in June 2015. Refer to "Changes in legal structure" in the "Financial information" section of the UBS Group second quarter 2015 report for more information. ² Represent assets recognized on the UBS AG (standalone) balance sheet in accordance with IFRS measurement principles. ³ In accordance with current Swiss SRB leverage ratio requirements, the leverage ratio denominator excludes forward starting repos, securities lending indemnifications and CEM add-ons for exchange-traded derivatives (ETD), both proprietary and agency transactions, and for OTC derivatives with a qualifying central counterparty.

BIS Basel III leverage ratio disclosure requirements

On 1 January 2015, disclosure requirements for the leverage ratio in accordance with BIS Basel III regulations came into effect in Switzerland, and we are required to disclose BIS Basel III leverage ratio information on a quarterly basis.

The table below provides BIS Basel III leverage ratio information as of 30 June 2015 according to the current disclosure requirements.

BIS Basel III leverage ratio

<i>CHF million, except where indicated</i>	30.6.15
BIS Basel III tier 1 capital, phase-in	30,589
BIS total exposures (leverage ratio denominator), phase-in	677,189
BIS Basel III leverage ratio, phase-in (%)	4.5

Supplemental leverage ratio

During a one-year transition period, we additionally disclose a pro-forma measure of the Swiss SRB leverage ratio using a denominator based on the BIS Basel III definition, referred to as the supplemental leverage ratio.

Supplemental leverage ratio

<i>CHF million, except where indicated</i>	30.6.15
Swiss SRB Basel III common equity tier 1 capital including loss-absorbing capital, phase-in	31,827
BIS total exposures (leverage ratio denominator), phase-in	677,189
Supplemental leverage ratio, phase-in (%)	4.7

Liquidity coverage ratio

Basel III rules require disclosure of the liquidity coverage ratio (LCR). As a Swiss SRB, we must maintain an LCR of at least 100% since 1 January 2015 and disclose LCR information on a quarterly basis.

→ Refer to the "Liquidity and funding management" section of the UBS Group second quarter 2015 report for more information

of which: cash inflows	126
Liquidity coverage ratio (%)	111

¹ Calculated after the application of haircuts and inflow and outflow rates as well as, where applicable, caps on level 2 assets and cash inflows.

Cautionary Statement Regarding Forward-Looking Statements | This report contains statements that constitute “forward-looking statements,” including but not limited to management’s outlook for the financial performance of UBS AG (which, for the purpose of this cautionary statement, refers to UBS AG and its subsidiaries) and statements relating to the anticipated effect of transactions and strategic initiatives on UBS AG’s business and future development. While these forward-looking statements represent UBS AG’s judgments and expectations concerning the matters described, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from UBS AG’s expectations. These factors include, but are not limited to: (i) the degree to which UBS AG and the UBS Group are successful in executing the announced strategic plans, including cost reduction and efficiency initiatives and the planned further reduction in Basel III risk-weighted assets (RWA) and leverage ratio denominator (LRD), and to maintain the stated capital return objective; (ii) developments in the markets in which UBS AG operates or to which it is exposed, including movements in securities prices or liquidity, credit spreads, currency exchange rates and interest rates and the effect of economic conditions and market developments on the financial position or creditworthiness of UBS AG’s clients and counterparties, and the degree to which UBS AG is successful in implementing changes to its business to meet changing market, regulatory and other conditions; (iii) changes in the availability of capital and funding, including any changes in UBS AG’s credit spreads and ratings, or arising from requirements for bail-in debt or loss-absorbing capital; (iv) changes in or the implementation of financial legislation and regulation in Switzerland, the US, the UK and other financial centers that may impose, or result in, more stringent capital (including leverage ratio), liquidity and funding requirements, incremental tax requirements, additional levies, limitations on permitted activities, constraints on remuneration or other measures; (v) uncertainty as to when and to what degree the Swiss Financial Market Supervisory Authority (FINMA) will approve reductions to the incremental RWA resulting from the supplemental operational risk capital analysis mutually agreed to by UBS AG and FINMA, or will approve a limited reduction of capital requirements due to measures to reduce resolvability risk; (vi) the degree to which UBS AG is successful in establishing a US intermediate holding company and implementing the US enhanced prudential standards, to which UBS Group AG is successful in completing the squeeze out of minority shareholders of UBS AG and other changes which UBS AG or the UBS Group may make in its legal entity structure and operating model, including the possible consequences of such changes and other similar changes that have been made previously, and the potential need to make further changes to the legal structure or booking model in response to legal and regulatory requirements, including capital requirements, resolvability requirements and proposals in Switzerland and other countries for mandatory structural reform of banks; (vii) changes in UBS AG’s competitive position, including whether differences in regulatory capital and other requirements among the major financial centers will adversely affect UBS AG’s ability to compete in certain lines of business; (viii) changes in the standards of conduct applicable to our businesses that may result from new regulation or new enforcement of existing standards, including measures to impose new or enhanced duties when interacting with customers or in the execution and handling of customer transactions; (ix) the liability to which UBS AG may be exposed, or possible constraints or sanctions that regulatory authorities might impose on UBS AG, due to litigation, contractual claims and regulatory investigations; (x) the effects on UBS AG’s cross-border banking business of tax or regulatory developments and of possible changes in UBS AG’s policies and practices relating to this business; (xi) UBS AG’s ability to retain and attract the employees necessary to generate revenues and to manage, support and control its businesses, which may be affected by competitive factors including differences in compensation practices; (xii) changes in accounting or tax standards or policies, and determinations or interpretations affecting the recognition of gain or loss, the valuation of goodwill, the recognition of deferred tax assets and other matters; (xiii) limitations on the effectiveness of UBS AG’s internal processes for risk management, risk control, measurement and modeling, and of financial models generally; (xiv) whether UBS AG will be successful in keeping pace with competitors in updating its technology, particularly in trading businesses; (xv) the occurrence of operational failures, such as fraud, misconduct, unauthorized trading and systems failures; (xvi) restrictions to the ability of subsidiaries to make loans or distributions of any kind, directly or indirectly, to UBS AG; and (xvii) the effect that these or other factors or unanticipated events may have on our reputation and the additional consequences that this may have on our business and performance. The sequence in which the factors above are presented is not indicative of their likelihood of occurrence or the potential magnitude of their consequences. Our business and financial performance could be affected by other factors identified in our past and future filings and reports, including those filed with the SEC. More detailed information about those factors is set forth in documents furnished by UBS Group AG and UBS AG and filings made by UBS Group AG and UBS AG with the SEC, including UBS Group AG’s and UBS AG’s Annual Report on Form 20-F for the year ended 31 December 2014. UBS AG is not under any obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements, whether as a result of new information, future events, or otherwise.

Rounding | Numbers presented throughout this report may not add up precisely to the totals provided in the tables and text. Percentages, percent changes and absolute variances are calculated based on rounded figures displayed in the tables and text and may not precisely reflect the percentages, percent changes and absolute variances that would be derived based on figures that are not rounded.

Tables | Within tables, blank fields generally indicate that the field is not applicable or not meaningful, or that information is not available as of the relevant date or for the relevant period. Zero values generally indicate that the respective figure is zero on an actual or rounded basis.

Our financial results

Second quarter 2015 report

Intentionally left blank

Dear shareholders,

The second quarter was affected by continued market and macroeconomic uncertainty. Global financial markets were characterized by high levels of market volatility. Much of this was due to the lack of progress in negotiations between Greece and its creditors, uncertainty surrounding the timing of US interest rate rises, and concerns over the consequences of a slowdown of the Chinese economy. Despite these challenges, our businesses continued to deliver good underlying performance, demonstrating the fundamental earnings power of the Group and the strength of our business model.

The Group reported a solid net profit attributable to shareholders of CHF 1,209 million, with diluted earnings per share of CHF 0.32. Adjusted¹ profit before tax for the Group was CHF 1,635 million. We maintained the bank's capital strength, through further reductions in our balance sheet, risk-weighted assets (RWA) and leverage ratio denominator (LRD), as well as the accretion of earnings to the capital account. Our fully applied Basel III CET1 capital ratio rose to 14.4% and our fully applied Swiss SRB leverage ratio improved to 4.7%. Our dividend policy remains unchanged, despite higher expectations for future capital requirements and macroeconomic uncertainty. We intend to pay out at least 50% of net profit subject to UBS maintaining a fully applied Basel III CET1 capital ratio of at least 13% and at least 10% post-stress.

At UBS, we aim to create long-term value for our investors and clients, while making a positive contribution to the communities in which we operate. In June, for example, UBS launched a campaign to engage up to 50% of its Americas workforce in volunteering programs. To date, UBS Americas employees contributed around 20,000 hours of their time – approximately 70% of 2014's full-year total – volunteering across the Americas. Combined with the time volunteered by other UBS staff around the world, around 53,000 hours were logged in the first half of 2015 to support volunteering programs and give back to society.

To maintain a strong global talent pipeline, UBS offers training programs for more than 2,000 young people every year, including apprentices and university graduates. We are pleased that in the second quarter of 2015, research firm Trendence ranked UBS the most attractive employer for business students in its Graduate Barometer Switzerland. UBS also celebrated its first anniversary as a member of the Global Apprenticeship Network. The goal of this business-driven alliance is to promote apprenticeships and other forms of work-based learning programs to avoid skills mismatch and improve youth employment.

During the quarter, we reached resolutions with the US Department of Justice, the Board of Governors of the Federal Reserve System and the Connecticut Department of Banking in their industry-wide investigations of the global foreign exchange (FX) markets. The firm was fully provisioned for these resolutions, which had no financial impact on our second quarter 2015 results. Reflecting our progress in addressing litigation matters, incremental RWA resulting from the supplemental operational risk capital analysis, mutually agreed to by UBS and FINMA, were reduced by a further CHF 4 billion during the quarter.

The creation of UBS Group AG and UBS Switzerland AG were major milestones to improve the Group's resolvability, in response to the evolving regulatory environment. In June, some 2.7 million clients and approximately CHF 300 billion in assets, primarily from our Swiss Retail & Corporate and Wealth Management businesses, were transferred into UBS Switzerland AG. We are the first bank to complete this step in Switzerland. We have also implemented a more self-sufficient business and operating model for UBS Limited in the UK and submitted our plans for the establishment of an intermediate holding company in the US. In the third quarter, we will establish a Group service company as a subsidiary of UBS Group AG, into which shared services and support functions of the Group will be transferred over the next several years. This will help ensure we can maintain the operational continuity

¹ Refer to the "Group performance" section of this report for more information on adjusted results.

of these critical services in case of resolution. All these measures will allow us to qualify for a rebate on the progressive buffer capital requirement applicable to Swiss systemically relevant banks, which should result in lower overall regulatory capital requirements for the Group.

With assets under management exceeding USD 2 trillion and a global market share of around 10%, UBS was confirmed as the largest global wealth manager in the Scorpio Partnership Annual Private Banking Benchmark 2015². Importantly, we are also the fastest growing³ wealth manager on a local currency basis. While the absolute levels and growth of invested assets are important measures of progress, our ultimate goal is to generate attractive returns and profitability for you, our shareholders.

We were honored to receive the *Euromoney* Award for Excellence for Best Global Wealth Manager and, for the fourth year running, Best Bank in Switzerland. In addition, *Euromoney* named our Investment Bank the Best Flow House in North America and Best Equity House in Western Europe, underlining the success of our client-centric model. We were pleased that UBS Neo, the firm's cross-asset e-commerce platform, was named Best Platform at the annual Digital FX Awards hosted by *Profit & Loss* magazine.

Looking at the performance of our businesses in more detail, **Wealth Management** delivered its best second-quarter result since 2009 with an adjusted¹ profit before tax of CHF 769 million. The business continued to generate high-quality earnings, with an increase in recurring income reflecting continued success in our strategic initiatives to grow loans and increase mandate penetration, as well as further pricing measures. Adjusted net new money was robust at CHF 8.4 billion, driven by inflows from all regions and segments, most notably our market-leading Asia Pacific franchise, as well as from ultra high net worth clients. The balance sheet and capital optimization program we implemented in the first half of 2015 led to net new money outflows of CHF 6.6 billion during the quarter. On a reported basis, net new money was CHF 1.8 billion.

Wealth Management Americas reported an adjusted¹ profit before tax of USD 231 million. Total operating income and recurring net fees increased to record levels, and financial advisor productivity remained industry-leading, while pre-tax profit was affected by higher charges for provisions for litigation, regulatory and similar matters and other provisions. Net new money was slightly negative at USD 0.7 billion, reflecting seasonal outflows of approximately USD 3.9 billion associated with income tax payments.

Retail & Corporate posted its best second-quarter result since 2010, with an adjusted¹ profit before tax of CHF 414 million. The net new business volume growth for retail clients was particularly strong for a second quarter. Credit loss expenses were lower, while general and administrative expenses increased mainly due to higher charges for provisions in the Corporate & Institutional client business.

Global Asset Management recorded strong net new money of CHF 8.3 billion excluding money market flows, with net inflows from third-party clients more than doubling compared to the prior quarter. Adjusted¹ profit before tax was CHF 134 million. The quarter saw an increase in net management fees mainly in traditional investments and global real estate, offset by a decline in performance fees in O'Connor and A&Q, in line with market developments in the alternative asset management sector.

The **Investment Bank** achieved a solid result with an adjusted¹ profit before tax of CHF 617 million, following very strong results in the first quarter. Investor Client Services benefited from the best second-quarter result in Equities since we accelerated our strategy in 2012, and a solid performance in FX, rates and credit, despite lower client activity and after exceptionally high FX revenues in the first quarter. Corporate Client Solutions improved on the back of higher revenues mainly in debt and equity capital markets and advisory. The business maintained its risk profile and allocated resource limits discipline, and its results once again demonstrated the strength of its business model and client-centric approach. Adjusted¹ return on attributed equity for the second quarter was 33.8%.

¹ Refer to the "Group performance" section of this report for more information on adjusted results. ² Scorpio Partnership Global Private Banking Benchmark 2015. ³ Scorpio Partnership Global Private Banking Benchmark 2015, on reporting base currency basis for institutions with assets under management greater than USD 500 billion.

Axel A. Weber
Chairman of the Board of Directors

Sergio P. Ermotti
Group Chief Executive Officer

Corporate Center – Services recorded a loss before tax of CHF 253 million. **Corporate Center – Group Asset and Liability Management** reported a profit before tax of CHF 132 million. **Corporate Center – Non-core and Legacy Portfolio** recorded a loss before tax of CHF 145 million, achieving further progress in de-risking its balance sheet with RWA and the Swiss SRB leverage ratio denominator decreasing by CHF 4 billion and CHF 14 billion, respectively.

Outlook – As in previous years, seasonal impacts are likely to affect revenues and profits in the third quarter. In addition, many of the underlying macroeconomic challenges and geopolitical issues that we have previously highlighted remain and are unlikely to be resolved in the foreseeable future. Despite ongoing and new challenges, we continue to be committed to the disciplined execution of our strategy in order to ensure the firm's long-term success and to deliver sustainable returns for our shareholders.

Yours sincerely,

Axel A. Weber
Chairman of the
Board of Directors

UBS and its businesses

We are committed to providing private, institutional and corporate clients worldwide, as well as retail clients in Switzerland, with superior financial advice and solutions, while generating attractive and sustainable returns for shareholders. Our strategy centers on our Wealth Management and Wealth Management Americas businesses and our leading universal bank in Switzerland, complemented by our Global Asset Management business and our Investment Bank. These businesses share three key characteristics: they benefit from a strong competitive position in their targeted markets, are capital-efficient, and offer a superior structural growth and profitability outlook. Our strategy builds on the strengths of all of our businesses and focuses our efforts on areas in which we excel, while seeking to capitalize on the compelling growth prospects in the businesses and regions in which we operate. Capital strength is the foundation of our success. The operational structure of the Group is comprised of the Corporate Center and five business divisions: Wealth Management, Wealth Management Americas, Retail & Corporate, Global Asset Management and the Investment Bank.

Wealth Management

Wealth Management provides comprehensive financial services to wealthy private clients around the world – except those served by Wealth Management Americas. UBS is a global firm with global capabilities, and Wealth Management clients benefit from the full spectrum of UBS's global resources, ranging from investment management solutions to wealth planning and corporate finance advice, as well as a wide range of specific offerings. Its guided architecture model gives clients access to a wide range of products from third-party providers that complement our own products.

Wealth Management Americas

Wealth Management Americas is one of the leading wealth managers in the Americas in terms of financial advisor productivity and invested assets. It provides advice-based solutions and banking services through financial advisors who deliver a fully integrated set of products and services specifically designed to ad-

dress the needs of ultra high net worth and high net worth individuals and families. It includes the domestic US and Canadian business as well as the international business booked in the US.

Retail & Corporate

Retail & Corporate provides comprehensive financial products and services to its retail, corporate and institutional clients in Switzerland, maintaining a leading position in these client segments and embedding its offering in a multi-channel approach. The retail and corporate business constitutes a central building block of UBS's universal bank delivery model in Switzerland, supporting other business divisions by referring clients to them and assisting retail clients to build their wealth to a level at which we can transfer them to our Wealth Management unit. Furthermore, it leverages the cross-selling potential of products and services provided by its asset-gathering and investment banking businesses. In addition, it manages a substantial part of UBS's Swiss infrastructure and Swiss banking products platform, which are both leveraged across the Group.

Global Asset Management

Global Asset Management is a large-scale asset manager with well diversified businesses across regions and client segments. It serves third-party institutional and wholesale clients, as well as clients of UBS's wealth management businesses with a broad range of investment capabilities and styles across all major traditional and alternative asset classes. Complementing the investment offering, the fund services unit provides fund administration services for UBS and third-party funds.

Investment Bank

The Investment Bank provides corporate, institutional and wealth management clients with expert advice, innovative solutions, execution and comprehensive access to the world's capital markets. It offers advisory services and access to international capital markets, and provides comprehensive cross-asset research, along with access to equities, foreign exchange, precious metals and selected rates and credit markets through its business units, Corporate Client Solutions and Investor Client Services. The Invest-

ment Bank is an active participant in capital markets flow activities, including sales, trading and market-making across a range of securities.

Corporate Center

The Corporate Center comprises three units: Corporate Center – Services, Corporate Center – Group Asset and Liability Management (Group ALM) and Corporate Center – Non-core and Legacy Portfolio. Corporate Center – Services provides Group-wide control functions such as finance, risk control (including compliance) and legal. In addition, it provides all logistics and support services, including operations, information technology, human resources, regulatory relations and strategic initiatives, communications and branding, corporate services, physical security, information security as well as outsourcing, nearshoring and offshoring. Corporate Center – Group ALM provides services such as liquidity, funding, balance sheet and capital management. Corporate Center – Non-core and Legacy Portfolio comprises the non-core businesses and legacy positions that were part of the Investment Bank prior to its restructuring.

UBS Group

Management report

Recent developments

Regulatory and legal developments

Changes to our legal structure

We have undertaken a series of measures to improve the resolvability of the Group in response to too big to fail (TbTF) requirements in Switzerland and other countries in which the Group operates.

In June 2015, we transferred our Retail & Corporate and Wealth Management business booked in Switzerland from UBS AG to UBS Switzerland AG. As of the transfer date, 14 June 2015, UBS Switzerland AG had over CHF 300 billion in assets, 2.7 million customers and 11,000 employees. Under the terms of the asset transfer agreement, UBS Switzerland AG is jointly liable for the contractual obligations of UBS AG existing on the asset transfer date. Under the Swiss Merger Act, UBS AG is jointly liable for obligations existing on the asset transfer date that have been transferred to UBS Switzerland AG. Neither UBS AG nor UBS Switzerland AG has any liability for new obligations incurred by the other entity after the asset transfer date. Under certain circumstances, the Swiss Banking Act and the bank insolvency ordinance of the Swiss Financial Market Supervisory Authority (FINMA) authorize FINMA to modify, extinguish or convert to common equity the liabilities of a bank in connection with a resolution or insolvency of such bank.

→ Refer to “Supplemental financial information (unaudited) for selected UBS Group legal entities” in the “Financial information” section of this report for more information

As previously announced, UBS Group AG filed a request with the Commercial Court of the Canton of Zurich for a procedure under article 33 of the Swiss Stock Exchange Act (SESTA procedure). The time allotted for UBS AG minority shareholders to intervene in the SESTA procedure closed on 14 July 2015 without any application for intervention being filed. We therefore expect the court to rule on the proceeding during the third quarter of 2015. Upon successful completion of the SESTA procedure, the shares of the remaining minority shareholders of UBS AG will be cancelled and the holders will receive UBS Group AG shares. UBS Group AG will then become the 100% owner of UBS AG. After the SESTA procedure is completed, we expect to pay a supplementary capital return of CHF 0.25 per share to shareholders of UBS Group AG.

During the second quarter, we completed the implementation of a more self-sufficient business and operating model for UBS Limited under which UBS Limited bears and retains a larger proportion of the risk and reward in its business activities.

To comply with new rules for foreign banks in the US under the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank), by 1 July 2016 we will designate an intermediate

holding company that will own all of our US operations except US branches of UBS AG.

In the third quarter, we intend to establish a Group service company as a subsidiary of UBS Group AG. We expect that the transfer of shared service and support functions to the service company structure will start in 2015 and will be implemented in a staged approach through 2018. The purpose of the service company structure is to improve the resolvability of the Group by enabling us to maintain operational continuity of critical services should a recovery or resolution event occur.

Our strategy, our business and the way we serve the vast majority of our clients are not affected by these changes. These plans do not require UBS to raise additional common equity capital and are not expected to materially affect the firm's capital-generating capability.

We are confident that the establishment of UBS Group AG and UBS Switzerland AG, along with our other announced measures will substantially enhance the resolvability of the Group. We expect that the Group will qualify for a rebate on the progressive buffer capital requirement applicable to Swiss systemically relevant banks, which should result in lower overall capital requirements for the Group. FINMA has confirmed that our announced measures are in principle suitable to warrant a rebate, although the amount and timing of any such rebate will depend on the actual execution of these measures and can therefore only be specified once all measures are implemented.

We continue to consider further changes to the Group's legal structure in response to capital and other regulatory requirements and in order to obtain any reduction in capital requirements for which the Group may be eligible. Such changes may include the transfer of operating subsidiaries of UBS AG to become direct subsidiaries of UBS Group AG and adjustments to the booking entity or location of products and services. These structural changes are being discussed on an ongoing basis with FINMA and other regulatory authorities and remain subject to a number of uncertainties that may affect their feasibility, scope or timing.

→ Refer to the “UBS Group – Changes to our legal structure” section of our Annual Report 2014 for more information on the establishment of UBS Group AG

Further progress in the implementation of the international exchange of tax information

In May 2015, Switzerland and the EU signed an agreement with regard to the introduction of the global automatic exchange of information (AEI) standard in tax matters, which will replace the current savings taxation agreement. The AEI global standard was developed by the OECD and is fully integrated into this agreement. In June 2015, the Swiss Federal Council submitted proposals to the Parliament to create a legal basis for the implementation

of the global standard and to ratify the OECD/Council of Europe administrative assistance convention and the Multilateral Competent Authority Agreement. The Swiss Federal Council also submitted a proposal to the Parliament that would require banks and other financial intermediaries in Switzerland to comply with enhanced due diligence requirements before accepting assets from clients resident in countries without an AEI agreement. Banks and other financial intermediaries in Switzerland would have to conduct a risk-based assessment before accepting such assets to determine whether or not the assets have been duly taxed.

The effects of these changes are still uncertain. However, in the past, we have experienced outflows of cross-border client assets from our Swiss booking center as a result of changes in local tax regimes or their enforcement.

→ Refer to the “Risk factors” section of our Annual Report 2014 for more information

Swiss Federal Council adopted the dispatch on the Corporate Tax Reform Act III

In June 2015, the Federal Council published the dispatch on the Corporate Tax Reform Act III aiming to strengthen Switzerland as a business location and to align certain components of the Swiss tax regime with international standards (e.g., cantonal tax statuses for holding companies and management companies). In addition, the reform includes the introduction of certain targeted capital tax reductions such as the abolition of the issue tax on equity capital.

Parliamentary discussions related to the tax reform will start in the autumn of 2015. Given that these reforms are in the early stages of the parliamentary process, the nature and extent of the impact on UBS cannot be assessed yet.

Swiss Parliament discusses the federal act on the freezing and restitution of illicitly acquired assets of foreign politically exposed persons

In June 2015, the Swiss Parliament initiated its discussions related to a draft law that comprehensively governs the freezing, confiscation and restitution of illicitly acquired assets of politically exposed persons. The law would provide a legal framework for the handling of such assets and increase legal certainty.

The National Council has submitted its draft to the Council of States, which will debate the proposal in the upcoming parliamentary session.

Swiss Parliament adopts Financial Market Infrastructure Act

In June 2015, the Parliament adopted the Financial Market Infrastructure Act (FMIA). The FMIA changes the regulation of financial market infrastructure in Switzerland and provides for the implementation of the G20 commitments on over-the-counter (OTC) derivatives in Switzerland, including (i) mandating clearing via a central counterparty, (ii) transaction reporting to a trade repository, (iii) risk mitigation measures and (iv) mandatory trading of derivatives on a stock exchange or other trading facility once this has also been introduced in partner states. The FMIA also (i) introduces new licensing requirements for stock exchanges, multilateral and

organized trading facilities, central counterparties, central securities depositories, trade repositories and payment systems, (ii) imposes transparency requirements for securities trading on platforms and (iii) establishes a basis for regulating high-frequency trading, should this be deemed necessary. The FMIA also empowers the Federal Council to impose position limits for commodity derivatives, should this be deemed necessary at a later date.

The new law is expected to enter into force in January 2016 and will have an impact on the way UBS can operate trading of securities and derivatives, particularly OTC derivative trading. UBS is taking steps to prepare for implementation of the new law. Not all of the requirements will be applicable from January 2016. The transition period and a number of detailed regulations will be specified in ordinances to be adopted by FINMA as well as the Federal Council.

BCBS finalizes net stable funding ratio disclosure standards

In June 2015, the Basel Committee on Banking Supervision (BCBS) issued its guidance on “Net stable funding ratio (NSFR) disclosure standards,” which is intended to provide a common disclosure framework for banks to disclose the calculation of the NSFR adopted by the BCBS in October 2014. Subject to national implementation, internationally active banks must comply with the NSFR and disclosure requirements from 1 January 2018.

UBS reports its estimated pro-forma NSFR based on current supervisory guidance from FINMA and will adjust NSFR reporting in line with the implementation of the BCBS NSFR disclosure standards in Switzerland.

UK Fair and Effective Markets Review publishes its Final Report

In June 2014, the UK Fair and Effective Markets Review (the Review), a joint initiative of the Bank of England, the Financial Conduct Authority (FCA) and the UK Treasury, was established to conduct an assessment of the fairness and effectiveness of the fixed income, currency and commodities (FICC) markets. In June 2015, the Review published its Final Report including 21 policy recommendations in six categories: (i) raising the standards, professionalism and accountability of individuals, (ii) improving the quality, clarity and market-wide understanding of FICC trading practices, (iii) strengthening the regulation of FICC markets in the UK, (iv) launching international action to raise standards in global FICC markets, (v) promoting fairer FICC market structures while also enhancing effectiveness and (vi) forward-looking conduct risk identification and mitigation.

The Final Report does not constitute formal guidance from the UK regulatory authorities and the content of the recommendations varies significantly. While some of the recommendations could be implemented relatively quickly or are already underway, others require further discussion, international negotiation or legislative change. The nature and extent of the impact on UBS will become clearer once the implementation details of the recommendations are determined.

US Securities and Exchange Commission re-proposes rules for cross-border security-based swaps

In May 2015, the US Securities and Exchange Commission (SEC) re-proposed rules that would apply registration, reporting, public dissemination and business conduct requirements to security-based swap (SBS) transactions of a non-US company that uses US personnel to arrange, negotiate or execute an SBS in connection with its dealing activity. The proposed rules would, among other things, specify that such transactions must be counted toward the requirement to register as an SBS dealer. Furthermore, they would subject the US business of an SBS dealer to the external business conduct standards and subject an SBS to the reporting and public dissemination requirements if certain requirements are met. The proposed rules would not impose mandatory clearing or mandatory trade execution on an SBS between two non-US persons solely because one or both counterparties arrange, negotiate or execute the SBS using personnel located in the US. If adopted as proposed, additional UBS entities could potentially be required to register as SBS dealers.

Interest rate sensitivity update

As of 30 June 2015, we estimate that a +100 basis point parallel shift in yield curves could lead to an increase in annual net interest income of approximately CHF 0.8 billion from Wealth Management, Wealth Management Americas and Retail & Corporate. Including the estimated impact related to pension fund assets and liabilities, the immediate effect of such a shift on shareholders' equity would be an estimated decrease of at least approximately CHF 2.3 billion recognized in other comprehensive income (OCI). The immediate OCI impact on regulatory capital would be an estimated increase of up to approximately CHF 0.4 billion, as the majority of the negative OCI impact to shareholders' equity is related to cash flow hedges, which are not recognized for the purposes of calculating regulatory capital. The estimate is based on an immediate increase of interest rates, equal across all currencies and relative to implied forward rates applied to our banking book and available for sale portfolios. The estimate further assumes static balance sheet and constant foreign exchange rates.

Financial reporting and accounting changes

Change in segment reporting related to fair value gains and losses on certain internal funding transactions and own credit

Consistent with changes in the manner in which operating segment performance is assessed, beginning in the second quarter of 2015, we now apply fair value accounting for certain internal funding transactions between Corporate Center – Group ALM and the Investment Bank and Corporate Center – Non-core and Legacy Portfolio rather than applying amortized cost accounting. This treatment better aligns with the mark-to-market basis on which these internal transactions are risk managed within the Investment Bank and Corporate Center – Non-core and Legacy Portfolio. The terms of the funding transactions remain otherwise unchanged.

In connection with this change, we now present own credit gains and losses on financial liabilities designated at fair value in Corporate Center – Group ALM instead of Corporate Center – Services. Prior periods have been restated to reflect these changes.

We are also exploring further enhancements to the manner in which we measure own credit gains and losses and expect to implement a refined methodology in the second half of 2015. Additionally, we expect to early adopt the own credit presentation requirements of IFRS 9 for financial liabilities designated at fair value through profit and loss as of the first quarter of 2016. Under IFRS 9, changes in the fair value of such liabilities related to own credit will be recognized in Other comprehensive income and will not be reclassified to the income statement.

→ Refer to "Note 1 Basis of Accounting" in the "Financial information" section of this report for more information

Service and personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units

In the second quarter of 2015, we revised the presentation of service allocations from Corporate Center – Services to the business divisions and other Corporate Center units to better reflect the economic relationship between them. These cost allocations were previously presented within the *Personnel expenses*, *General and administrative expenses* and *Depreciation and impairment of property, equipment and software* line items and are newly presented in the *Services (to)/from business divisions and Corporate Center* line items. Prior-period information was restated to reflect this change. This change in presentation did not affect total operating expenses or performance before tax of the business divisions and Corporate Center units for any period presented.

Similarly, personnel of Corporate Center – Services are no longer allocated to the business divisions and other Corporate Center units. Prior-period information was restated accordingly.

→ Refer to "Note 1 Basis of Accounting" in the "Financial information" section of this report for more information

Group performance

Net profit attributable to UBS Group AG shareholders for the second quarter of 2015 was CHF 1,209 million compared with CHF 1,977 million in the first quarter of 2015. We recorded an operating profit before tax of CHF 1,759 million compared with CHF 2,708 million, largely reflecting a decrease of CHF 1,023 million in operating income, mostly driven by a decline of CHF 635 million in combined net interest and trading income and CHF 400 million lower other income. Operating expenses declined by CHF 75 million. We recorded a net tax expense of CHF 443 million compared with CHF 670 million in the prior quarter.

Results: 2Q15 vs 1Q15

We recorded an operating profit before tax of CHF 1,759 million compared with CHF 2,708 million, largely reflecting a decrease of CHF 1,023 million in operating income, driven by a decline of CHF 635 million in combined net interest and trading income, mainly in the Investment Bank, as well as CHF 400 million lower other income, primarily as the prior quarter included gains on sale of real estate of CHF 378 million. Operating expenses declined by CHF 75 million, mainly due to a CHF 48 million decrease in personnel expenses and CHF 18 million lower general and administrative expenses.

In addition to reporting our results in accordance with International Financial Reporting Standards (IFRS), we report adjusted results that exclude items that management believes are not representative of the underlying performance of our businesses. Such adjusted results are non-GAAP financial measures as defined by SEC regulations. For the second quarter of 2015, the items we excluded were an own credit gain of CHF 259 million, a gain of CHF 56 million on the sale of the Belgian domestic Wealth Management business, a gain from a further partial sale of our investment in Markit of CHF 11 million, as well as net restructuring charges of CHF 191 million and an impairment of an intangible asset of CHF 11 million. For the first quarter of 2015, the items we excluded were an own credit gain of CHF 226 million, gains on sales of real estate of CHF 378 million, a gain of CHF 141 million on the sale of a subsidiary and net restructuring charges of CHF 305 million.

On this adjusted basis, profit before tax was CHF 1,635 million compared with CHF 2,268 million in the prior quarter.

Adjusted operating income decreased by CHF 604 million to CHF 7,492 million, mainly reflecting a decrease of CHF 668 mil-

lion in adjusted combined net interest and trading income, largely in the Investment Bank and, to a lesser extent, in Corporate Center – Group ALM, Wealth Management and Retail & Corporate. Adjusted other income increased by CHF 52 million.

Adjusted operating expenses increased by CHF 28 million to CHF 5,857 million, reflecting CHF 13 million higher net charges for provisions for litigation, regulatory and similar matters and CHF 105 million higher other non-personnel expenses, largely offset by a decline of CHF 90 million in personnel expenses.

As a result of ongoing efforts to optimize our legal entity structure, we anticipate that some foreign currency translation gains and losses previously booked directly into equity through other comprehensive income will be released into profit and loss due to the sale or closure of branches and subsidiaries. In the second half of 2015, we expect to record net foreign currency translation losses of around CHF 120 million related to these disposals, although gains and losses could be recognized in different periods. Consistent with past practice, these gains and losses will be treated as adjusting items. The release of foreign currency translation losses to profit and loss will not affect shareholders' equity or regulatory capital.

Operating income: 2Q15 vs 1Q15

Total operating income was CHF 7,818 million compared with CHF 8,841 million. On an adjusted basis, total operating income decreased by CHF 604 million to CHF 7,492 million. Adjusted combined net interest and trading income declined by CHF 668 million, largely in the Investment Bank and, to a lesser extent, in Corporate Center – Group ALM, Wealth Management and Retail & Corporate. Adjusted other income increased by CHF 52 million.

Total net interest and trading income	3,137	3,772	2,589	(17)	21	6,909	5,518

Net interest and trading income

Net interest and trading income decreased by CHF 635 million to CHF 3,137 million. The second quarter included an own credit gain on financial liabilities designated at fair value of CHF 259 million, primarily due to a widening of our funding spreads over the quarter. The prior quarter included an own credit gain on financial liabilities of CHF 226 million. Adjusted for the effect of own credit in both quarters, net interest and trading income decreased by CHF 668 million to CHF 2,878 million, largely in the Investment Bank and, to a lesser extent, in Corporate Center – Group ALM, Wealth Management and Retail & Corporate.

In Wealth Management, net interest and trading income decreased by CHF 95 million to CHF 711 million. Net trading income decreased by CHF 103 million to CHF 143 million, mainly due to decreases across all regions and most products as well as lower allocated revenues from Group ALM. Net interest income increased by CHF 8 million to CHF 568 million, mainly due to higher lending and deposit revenues, partly offset by a decrease in allocated revenues from Group ALM.

In Wealth Management Americas, net interest and trading income increased by CHF 18 million to CHF 375 million. Net interest income increased by CHF 19 million to CHF 282 million, mainly due to continued growth in loan and deposit balances as well as higher income from the financial investment available-for-sale portfolio. Net trading income was broadly unchanged at CHF 93 million.

In Retail & Corporate, net interest and trading income decreased by CHF 59 million to CHF 628 million. Net trading income decreased by CHF 51 million to CHF 68 million, mainly due to lower allocated revenues from Group ALM and decreased foreign-exchange trading income. Net interest income decreased

by CHF 8 million to CHF 560 million on lower allocated revenues from Group ALM. Net interest income from lending and deposits remained broadly unchanged.

In the Investment Bank, net interest and trading income decreased by CHF 376 million to CHF 1,341 million. Net interest and trading income in foreign exchange, rates and credit decreased by CHF 313 million, mainly as volatility and client activity levels were elevated in the prior quarter following the Swiss National Bank's actions of 15 January 2015. Equities net interest and trading income was broadly unchanged. Corporate Client Solutions net interest and trading income decreased by CHF 62 million.

Corporate Center – Group ALM net interest and trading income, adjusted for the effect of own credit, decreased by CHF 171 million, largely as the second quarter of 2015 included a loss of CHF 57 million related to our cash flow hedges compared with a gain of CHF 159 million in the prior quarter.

In Corporate Center – Non-core and Legacy Portfolio, net interest and trading income increased by CHF 50 million, mainly as the first quarter included valuation losses on financial assets designated at fair value as well as on certain equity positions.

Net fee and commission income

Net fee and commission income was CHF 4,409 million in the second quarter of 2015 compared with CHF 4,401 million in the prior quarter.

Net brokerage fees decreased by CHF 60 million to CHF 785 million, predominantly due to lower client activity.

Underwriting fees rose by CHF 40 million to CHF 385 million, mostly in equity underwriting due to higher revenues from public offerings as the fee pool increased, as well as higher revenues from private transactions.

Mergers and acquisitions and corporate finance fees increased by CHF 12 million to CHF 190 million, reflecting increased participation in mergers and acquisitions transactions.

Portfolio management and advisory fees increased by CHF 11 million to CHF 1,951 million, largely in Wealth Management, driven by higher portfolio management fees, and in Wealth Management Americas, mainly due to higher managed account fees. These increases were partly offset by a decline in Global Asset Management, largely due to lower performance fees.

→ Refer to “Note 4 Net fee and commission income” in the “Financial information” section of this report for more information

Other income

Other income was CHF 285 million compared with CHF 685 million in the prior quarter. The second quarter of 2015 included a gain of CHF 56 million on the sale of the Belgian domestic Wealth Management business and a gain of CHF 11 million from a further partial sale of our investment in Markit. The prior quarter included gains on sales of real estate of CHF 378 million and a gain of CHF 141 million on the sale of a subsidiary.

Excluding these items, adjusted other income increased by CHF 52 million to CHF 218 million, mainly as the second quarter included a gain of CHF 57 million related to the settlement of two litigation claims in Corporate Center – Non-core and Legacy Portfolio.

→ Refer to “Note 5 Other income” in the “Financial information” section of this report for more information

Recurring net fee and transaction-based income in Wealth Management, Wealth Management Americas and Retail & Corporate

Recurring net fee income for Wealth Management, Wealth Management Americas and Retail & Corporate includes fees for services provided on an ongoing basis such as portfolio management fees, asset-based investment fund fees, custody fees and account keeping fees, which are generated on the respective business divisions' client assets. This is part of total net fee and commission income in the UBS Group financial statements. Transaction-based income includes non-recurring net fee and commission income for these business divisions, mainly consisting of brokerage and transaction-based investment fund fees, as well as credit card fees and fees for payment transactions, together with the respective divisional net trading income.

In Wealth Management, recurring net fee income increased by CHF 27 million to CHF 976 million, reflecting the positive effect of pricing measures, continued growth in discretionary and advisory mandates and an increase in average invested assets, partly offset

by lower income due to the ongoing effects of cross-border outflows. Transaction-based income decreased by CHF 130 million to CHF 459 million with decreases across all regions and most products, mainly due to reduced levels of market activity. Transaction-based allocated revenues from Group ALM also decreased.

In Wealth Management Americas, recurring net fee income increased by CHF 16 million to CHF 1,140 million, mainly due to an increase in managed account fees which were calculated on increased invested asset levels at the end of the prior quarter, partly offset by unfavorable currency effects.

In Retail & Corporate, recurring net fee income was almost unchanged at CHF 135 million. Transaction-based income decreased by CHF 43 million to CHF 241 million, mainly due to lower allocated revenues from Group ALM and lower income from foreign-exchange trading, partly offset by higher credit card-related income.

→ Refer to the "Wealth Management," "Wealth Management Americas" and "Retail & Corporate" sections of this report for more information

¹ Excluding adjusting items. ² Includes expenses relating to performance awards and other variable compensation for the respective performance year. ³ Consists of amortization of prior years' awards relating to performance awards and other variable compensation. ⁴ Financial advisor compensation consists of grid-based compensation based directly on compensable revenues generated by financial advisors and supplemental compensation calculated based on financial advisor productivity, firm tenure, assets and other variables. It also includes charges related to compensation commitments with financial advisors entered into at the time of recruitment which are subject to vesting requirements. ⁵ Consists of expenses related to contractors, social security, pension and other post-employment benefit plans and other personnel expenses. Refer to "Note 6 Personnel expenses" in the "Financial information" section of this report for more information. ⁶ Includes general and administrative expenses (excluding charges for provisions for litigation, regulatory and similar matters), as well as depreciation and impairment of property, equipment and software and amortization and impairment of intangible assets.

Operating expenses: 2Q15 vs 1Q15

Total operating expenses decreased by CHF 75 million to CHF 6,059 million. Restructuring charges were CHF 191 million compared with CHF 305 million in the prior quarter. Personnel-related restructuring charges increased by CHF 42 million to CHF 110 million, while non-personnel-related restructuring charges decreased by CHF 156 million to CHF 81 million, largely reflecting lower charges for provisions for onerous lease contracts.

Excluding restructuring charges, adjusted total operating expenses increased by CHF 28 million to CHF 5,857 million, reflecting CHF 117 million higher non-personnel expenses, largely offset by a decline of CHF 90 million in personnel expenses.

→ Refer to "Note 18 Changes in organization and disposals" in the "Financial information" section of this report for more information on restructuring charges

Personnel expenses

Personnel expenses decreased by CHF 48 million to CHF 4,124 million. On an adjusted basis, excluding restructuring charges of CHF 110 million compared with CHF 68 million, personnel expenses decreased by CHF 90 million to CHF 4,014 million.

Expenses for salaries, excluding the effect of restructuring, decreased slightly to CHF 1,498 million.

Adjusted for the effect of restructuring, total variable compensation expenses were CHF 988 million compared with CHF 1,040

million. Expenses for current-year awards decreased by CHF 91 million, reflecting lower performance. Expenses relating to the amortization of prior years' awards increased by CHF 39 million to CHF 224 million, mainly reflecting a larger release of prior-year compensation accruals in the prior quarter.

Financial advisor compensation in Wealth Management Americas increased by CHF 8 million to CHF 878 million, primarily reflecting higher performance-based compensation as well as higher compensable revenues, partly offset by favorable currency effects.

Other personnel expenses decreased by CHF 28 million to CHF 649 million on an adjusted basis, largely due to CHF 23 million lower social security costs related to variable compensation.

→ Refer to "Note 6 Personnel expenses" in the "Financial information" section of this report for more information

General and administrative expenses

General and administrative expenses decreased by CHF 18 million to CHF 1,695 million. Net restructuring charges decreased to CHF 80 million from CHF 226 million, primarily due to lower expenses for onerous lease provisions. On an adjusted basis, excluding restructuring charges, general and administrative expenses increased by CHF 128 million, reflecting increases in expenses for marketing and public relations, professional fees and administration costs of CHF 34 million, CHF 27 million and CHF 21 million, respectively. Furthermore, charges for other provisions increased.

Net charges for provisions for litigation, regulatory and similar matters increased by CHF 13 million. At this point in time, we believe that the industry continues to operate in an environment where charges associated with litigation, regulatory and similar matters will remain elevated for the foreseeable future and we continue to be exposed to a number of significant claims and regulatory matters.

- Refer to "Note 7 General and administrative expenses" in the "Financial information" section of this report for more information
- Refer to "Note 16 Provisions and contingent liabilities" in the "Financial information" section of this report for more information

Depreciation, impairment and amortization

Depreciation and impairment of property, equipment and software was CHF 209 million compared with CHF 221 million. The second quarter included restructuring charges of CHF 1 million compared with CHF 11 million. On an adjusted basis, excluding restructuring charges, depreciation and impairment of property, equipment and software was stable at CHF 208 million.

Amortization and impairment of intangible assets was CHF 30 million compared with CHF 28 million.

Tax: 2Q15 vs 1Q15

We recognized a net income tax expense of CHF 443 million for the second quarter of 2015 compared with a net expense of CHF 670 million in the first quarter. The second-quarter net expense included a tax expense of CHF 209 million in respect of the amortization of deferred tax assets previously recognized in relation to tax losses carried forward and deductible temporary differences to reflect their offset against Swiss taxable profits for the quarter. It also included net tax expenses of CHF 216 million, which mainly relates to branches and subsidiaries that incur current tax expenses. In addition, following the reassessment of deferred tax asset recognition in the first quarter to reflect changes in tax law and updated local profit forecasts in certain locations, a further decrease in deferred tax assets of CHF 18 million was recognized in the second quarter.

The net tax expense recognized in the first quarter included a deferred tax expense of CHF 502 million, reflecting the amortization of previously recognized deferred tax assets that were utilized against Swiss taxable profits for the quarter. In addition, it included net tax expenses of CHF 150 million in respect of taxable profits mainly generated by branches and subsidiaries outside Switzerland. Furthermore, the net income tax expense included a decrease in recognized deferred tax assets of CHF 18 million to reflect the aforementioned changes in tax law and updated profit forecasts.

In 2015, we expect the effective tax rate to be approximately 25%, excluding any impact from deferred tax asset reassessments in the second half of the year. Consistent with past practice, we expect to remeasure our deferred tax assets in the third quarter of 2015 based on a reassessment of future profitability, taking into account updated business plan forecasts. We also expect to consider a further extension of the forecast period used for US deferred tax asset recognition purposes from six to seven years. If we extend the forecast period, this effect combined with the impact of updated business plan forecasts could result in a US upward deferred tax asset revaluation of around CHF 1.5 billion. The full-year effective tax rate could differ materially from the estimated effective tax rate as a result of this reassessment.

Total comprehensive income attributable to UBS Group AG shareholders: 2Q15 vs 1Q15

Total comprehensive income attributable to UBS Group AG shareholders was a loss of CHF 595 million compared with a gain of CHF 1,808 million in the prior quarter. Net profit attributable to UBS Group AG shareholders was CHF 1,209 million compared with CHF 1,977 million. Other comprehensive income (OCI) attributable to UBS Group AG shareholders was negative CHF 1,805 million compared with negative CHF 169 million.

In the second quarter of 2015, OCI included foreign currency translation losses of CHF 727 million (net of tax), primarily related to the weakening of the US dollar against the Swiss franc compared with losses of CHF 799 million in the prior quarter.

OCI related to cash flow hedges was negative CHF 532 million (net of tax) compared with positive CHF 14 million, and mainly reflected increases in long-term interest rates across all major currencies.

OCI on defined benefit plans was negative CHF 402 million (net of tax) compared with positive CHF 539 million in the prior quarter. We recorded a pre-tax OCI loss of CHF 875 million related to our Swiss pension plan, due to an OCI reduction of CHF 1,348 million representing the excess of the pension surplus over the estimated future economic benefit and a decrease in the fair value of the underlying plan assets of CHF 336 million. This was partly offset by a decline in the defined benefit obligation (DBO) of CHF 808 million, primarily reflecting an increase in the applicable discount rate from 0.8% as of 31 March 2015 to 1.1% as of 30 June 2015. The OCI loss on the Swiss pension plan was partly offset by net pre-tax OCI gains on non-Swiss pension plans of CHF 307 million, mainly related to a DBO reduction of CHF 445 million, primarily following an increase in applicable discount rates, partly offset by a decrease in the fair value of underlying plan assets of CHF 138 million. The DBO reduction included a decline of CHF 136 million from a refinement in our estimate of certain actuarial assumptions.

OCI associated with financial investments available-for-sale was negative CHF 143 million (net of tax) compared with positive CHF 77 million in the prior quarter, and mainly related to unrealized net losses following increases in relevant long-term interest rates, partly offset by net gains that were reclassified from OCI to the income statement upon sale of investments.

- Refer to the “Statement of comprehensive income” in the “Financial information” section of this report for more information
- Refer to “Note 1 Basis of accounting” in the “Financial information” section of this report for more information on changes in actuarial assumptions for non-Swiss pension plans
- Refer to “Note 28 Pension and other post-employment benefit plans” in the “Financial information” section of our Annual Report 2014 for more information on other comprehensive income related to defined benefit plans

Net profit attributable to non-controlling interests: 2Q15 vs 1Q15

Net profit attributable to non-controlling interests was CHF 106 million in the second quarter of 2015 compared with CHF 61 million in the prior quarter.

In the second quarter, dividends of CHF 45 million were paid for preferred notes issued by UBS AG, for which no accrual was required in a prior period. In addition, the second quarter included an accrual of CHF 31 million for future dividend payments triggered by the dividend payment to UBS shareholders in May 2015. Net profit attributable to non-controlling interests in UBS AG was CHF 30 million compared with CHF 61 million in the prior quarter.

We expect to attribute net profit to non-controlling interests related to preferred notes issued by UBS AG of CHF 80 million and CHF 70 million in 2016 and 2017, respectively.

Performance by reporting segment: 2Q15 vs 1Q15

Management's discussion and analysis by reporting segment is provided in the “UBS business divisions and Corporate Center” section of this report.

Key figures and personnel: 2Q15 vs 1Q15

Common equity tier 1 capital ratio

During the second quarter of 2015, our fully applied CET1 capital ratio increased 0.7 percentage points to 14.4%, well above our target of at least 13.0%, with the increase resulting from a CHF 6.6 billion decrease in RWA and an increase of CHF 0.7 billion in CET1 capital.

- Refer to the “Capital management” section of this report for more information

Risk-weighted assets

Risk-weighted assets (RWA) decreased by CHF 6.6 billion to CHF 209.8 billion as of 30 June 2015 on a fully applied basis, below our target of less than CHF 215 billion by year-end 2015. The decrease of CHF 6.6 billion was mainly due to reductions in operational risk RWA and market risk RWA.

Credit risk RWA were broadly unchanged at CHF 107.4 billion mainly as decreases in Corporate Center – Non-core and Legacy Portfolio and in Wealth Management Americas were largely offset by increases in the Investment Bank and in Corporate Center – Group ALM.

Market risk RWA decreased by CHF 2.4 billion, mainly related to risks-not-in-VaR and stressed value-at-risk.

Operational risk RWA decreased by CHF 4.0 billion, as incremental operational risk RWA based on the supplemental operational risk capital analysis mutually agreed to by UBS and FINMA decreased by CHF 4.2 billion to CHF 13.3 billion as of 30 June 2015.

- Refer to the “Capital management” section of this report for more information

Leverage ratio denominator

The Swiss SRB leverage ratio denominator decreased by CHF 33 billion to CHF 944 billion on a fully applied basis compared with our target of CHF 900 billion by 2016. The decrease during the second quarter of 2015 mainly occurred in Corporate Center – Group ALM and Corporate Center – Non-core and Legacy Portfolio and primarily reflected a CHF 72 billion reduction in on-balance sheet assets, partly offset by lower netting of derivative exposures of CHF 43 billion.

- Refer to the “Capital management” section of this report for more information

Cost/income ratio

The cost/income ratio increased to 77.4% from 69.2%. On an adjusted basis, the cost/income ratio increased to 78.0% from 71.8% and was above our target range of 60% to 70%.

Return on tangible equity

The return on tangible equity (RoTE) was 11.0% in the second quarter of 2015 compared with 17.8% in the prior quarter. On an adjusted basis, the annualized RoTE for the first six months of 2015 was 12.0%, above our target of around 10% in 2015.

¹ Refer to the table "Adjusted results" in this section for more information. ² Generally reflects an indicative tax rate of 22% on pre-tax adjustment items, apart from own credit on financial liabilities designated at fair value, which has a lower indicative tax rate of 2%. ³ Net profit attributable to UBS Group AG shareholders excluding amortization and impairment of intangible assets, pre-tax adjustment items and tax effect on pre-tax adjustment items. ⁴ Goodwill and intangible assets used in the calculation of tangible equity attributable to UBS Group AG shareholders have been adjusted to reflect the non-controlling interests in UBS AG, where applicable.

Net new money

In Wealth Management, excluding a negative effect on net new money of CHF 6.6 billion from our balance sheet and capital optimization program, adjusted net new money was CHF 8.4 billion, driven by inflows from all regions. On a global basis, adjusted net new money from ultra high net worth clients was CHF 7.1 billion compared with CHF 10.1 billion in the prior quarter. On a reported basis, net new money was CHF 1.8 billion.

In Wealth Management Americas, net new money was an outflow of CHF 0.7 billion or USD 0.7 billion, which mainly reflected net outflows from financial advisors employed with UBS for more than one year, primarily due to client withdrawals of approxi-

mately USD 3.9 billion associated with seasonal income tax payments.

In Global Asset Management, excluding money market flows, net new money inflows were CHF 8.3 billion compared with CHF 7.5 billion. By client segment, net inflows from third parties were CHF 5.3 billion compared with CHF 2.5 billion in the prior quarter. Net inflows from clients of UBS's wealth management businesses were CHF 3.0 billion compared with CHF 5.1 billion.

→ Refer to the "Wealth Management," "Wealth Management Americas" and "Global Asset Management" sections of this report for more information

of which: excluding money market funds	592	601	563	(1)
of which: money market funds	58	60	58	(3)

Invested assets

In Wealth Management, invested assets decreased by CHF 25 billion to CHF 945 billion, due to negative currency translation effects of CHF 18 billion, negative market performance of CHF 5 billion and a reduction of CHF 3 billion due to the sale of the Belgian domestic Wealth Management business that did not affect net new money, partly offset by net new money inflows of CHF 2 billion.

In Wealth Management Americas, invested assets decreased by CHF 44 billion to CHF 977 billion, mainly due to the strengthening of the Swiss franc versus the US dollar. In US dollar terms,

invested assets decreased by USD 5 billion to USD 1,045 billion, reflecting negative market performance of USD 5 billion as well as net new money outflows of USD 1 billion.

In Global Asset Management, invested assets decreased by CHF 11 billion to CHF 650 billion, mainly due to negative currency translation effects of CHF 15 billion and negative market performance of CHF 5 billion, partly offset by net new money inflows of CHF 9 billion.

Personnel

We employed 59,648 personnel as of 30 June 2015, a decrease of 465 compared with 60,113 personnel as of 31 March 2015. Corporate Center – Services personnel decreased by 203 primarily related to reductions in Group Operations and Group Technology.

Wealth Management personnel decreased by 109 due to attrition of lower-producing advisors and the sale of the Belgian domestic Wealth Management business. Global Asset Management personnel increased by 65, with the increase mainly related to distribution and product development teams within traditional investments.

- Refer to the discussions of personnel in the “UBS business divisions and Corporate Center” section of this report for more information
- Refer to the “Recent developments” section of this report for more information on personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units

Results: 6M15 vs 6M14

Net profit attributable to UBS Group AG shareholders was CHF 3,186 million in the first half of 2015 compared with CHF 1,846 million in the same period a year earlier. Operating profit before tax was CHF 4,467 million compared with CHF 2,611 million, largely reflecting an increase of CHF 2,254 million in operating income, driven by CHF 1,391 million higher net interest and trading income, an increase of CHF 505 million in other income as well as CHF 402 million higher net fee and commission income. This was partly offset by an increase of CHF 399 million in operating expenses, largely due to higher personnel expenses, partly offset by lower general and administrative expenses.

For the first half of 2015, the items we excluded for the purpose of determining adjusted results were an own credit gain of CHF 486 million, gains of CHF 378 million on sales of real estate, a gain of CHF 141 million on the sale of a subsidiary, a gain of CHF 56 million on the sale of the Belgian domestic Wealth Management business, a gain of CHF 11 million from a further partial

sale of our investment in Markit, as well as net restructuring charges of CHF 496 million and an impairment of CHF 11 million of an intangible asset. For the first half of 2014, the items we excluded were an own credit gain of CHF 160 million, gains of CHF 24 million on sales of real estate, a gain of CHF 43 million on the partial sale of our investment in Markit and net restructuring charges of CHF 293 million.

On an adjusted basis, profit before tax increased by CHF 1,225 million to CHF 3,902 million, reflecting an increase of CHF 1,409 million in operating income, partly offset by CHF 185 million higher operating expenses.

Adjusted operating income increased by CHF 1,409 million to CHF 15,587 million, mainly reflecting CHF 1,065 million higher net interest and trading income and an increase of CHF 402 million in net fee and commission income. Adjusted other income decreased slightly to CHF 384 million.

Adjusted combined net interest and trading income increased by CHF 1,065 million. Within the Investment Bank, equities net interest and trading revenues increased by CHF 405 million, mainly due to higher revenues in financing services and deriva-

tives. Financing services revenues increased due to higher equity finance revenues across all regions, most notably in Asia Pacific. Derivatives revenues increased mainly as a result of higher client activity and volatility levels. Foreign exchange, rates and credit net interest and trading income increased by CHF 309 million, mainly reflecting increases in client activity and volatility. Corporate Client Solutions decreased by CHF 62 million. Wealth Management net interest and trading income increased by CHF 175 million, mainly due to higher lending revenues and an increase in allocated revenues from Group ALM.

Net fee and commission income increased by CHF 402 million largely due to CHF 393 million higher portfolio management and advisory fees in our wealth management businesses.

Adjusted operating expenses increased by CHF 185 million to CHF 11,686 million. Personnel expenses increased by CHF 471 million, mainly due to increased expenses for variable compensation and higher financial advisor compensation in Wealth Management Americas. This was partly offset by a CHF 317 million decline in net charges for provisions for litigation, regulatory and similar matters.

Regional performance

The operating regions shown in the “Regional performance” table below correspond to the management structure of the Group from a regional perspective. The allocation of income and expenses to these regions reflects, and is consistent with, the basis on which the business is managed and its performance evaluated. These allocations involve assumptions and judgments which management considers reasonable, and may be refined to reflect changes in estimates or management structure. The main principles

of the allocation methodology are that client revenues are attributed to the domicile of the client and trading and portfolio management revenues are attributed to the country where the risk is managed. This revenue attribution is consistent with the mandate of our country and regional Presidents. Expenses are allocated in line with revenues. Certain revenues and expenses, such as those related to the Corporate Center – Non-core and Legacy Portfolio, certain litigation expenses and restructuring charges and other items, are managed at the Group level. These revenues and expenses are included in the *Global* column.

Management report

Wealth Management

Profit before tax was CHF 756 million in the second quarter of 2015, a decrease of CHF 195 million compared with the first quarter of 2015. Adjusted for gains on sales and restructuring charges, profit before tax decreased by CHF 87 million to CHF 769 million, reflecting CHF 82 million lower operating income, mainly due to lower transaction-based income. The adjusted net margin on invested assets decreased by 3 basis points to 32 basis points.

¹ Refer to the "Measurement of performance" section of our Annual Report 2014 for the definitions of our key performance indicators. ² Based on the Wealth Management business area structure, and excluding minor functions with 86 client advisors, CHF 2 billion of invested assets, and CHF 0.5 billion of net new money outflows in the second quarter of 2015. ³ Joint venture between Wealth Management and the Investment Bank. Global Family Office is reported as a sub-segment of ultra high net worth and is included in the ultra high net worth figures. ⁴ Adjusted net new money excludes the negative effect on net new money from our balance sheet and capital optimization program in the second quarter of 2015. ⁵ Based on adjusted net new money. ⁶ Includes the effect of a gain of CHF 56 million on the sale of our Belgian domestic business. Excluding this, the adjusted gross margin for Europe was 80 basis points and 55 basis points for ultra high net worth clients. ⁷ Gross margin includes income booked in the Investment Bank. Gross margin only based on income booked in Wealth Management is 24 basis points. ⁸ Represents client advisors who exclusively serve ultra high net worth clients. In addition to these, other client advisors may also serve certain ultra high net worth clients, but not exclusively.

Results: 2Q15 vs 1Q15

Operating income

Total operating income decreased by CHF 167 million to CHF 2,080 million. Adjusted for a gain of CHF 56 million on the sale of our Belgian domestic business in the second quarter of 2015 and the gain of CHF 141 million on the sale of a subsidiary in the first quarter, operating income decreased by CHF 82 million to CHF 2,024 million, mainly due to lower transaction-based income.

Net interest income increased by CHF 8 million to CHF 568 million, mainly due to higher lending and deposit revenues, partly offset by a decrease in allocated revenues from Corporate Center – Group Asset and Liability Management (Group ALM).

Recurring net fee income increased by CHF 27 million to CHF 976 million, reflecting the positive effect of pricing measures, continued growth in discretionary and advisory mandates and an increase in average invested assets, partly offset by lower income due to the ongoing effects of cross-border outflows.

Transaction-based income decreased by CHF 130 million to CHF 459 million with decreases across all regions and most products, mainly due to reduced levels of market activity. Transaction-based allocated revenues from Group ALM also decreased.

Other income decreased by CHF 71 million to CHF 78 million and was primarily related to the aforementioned gains on sales.

Operating expenses

Total operating expenses increased by CHF 28 million to CHF 1,324 million. Adjusted for restructuring charges of CHF 69 million compared with CHF 46 million, operating expenses increased by CHF 5 million to CHF 1,255 million, mainly due to higher general and administrative expenses as well as higher net charges for services from other business divisions and Corporate Center, partly offset by lower personnel expenses.

Personnel expenses decreased by CHF 5 million to CHF 656 million. Adjusted for restructuring charges of CHF 18 million compared with CHF 3 million, personnel expenses decreased by CHF 20 million to CHF 638 million, mainly due to a decrease in variable compensation expenses.

General and administrative expenses increased by CHF 23 million to CHF 134 million. Adjusted for restructuring charges of CHF 10 million compared with CHF 5 million, general and administrative expenses increased by CHF 18 million to CHF 124 million, partly due to higher marketing expenses.

→ Refer to the “Recent developments” section of this report for more information on the change in presentation of service allocations from Corporate Center – Services to business divisions and other Corporate Center units

Net charges for services from other business divisions and Corporate Center increased by CHF 12 million to CHF 533 million. Adjusted for restructuring charges of CHF 41 million compared with CHF 39 million, net charges increased by CHF 10 million, primarily due to higher charges from Corporate Center – Services, which were mainly related to higher marketing and variable compensation expenses, partly offset by lower charges from Group Technology and Group Operations.

Cost/income ratio

The cost/income ratio increased to 63.6% from 57.7% in the prior quarter. On an adjusted basis, the cost/income ratio increased to 62.0% from 59.4%, and remained within our target range of 55% to 65%.

Net new money

Excluding a negative effect of CHF 6.6 billion from our balance sheet and capital optimization program, adjusted net new money was CHF 8.4 billion, resulting in an annualized net new money growth rate of 3.5%, compared with 5.8% in the prior quarter and within our target range of 3% to 5%. Adjusted net new money in the second quarter was driven by inflows from all regions. On a global basis, adjusted net new money from ultra high net worth clients was CHF 7.1 billion compared with CHF 10.1 billion in the prior quarter. On a reported basis, net new money was CHF 1.8 billion.

Invested assets

Invested assets decreased by CHF 25 billion to CHF 945 billion as of 30 June 2015, due to negative currency translation effects of CHF 18 billion, negative market performance of CHF 5 billion and a reduction of CHF 3 billion due to the aforementioned sale of our Belgian domestic business that did not affect net new money, partly offset by net new money inflows of CHF 2 billion.

Margins on invested assets

The net margin on invested assets decreased by 7 basis points to 32 basis points. On an adjusted basis, excluding the aforementioned gains on sales and restructuring charges, the net margin on invested assets decreased by 3 basis points to 32 basis points.

The gross margin on invested assets decreased by 5 basis points to 87 basis points and by 1 basis point to 85 basis points on an adjusted basis.

Personnel: 2Q15 vs 1Q15

Wealth Management employed 10,257 personnel as of 30 June 2015 compared with 10,366 as of 31 March 2015.

The number of client advisors decreased by 247 to 4,079, mainly as certain staff were reclassified from client advisors to non-client-facing staff. Furthermore, the decline was due to a reduction in the number of lower-producing advisors and the aforementioned sale of our Belgian domestic business.

The number of non-client-facing staff increased by 138 to 6,178, mainly due to the aforementioned reclassification.

→ Refer to the "Recent developments" section of this report for more information on personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units

Results: 6M15 vs 6M14

Profit before tax increased by CHF 733 million to CHF 1,707 million in the first half of 2015. Adjusted for the aforementioned gains on sales in the first half of 2015 and restructuring charges, profit before tax increased by CHF 573 million to CHF 1,625 million. Adjusted operating income was CHF 265 million higher and adjusted operating expenses were CHF 307 million lower.

Total operating income increased by CHF 462 million to CHF 4,327 million. Adjusted for the aforementioned gains on sales in

the first half of 2015, operating income increased by CHF 265 million to CHF 4,130 million, mainly due to higher net interest income, recurring net fee income and transaction-based income. Net interest income increased by CHF 115 million to CHF 1,128 million, mainly due to higher lending revenues and an increase in allocated revenues from Group ALM. Recurring net fee income increased by CHF 106 million to CHF 1,925 million, reflecting the continued growth in discretionary and advisory mandates, the positive effect of pricing measures and an increase in average invested assets, partly offset by lower income due to the ongoing effects of cross-border outflows. Transaction-based income increased by CHF 34 million to CHF 1,048 million with increases in Asia Pacific and Switzerland, partly offset by decreases in emerging markets and Europe. The overall increase was mainly related to foreign-exchange trading and mandate revenues, partly offset by lower revenues from fixed income cash products. The first half of 2015 included fees paid to Retail & Corporate for net client shifts and referrals based on a new remuneration framework introduced in the second half of 2014. Other income increased by CHF 211 million to CHF 227 million, primarily due to the aforementioned gains on sales.

Total operating expenses decreased by CHF 270 million to CHF 2,621 million. Adjusted for restructuring charges of CHF 115 million compared with CHF 78 million, operating expenses decreased by CHF 307 million to CHF 2,506 million, mainly reflecting CHF 352 million lower charges for provisions for litigation, regulatory and similar matters, partly offset by a CHF 76 million increase in adjusted personnel expenses.

Balance sheet and capital optimization program

In the first half of 2015, Wealth Management launched a global program intended to optimize its leverage ratio denominator (LRD) and liquidity coverage ratio (LCR), adapting its business to the new regulatory and interest rate environments. This reflects the impact of reduced and, in some cases, negative interest rates on our performance, particularly given the associated cost of maintaining the high-quality liquid assets (HQLA) required to cover regulatory outflow assumptions embedded in the LCR.

We have changed pricing for a number of clients with a high proportion of short-term deposits relative to invested assets, particularly focusing on non-operational deposits. We offered these clients options to redeploy deposit balances into cash alternatives and investment products, or consider repricing their existing products. The vast majority of these clients have chosen to retain their relationship with us. However, we recorded net new money outflows of CHF 6.6 billion and a reduction in customer deposits of CHF

12.3 billion from affected clients. We expect further outflows of around CHF 4 billion in the third quarter.

In the aggregate, the program has reduced the LRD and HQLA requirements for our business. The clients in scope for this program generated minimal economic profit for the bank, and subsequent to our efforts in the second quarter, economic profit on retained relationships has materially improved.

Wealth Management Americas

Profit before tax was USD 205 million in the second quarter of 2015 compared with USD 268 million in the first quarter. Adjusted for restructuring charges in both quarters, profit before tax decreased to USD 231 million from USD 293 million, mainly reflecting higher operating expenses, partly offset by increased operating income. Net new money outflows were USD 0.7 billion compared with net inflows of USD 4.8 billion in the prior quarter, primarily reflecting client withdrawals associated with seasonal income tax payments.

Results: 2Q15 vs 1Q15

Operating income

Total operating income increased by USD 46 million to USD 1,947 million, due to continued growth in managed account fees and higher net interest income.

Net interest income increased by USD 24 million to USD 301 million, mainly due to continued growth in loan and deposit balances as well as higher income from the financial investment available-for-sale portfolio as a result of higher spreads and an increase in the amortized cost base for this portfolio arising from updated future cash flow estimates on certain mortgage-backed securities. The average mortgage portfolio balance increased 3% and the average securities-backed lending portfolio balance increased 3%.

Recurring net fee income increased by USD 31 million to USD 1,217 million, mainly due to a 4% increase in managed account fees which were calculated on increased invested asset levels at the end of the prior quarter.

Operating expenses

Total operating expenses increased by USD 110 million to USD 1,743 million. On an adjusted basis, operating expenses increased by USD 109 million to USD 1,717 million.

Personnel expenses increased by USD 14 million to USD 1,199 million. This increase was mainly due to higher financial advisor compensation, primarily reflecting higher performance-based compensation and higher compensable revenues, partly offset by lower non-financial advisor variable compensation expenses.

General and administrative expenses increased by USD 87 million to USD 213 million, mainly due to USD 71 million higher charges for provisions for litigation, regulatory and similar matters and other provisions as well as USD 21 million higher legal fees.

Adjusted for restructuring charges of USD 26 million compared with USD 25 million, net charges for services from other business divisions and Corporate Center were USD 7 million higher, reflecting higher charges from Corporate Center – Services.

→ Refer to the “Recent developments” section of this report for more information on the change in presentation of service allocations from Corporate Center – Services to business divisions and other Corporate Center units

Cost/income ratio

The cost/income ratio was 89.5% compared with 85.9% in the prior quarter. Adjusted for restructuring charges, the cost/income ratio was 88.2% compared with 84.6% and was above our target range of 75% to 85%.

Net new money

The annualized net new money growth rate was negative 0.3% compared with 1.9% and was below the target range of 2% to 4%. Net new money outflows were USD 0.7 billion, which mainly reflected net outflows from financial advisors employed with UBS for more than one year, primarily due to client withdrawals of approximately USD 3.9 billion associated with seasonal income tax payments. Net new money was USD 4.8 billion in the prior quarter. Including interest and dividend income, net new money was USD 5.1 billion compared with USD 10.3 billion in the prior quarter.

Invested assets

Invested assets decreased by USD 5 billion to USD 1,045 billion, reflecting negative market performance of USD 5 billion, as well as net new money outflows of USD 1 billion. Managed account assets increased by USD 1 billion to USD 357 billion and comprised 34% of total invested assets as of 30 June 2015, unchanged from 31 March 2015.

Margins on invested assets

The net margin on invested assets decreased by 2 basis points to 8 basis points and the adjusted net margin on invested assets decreased by 2 basis points to 9 basis points. The gross margin on invested assets increased by 1 basis point to 74 basis points, reflecting a 1 basis point increase in the gross margin from recurring income.

Personnel: 2Q15 vs 1Q15

As of 30 June 2015, Wealth Management Americas employed 13,235 personnel, a decrease of 40 personnel compared with 31 March 2015, mainly reflecting a decrease in financial advisors.

→ Refer to the “Recent developments” section of this report for more information on personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units

Results: 6M15 vs 6M14

Profit before tax was USD 473 million in the first half of 2015 compared with USD 510 million in the same period a year earlier. Adjusted for restructuring charges, profit before tax decreased by USD 6 million to USD 524 million, mainly reflecting higher operating expenses, partly offset by higher recurring net fee income and increased net interest income.

Total operating income increased by USD 84 million to USD 3,848 million, primarily due to a USD 122 million increase in recurring net fee income, mainly due to an increase in managed account fees on higher invested asset levels. Furthermore, net interest income was USD 68 million higher, reflecting continued growth in loan and deposit balances. These increases were partly offset by a USD 79 million decline in transaction-based income to USD 857 million, mainly due to lower client activity. Net credit loss expenses were nil compared with net credit loss recoveries of USD 17 million in the same period a year earlier. The prior year in-

cluded the full release of a loan loss allowance for a single client as well as releases of loan loss allowances on securities-backed lending facilities collateralized by Puerto Rico municipal securities and related funds.

Operating expenses increased by USD 121 million to USD 3,375 million and by USD 90 million to USD 3,324 million excluding restructuring charges. Personnel expenses increased by 51 million to USD 2,383 million, mainly due to an increase of USD 32 million in financial advisor compensation, corresponding to higher compensable revenues. Expenses for compensation commitments related to recruited financial advisors increased by USD 10 million to USD 374 million. Salaries and other personnel costs increased by USD 9 million to USD 527 million. General and administrative expenses increased by USD 47 million to USD 339 million, mainly due to higher legal fees. Adjusted for restructuring charges of USD 51 million compared with USD 20 million, net charges for services from other business divisions and Corporate Center decreased by USD 9 million to USD 574 million.

Retail & Corporate

Profit before tax was CHF 397 million in the second quarter of 2015 compared with CHF 427 million in the first quarter. Adjusted for restructuring charges, profit before tax decreased by CHF 29 million to CHF 414 million, mainly reflecting CHF 44 million lower income, partly offset by CHF 17 million lower credit loss expenses. The annualized net new business volume growth rate for our retail business was 3.1%, unchanged from the prior quarter.

Results: 2Q15 vs 1Q15

Operating income

Total operating income decreased by CHF 27 million to CHF 952 million, mainly reflecting lower transaction-based income and net interest income, partly offset by lower credit loss expenses and higher other income.

Net interest income decreased by CHF 8 million to CHF 560 million. Allocated revenues from Corporate Center – Group Asset and Liability Management (Group ALM) decreased due to lower income from the investment of the Group's equity reflecting the lower interest rate environment as well as higher costs related to high-quality liquid assets. Net interest income from lending and deposits remained broadly unchanged.

Recurring net fee income was almost unchanged at CHF 135 million.

Transaction-based income decreased by CHF 43 million to CHF 241 million, mainly due to lower allocated revenues from Group ALM, partly as the previous quarter included hedge ineffectiveness gains from the fair value hedge of portfolio interest rate risk related to mortgage loans. Furthermore, income from foreign-exchange trading decreased, partly offset by higher credit card-related income.

Other income increased by CHF 8 million to CHF 21 million, reflecting higher income for other administrative services.

Net credit loss expenses were CHF 4 million in the second quarter of 2015 compared with CHF 21 million in the prior quarter.

Operating expenses

Total operating expenses increased by CHF 3 million to CHF 555 million. Adjusted for restructuring charges of CHF 17 million compared with CHF 16 million, operating expenses increased slightly to CHF 538 million, mainly reflecting higher general and administrative expenses, partly offset by decreased personnel

expenses as well as lower net charges for services from other business divisions and Corporate Center.

Personnel expenses decreased by CHF 5 million to CHF 221 million, mainly reflecting a credit related to the release of accruals for untaken vacation compared with an expense in the previous quarter.

General and administrative expenses increased by CHF 11 million to CHF 64 million, mainly due to higher charges for provisions in the Corporate & Institutional clients business.

Net charges for services from other business divisions and Corporate Center decreased slightly to CHF 265 million.

→ Refer to the "Recent developments" section of this report for more information on the change in presentation of service allocations from Corporate Center – Services to business divisions and other Corporate Center units

Cost/income ratio

The cost/income ratio increased to 58.1% from 55.2%. Adjusted for restructuring charges, the cost/income ratio increased to 56.3% from 53.6% and remained within our target range of 50% to 60%.

Net interest margin

The net interest margin decreased by 1 basis point to 164 basis points, mainly reflecting lower net interest income, and remained within our target range of 140 to 180 basis points.

Net new business volume growth for retail business

The annualized net new business volume growth rate for our retail business was 3.1%, within our target range of 1% to 4% and unchanged from the prior quarter.

Net new client assets were positive, while net new loans were slightly negative. It is our strategy to grow our high-quality loan business moderately and selectively.

Personnel: 2Q15 vs 1Q15

Retail & Corporate employed 5,086 personnel as of 30 June 2015, down from 5,157 personnel as of 31 March 2015, reflecting seasonal fluctuation in staffing levels.

→ Refer to the “Recent developments” section of this report for more information on personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units

Results: 6M15 vs 6M14

Profit before tax increased by CHF 84 million to CHF 824 million. Adjusted for restructuring charges of CHF 33 million compared with CHF 27 million, profit before tax increased by CHF 90 million to CHF 857 million, mainly reflecting CHF 90 million higher income and CHF 30 million lower operating expenses, partly offset by CHF 29 million higher credit loss expenses.

Total operating income increased by CHF 61 million to CHF 1,931 million, mainly as net interest income increased by CHF 65 million to CHF 1,128 million, primarily due to an increase in net interest income allocated from Group ALM as well as an increased loan margin. The deposit margin also increased, reflecting our pricing measures, partly offset by the persistently low interest rate environment, which continued to have an adverse effect on our replication portfolios. This was partly offset by lower average deposit volumes, which had a negative effect on net interest income.

Recurring net fee income decreased by CHF 14 million to CHF 269 million, mainly reflecting lower fee income allocated from Group ALM for providing collateral in relation to issued covered bonds as well as decreased revenues from non-asset-based products.

Transaction-based income increased by CHF 44 million to CHF 525 million, mainly as the first half of 2015 included fees from Wealth Management for net client shifts and referrals, based on a new remuneration framework introduced in the second half of 2014, and due to higher income from foreign-exchange trading.

→ Refer to the “Significant accounting and financial reporting changes” section of our Annual Report 2014 for more information on the implementation of a remuneration framework for net client shifts and referrals between Retail & Corporate and Wealth Management

Net credit loss expenses were CHF 25 million compared with a net recovery of CHF 4 million in the same period last year, which included a release of CHF 10 million in collective loan loss allowances.

Operating expenses decreased by CHF 24 million to CHF 1,106 million. Adjusted for restructuring charges of CHF 33 million compared with CHF 27 million, operating expenses decreased by CHF 30 million to CHF 1,073 million, mainly reflecting CHF 61 million lower charges for provisions for litigation, regulatory and similar matters, partly offset by a one-time reversal of a marketing accrual in the first half of 2014.

Global Asset Management

Profit before tax was CHF 130 million in the second quarter of 2015 compared with CHF 168 million in the first quarter. Adjusted for restructuring charges, profit before tax was CHF 134 million compared with CHF 186 million, mainly due to lower performance fees. Excluding money market flows, net new money inflows were CHF 8.3 billion compared with CHF 7.5 billion in the prior quarter.

Refer to the "Capital management" section of this report for more information. ⁶ Based on phase-in Basel III risk-weighted assets. ⁷ In accordance with Swiss SRB rules. Refer to the "Capital management" section of this report for more information.

Results: 2Q15 vs 1Q15

Operating income

Total operating income was CHF 476 million compared with CHF 511 million. Performance fees were CHF 48 million lower, primarily in O'Connor and A&Q, with approximately 60% of performance fee-eligible assets at high-water marks as of 30 June 2015 compared with more than 90% as of 31 March 2015. Net management fees increased by CHF 13 million, mainly in traditional investments, in infrastructure and private equity from new commitments into an existing product and in global real estate, driven by capital increases in listed funds.

In the second quarter of 2015, we agreed to sell our Alternative Fund Services to Mitsubishi UFJ Financial Group Investor Services. More information is provided in "Note 18 Changes in organization and disposals" in the "Financial information" section of this report.

Operating expenses

Total operating expenses were CHF 346 million compared with CHF 343 million. Adjusted for restructuring charges of CHF 4 million compared with CHF 18 million, operating expenses increased by CHF 17 million to CHF 342 million.

Personnel expenses increased by CHF 8 million to CHF 175 million, mainly due to higher expenses for variable compensation.

General and administrative expenses were unchanged from the prior quarter at CHF 55 million.

Adjusted for restructuring charges of CHF 4 million in the second quarter and CHF 17 million in the first quarter, net charges for services from other business divisions and Corporate Center increased by CHF 8 million, mainly due to higher charges from Group Technology.

→ Refer to the "Recent developments" section of this report for more information on the change in presentation of service allocations from Corporate Center – Services to business divisions and other Corporate Center units

Cost/income ratio

The cost/income ratio was 72.7% compared with 67.1% in the prior quarter. Adjusted for restructuring charges, the cost/income ratio was 71.8% compared with 63.6% and was above the target range of 60% to 70%.

Net new money

The annualized net new money growth rate, excluding money market flows, was 5.5% compared with 5.0% and was above the target range of 3% to 5%.

Excluding money market flows, net new money inflows were CHF 8.3 billion compared with CHF 7.5 billion. By client segment, net inflows from third parties were CHF 5.3 billion compared with CHF 2.5 billion in the prior quarter. The net inflows in the second quarter were mainly into fixed income, largely from clients serviced from Asia Pacific, into multi-asset, mainly from clients serviced from Switzerland and Asia Pacific, into real estate, largely from clients serviced from Switzerland, and into equities, predominantly from clients serviced from Europe. Net inflows from clients of UBS's wealth management businesses were CHF 3.0 billion compared with CHF 5.1 billion and were mainly into alternative investments, largely from clients serviced from Switzerland and Asia Pacific, into multi-asset, mainly from clients serviced from Asia Pacific and Switzerland, and into equities, largely from clients serviced from Asia Pacific, partly offset by net outflows from fixed income, largely from clients serviced from Switzerland.

Money market net inflows were CHF 0.7 billion compared with net outflows of CHF 2.4 billion. By client segment, net inflows from third parties were CHF 1.7 billion compared with net outflows of CHF 1.2 billion and originated mainly from clients serviced from Asia Pacific and Americas. Net outflows from clients of UBS's wealth management businesses were CHF 1.0 billion compared with CHF 1.2 billion.

Invested assets

Invested assets decreased to CHF 650 billion as of 30 June 2015 from CHF 661 billion as of 31 March 2015, mainly due to negative currency translation effects of CHF 15 billion and negative market performance of CHF 5 billion, partly offset by net new money inflows of CHF 9 billion.

As of 30 June 2015, CHF 206 billion, or 32%, of invested assets were managed in indexed strategies and CHF 58 billion, or 9%, of invested assets were money market assets. The remaining 59% of invested assets were managed in active, non-money market strategies. On a regional basis, 32% of invested assets related to clients serviced from Switzerland, 25% from Europe, Middle East and Africa, 22% from the Americas, and 21% from Asia Pacific.

Margins on invested assets

The net margin on invested assets was 8 basis points compared with 10 basis points. Adjusted for restructuring charges, the net margin was 8 basis points compared with 11 basis points.

The gross margin was 29 basis points compared with 31 basis points.

Personnel: 2Q15 vs 1Q15

Global Asset Management employed 2,434 personnel as of 30 June 2015 compared with 2,369 as of 31 March 2015, with the increase mainly related to distribution and product development personnel within traditional investments.

→ Refer to the “Recent developments” section of this report for more information on personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units

Results: 6M15 vs 6M14

Profit before tax was CHF 299 million compared with CHF 228 million. Adjusted for restructuring charges of CHF 22 million compared with CHF 6 million, profit before tax was CHF 321 million compared with CHF 234 million.

Total operating income was CHF 987 million compared with CHF 916 million, mainly reflecting higher net management fees in global real estate, traditional investments, fund services and in the infrastructure and private equity business.

Total operating expenses were CHF 688 million, unchanged from last year. Adjusted for restructuring charges of CHF 22 million compared with CHF 6 million, operating expenses were CHF 16 million lower, as the first six months of 2014 included charges of CHF 47 million for provisions for litigation, regulatory and similar matters and other provisions, partly offset by higher personnel expenses in the first half of 2015.

Universe of key hedge funds and fund-of-fund products managed on a fully discretionary basis representing approximately 35% of total O'Connor and A&Q invested assets. ⁴ Percentage of passive fund assets within applicable tracking tolerance on a gross of fees basis. Performance information represents a universe of European domiciled institutional and wholesale funds representing approximately 41% of total passive invested assets as of 30 June 2015.

Investment Bank

Profit before tax was CHF 551 million in the second quarter of 2015 compared with CHF 766 million in the first quarter. Adjusted profit before tax was CHF 617 million compared with CHF 836 million, mainly due to CHF 348 million lower Investor Client Services revenues, partly offset by CHF 94 million lower operating expenses, primarily due to a decrease in performance-related variable compensation expenses. Fully applied risk-weighted assets decreased by CHF 1 billion to CHF 63 billion as of 30 June 2015.

Results: 2Q15 vs 1Q15**Operating income**

Total operating income decreased 11% to CHF 2,355 million from CHF 2,657 million in the prior quarter, mainly due to CHF 337 million lower revenues in Investor Client Services, reflecting lower client activity levels in our foreign exchange, rates and credit business. Adjusted for a gain of CHF 11 million from a further partial sale of our investment in the financial information services company Markit, which is held as a financial investment available-for-sale, operating income decreased to CHF 2,344 million from CHF 2,657 million. In US dollar terms, adjusted operating income decreased 11%.

→ Refer to the "Recent developments" section of this report for more information on the change in segment reporting related to fair value gains and losses on certain internal funding transactions

Operating expenses

Total operating expenses decreased 5% to CHF 1,804 million from CHF 1,891 million. Adjusted for restructuring charges of CHF 66 million and an impairment loss of CHF 11 million on an intangible asset in the second quarter and restructuring charges of CHF 70 million in the prior quarter, operating expenses decreased to CHF 1,727 million from CHF 1,821 million, mainly due to a decrease in performance-related variable compensation expenses.

Personnel expenses decreased to CHF 940 million from CHF 1,008 million. Excluding a restructuring charge of CHF 2 million in the prior quarter, adjusted personnel expenses decreased to CHF

940 million from CHF 1,006 million, mainly due to a decrease in performance-related variable compensation expenses.

General and administrative expenses decreased to CHF 162 million from CHF 189 million. Excluding restructuring charges of CHF 1 million in the second quarter and restructuring charges of CHF 2 million in the prior quarter, adjusted general and administrative expenses decreased to CHF 161 million from CHF 187 million, mainly due to CHF 21 million lower charges for provisions for litigation, regulatory and similar matters.

Net charges for services from other business divisions and Corporate Center increased slightly to CHF 685 million from CHF 681 million. Adjusted for restructuring charges of CHF 65 million compared with CHF 66 million, net charges increased slightly to CHF 620 million from CHF 615 million, mainly due to lower cost recoveries from Corporate Center – Non-core and Legacy Portfolio and Corporate Center – Group Asset and Liability Management (Group ALM) related to distribution and risk management activities undertaken by the Investment Bank on their behalf.

→ Refer to the "Recent developments" section of this report for more information on the change in presentation of service allocations from Corporate Center – Services to business divisions and other Corporate Center units

Cost/income ratio

The cost/income ratio was 76.3% compared with 71.2% in the prior quarter. On an adjusted basis, the cost/income ratio was 73.4% compared with 68.6% and was within our target range of 70% to 80%.

Risk-weighted assets

Fully applied risk-weighted assets (RWA) decreased by CHF 1 billion to CHF 63 billion as of 30 June 2015 and remained below our limit of CHF 70 billion.

→ Refer to the “Capital management” section of this report for more information

Funded assets

Funded assets increased by CHF 2 billion to CHF 176 billion as of 30 June 2015 and remained below our limit of CHF 200 billion. The slight increase was mainly due to an increase in collateral trading assets and prime brokerage receivables in Investor Client Services, partly offset by a reduction in trading portfolio assets.

→ Refer to the “Balance sheet” section of this report for more information

Return on attributed equity

Annualized return on attributed equity (RoAE) for the first six months of 2015 was 36.1%, and 39.8% on an adjusted basis, above our annual target of over 15%. Annualized return on attributed equity (RoAE) for the second quarter was 30.2%, and 33.8% on an adjusted basis.

→ Refer to the discussion of “Equity attribution and return on attributed equity” in the “Capital management” section of this report for more information

Operating income by business unit: 2Q15 vs 1Q15

Corporate Client Solutions

Corporate Client Solutions revenues increased 6% to CHF 822 million from CHF 779 million, due to higher revenues in debt capital markets, equity capital markets and advisory, partly offset by lower financing solutions and risk management revenues. In US dollar terms, revenues increased 6%.

Advisory revenues increased to CHF 184 million from CHF 172 million, primarily resulting from increased participation in merger and acquisition transactions during the second quarter.

Equity capital markets revenues increased to CHF 337 million from CHF 306 million, due to higher revenues from public offerings as the fee pool increased 18% as well as higher revenues from private transactions.

Debt capital markets revenues increased to CHF 180 million from CHF 143 million, due to higher leveraged finance revenues

as market activity levels improved, partly offset by lower investment grade revenues as the fee pool declined 14%.

Financing solutions revenues decreased to CHF 106 million from CHF 119 million, reflecting a decline in structured financing revenues.

Risk management revenues decreased to CHF 15 million compared with CHF 39 million, mainly as the prior quarter included a gain on a portfolio macro hedge.

Investor Client Services

Investor Client Services revenues decreased 18% to CHF 1,540 million from CHF 1,877 million, mainly due to lower revenues in foreign exchange, rates and credit. Excluding the aforementioned gain of CHF 11 million on a financial investment available-for-sale, adjusted revenues decreased to CHF 1,529 million from CHF 1,877 million. In US dollar terms, adjusted revenues decreased 18%.

Equities

Equities revenues decreased slightly to CHF 1,128 million compared with CHF 1,156 million, due to lower revenues in derivatives and cash, partly offset by higher revenues in financing services.

Cash revenues decreased to CHF 345 million compared with CHF 383 million, mainly due to lower commission income as client activity levels decreased.

Derivatives revenues decreased to CHF 332 million from CHF 371 million, reflecting a decline in volatility and market activity levels during the quarter.

Financing services revenues increased to CHF 463 million from CHF 408 million, mainly due to higher revenues in equity finance, driven by stronger client activity.

Foreign exchange, rates and credit

Foreign exchange, rates and credit revenues decreased to CHF 413 million from CHF 721 million. Excluding the aforementioned gain of CHF 11 million on a financial investment available-for-sale, adjusted revenues decreased to CHF 402 million from CHF 721 million. This decrease was mainly due to lower revenues in the foreign exchange and rates businesses, as volatility and client activity levels were elevated in the prior quarter following the Swiss National Bank's actions on 15 January 2015. Credit revenues decreased slightly, mainly due to lower client activity levels in the flow business.

Personnel: 2Q15 vs 1Q15

The Investment Bank employed 5,192 personnel as of 30 June 2015, a decrease of 84 compared with 5,276 as of 31 March 2015.

→ Refer to the “Recent developments” section of this report for more information on personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units

Results: 6M15 vs 6M14

Profit before tax was CHF 1,317 million compared with CHF 999 million, mainly as a result of CHF 692 million higher revenues in Investor Client Services, partly offset by CHF 147 million lower revenues in Corporate Client Solutions and CHF 226 million higher operating expenses. On an adjusted basis, excluding restructuring charges of CHF 136 million, an impairment loss on an intangible asset of CHF 11 million and a gain of CHF 11 million on a financial investment available-for-sale in the first half of 2015, compared with restructuring charges of CHF 151 million and a gain of CHF 43 million related to the same financial investment available-for-sale in the first half of 2014, profit before tax increased to CHF 1,453 million from CHF 1,107 million.

Revenues in Corporate Client Solutions decreased 8% to CHF 1,601 million from CHF 1,748 million, mainly as a result of CHF 351 million lower debt capital markets revenues, reflecting lower leveraged finance revenues as market activity levels declined significantly. This decrease was partly offset by CHF 98 million higher equity capital markets revenues reflecting increased revenues from private transactions, as well as CHF 38 million higher advisory revenues. In US dollar terms, revenues decreased 14%.

Investor Client Services revenues increased 25% to CHF 3,417 million from CHF 2,725 million. On an adjusted basis, excluding the aforementioned gains on a financial investment available-for-sale, revenues increased 27%. In US dollar terms, adjusted revenues increased 20%. Equities revenues increased to CHF 2,284 million from CHF 1,890 million, mainly due to higher revenues in financing services and derivatives. Cash revenues increased to CHF 728 million from CHF 714 million, mainly due to higher commission income reflecting higher client activity levels. Derivatives revenues increased to CHF 703 million from CHF 553 million, mainly as a result of higher client activity and volatility levels.

Financing services revenues increased to CHF 871 million from CHF 632 million, due to higher equity finance revenues across all regions, most notably in Asia Pacific. Foreign exchange, rates and credit revenues increased to CHF 1,133 million from CHF 836 million, mainly due to higher revenues in our foreign exchange and rates businesses, reflecting the aforementioned elevated levels of client activity and volatility during the first quarter of 2015.

Total operating expenses increased to CHF 3,695 million from CHF 3,469 million. Adjusted for restructuring charges of CHF 136 million and an impairment loss on an intangible asset of CHF 11 million in the first half of 2015, as well as restructuring charges of CHF 151 million in the first half of 2014, operating expenses were CHF 3,548 million compared with CHF 3,318 million. Personnel expenses increased to CHF 1,948 million from CHF 1,786 million. Adjusted for restructuring charges of CHF 2 million in the first half of 2015 compared with CHF 62 million in the first half of 2014, personnel expenses increased to CHF 1,946 million from CHF 1,724 million, mainly due to higher performance-related variable compensation expenses. General and administrative expenses decreased slightly to CHF 351 million from CHF 353 million. Adjusted for restructuring charges of CHF 3 million compared with CHF 27 million, general and administrative expenses increased to CHF 348 million from CHF 326 million, mainly due to higher charges for professional fees. Net charges for services from other business divisions and Corporate Center increased to CHF 1,366 million from CHF 1,305 million. Adjusted for restructuring charges of CHF 131 million in the first half of 2015 and CHF 56 million in the first half of 2014, net charges decreased slightly to CHF 1,235 million from CHF 1,249 million, mainly reflecting lower allocations from Corporate Center – Services, partly offset by lower cost recoveries from Corporate Center – Non-core and Legacy Portfolio and Corporate Center – Group ALM related to distribution and risk management activities undertaken by the Investment Bank on their behalf.

Results: 2Q15 vs 1Q15

Operating income

Corporate Center – Services operating income was negative CHF 41 million in the second quarter of 2015 compared with positive CHF 374 million, mainly driven by gains on sale of real estate of CHF 378 million in the prior quarter, as well as lower income from the investment of the Group's equity allocated from Corporate Center – Group ALM. Beginning in the second quarter of 2015, we present own credit gains and losses on financial liabilities designated at fair value in Corporate Center – Group ALM and no longer in Corporate Center – Services. Prior periods have been restated.

→ Refer to the “Recent developments” section of this report for more information on the change in segment reporting related to own credit

Operating expenses

Operating expenses before allocations to business divisions and other Corporate Center units

On a gross basis before allocations to the business divisions and other Corporate Center units, total operating expenses decreased by CHF 107 million to CHF 2,194 million. Excluding restructuring charges of CHF 154 million compared with CHF 292 million, adjusted operating expenses before allocations increased by CHF 31 million to CHF 2,040 million, mainly due to increased marketing costs, as well as higher professional fees associated with the ongoing changes to our legal structure.

Personnel expenses increased by CHF 15 million to CHF 965 million. On an adjusted basis, excluding net restructuring charges of CHF 85 million compared with CHF 62 million, personnel expenses decreased by CHF 8 million. General and administrative expenses decreased by CHF 112 million to CHF 1,027 million. On an adjusted basis, excluding net restructuring charges of CHF 69 million compared with CHF 219 million, general and administrative expenses increased by CHF 38 million to CHF 958 million. This increase was mainly due to higher marketing costs and professional fees.

Services to/from business divisions and other Corporate Center units

Net charges for services to business divisions and other Corporate Center units were CHF 1,982 million compared with CHF 1,964 million. Beginning in the second quarter of 2015, we revised the presentation of service allocations from Corporate Center – Services to the business divisions and other Corporate Center units to better reflect the economic relationship between them. Prior periods have been restated.

→ Refer to the “Recent developments” section of this report for more information on the change in presentation of service allocations from Corporate Center – Services to business divisions and other Corporate Center units

Operating expenses after services to/from business divisions and other Corporate Center units

Operating expenses remaining in Corporate Center – Services after allocations relate mainly to Group governance functions and other corporate activities, certain strategic and regulatory projects and certain retained restructuring charges.

Total operating expenses remaining in Corporate Center – Services after allocations decreased to CHF 212 million from CHF 337 million, mainly due to retained real estate restructuring charges of CHF 112 million in the prior quarter.

Risk-weighted assets

Fully applied risk-weighted assets (RWA) decreased by CHF 3 billion to CHF 20 billion as of 30 June 2015 due to lower incremental operational risk RWA based on the supplemental operational risk capital analysis mutually agreed to by UBS and FINMA.

→ Refer to the “Capital management” section of this report for more information

Personnel: 2Q15 vs 1Q15

As of 30 June 2015, Corporate Center – Services employed 23,221 personnel compared with 23,424 as of 31 March 2015. This decrease of 203 personnel primarily related to reductions in Group Operations and Group Technology. Beginning in the second quarter of 2015, personnel of Corporate Center – Services are no longer allocated to the business divisions and other Corporate Center units.

→ Refer to the “Recent developments” section of this report for more information on personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units

Results: 6M15 vs 6M14

Corporate Center – Services recorded a loss before tax of CHF 217 million compared with a loss before tax of CHF 215 million in the first half of 2014.

Total operating income was CHF 333 million compared with CHF 14 million, mainly reflecting gains on sale of real estate of CHF 378 million in the first half of 2015 compared with CHF 24 million in the same period last year.

On a gross basis before allocations, total operating expenses increased by CHF 411 million to CHF 4,495 million. Excluding restructuring charges of CHF 446 million compared with CHF 160 million, adjusted operating expenses before allocations increased by CHF 125 million to CHF 4,049 million, mainly reflecting charges for provisions for litigation, regulatory and similar matters of CHF 8 million compared with a release of CHF 141 million.

Corporate Center – Group Asset and Liability Management

Corporate Center – Group Asset and Liability Management recorded a profit before tax of CHF 132 million in the second quarter of 2015 compared with a profit before tax of CHF 317 million in the prior quarter.

¹ Comparative figures in this table may differ from those originally published in quarterly and annual reports due to adjustments following organizational changes, and restatements due to retrospective adoption of new accounting standards or changes in accounting policies. ² Represents own credit changes on financial liabilities designated at fair value through profit or loss. The cumulative own credit gain for such debt held on 30 June 2015 amounts to CHF 0.2 billion. This gain has reduced the fair value of financial liabilities designated at fair value recognized on our balance sheet. Refer to "Note 10 Fair value measurement" in the "Financial information" section of this report for more information. ³ Refer to "Note 18 Changes in organization and disposals" in the "Financial information" section of this report for information on restructuring charges. ⁴ Refer to the "Capital management" section of our Annual Report 2014 for more information on the equity attribution framework. ⁵ Based on third-party view, i.e., without intercompany balances. ⁶ Based on the Basel III framework as applicable for Swiss systemically relevant banks (SRB). Refer to the "Capital management" section of this report for more information. ⁷ In accordance with Swiss SRB rules. Refer to the "Capital management" section of this report for more information.

Group ALM manages the structural risks of our balance sheet including pricing and managing the Group's structural interest rate and currency risk, funding and liquidity risk, currency basis and interest rate basis risk and collateral risk. Group ALM also seeks to optimize the Group's financial performance by better matching assets and liabilities within the context of the Group's liquidity, funding and capital targets. Group ALM serves all business divisions and other Corporate Center units, and its risk management is fully integrated into the Group's risk governance framework.

The accounting treatment of certain hedging activities causes non-economic volatility in Group ALM's financial results. Therefore, these effects are explained separately.

Revenues generated by the Group ALM's banking book interest rate risk management activities are fully allocated to the originating business divisions. Funding and liquidity costs are allocated to the business divisions and other Corporate Center units based on their consumption, which is driven by various internal funding and liquidity models. Funding and liquidity costs not arising as a result of consumption are retained by Group ALM. These are mainly the result of funding and liquidity buffers which are maintained at levels above the minimum regulatory requirements and central funding costs related to our long-term debt portfolio.

Consistent with changes in the manner in which operating segment performance is assessed, beginning in the second quarter of 2015, we now apply fair value accounting for certain internal funding transactions between Corporate Center – Group ALM and the Investment Bank and Corporate Center – Non-core and Legacy Portfolio rather than applying amortized cost accounting. This treatment better aligns with the mark-to-market basis on which these internal transactions are risk managed within the Investment Bank and Corporate Center – Non-core and Legacy Portfolio. In connection with this change, we now present own credit gains and losses on financial liabilities designated at fair value in Corporate Center – Group ALM instead of Corporate Center – Services. Prior periods have been restated to reflect these changes.

→ Refer to the “Recent developments” section of this report for more information on the change in segment reporting related to fair value gains and losses on certain internal funding transactions and own credit

Results: 2Q15 vs 1Q15

Operating income

Gross income excluding own credit

Gross income excluding own credit was CHF 70 million in the second quarter, which included income resulting from centralized balance sheet risk management, partly offset by central funding

costs and losses from hedging activities. Gross income in the first quarter was CHF 376 million.

Gross revenues from balance sheet risk management activities were CHF 400 million compared with CHF 461 million, mainly as revenues from the banking book interest rate risk management performed on behalf of Wealth Management and Retail & Corporate decreased by CHF 42 million to CHF 162 million. Furthermore, income from the investment of the Group's equity decreased by CHF 25 million to CHF 202 million, reflecting increased costs incurred following the Swiss National Bank actions on 15 January 2015. In addition, the second quarter included a CHF 26 million lower gain from the Group ALM-managed monthly conversion of non-Swiss franc profits.

Hedging activities resulted in a gross loss of CHF 36 million in the second quarter compared with a gain of CHF 167 million in the first quarter. The second quarter included a loss of CHF 57 million related to our cash flow hedges and a loss of CHF 16 million on cross-currency basis swaps held as economic hedges, compared with gains of CHF 159 million and CHF 114 million, respectively. These losses were partly offset by a gain of CHF 31 million on interest rate derivatives held to hedge high-quality liquid assets and a gain of CHF 7 million on interest rate derivatives prior to their designation into hedge accounting relationships compared with losses of CHF 70 million and CHF 34 million, respectively.

Group ALM incurred gross funding costs of CHF 294 million in the second quarter compared with CHF 252 million in the prior quarter. Gross funding and liquidity costs increased to CHF 239 million from CHF 221 million, mainly due to new debt issuances. In addition, the second quarter included a fair value loss of CHF 56 million on certain internal funding transactions compared with a loss of CHF 31 million in the previous quarter.

→ Refer to the “Recent developments” section of this report for more information on the change in segment reporting related to fair value gains and losses on certain internal funding transactions and own credit

Allocations to business divisions and other Corporate Center units

Allocations to the business divisions and other Corporate Center units mainly consist of income generated from interest-rate risk management activities and the investment of the Group's equity, offset by charges for liquidity and funding, various collateral management activities and costs of issuance of capital instruments.

Group ALM allocated revenues of CHF 191 million compared with CHF 289 million in the prior quarter, with the decrease mainly due to lower income generated from interest rate risk management activities and additional costs related to the investment of the Group's equity which were allocated on a year-to-date basis in the second quarter of 2015.

Operating income after allocations

Group ALM retains central funding costs, certain income from hedging activities, as well as own credit on financial liabilities designated at fair value. Net operating income remaining in Group ALM was CHF 138 million compared with CHF 313 million, mainly driven by the decline in gross income related to hedging activities.

Funding and liquidity costs retained by Group ALM increased by CHF 10 million to CHF 180 million. In addition, the second quarter included the aforementioned fair value loss of CHF 56 million on certain internal funding transactions compared with a loss of CHF 31 million.

Own credit on financial liabilities designated at fair value was a gain of CHF 259 million compared with CHF 226 million, primarily reflecting the widening of our funding spreads in both quarters.

- Refer to the “Recent developments” section of this report for more information on own credit
- Refer to “Note 10 Fair value measurement” in the “Financial information” section of this report for more information on own credit

Operating expenses

Total operating expenses net of allocations were CHF 7 million compared with negative CHF 4 million in the prior quarter, as costs allocated to the business divisions and other Corporate Center units were lower than the actual costs incurred by Group ALM.

Risk-weighted assets

Fully applied risk-weighted assets (RWA) increased by CHF 1 billion to CHF 9 billion as of 30 June 2015.

- Refer to the “Capital management” section of this report for more information

Balance sheet assets

Balance sheet assets decreased by CHF 9 billion to CHF 218 billion, mainly reflecting a reduction in collateral trading assets, partly offset by an increase in cash and balances with central banks. The decrease in balance sheet assets was driven by a decrease in short-term liabilities.

- Refer to the “Balance sheet” section of this report for more information

Leverage ratio denominator

The Swiss SRB leverage ratio denominator decreased to CHF 216 billion as of 30 June 2015 from CHF 231 billion as of 31 March 2015, mainly reflecting a reduction in collateral trading assets, partly offset by an increase in cash and balances with central banks.

- Refer to the “Capital management” section of this report for more information

Results: 6M15 vs 6M14

Group ALM recorded a profit of CHF 449 million in the first half of 2015 compared with a profit of CHF 88 million in the same period last year. Gross income excluding own credit was CHF 445 million compared with CHF 372 million.

Gross revenues from balance sheet risk management activities increased to CHF 860 million from CHF 763 million, mainly as revenues from the banking book interest rate risk management performed on behalf of Wealth Management and Retail & Corporate increased by CHF 50 million to CHF 366 million. Moreover, revenues related to high-quality liquid assets increased by CHF 78 million to CHF 109 million and gains from the monthly conversion of non-Swiss franc profits and losses to Swiss francs increased to CHF 30 million from CHF 6 million. These increases were partly offset by costs of CHF 55 million arising from the issuance of AT1 instruments in the first half of 2015.

Group ALM recorded revenues from hedging activities of CHF 131 million compared with CHF 90 million, largely related to gains of CHF 98 million on cross-currency basis swaps held as economic hedges compared with a gain of CHF 68 million in the same period last year.

Gross funding costs were CHF 546 million compared with CHF 481 million. The increase was driven by a fair value loss of CHF 87 million on certain internal funding transactions compared with a gain of CHF 23 million in the prior quarter. This increase was partly offset by a decrease in gross funding and liquidity costs to CHF 459 million from CHF 504 million due to favorable currency movements and matured long-term debt, partially offset by new debt issuances.

Revenue allocations to business divisions and other Corporate Center units increased by CHF 31 million, mainly related to the increase in gross balance sheet risk management revenues.

Net operating income remaining in Group ALM after allocations to the business divisions and other Corporate Center units was CHF 451 million compared with CHF 83 million and included an own credit gain of CHF 486 million on financial liabilities designated at fair value compared with a gain CHF 160 million.

Corporate Center – Non-core and Legacy Portfolio

Corporate Center – Non-core and Legacy Portfolio recorded a loss before tax of CHF 145 million in the second quarter of 2015 compared with a loss before tax of CHF 212 million in the prior quarter. The second quarter included a gain of CHF 57 million related to the settlement of two litigation claims. Risk-weighted assets decreased by CHF 4 billion to CHF 32 billion, and the Swiss SRB leverage ratio denominator was reduced by CHF 14 billion to CHF 70 billion.

Refer to the "Capital management" section of this report for more information. ⁷ In accordance with Swiss SRB rules. Refer to the "Capital management" section of this report for more information.

Results: 2Q15 vs 1Q15

Operating income

Income was positive CHF 35 million compared with negative CHF 43 million in the prior quarter. The second quarter included a gain of CHF 57 million related to the settlement of two litigation claims. Further, the first quarter included valuation losses of CHF 12 million on financial assets designated at fair value as well as valuation losses on certain equity positions.

→ Refer to the “Recent developments” section of this report for more information on the change in segment reporting related to fair value gains and losses on certain internal funding transactions

Operating expenses

Total operating expenses increased to CHF 180 million from CHF 171 million, mainly as charges for provisions for litigation, regulatory and similar matters increased by CHF 10 million to CHF 23 million.

Risk-weighted assets

Risk-weighted assets (RWA) decreased by CHF 4 billion to CHF 32 billion due to a CHF 3 billion reduction in credit risk RWA and a CHF 1 billion reduction in market risk RWA.

→ Refer to the “Capital management” section of this report for more information

Balance sheet assets

Balance sheet assets decreased to CHF 113 billion as of 30 June 2015 from CHF 160 billion as of 31 March 2015. Positive replacement values (PRV) decreased by CHF 40 billion, mainly in our over-the-counter (OTC) rates derivative exposures. Within our rates portfolio, PRV decreased by CHF 38 billion, driven by fair value decreases following interest rate movements, as well as by our ongoing reduction activity including negotiated bilateral settlements (unwinds), third-party novations, including transfers to central clearing houses (trade migrations) and agreements to net down trades with other dealer counterparties (trade compressions). Within our credit portfolio, PRV decreased by CHF 1 billion, mainly due to trade unwinds.

Collateral delivered against OTC derivatives decreased by CHF 5 billion.

Funded assets decreased by CHF 1 billion to CHF 8 billion, mainly due to the sale of bond positions held as hedges against derivative exposures in the securitizations portfolio, as well as a partial loan repayment in credit, and other smaller position reductions.

Funded assets and PRV classified as Level 3 in the fair value hierarchy totaled CHF 3 billion as of 30 June 2015.

Leverage ratio denominator

The Swiss SRB leverage ratio denominator decreased to CHF 70 billion as of 30 June 2015 from CHF 84 billion as of 31 March 2015, mainly due to a reduction in average balance sheet assets during the quarter.

→ Refer to the “Capital management” section of this report for more information

Personnel: 2Q15 vs 1Q15

As of 30 June 2015, a total of 101 front office personnel were employed within Non-core and Legacy Portfolio compared with 125 as of 31 March 2015.

→ Refer to the “Recent developments” section of this report for more information on personnel allocations from Corporate Center – Services to business divisions and other Corporate Center units

Results: 6M15 vs 6M14

Non-core and Legacy Portfolio recorded a loss before tax of CHF 357 million in the first half of 2015 compared with a loss of CHF 654 million in the first half of 2014. Operating income was negative CHF 6 million compared with negative CHF 156 million, mainly due to a gain of CHF 57 million related to the settlement of two litigation claims in the first half of 2015 and a CHF 97 million loss resulting from the exit from the majority of the correlation trading portfolio in the same period last year. Operating expenses declined by CHF 148 million to CHF 351 million, mainly as the first half of 2014 included an impairment charge of CHF 78 million related to certain disputed receivables and as services from Corporate Center – Services decreased by CHF 34 million.

Composition of Non-core and Legacy Portfolio

An overview of the composition of Non-core and Legacy Portfolio is presented in the table below.

The groupings of positions by category and the order in which these are listed are not necessarily representative of the magnitude of the risks associated with them, nor do the metrics shown

in the tables necessarily represent the risk measures used to manage and control these positions. The funded assets and PRV measures presented are intended to provide additional transparency regarding progress in the execution of our strategy to exit these positions.

CHF billion

Exposure category	Description	RWA ¹		Funded assets ²		PRV ³		LRD ⁴	
		30.6.15	31.3.15	30.6.15	31.3.15	30.6.15	31.3.15	30.6.15	31.3.15
Rates (linear)	Consists of linear OTC products (primarily vanilla interest rate, inflation, basis and cross-currency swaps for all major currencies and some emerging markets) and non-linear OTC products (vanilla and structured options). Over 95% of gross PRV is collateralized. Uncollateralized RWA of less than CHF 2 billion is spread over more than 200 counterparties, of which over 60% were rated investment grade as of 30 June 2015. More than 50% of gross PRV is due to mature by end-2021.	4.2	5.5	0.2	0.3	59.2	82.3	38.6	46.5
Rates (non-linear)		0.9	1.4	0.2	0.2	22.6	37.6	9.5	12.0
Credit	Consists primarily of a residual structured credit book that is largely hedged against market risk. The remaining counterparty risk is fully collateralized and diversified across multiple names. The residual structured credit book is expected to materially run off by end-2018. Also includes corporate lending and residual distressed credit positions, with a similar expected run-off profile.	0.7	0.7	0.6	1.0	1.9	2.6	7.7	9.5
Securitizations	Consists primarily of a portfolio of CDS positions referencing ABS assets with related cash and synthetic hedges to mitigate the impact of directional movements. The majority of the remaining positions is expected to run off by end-2018.	2.8	3.7	1.3	1.7	0.6	0.7	2.5	3.0
Auction preferred stock (APS) and auction rate securities (ARS)	Portfolio of long-dated APS and municipal ARS. All APS were rated A or above and all ARS exposures were rated Ba1 or above as of 30 June 2015.	0.8	0.9	2.7	2.9	–	–	2.7	2.8
Muni swaps and options	Swaps and options with US state and local governments. Over 90% of the PRV is with counterparties that were rated investment grade as of 30 June 2015.	0.5	0.6	–	–	3.3	4.2	2.9	3.1
Other	Exposures to CVA and related hedging activity, as well as a diverse portfolio of smaller positions.	1.6	2.8	2.7	3.1	3.8	4.2	6.3	7.2
Operational risk	Operational risk RWA allocated to Non-core and Legacy Portfolio.	20.0	20.1	–	–	–	–	–	–
Total		31.6	35.7	7.8	9.3	91.4	131.6	70.4	84.2

¹ Fully applied and phase-in Basel III RWA. ² Funded assets are defined as total balance sheet assets less positive replacement values (PRV) and collateral delivered against over-the-counter (OTC) derivatives (CHF 14.2 billion as of 30 June 2015 and CHF 19.2 billion as of 31 March 2015). ³ Positive replacement values (gross exposure excluding the impact of any counterparty netting). ⁴ Swiss SRB leverage ratio denominator.

Risk and treasury management key developments

Risk management and control

Our credit exposures for the Group were broadly unchanged in the second quarter of 2015 and net credit loss expenses remained low at CHF 13 million. We continue to manage market risk at low levels.

We are closely monitoring developments in our domestic economy following the Swiss National Bank's removal of the minimum targeted exchange rate for the Swiss franc against the euro in January 2015. We expect the stronger Swiss franc to have a negative effect on the economy and exporters in particular, which could impact some of the counterparties within our domestic lending portfolio and lead to an increase in credit loss expenses in future periods from the low levels recently observed.

Our direct exposure to peripheral European countries remained limited and our direct exposure to Greece is minimal at CHF 3 million. We nevertheless continue to monitor the potential broader implications of adverse developments in the eurozone, particularly with regard to Greece. We are also closely following the developments in China, given the recent market volatility. Although we currently have no significant concerns with regard to our exposure profile, we are mindful that if markets were to fall significantly, this could have broad consequences for the Chinese economy, the impacts of which could be felt globally. Our combined stress testing framework is applied to a suite of macroeconomic and geopolitical stress scenarios, including the Eurozone Crisis and China hard landing scenarios, which consider such broader implications, ensuring the potential effects are captured in the calculation of our post-stress common equity tier 1 (CET1) capital ratio, a key element of our risk appetite framework.

Over the quarter, we further managed down our exposure to Puerto Rico municipal securities, reducing our net lending exposure collateralized by these instruments by more than half to USD 118 million.

Further strengthening of our Compliance and Operational Risk Control (C&ORC) function took place throughout the quarter, with the delivery of further enhanced consequential risk assessment processes, the consolidation of related disciplines into a single operational resilience function and continued enhancement to our monitoring and surveillance capabilities. These enhancements continue to strengthen C&ORC's capability as a robust second line of defense, which is able to provide constructive challenge and independent oversight.

Balance sheet

As of 30 June 2015, our balance sheet assets stood at CHF 950 billion, a decrease of CHF 99 billion from 31 March 2015, mainly due to a reduction in positive replacement values in both Corporate Center – Non-core and Legacy Portfolio and the Investment Bank. Funded assets, which represent total assets excluding positive replacement values and collateral delivered against over-the-counter derivatives, decreased by CHF 10 billion to CHF 751 billion, primarily due to currency effects resulting from the strengthening of the Swiss franc against the US dollar. Excluding currency effects, funded assets increased by approximately CHF 4 billion, mainly reflecting increases in cash and balances with central banks and loans, partly offset by a reduction in collateral trading assets.

Liquidity and funding management

Our liquidity and funding position remained strong during the second quarter of 2015 with a 3-month average liquidity coverage ratio of 121%. UBS AG was active in the senior unsecured bond market during the quarter with a total issuance amount equivalent to CHF 8.3 billion.

Capital management

Our fully applied common equity tier 1 (CET1) capital increased by CHF 0.7 billion to CHF 30.3 billion as of 30 June 2015 and our fully applied CET1 capital ratio increased 0.7 percentage points to 14.4%. On a phase-in basis, our CET1 capital decreased by CHF 2.1 billion to CHF 38.7 billion and our CET1 capital ratio decreased 0.4 percentage points to 18.2%. Risk-weighted assets decreased by CHF 7 billion to CHF 210 billion on a fully applied basis and by CHF 7 billion to CHF 212 billion on a phase-in basis. Our Swiss systemically relevant banks (SRB) leverage ratio increased 0.1 percentage points to 4.7% on a fully applied basis and decreased 0.2 percentage points to 5.4% on a phase-in basis. In the second quarter of 2015, our progressive buffer requirement for 2019 was reduced to 4.5% from 5.4%. As a result, our total capital requirement on a fully applied basis decreased to 17.5% for 2019, and to 12.6% on a phase-in basis as of 30 June 2015.

Risk management and control

Risk profile of the Group

Overview of risks arising from our business activities

The tables on the next page present the key drivers of tangible attributed equity by business division and Corporate Center unit, which are risk-weighted assets (RWA), Swiss SRB leverage ratio denominator (LRD) and risk-based capital (RBC). In addition, we show the average tangible attributed equity, total assets and adjusted operating profit before tax. Along with the description of key risks by business division and Corporate Center unit presented in our Annual Report 2014, this table provides an overview of how the activities in our business divisions and Corporate Center units are reflected in our risk measures, along with their respective performance.

The “Risk measures and performance” tables are followed by sections providing an update for the second quarter of 2015 on developments in credit risk (comprising banking products and traded products), market risk (including interest rate risk in the banking book), country risk, and operational risk.

An update on the development of RWA, LRD and attributed equity during the quarter is provided in the “Capital management” section of this report. The overall level of RBC was broadly unchanged at CHF 31 billion for UBS Group as of 30 June 2015.

→ Refer to the “Capital management” section of this report and our Annual Report 2014 for more information on RWA, LRD and our equity attribution framework

→ Refer to “Statistical measures” in the “Risk management and control” section of our Annual Report 2014 for more information on risk-based capital

UBS AG (consolidated) risk profile

The risk profile of UBS AG (consolidated) in the second quarter of 2015 was materially the same as that of UBS Group, and information provided in the remainder of this section is equally applicable to UBS AG (consolidated). Differences in the credit risk profile of the two consolidation scopes, relating to intercompany exposures between UBS AG and UBS Group AG, have been identified where applicable and are disclosed accordingly.

¹ Based on the Basel III framework as applicable for Swiss systemically relevant banks (SRB). Refer to the "Capital management" section of this report for more information. ² Negative market risk numbers are due to the diversification effect allocated to CC – Services. ³ Refer to the "Capital management" section of this report for more information. ⁴ Refer to "Statistical measures" in the "Risk management and control" section of our Annual Report 2014 for more information on risk-based capital. ⁵ Excludes CHF 8.2 billion (31 March 2015: CHF 7.9 billion) of centrally-held RBC items in the Corporate Center. For equity attribution, these RBC items are not allocated to the business divisions or Corporate Center units. ⁶ Excludes CHF 14.6 billion (31 March 2015: CHF 14.5 billion) of centrally-held average tangible equity attribution items within the Corporate Center relating to common equity not allocated to the business divisions or Corporate Center units. Refer to the "Capital management" section of this report for more information on our equity attribution framework. ⁷ Adjusted results are non-GAAP financial measures as defined by SEC Regulations. Refer to the table "Adjusted results" in the "Group performance" section of this report for more information.

Credit risk – internal risk view

Except where stated otherwise, the exposures detailed in this section are based on our internal management view of credit risk, which differs in certain respects from the measurement requirements of IFRS.

Banking products

Gross banking products exposures increased by CHF 16 billion to CHF 473 billion over the quarter, mainly driven by an increase in balances with central banks in Corporate Center – Group ALM.

Exposure related to loans decreased by CHF 1 billion to CHF 314 billion. The majority of our loan exposures are within our Retail & Corporate and wealth management businesses and are secured by residential and commercial properties or by securities. Net credit loss expenses for the quarter remained low at CHF 13 million.

→ Refer to the “Risk, treasury and capital management” section of our Annual Report 2014 for more information on credit risk, impairment and default

Gross banking products exposure within Wealth Management was unchanged over the quarter.

In Wealth Management Americas, credit exposures were broadly unchanged as increases in the securities-backed lending and mortgage portfolios in US dollar terms were offset by the strengthening of the Swiss franc against the US dollar. Puerto Rico-issued debt securities were subject to further rating agency downgrades over the quarter and Puerto Rico’s Governor declared the public debt unpayable. Consistent with these rating downgrades, we reduced the lending values we assign to the associated securities, and we reduced our total net lending exposure collateralized by Puerto Rico municipal securities and closed-end funds by USD 162 million to USD 118 million as of 30 June 2015. The associated collateral had a market value of USD 0.7 billion as

of 30 June 2015. Impairments related to these exposures decreased to USD 23 million. Secondary trading inventory in closed-end funds and Puerto Rico debt securities remained low at USD 8 million as of 30 June 2015.

→ Refer to the “Risk, treasury and capital management” section of our Annual Report 2014 for more information on our exposures to Puerto Rico municipal securities and associated closed-end funds

The overall size and composition of our Swiss mortgage portfolio in Retail & Corporate and Wealth Management, and the distribution of exposures across loan-to-value (LTV) buckets, was consistent with the position as of 31 March 2015. Average LTV for newly originated loans was 60% compared with the average LTV for the portfolio as a whole of 53%, both broadly unchanged compared with the prior quarter. In the Swiss residential mortgage loan book, 99.9% of the aggregate amount of loans would continue to be covered by the real estate collateral even if the value assigned to that collateral were to decrease by 20%, and 98.8% would remain covered if collateral values decreased by 30%, both broadly unchanged compared with the prior quarter.

Our Swiss corporate lending portfolio consists of loans to multinational and domestic counterparties. Although this portfolio is well diversified across industries, these Swiss counterparties are, in general, highly reliant on the domestic economy and the economies to which they export, in particular the EU and the US. In addition, the EUR/CHF exchange rate is an important risk factor for Swiss corporates. Since the Swiss National Bank (SNB) discontinued the minimum targeted exchange rate for the Swiss franc versus the euro on 15 January 2015, the Swiss franc has strengthened and remained strong. Considering the reliance of the Swiss economy on exports, the stronger Swiss franc is expected to have a negative effect on the Swiss economy, as seen in economic data for the first quarter of 2015, which shows that a decline in net exports had a significant adverse effect on quarterly growth.

To date, we have seen limited effects of the stronger Swiss franc on small and medium-sized enterprises, which we attribute, in part, to existing order books. However, with the average order period of three months now passed, we would expect to see a deterioration in the results of these enterprises over the next 12 months, particularly for export-oriented entities. The tourism sector has also been largely protected through the 2014/2015 winter season due to pre-existing bookings, and we therefore anticipate to see a fuller impact on the industry through extended hotel closure in the off-peak season and into the 2015/2016 winter season.

For multinationals, we foresee less of an impact. Since 2011, when the SNB established the Swiss franc floor, many multinationals have implemented tightened cost control schemes and have accelerated cross-border outsourcing to mitigate the effects of the strong Swiss franc. These actions, together with the general benefits of international diversification, and their greater ability to adapt to change, have cushioned the impact of the removal of the floor for multinationals.

In response to these heightened risks, we have performed detailed reviews, on a client-by-client basis, across a substantial portion of these Swiss portfolios to identify borrowers with higher sensitivity to foreign exchange rates and to assess the impact of the EUR/CHF floor break on their balance sheet, profitability and liquidity. Those clients deemed to have a higher risk of negative short-term impact are subject to more frequent monitoring. In addition, we continue to closely watch the broader portfolio for signs of deterioration. To date, we have seen a limited decline in credit quality. However, we expect the stronger Swiss franc to have a negative effect on the economy, which could impact some of the counterparties within our domestic lending portfolio and lead to an increase in credit loss expenses in future periods from the low levels recently observed.

Gross banking products exposure in the Investment Bank remained broadly unchanged at CHF 60 billion.

In Corporate Center – Group ALM, banking products exposure increased by CHF 18 billion due to higher balances with central banks, mainly resulting from a rebalancing of our high-quality liquid assets, from reverse repurchase agreements to cash and balances with central banks.

Traded products

Credit exposure arising from traded products, after reflecting the effects of master netting agreements, but before deduction of specific credit valuation adjustments and credit hedges, was CHF 49 billion, down by CHF 3 billion compared with the previous quarter. OTC derivatives accounted for CHF 23 billion of the traded products exposure, the majority of which were in Corporate Center – Non-core and Legacy Portfolio and the Investment Bank, and were predominantly with investment grade counterparties. As counterparty risk for traded products exposure is managed at a counterparty level, no split between exposures in the Investment Bank and those in the Non-core and Legacy Portfolio is provided. A further CHF 14 billion of traded products exposure as of 30 June 2015 relates to securities financing transactions, primarily within the Investment Bank and Corporate Center – Group ALM, unchanged compared with the prior quarter. The remaining CHF 11 billion of exposure relates to exchange-traded derivatives, largely within the Investment Bank.

Market risk

The tables on the next page show minimum, maximum, average and period-end management value-at-risk (VaR) by business division and Corporate Center unit and by general market risk type. Market risk, measured as 1-day, 95% confidence level management VaR was, on an average basis, unchanged compared with the prior quarter. Period-end management VaR for Corporate Center – Group ALM decreased from the end of the prior quarter, reflecting the progressive alignment of the banking book to the reduced target duration for the investment of our Swiss franc-denominated equity.

There were no downside Group VaR backtesting exceptions in the second quarter. There were two downside backtesting exceptions in the 12 months preceding the end of the quarter.

Also shown on the next pages are the statistics for regulatory VaR, stressed VaR and incremental risk charge (IRC) for the Group and by business division and Corporate Center unit, and the Group's comprehensive risk measure (CRM) used to calculate market risk Basel III RWA. The resulting RWA for each of these market risk models, and for risks-not-in-VaR (RniV), are shown in the table "Basel III risk-weighted assets by risk type, exposure and business divisions and Corporate Center units" in the "Capital management" section of this report.

→ Refer to "Market risk" in the "Risk, treasury and capital management" section of our Annual Report 2014 for more information on market risk measures and the derivation of market risk Basel III RWA from the results of the models

Interest rate risk in the banking book

As of 30 June 2015, the interest rate sensitivity to a +1 basis point parallel shift in yield curves was negative CHF 3.4 million compared with negative CHF 3.3 million as of 31 March 2015, as the change in Wealth Management Americas interest rate sensitivity was largely offset in Corporate Center – Group ALM. The increase by CHF 2.2 million in Wealth Management Americas' negative interest rate sensitivity was predominantly due to a rise in market rates, a change in deposit-modeling assumptions and a recalibration of the prepayment modeling for mortgage whole loans. The reduction by CHF 2.0 million in the negative interest rate sensitivity of Corporate Center – Group ALM reflected the progressive alignment of the banking book to the reduced target duration for the investment of our Swiss franc-denominated equity, which started in the prior quarter and was primarily in response to the prevailing negative interest rate environment for Swiss francs.

Due to the low interest rate levels, downward movements by 100/200 basis points are floored to ensure that the resulting interest rates are not negative. Despite the current negative interest rate environment for the Swiss franc in particular, and also to a certain extent for the euro, this flooring of interest rates is appropriate since it is being applied for Wealth Management and Retail & Corporate client transactions, as well as for the interest rates that are used for the transactions within the banking book process between the aforementioned businesses and Group ALM, for which actual interest rates are subject to floors. This effect results in non-linear behavior of the sensitivity, in particular in the US dollar when combined with prepayment risk on US mortgages and related products.

→ Refer to "Interest rate risk in the banking book" in the "Risk, treasury and capital management" section of our Annual Report 2014 for more information

¹ Statistics at individual levels may not be summed to deduce the corresponding aggregate figures. The minima and maxima for each level may occur on different days, and likewise the VaR for each business line or risk type, being driven by the extreme loss tail of the corresponding distribution of simulated profits and losses for that business line or risk type, may be driven by different days in the historical time-series, rendering invalid the simple summation of figures to arrive at the aggregate total. ² Difference between the sum of the standalone VaRs for the business divisions and Corporate Center and the VaR for the Group as a whole. ³ As the minimum and maximum occur on different days for different business divisions and Corporate Center, it is not meaningful to calculate a portfolio diversification effect.

Country risk

Our direct exposure to peripheral European countries remained limited and our direct exposure to Greece minimal at CHF 3 million. We nevertheless continue to monitor the potential broader implications of adverse developments in the eurozone, particularly with regard to Greece. We are also closely following the developments in China given the recent market volatility. Although we currently have no significant concerns with regard to our exposure profile, we are mindful that if markets were to fall significantly, this could have broad consequences for the Chinese economy, the impacts of which could be felt globally. Our combined stress testing framework is applied to a suite of macroeconomic and geopolitical stress scenarios, including the Eurozone Crisis and China hard landing scenarios, which consider such broader implications, ensuring the potential effects are captured in the calculation of our post-stress common equity tier 1 (CET1) capital ratio, a key element of our risk appetite framework.

We continue to monitor developments in Ukraine, including the potential effects of economic sanctions against Russian persons and entities. There has been no material change in our risk profile in Russia over the quarter, with our direct net exposure to Russia totaling CHF 0.7 billion as of 30 June 2015, approximately half of which is related to margin loans to Russian borrowers which are secured by global depository receipts issued on Russian companies.

Exposures to selected eurozone countries

The table “Exposures to selected eurozone countries” provides an overview of our exposures to eurozone countries rated lower than AAA/Aaa by at least one of the major rating agencies as of 30 June 2015.

→ Refer to “Country risk” in the “Risk, treasury and capital management” section of our Annual Report 2014 for information on our country risk framework and related exposure measures

Operational risk

We continued to strengthen our Compliance and Operational Risk Control (C&ORC) function throughout the quarter by further refining our consequential risk assessment processes, consolidating related disciplines into a single operational resilience function and by continually enhancing our monitoring and surveillance capabilities. These measures continue to strengthen C&ORC's capability as a robust second line of defense that provides constructive challenge and independent oversight.

The effective prevention of misconduct, or its early detection, remains of critical importance to us. In the second quarter, we progressed with the implementation of our conduct risk framework, embedding conduct risk into the operational risk taxonomy and throughout the different elements of the risk assessment process.

We expanded our ability to detect, deter and prevent unacceptable behavior through automated monitoring and surveillance. The implementation of globally consistent monitoring standards is progressing well with increased coverage across different risk taxonomies and business divisions. Our technologies will be further extended to recognize fraud patterns early.

Our integrated Operational Resilience function provides a center of expertise for risks associated with cyber crime, information security, business continuity and outsourcing. Following the integration of the Group Technology risk control activities into the C&ORC function in the first quarter, we continued to work

towards strengthening our cyber security defense to address the dynamic nature of the threat landscape and demonstrate readiness to respond to the highly sophisticated and carefully orchestrated cyber threats that the industry is facing. We continually assess our detective and responsive cyber threat capabilities and accordingly target our investment decisions in technology, cyber threat intelligence, incident management and communication.

As part of the ongoing effort to strengthen our control environment, we integrated the UBS Index Group, which has responsibility for the creation and maintenance of indices produced across UBS, into the C&ORC function in order to create a distinct second line of defense. This framework seeks to ensure consistency across UBS, mitigating regulatory, operational and reputational risk and enabling us to deliver the strongest possible index offering to our clients.

In the second quarter of 2015, we also progressed with the in-depth cyclical review of the Group advanced measurement approach (AMA) model design, methodology and calibration in close cooperation with FINMA. In April, we joined the Operational Risk Data eXchange Association (ORX), the world's leading operational risk (OR) data consortium, which enables sharing of anonymized OR loss data among member institutions. The investment in access to industry OR loss data will strengthen our ability to model OR capital requirements.

→ Refer to the "Capital management" section of this report for more information on the development of operational risk RWA during the quarter

Balance sheet

As of 30 June 2015, our balance sheet assets stood at CHF 950 billion, a decrease of CHF 99 billion from 31 March 2015, mainly due to a reduction in positive replacement values in both Corporate Center – Non-core and Legacy Portfolio and the Investment Bank. Funded assets, which represent total assets excluding positive replacement values and collateral delivered against over-the-counter derivatives, decreased by CHF 10 billion to CHF 751 billion, primarily due to currency effects resulting from the strengthening of the Swiss franc against the US dollar. Excluding currency effects, funded assets increased by approximately CHF 4 billion, mainly reflecting increases in cash and balances with central banks and loans, partly offset by a reduction in collateral trading assets.

Assets

Product category view

Positive replacement values (PRV) decreased by CHF 79 billion, primarily reflecting a CHF 40 billion reduction in Corporate Center – Non-core and Legacy Portfolio, mainly in our over-the-counter (OTC) rates derivative exposures. Within our rates portfolio, PRV decreased by CHF 38 billion, driven by fair value decreases following interest rate movements, as well as by our ongoing reduction activity including negotiated bilateral settlements, third-party novations, including transfers to central clearing houses and agreements to net down trades with other dealer counterparties. Moreover, PRV declined by CHF 37 billion in the Investment Bank, mainly due to reduced notional volumes, currency movements and shifts in yield curves.

Collateral trading assets decreased by CHF 18 billion, mainly due to a rebalancing of our high-quality liquid assets, from reverse repurchase agreements to cash and balances with central banks.

Other assets were CHF 9 billion lower, mainly due to a reduction in cash collateral receivables on derivative instruments, partly offset by an increase in prime brokerage receivables. Trading portfolio assets and financial investments available-for-sale decreased by CHF 5 billion and CHF 4 billion, respectively, primarily due to currency effects.

These decreases were partly offset by a CHF 16 billion increase in cash and balances with central banks primarily due to the abovementioned rebalancing of our high-quality liquid assets, combined with an increase resulting from higher short-term debt outstanding, partly offset by a reduction due to customer deposit outflows. Lending assets were broadly unchanged, but were approximately CHF 5 billion higher excluding currency effects, primarily reflecting increased Lombard lending in Wealth Management and Wealth Management Americas.

→ Refer to the “Balance sheet” and Notes 10 through 13 in the “Financial information” section of this report for more information

Balance sheet development – assets

CHF billion

¹ Funded assets, which represent total assets excluding positive replacement values and collateral delivered against OTC derivatives. ² Consists of due from banks, financial assets designated at fair value and loans. ³ Consists of reverse repurchase agreements and cash collateral on securities borrowed. ⁴ Includes cash collateral receivables on derivative instruments.

Total assets and funded assets

Funded assets	176.2	218.1	7.8	349.3	751.4	174.6	227.0	9.3	351.0	761.8

¹ Mainly consists of cash collateral receivables on derivative instruments and reverse repurchase agreements.

Divisional view

Non-core and Legacy Portfolio total assets decreased by CHF 47 billion to CHF 113 billion as of 30 June 2015, primarily due to the aforementioned reduction in PRV. Funded assets decreased by CHF 1 billion to CHF 8 billion, mainly due to the sale of bond positions held as hedges against derivative exposures in the securitizations portfolio, as well as a partial loan repayment and other smaller position reductions.

Investment Bank total assets decreased by CHF 39 billion to CHF 264 billion as of 30 June 2015, primarily within Investor Client Services, mainly reflecting a CHF 37 billion reduction in PRV. Funded assets increased by CHF 2 billion to CHF 176 billion and remained below our limit of CHF 200 billion. The increase during the quarter was mainly due to an increase in collateral trading assets and prime brokerage receivables in Investor Client Services, partly offset by a reduction in trading portfolio assets.

Group ALM total assets decreased by CHF 9 billion to CHF 218 billion as of 30 June 2015, mainly reflecting a reduction in collat-

eral trading assets, partly offset by an increase in cash and balances with central banks. Wealth Management, Wealth Management Americas, Retail & Corporate, Global Asset Management and Corporate Center – Services total assets were broadly unchanged at CHF 125 billion, CHF 55 billion, CHF 141 billion, CHF 14 billion and CHF 19 billion, respectively.

→ Refer to “Investment Bank” and “Corporate Center” within the “UBS business divisions and Corporate Center” section of this report for more information

Liabilities

Total liabilities decreased by CHF 96 billion to CHF 897 billion as of 30 June 2015. Negative replacement values decreased by CHF 80 billion, largely in line with the aforementioned decreases in PRV. Customer deposits decreased by CHF 22 billion, primarily reflecting our balance sheet and capital optimization program in Wealth Management and currency effects. Other liabilities were

Balance sheet development – liabilities and equity

CHF billion

¹ Consists of equity attributable to UBS Group AG shareholders and equity attributable to non-controlling interests. ² Consists of long-term debt issued and financial liabilities designated at fair value. ³ Consists of repurchase agreements and cash collateral on securities lent. ⁴ Consists of short-term debt issued and due to banks. ⁵ Includes trading portfolio liabilities and cash collateral payables on derivative instruments.

CHF 6 billion lower, mainly due to a reduction in cash collateral payables on derivative instruments.

These decreases were partly offset by an CHF 11 billion increase in short-term borrowings, which include short-term debt issued and interbank borrowing, primarily reflecting net issuances of both certificates of deposit and commercial paper. Long-term debt outstanding, which consists of financial liabilities designated at fair value and long-term debt issued, was broadly unchanged as issuances of senior unsecured bonds were offset by redemptions and maturities of subordinated and covered bonds, combined with fair value reductions of financial liabilities designated at fair value.

- Refer to the “Liquidity and funding management” section of this report for more information
- Refer to the “Balance sheet” and Notes 10 through 16 in the “Financial information” section of this report for more information

Equity

Equity attributable to UBS Group AG shareholders decreased by CHF 2,148 million to CHF 50,211 million.

Total comprehensive income attributable to UBS Group AG shareholders was a loss of CHF 595 million, reflecting the net profit attributable to UBS Group AG shareholders of CHF 1,209 million, which was more than offset by negative other comprehensive income (OCI) attributable to UBS Group AG shareholders of CHF 1,805 million (net of tax). Second quarter OCI included foreign currency translation losses of CHF 727 million, negative OCI related to cash flow hedges and financial investments available-for-sale of CHF 532 million and CHF 143 million, respectively,

as well as net losses on defined benefit plans of CHF 402 million.

The distribution of capital contribution reserves of UBS Group AG reduced share premium by CHF 1,822 million, partly offset by employee share-based compensation which increased share premium by CHF 218 million, mainly due to the amortization of deferred equity compensation awards.

Net treasury share activity reduced equity attributable to UBS Group AG shareholders by CHF 112 million.

In the second quarter of 2015, UBS Group AG increased its ownership in UBS AG which resulted in an increase of CHF 149 million in equity attributable to UBS Group AG shareholders.

Equity attributable to UBS Group AG shareholders: development during the second quarter of 2015

CHF million

Liquidity and funding management

Our liquidity and funding position remained strong during the second quarter of 2015 with a 3-month average liquidity coverage ratio of 121%. UBS AG was active in the senior unsecured bond market during the quarter with a total issuance amount equivalent to CHF 8.3 billion.

Strategy and objectives

We manage our liquidity and funding risk with the overall objective of optimizing the value of our business franchise across a broad range of market conditions and in consideration of current and future regulatory requirements. We employ a number of measures to monitor our liquidity and funding positions under normal and stressed conditions. In particular, we use stress scenarios to apply behavioral adjustments to our balance sheet and calibrate the results from these internal stress models with external measures, primarily the liquidity coverage ratio (LCR) and the net stable funding ratio (NSFR).

Liquidity

Our funding diversification and global scope help protect our liquidity position in the event of a crisis. Our contingent funding sources include a large multi-currency portfolio of unencumbered high-quality liquid assets a majority of which are short term, managed centrally by Group Asset and Liability Management, as well as available and unused liquidity facilities at several major central banks, and contingent reductions of liquid trading portfolio assets. We regularly assess and test all material, known and expected cash flows, as well as the level and availability of high-grade collateral that could be used to raise additional funding if required.

Liquidity coverage ratio

The liquidity coverage ratio (LCR) measures the short-term resilience of a bank's liquidity profile by comparing whether sufficient high-quality liquid assets (HQLA) are available to survive the expected net cash outflows from a significant liquidity stress scenario, as defined by the relevant regulator. Therefore, the LCR is a key metric used by banks and regulators within a liquidity management framework.

The BIS requires an LCR of at least 100% by 2019, with a phase-in period starting from 2015. UBS, as a Swiss systemically relevant bank, has since 1 January 2015 been required to maintain a total LCR of at least 100%, as well as a Swiss franc-denominated LCR of at least 100%.

In a period of financial stress, FINMA may allow banks to use their HQLA and let their LCR temporarily fall below the minimum threshold of 100%. FINMA requires that the LCR as of the quarter end is calculated based on the 3-month average of the LCR components.

As of 30 June 2015, our 3-month average total LCR was 121%, a decrease from 122% as of 31 March 2015, mainly due to a reduction in HQLA reflecting lower cash and balances with central banks, partially offset by a decrease in expected net cash outflows, mainly related to non-operational deposits reflecting our balance sheet and capital optimization program in Wealth Management.

In addition to LCR requirements for the Group, there may be such requirements applicable at the legal entity level. Moreover, certain legal entities are subject to restrictions that prevent the transfer of liquidity between legal entities of the Group.

We monitor the LCR in Swiss francs and in all other significant currencies to manage any currency mismatches between HQLA and the net expected cash outflows in times of stress.

Funding

Our outstanding long-term debt, including structured debt reported as financial liabilities designated at fair value, was broadly unchanged at CHF 136 billion as of 30 June 2015. Issuances of senior unsecured bonds were offset by redemptions and maturities of subordinated and covered bonds, combined with fair value reductions of financial liabilities designated at fair value.

Long-term debt excluding structured debt, which comprises both senior and subordinated debt and is presented within *Debt issued* on the balance sheet, increased by CHF 4 billion to CHF 69 billion as of 30 June 2015, driven by new issuances equivalent to CHF 8.3 billion, partly offset by redemptions equivalent to CHF 2.6 billion during the second quarter of 2015. Senior debt includes both publicly and privately placed notes and bonds, as well as covered bonds and Swiss Pfandbriefe.

During the second quarter of 2015, we continued to raise medium and long-term funds through medium-term note programs and private placements and through Swiss Pfandbriefe issuances. In addition, during the second quarter of 2015, UBS AG issued EUR-denominated senior unsecured bonds in an amount equivalent to CHF 5.5 billion consisting of three tranches: i) EUR 2.5 billion 2-year floating rate ii), EUR 1.25 billion 3-year fixed rate with a coupon of 0.5% and iii) EUR 1.5 billion 5-year fixed rate with a coupon of 1.125%. Moreover, UBS AG issued USD-denominated senior unsecured bonds in an amount equivalent to CHF 2.8 billion composed of the following tranches: i) USD 1.25 billion 2-year fixed rate with a coupon of 1.375%, ii) USD 0.75 billion 2-year and USD 0.25 billion 5-year floating rate notes, iii) USD 0.75 billion increase to an outstanding 5-year 2.375% fixed rate bond with an initial issuance date in March 2015. These issuances were partly offset by the maturity of a EUR 1.0 billion 3.6-year 2.0% fixed rate covered bond and a CHF 0.5 billion 10-year 2.375% subordinated Tier 2 bond, as well as the call, in April 2015, of EUR 1.0 billion in perpetual preferred securities, which were eligible as hybrid capital subject to phase-out. Our short-term interbank deposits, presented as *Due to banks* on the balance sheet, together with our outstanding short-term debt, increased by CHF 11 billion, mainly driven by net issuances of both certificates of deposit and commercial paper. Our overall customer deposits as a component of our funding sources declined 1.4% to 57.5% as shown in the table on the next page, reflecting our balance sheet and capital optimization program in Wealth Management, combined with currency effects.

In March 2015, Moody's commenced an industry-wide review of bank ratings based on a new rating methodology. On 28 May 2015, Moody's communicated an upgrade of UBS AG's long-term deposit rating by one notch from A2 to A1. On 8 July 2015, Moody's confirmed UBS AG's A2 senior long-term debt rating, issuer ratings and the Prime-1 short-term debt and commercial paper ratings. These actions concluded Moody's review, and the outlook is stable. On 9 June 2015, S&P revised the UBS AG outlook to stable from negative. On 15 June 2015, S&P and Fitch both assigned a long-term rating of A (stable outlook) to UBS Switzerland AG, consistent with UBS AG's ratings.

Net stable funding ratio

In June 2015, the Basel Committee on Banking Supervision (BCBS) issued its guidance on "Net stable funding ratio (NSFR) disclosure standards" which are intended to provide a common disclosure framework for banks to disclose the calculation of the NSFR adopted by the BCBS in October 2014. Subject to national implementation, internationally active banks must comply with the NSFR and disclosure requirements from 1 January 2018.

The NSFR framework is intended to limit over-reliance on short-term wholesale funding to encourage better assessment of funding risk across all on- and off-balance sheet items, and to promote funding stability. NSFR consists of two components, the available stable funding (ASF) and the required stable funding (RSF). ASF is defined as the portion of capital and liabilities expected to be available over the period of one year. RSF is a function of the maturity, encumbrance and other characteristics of assets held and off-balance sheet exposures. The BCBS NSFR regulatory framework requires a ratio of at least 100% from 2018.

UBS reports its estimated pro-forma NSFR based on current guidance from FINMA and will adjust NSFR reporting according to the final implementation of the BCBS NSFR disclosure standards in Switzerland. As of 30 June 2015, our estimated pro-forma NSFR was 104%, slightly down from the 106% as of 31 March 2015. The second quarter 2015 NSFR incorporates the changes based on the October 2014 BCBS standard. The main changes led to increased required stable funding, partially offset by increased available stable funding, as shown in the table on the next page.

Capital management

Our fully applied common equity tier 1 (CET1) capital¹ increased by CHF 0.7 billion to CHF 30.3 billion as of 30 June 2015 and our fully applied CET1 capital ratio increased 0.7 percentage points to 14.4%. On a phase-in basis, our CET1 capital decreased by CHF 2.1 billion to CHF 38.7 billion and our CET1 capital ratio decreased 0.4 percentage points to 18.2%. Risk-weighted assets decreased by CHF 7 billion to CHF 210 billion on a fully applied basis and by CHF 7 billion to CHF 212 billion on a phase-in basis. Our Swiss SRB leverage ratio increased 0.1 percentage points to 4.7% on a fully applied basis and decreased 0.2 percentage points to 5.4% on a phase-in basis. In the second quarter of 2015, our progressive buffer requirement for 2019 was reduced to 4.5% from 5.4%. As a result, our total capital requirement on a fully applied basis decreased to 17.5% for 2019, and to 12.6% on a phase-in basis as of 30 June 2015.

¹ Unless otherwise indicated, all information in this section is based on the Basel III framework as applicable for Swiss systemically relevant banks (SRB).

Our capital requirements

¹ Includes the effect of the countercyclical buffer requirement for 31 March and 30 June 2015. Capital requirements for 31 December 2015 to 2019 do not include a countercyclical buffer requirement, as potential future developments cannot be accurately predicted and may vary from period to period. ² CET1 capital can be substituted by high-trigger loss-absorbing capital up to the stated percentage. ³ Numbers for 31 December 2015 to 2019 are based on latest information available and current supervisory guidance from FINMA. High-trigger loss-absorbing capital qualifies as progressive buffer capital until the end of 2017.

Swiss SRB Basel III capital framework

UBS is considered a systemically relevant bank (SRB) under Swiss banking law and both UBS Group and UBS AG are, on a consolidated basis, required to comply with regulations based on the Basel III framework as applicable for Swiss SRB. In addition, both UBS AG and UBS Switzerland AG are subject to capital regulations on a standalone basis. All our capital disclosures therefore focus on Swiss SRB Basel III capital information. Differences between Swiss SRB and BIS Basel III capital information on a UBS Group level are outlined in the subsection "Differences between Swiss SRB and BIS Basel III capital."

→ Refer to "Supplemental financial information (unaudited) for selected legal entities of the UBS Group" in the "Financial information" section of this report, and to the documents "UBS AG Second quarter 2015 report" and "UBS Switzerland AG (standalone) regulatory information" which will be available from 31 July 2015 in the section "Quarterly reporting" of our Investor Relations website at www.ubs.com/investors for more information

Regulatory framework

The Basel III framework came into effect in Switzerland on 1 January 2013 and includes prudential filters for the calculation of capital. These prudential filters consist mainly of capital deductions for deferred tax assets (DTA) recognized for tax loss carry-forwards,

DTA on temporary differences that exceed the threshold and effects related to defined benefit plans. As these filters are being phased in between 2014 and 2018, their effects are gradually factored into our calculations of capital, risk-weighted assets (RWA) and capital ratios on a phase-in basis and are entirely reflected in our capital, RWA and capital ratios on a fully applied basis.

In 2015, we deduct from our phase-in CET1 capital 40% (in 2014: 20%) of: (i) DTA recognized for tax loss carry-forwards, (ii) DTA on temporary differences that exceed the threshold of 10% of CET1 capital excluding DTA on temporary differences and (iii) the effects related to the Swiss defined benefit plan under IAS 19 (revised).

As of 1 April 2015, we have accelerated the phase-in of the cumulative difference between IAS 19 (revised) accounting applied for fully applied Basel III CET1 calculations and the pro-forma IAS 19 treatment applied for Basel III CET1 phase-in calculations. This resulted in a CHF 1.8 billion reduction in our phase-in CET1 capital as of 1 April 2015.

Based on current FINMA regulations, capital instruments that were treated as hybrid tier 1 capital and as tier 2 capital under the Basel 2.5 framework are being phased out under Basel III between 2013 and 2019. On a phase-in basis, our capital and capital ratios include the applicable portion of these capital instruments not yet phased out. Our capital and capital ratios on a fully applied basis do not include these capital instruments.

Capital requirements

As of 30 June 2015, our total capital requirement for UBS Group and UBS AG (consolidated) was 12.6% of our RWA compared with 13.2% as of 31 March 2015. This decrease was due to a reduction in our progressive buffer requirement to 2.8% compared with 3.4% as of 31 March 2015. The requirement as of 30 June 2015 consisted of: (i) base capital of 4.5%, (ii) buffer capital of 5.3%, of which 0.2% was attributable to the countercyclical buffer capital requirement and (iii) progressive buffer capital of 2.8%. We satisfied the base and buffer capital requirements, including the countercyclical buffer, through our CET1 capital. In addition, since 31 March 2015, high-trigger loss-absorbing capital is included in the buffer capital. Low-trigger loss-absorbing capital satisfied the progressive buffer capital requirement.

National regulators can put in place a countercyclical buffer requirement of up to 2.5% of RWA for credit exposures in their jurisdiction. The Swiss Federal Council has activated a countercyclical buffer requirement, which has been 2% since 30 June 2014.

Our requirement for the progressive buffer is dynamic and depends on our leverage ratio denominator (LRD) and our market share in the loans and deposits business in Switzerland. In the second quarter of 2015, the progressive buffer requirement for 2019 was reduced to 4.5% from 5.4%, reflecting updated LRD and market share information for 2014 provided by FINMA in June 2015. As a result, our total capital requirement on a fully applied basis decreased to 17.5% for 2019 from 18.4%. Furthermore, banks governed under the Swiss SRB framework are eligible for an additional capital rebate on the progressive buffer if they

take actions that facilitate recovery and resolvability beyond the minimum requirements to ensure the integrity of systemically important functions in the case of an impending insolvency. We have undertaken or announced a series of measures intended to improve our resolvability. These measures include the establishment of UBS Group AG as the holding company of UBS Group and of UBS Switzerland AG as our new banking subsidiary in Switzerland, the implementation of a revised business and operating model for UBS Limited, as well as establishing an intermediate holding company in the US. We expect that the Group will qualify for a rebate on the progressive buffer capital requirement applicable to Swiss systemically relevant banks, which should result in lower overall capital requirements for the Group. FINMA has confirmed that our announced measures are in principle suitable to warrant a rebate, although the amount and timing of any such rebate will depend on the actual execution of these measures and can therefore only be specified once all measures are implemented.

Similar to the other capital component requirements, the progressive buffer requirement is phased in gradually until 2019. As a result of the aforementioned reduction in the fully applied requirement, as of 30 June 2015, the progressive buffer requirement was 2.8% compared with 3.4% as of 31 March 2015.

The Basel Committee on Banking Supervision (BCBS) and other financial regulators are currently considering to propose changes to the Basel III capital framework. These changes, if adopted, would result in higher RWA for our current activities.

→ Refer to the “Recent developments” section of this report for more information

Swiss SRB Basel III capital information (UBS Group)

Capital information disclosures in this section focus on UBS Group AG (consolidated). Relevant information for UBS AG (consolidated) is provided in the section "Swiss SRB Basel III capital information (UBS AG consolidated)."

Swiss SRB Basel III available capital versus capital requirements (phase-in)

CHF million, except where indicated	Capital ratio (%)				Capital			
	Requirement ¹	Actual ^{2,3}			Requirement	Actual ^{2,3}

Total	12.6	25.0	25.9	25.5	26,782	52,923	56,752	56,310

¹ The total capital ratio requirement of 12.6% is the current phase-in requirement according to the Swiss Capital Adequacy Ordinance. Prior to the implementation of the Basel III framework, FINMA also defined a total capital ratio target for UBS Group of 14.4% which will be effective until it is exceeded by the Swiss SRB Basel III phase-in capital requirement. ² Swiss SRB Basel III CET1 capital exceeding the base capital requirement is allocated to the buffer capital. ³ Since 31 March 2015, high-trigger loss-absorbing capital (LAC) is included in the buffer capital. As of 31 December 2014, high-trigger LAC was included in the progressive buffer capital. ⁴ CET1 capital can be substituted by high-trigger LAC up to 2.3% in 2015.

Risk-weighted assets	212,088	219,358	220,877	209,777	216,385	216,462

¹ Consists on a phase-in basis of low-trigger loss-absorbing capital (30 June 2015: CHF 2,145 million, 31 March 2015: CHF 2,266 million, 31 December 2014: CHF 0 million) and hybrid capital subject to phase-out (30 June 2015: CHF 1,840 million, 31 March 2015: CHF 2,929 million, 31 December 2014: CHF 3,210 million), partly offset by required deductions for goodwill (30 June 2015: CHF 3,729 million, 31 March 2015: CHF 3,855 million, 31 December 2014: CHF 3,677 million).

Capital ratios

In the second quarter of 2015, our fully applied CET1 capital ratio increased 0.7 percentage points to 14.4%, resulting from a CHF 6.6 billion decrease in fully applied RWA and a CHF 0.7 billion increase in our fully applied CET1 capital. On a phase-in basis, our CET1 capital ratio decreased 0.4 percentage points to 18.2%, due to a decrease of CHF 2.1 billion in phase-in CET1 capital, partly offset by a CHF 7.3 billion decrease in phase-in RWA.

Our tier 1 capital ratio increased 0.7 percentage points to 16.2% on a fully applied basis and decreased 0.9 percentage points to 19.1% on a phase-in basis. A decrease in phase-in additional tier 1 (AT1) capital of CHF 1.1 billion contributed to the decrease in our phase-in tier 1 capital ratio.

In the second quarter of 2015, our total capital ratio increased 0.6 percentage points to 21.2% on a fully applied basis and decreased 0.9 percentage points to 25.0% on a phase-in basis.

Post-stress CET1 capital ratio

Subject to maintaining our target of a fully applied CET1 capital ratio of at least 13% and our objective of maintaining a post-stress fully applied CET1 capital ratio of at least 10%, we are targeting a total payout ratio of at least 50% of net profit attributable to UBS shareholders. As of 30 June 2015, our post-stress CET1 capital ratio exceeded the 10% objective.

→ Refer to the “Risk factors” and the “Capital management” sections of our Annual Report 2014 for more information on our post-stress CET1 capital ratio

Eligible capital

Tier 1 capital

Our tier 1 capital consists of CET1 capital and AT1 capital. An analysis of our tier 1 capital movement in the second quarter of 2015 is provided in the table “Swiss SRB Basel III capital movement.”

Our CET1 capital mainly consists of share capital, share premium (which consists primarily of additional paid-in capital related to shares issued) and retained earnings. A detailed reconciliation of IFRS equity to CET1 capital is provided in the table “Reconciliation IFRS equity to Swiss SRB Basel III capital.”

During the second quarter of 2015, our fully applied CET1 capital increased by CHF 0.7 billion to CHF 30.3 billion, mainly reflecting the operating profit before tax in the second quarter, partly offset by negative foreign currency translation effects and accruals for capital returns to shareholders. Our phase-in CET1 capital decreased by CHF 2.1 billion to CHF 38.7 billion, mainly due to a reduction of CHF 1.8 billion related to the accelerated application of the IAS 19 (revised) treatment of defined benefit plans, and accruals for capital returns to shareholders, partly offset by the operating profit before tax in the second quarter.

Our AT1 capital was broadly unchanged at CHF 3.8 billion on a fully applied basis and decreased by CHF 1.1 billion to CHF 1.9 billion on a phase-in basis, mainly related to the call, in April 2015, of EUR 1.0 billion in perpetual preferred securities, which were eligible as hybrid capital subject to phase-out.

As of 30 June 2015, our high-trigger loss-absorbing AT1 capital amounted to CHF 1.6 billion and consisted of USD-denominated notes in the amount of USD 1.25 billion with a write-down threshold set at a 7% phase-in CET1 capital ratio, as well as deferred contingent capital plan (DCCP) awards granted for the performance year 2014 with a write-down threshold set at a 7% phase-in CET1 capital ratio, or 10% with respect to awards granted to members of the Group Executive Board. Our low-trigger loss-absorbing AT1 capital amounted to CHF 2.1 billion and consisted of notes with a nominal amount of USD 1.25 billion and EUR 1.0 billion, respectively, and a write-down threshold set at a 5.125% phase-in CET1 capital ratio. In addition to the CET1 capital ratio trigger, our loss-absorbing capital instruments would be written down if FINMA determined that a write-down were necessary to ensure UBS's viability, or if UBS received a commitment of governmental support that FINMA determined to be necessary

Common equity tier 1 (CET1) capital ratio

Total capital ratio

to ensure UBS's viability. As of 30 June 2015, our phase-in AT1 capital also included hybrid capital of CHF 1.8 billion, which is subject to phase-out under the Basel III framework. On a phase-in basis, AT1 capital was partly offset by required deductions for goodwill of CHF 3.7 billion as of 30 June 2015.

Tier 2 capital

During the second quarter of 2015, our fully applied tier 2 capital decreased by CHF 0.5 billion to CHF 10.5 billion. On a phase-in basis, our tier 2 capital decreased by CHF 0.7 billion to CHF 12.3 billion. These decreases were both mainly due to negative foreign currency translation effects.

As of 30 June 2015, low-trigger loss-absorbing capital accounted for approximately CHF 9.6 billion of tier 2 capital and consisted of one euro-denominated and four US dollar-denominated subordinated notes with a write-down threshold set at a 5% phase-in UBS AG (consolidated) CET1 capital ratio. Further-

more, our tier 2 capital included high-trigger loss-absorbing capital of approximately CHF 0.9 billion, as outstanding deferred contingent capital plan (DCCP) awards granted for the performance years 2012 and 2013 qualify as tier 2 loss-absorbing capital, with a write-down threshold set at a 7% phase-in CET1 capital ratio, or 10% with respect to awards granted to members of the Group Executive Board for the performance year 2013. In addition, our loss-absorbing capital instruments would be written down if FINMA determined that a write-down were necessary to ensure UBS's viability, or if UBS received a commitment of governmental support that FINMA determined to be necessary to ensure UBS's viability.

The remainder of tier 2 capital of approximately CHF 1.8 billion on a phase-in basis consisted of outstanding tier 2 instruments which will be phased out by 2019, based on current FINMA regulations.

Additional capital information

In order to ensure the consistency and comparability of regulatory capital instruments disclosures for all market participants, BIS and FINMA Basel III Pillar 3 rules require banks and banking groups to disclose the main features of eligible capital instruments and their terms and conditions. This information is available in the "Bondholder information" section of our Investor Relations website.

→ Refer to "Bondholder information" at www.ubs.com/investors for more information on the capital instruments of UBS Group and UBS AG on a consolidated and on a standalone basis

In order to fulfill the BIS and FINMA Basel III Pillar 3 composition of capital disclosure requirements, a full reconciliation of all regulatory capital elements to the published IFRS balance sheet will be disclosed in our UBS Group Basel III Pillar 3 First Half 2015 Report, which will be published by the end of August 2015 on our Investor Relations website.

→ Refer to the "Pillar 3, SEC filings & other disclosures" section at www.ubs.com/investors

The scope of consolidation for the purpose of calculating Group regulatory capital is generally the same as the scope under IFRS and includes subsidiaries directly or indirectly controlled by UBS Group AG that are active in the banking and finance sector. However, subsidiaries consolidated under IFRS that are active in sectors other than banking and finance are excluded from the regulatory scope of consolidation. More information on the IFRS scope of consolidation, the list of significant subsidiaries included in this scope and details on entities that are treated differently under the regulatory and the IFRS scope of consolidation as of 31 December 2014 are available in the "Financial information" section of our Annual Report 2014. Details as of 30 June 2015 on entities which are treated differently under the regulatory and the IFRS scope of consolidation will be disclosed in our UBS Group Basel III Pillar 3 First Half 2015 Report.

→ Refer to "Note 1 Summary of significant accounting policies" and "Note 30 Interests in subsidiaries and other entities" and "UBS Group AG consolidated supplemental disclosures required under Basel III Pillar 3 regulations" in the "Financial information" section of our Annual Report 2014, and the "Pillar 3, SEC filings & other disclosures" section at www.ubs.com/investors for more information

We have estimated the loss in capital that we could incur as a result of the risks associated with the matters described in "Note 16 Provisions and contingent liabilities" to our consolidated financial statements. For this purpose, we have used the advanced measurement approach (AMA) methodology that we use when determining the capital requirements associated with operational risks, based on a 99.9% confidence level over a 12-month horizon. The methodology takes into consideration UBS and industry experience for the AMA operational risk categories to which those matters correspond, as well as the external environment affecting risks of these types, in isolation from other areas. On this standalone basis, we estimate the loss in capital that we could incur over a 12-month period as a result of our risks associated with these operational risk categories at CHF 3.6 billion as of 30 June 2015. Because this estimate is based upon historical data for the relevant risk categories, it does not constitute a subjective assessment of UBS's actual exposures in those matters and does not take into account any provisions recognized for those matters. For this reason, and because some of those matters are not expected to be resolved within the next 12 months, any possible losses that we may incur with respect to those matters may be materially more or materially less than this estimated amount.

→ Refer to "Note 16 Provisions and contingent liabilities" in the "Financial information" section of this report for more information

Sensitivity to currency movements

Group Asset and Liability Management (Group ALM) is mandated with the task of minimizing adverse effects from changes in currency rates on our fully applied CET1 capital and capital ratios. A significant portion of our Basel III capital and RWA is denominated in US dollars, euros, British pounds and other foreign currencies. In order to hedge the CET1 capital ratio, CET1 capital needs to have foreign currency exposure, leading to currency sensitivity of CET1 capital. As a consequence, it is not possible to simultaneously fully hedge the capital and the capital ratio. As the proportion of RWA denominated in foreign currencies outweighs the capital in these currencies, a significant appreciation of the Swiss franc against these currencies could benefit our Basel III capital ratios, while a significant depreciation of the Swiss franc against

these currencies could adversely affect our Basel III capital ratios. The Group Asset and Liability Management Committee (Group ALCO), a committee of the UBS Group Executive Board, can adjust the currency mix in capital, within limits set by the Board of Directors, to balance the effect of foreign exchange movements on the fully applied CET1 capital and capital ratio. Limits are in place for the sensitivity of both CET1 capital and the capital ratio to a $\pm 10\%$ change in the value of the Swiss franc against other currencies.

The currency mix of our capital also affects the sensitivity of our leverage ratios to foreign exchange movements. When adjusting the currency mix in capital, potential effects on the leverage ratios are taken into account.

We estimate that a 10% depreciation of the Swiss franc against other currencies would have increased fully applied CET1 capital by CHF 975 million as of 30 June 2015 (31 March 2015: CHF 1,013 million) and would have reduced the fully applied CET1 capital ratio by 18 basis points (31 March 2015: 15 basis points). Conversely, we estimate that a 10% appreciation of the Swiss franc against other currencies would have reduced fully

applied CET1 capital by CHF 882 million (31 March 2015: CHF 917 million) and increased the fully applied CET1 capital ratio by 18 basis points (31 March 2015: 15 basis points). The above-mentioned estimated effects do not consider foreign currency translation effects related to defined benefit plans other than those related to the currency translation of the net equity of foreign operations.

Differences between Swiss SRB and BIS Basel III capital

Our Swiss SRB Basel III and BIS Basel III capital is the same on both a fully applied and a phase-in basis, except for two specific items. First, under Swiss SRB rules, the amount of our tier 2 high-trigger loss-absorbing capital, in the form of awards under our 2012 and 2013 DCCP, was higher by CHF 455 million than under BIS rules as of 30 June 2015. Second, a portion of unrealized gains on financial investments available-for-sale, totaling CHF 160 million as of 30 June 2015, was recognized as tier 2 capital under BIS Basel III rules, but not under Swiss SRB regulations.

Total	12.6	23.8	24.5	25.6	26,792	50,580	53,823	56,591

¹ The total capital ratio requirement of 12.6% is the current phase-in requirement according to the Swiss Capital Adequacy Ordinance. Prior to the implementation of the Basel III framework, FINMA also defined a total capital ratio target for UBS AG consolidated of 14.4% which will be effective until it is exceeded by the Swiss SRB Basel III phase-in capital requirement. ² Swiss SRB Basel III CET1 capital exceeding the base capital requirement is allocated to the buffer capital.

Differences between UBS Group AG (consolidated) and UBS AG (consolidated)

As of 30 June 2015, fully applied total capital of UBS AG (consolidated) was CHF 2.1 billion lower than for UBS Group AG (consolidated), reflecting CHF 3.8 billion lower AT1 capital and CHF 0.9 billion lower tier 2 capital, partly offset by CHF 2.6 billion higher CET1 capital.

The difference of CHF 2.6 billion in fully applied CET1 capital was primarily due to compensation-related regulatory capital accruals, liabilities and capital instruments which are reflected on the level of UBS Group AG following the transfer of the grantor function for the Group's employee deferred compensation plans from UBS AG to UBS Group AG in 2014.

The difference of CHF 3.8 billion in fully applied AT1 capital relates to the issuances of AT1 capital notes on a UBS Group AG level in the first quarter of 2015, as well as CHF 0.5 billion of high-trigger loss-absorbing DCCP awards granted to eligible employees for the performance year 2014.

The difference of CHF 0.9 billion in tier 2 capital relates to high-trigger loss-absorbing capital, in the form of 2012 and 2013 DCCP awards, held at the UBS Group AG level.

Differences in RWA between UBS Group AG (consolidated) and UBS AG (consolidated) were not material as of 30 June 2015.

→ Refer to "UBS Group – Changes to our legal structure" section of our Annual Report 2014 for more information on the transfer of the grantor function for the Group's employee deferred compensation plans

Risk-weighted assets (UBS Group)

Our risk-weighted assets (RWA) under BIS Basel III are the same as under Swiss SRB Basel III. Furthermore, RWA on a fully applied basis are the same as on a phase-in basis, except for differences related to defined benefit plans and DTA on temporary differences.

On a fully applied basis, any net defined benefit-related asset recognized in accordance with IAS 19 (revised) *Employee Benefits* is fully deducted from CET1 capital. On a phase-in basis, the deduction of net defined benefit-related assets from capital is phased in, and the portion of the net defined benefit asset that is not yet deducted from CET1 capital is risk weighted at 100%.

On a fully applied basis, DTA on temporary differences that are below the fully applied deduction threshold are risk weighted at 250%. On a phase-in basis the amount risk weighted at 250% is higher due to the higher deduction threshold.

Due to the aforementioned differences, as of 30 June 2015, our phase-in RWA were CHF 2.3 billion higher than our fully applied RWA, entirely attributable to non-counterparty-related risk RWA.

In the second quarter of 2015, RWA decreased by CHF 6.6 billion to CHF 209.8 billion on a fully applied basis and by CHF 7.3 billion to CHF 212.1 billion on a phase-in basis. Detailed RWA information is presented in the tables "Basel III risk-weighted assets by risk type, exposure and business divisions and Corporate Center units" on the following pages.

→ Refer to the "Corporate Center" section of this report for more information on risk-weighted assets of Corporate Center – Non-core and Legacy Portfolio

Credit risk

Credit risk RWA were broadly unchanged at CHF 107.4 billion as of 30 June 2015 compared with CHF 107.9 billion as of 31 March 2015. Credit risk RWA decreased by CHF 2.9 billion in Corporate Center – Non-core and Legacy Portfolio and by CHF 0.6 billion in Wealth Management Americas, partly offset by increases of CHF 1.4 billion in the Investment Bank and CHF 0.9 billion in Corporate Center – Group Asset and Liability Management.

The decrease of CHF 2.9 billion in the Corporate Center – Non-core and Legacy Portfolio was mainly due to a decrease in derivative exposures, the sale of banking book securitization positions and foreign currency effects.

Credit risk RWA in Wealth Management Americas decreased by CHF 0.6 billion, mainly due to a decrease in loan exposures and foreign currency effects.

The increase of CHF 1.4 billion in the Investment Bank was mainly due to the introduction of the internal ratings-based multiplier on exposures to corporates and increased loan facilities.

Credit risk RWA in Corporate Center – Group Asset and Liability Management increased by CHF 0.9 billion, mainly due to higher RWA on default fund contributions to qualified central counterparties.

Non-counterparty-related risk

Non-counterparty-related risk RWA increased by CHF 0.4 billion to CHF 15.0 billion on a fully applied basis and decreased by CHF 0.3 billion to CHF 17.3 billion on a phase-in basis. The decrease in phase-in non-counterparty-related risk RWA was primarily due to a decrease related to defined benefit pension plans, partly offset by an increase in DTA on temporary differences.

Market risk

Market risk RWA decreased by CHF 2.4 billion to CHF 12.7 billion, mainly due to decreases of CHF 1.1 billion in Corporate Center – Non-core and Legacy Portfolio, CHF 0.9 billion in the Investment Bank and CHF 0.9 billion in Corporate Center – Services. Stressed value-at-risk (VaR) based RWA decreased by CHF 0.8 billion mainly due to lower exposure in the 60-day average calculation. As a result, add-on for risks-not-in-VaR decreased by CHF 0.9 billion.

→ Refer to “Market risk” in the “Risk management and control” section of this report for more information

Operational risk

Operational risk RWA decreased by CHF 4.0 billion to CHF 74.7 billion as of 30 June 2015. Incremental operational risk RWA based on the supplemental operational risk capital analysis mutually agreed to by UBS and FINMA decreased by CHF 4.2 billion to CHF 13.3 billion as of 30 June 2015. Of this decrease, CHF 3.0 billion was attributable to Corporate Center – Services and CHF 1.2 billion to the Investment Bank.

→ Refer to “Operational risk” in the “Risk management and control” section of this report for more information

Leverage ratio framework

Our total Swiss SRB leverage ratio requirements and actual ratios

¹ Defined as the respective total capital ratio requirement (excluding the countercyclical buffer requirement) multiplied by 24%. Numbers for 31 December 2015 to 2019 are based on latest information available and current supervisory guidance from FINMA.

The Swiss SRB leverage ratio is calculated by dividing the sum of period-end CET1, AT1 and other loss-absorbing capital by the three-month average total adjusted exposure (leverage ratio denominator), which consists of IFRS on-balance sheet assets and off-balance sheet items, based on the regulatory scope of consolidation and adjusted for the netting of derivatives, the current exposure method (CEM) add-on for derivatives and other items.

The "Swiss SRB leverage ratio requirements (phase-in)" tables in the following sections show the total leverage ratio requirement, as well as the requirements by capital components and the actual leverage ratio information for UBS Group and UBS AG (consolidated).

The Swiss SRB leverage ratio requirement is equal to 24% of the capital ratio requirements (excluding the countercyclical buffer requirement). As of 30 June 2015, the effective total leverage ratio requirement was 3.0%. Our CET1 capital covered the leverage ratio requirements for the base and buffer capital components, and the low-trigger loss-absorbing capital satisfied our leverage ratio requirement for the progressive buffer component. In addition, since 31 March 2015, high-trigger loss-absorbing capital is included in the buffer capital component for UBS Group.

On 1 January 2015, disclosure requirements for the leverage ratio in accordance with BIS Basel III regulations came into effect in Switzerland. We disclose BIS Basel III leverage ratio information in line with FINMA disclosure requirements for UBS Group, and UBS AG on a standalone basis. During the one-year transition period, we will also disclose a pro-forma measure of the Swiss SRB leverage ratio using a denominator based on the BIS Basel III definition, referred to as the supplemental leverage ratio. Starting this quarter, we provide the same information for UBS Switzerland AG on a standalone basis.

→ Refer to the document "UBS Group AG (consolidated) BIS Basel III leverage ratio information" in the section "Quarterly reporting" of our Investor Relations website at www.ubs.com/investors for more detailed BIS Basel III leverage ratio information

→ Refer to "Supplemental financial information (unaudited) for selected legal entities of the UBS Group" in the "Financial information" section of this report, and to the documents "UBS AG Second quarter 2015 report" and "UBS Switzerland AG (stand-alone) regulatory information" which will be available from 31 July 2015 in the section "Quarterly reporting" of our Investor Relations website at www.ubs.com/investors for more information

Leverage ratio information (UBS Group)

Swiss SRB leverage ratio

During the second quarter of 2015, our fully applied Swiss SRB leverage ratio increased 0.1 percentage points to 4.7% as of 30 June 2015, mainly driven by a reduction in the leverage ratio denominator (LRD). On a phase-in basis, our Swiss SRB leverage ratio decreased 0.2 percentage points to 5.4%, mainly due to decreases in CET1 and AT1 capital, partly offset by a decrease in the LRD.

On a phase-in basis, the LRD decreased by CHF 33 billion to CHF 949 billion. This decrease was mainly related to on-balance sheet assets which declined by CHF 72 billion, primarily due to lower positive replacement values, partly offset by lower netting of derivative exposures of CHF 43 billion. Average off-balance sheet items decreased by CHF 8 billion, reflecting the exclusion, on a prospective basis from the second quarter of 2015, of

uncommitted security-based lending credit lines in Wealth Management, following the reassessment that we are not committed to extend credit under these contracts, and a decrease in unused credit facilities.

From a divisional perspective, the decrease was mainly attributable to exposure decreases of CHF 15 billion in Corporate Center – Group Asset and Liability Management, CHF 14 billion in Corporate Center – Non-core and Legacy Portfolio, CHF 4 billion in the Investment Bank and CHF 4 billion in Wealth Management, partly offset by exposure increases of CHF 5 billion in Corporate Center – Services.

→ Refer to the “Corporate Center” section of this report for more information on exposures held in Corporate Center – Non-core and Legacy Portfolio

→ Refer to the “Balance sheet” section of this report for more information on balance sheet movements

Swiss SRB leverage ratio requirements (phase-in)

CHF million, except where indicated	Swiss SRB leverage ratio (%)				Swiss SRB leverage ratio capital			
	Requirement ¹		Actual ^{2,3}		Requirement		Actual ^{2,3}

Total	3.0	5.4	5.6	5.4	28,374	51,125	54,776	54,260

¹ Requirements for base capital (24% of 4.5%), buffer capital (24% of 5.1%) and progressive buffer capital (24% of 2.8%). The total leverage ratio requirement of 3.0% is the current phase-in requirement according to the Swiss Capital Adequacy Ordinance. In addition, FINMA defined a total leverage ratio target of 3.5%, which will be effective until it is exceeded by the Swiss SRB Basel III phase-in requirement. ² Swiss SRB Basel III CET1 capital exceeding the base capital requirement is allocated to the buffer capital. ³ Since 31 March 2015, high-trigger loss-absorbing capital (LAC) is included in the buffer capital. As of 31 December 2014, high-trigger LAC was included in the progressive buffer capital. ⁴ CET1 capital can be substituted by high-trigger LAC up to 0.5% in 2015.

BIS Basel III leverage ratio

As of 30 June 2015, our fully applied BIS Basel III leverage ratio was 3.6%, an increase of 0.2 percentage points compared with 31 March 2015. On a phase-in basis, our BIS Basel III leverage ratio was 4.3%, a decrease of 0.1 percentage points compared with 31 March 2015.

The BIS Basel III LRD decreased by CHF 42 billion to CHF 954 billion on a phase-in basis. This decrease was mainly related to CHF 25 billion lower derivative exposures, driven by a reduction in positive replacement values and cash collateral receivables on derivative instruments of CHF 89 billion, partly offset by lower netting of derivative exposures and a reduction in eligible cash variation margin of CHF 75 billion. In line with the reduction in replacement values, the current exposure method (CEM) add-on for derivatives decreased by CHF 7 billion. In addition, securities financing transaction exposures decreased by CHF 24 billion,

mainly due to lower reverse repurchase agreements. Other off-balance sheet exposures decreased by CHF 5 billion, reflecting the exclusion, on a prospective basis from the second quarter of 2015, of uncommitted security-based lending credit lines in Wealth Management, following the reassessment that we are not committed to extend credit under these contracts, and a decrease in unused credit facilities. These decreases were partly offset by CHF 12 billion higher on-balance sheet exposures, excluding derivative exposures and securities financing transaction exposures.

→ Refer to the document “UBS Group AG (consolidated) BIS Basel III leverage ratio information” in the section “Quarterly reporting” of our Investor Relations website at www.ubs.com/investors for more information on our BIS Basel III leverage ratio in line with FINMA disclosure requirements

→ Refer to the “Balance sheet” section of this report for more information on balance sheet movements

BIS Basel III leverage ratio

<i>CHF million, except where indicated</i>	30.6.15	31.3.15
Phase-in		
BIS Basel III tier 1 capital	40,593	43,801
BIS total exposures (leverage ratio denominator)	954,043	995,863
BIS Basel III leverage ratio (%)	4.3	4.4
Fully-applied		
BIS Basel III tier 1 capital	34,042	33,515
BIS total exposures (leverage ratio denominator)	949,331	990,548
BIS Basel III leverage ratio (%)	3.6	3.4

Supplemental leverage ratio

The following table provides a pro-forma measure of the Swiss SRB leverage ratio using a denominator based on BIS Basel III rules.

Supplemental leverage ratio

<i>CHF million, except where indicated</i>	30.6.15	31.3.15
Phase-in		
Swiss SRB Basel III common equity tier 1 capital including loss-absorbing capital	51,125	54,776
BIS total exposures (leverage ratio denominator)	954,043	995,863
Supplemental leverage ratio (%)	5.4	5.5
Fully-applied		
Swiss SRB Basel III common equity tier 1 capital including loss-absorbing capital	44,573	44,490
BIS total exposures (leverage ratio denominator)	949,331	990,548
Supplemental leverage ratio (%)	4.7	4.5

Leverage ratio information (UBS AG consolidated)

As of 30 June 2015, the Swiss SRB leverage ratio of UBS AG (consolidated) was 0.2 percentage points and 0.3 percentage points lower than that of UBS Group AG (consolidated) on a fully applied and phase-in basis, respectively. This was mainly due to CET1 capital including loss-absorbing capital of UBS AG

(consolidated) being CHF 2.1 billion and CHF 2.3 billion lower on a fully applied and phase-in basis, respectively. Differences in LRD between UBS AG (consolidated) and UBS Group (consolidated) were not material as of 30 June 2015.

Swiss SRB leverage ratio requirements (phase-in)

	Swiss SRB leverage ratio (%)				Swiss SRB leverage ratio capital			
CHF million, except where indicated	Requirement ¹	Actual ²			Requirement	Actual ²		
	30.6.15	30.6.15	31.3.15	31.12.14	30.6.15	30.6.15	31.3.15	31.12.14
Base capital (common equity tier 1 capital)	1.1	1.1	1.1	1.0	10,270	10,270	10,625	9,658
Buffer capital (common equity tier 1 capital)	1.2	3.0	3.2	3.4	11,697	28,899	31,183	34,432
Progressive buffer capital (low-trigger loss-absorbing capital)	0.7	1.0	1.0	1.0	6,462	9,613	10,038	10,451
Total	3.0	5.1	5.3	5.4	28,429	48,783	51,847	54,542

¹ Requirements for base capital (24% of 4.5%), buffer capital (24% of 5.1%) and progressive buffer capital (24% of 2.8%). The total leverage ratio requirement of 3.0% is the current phase-in requirement according to the Swiss Capital Adequacy Ordinance. In addition, FINMA defined a total leverage ratio target of 3.5%, which will be effective until it is exceeded by the Swiss SRB Basel III phase-in requirement. ² Swiss SRB Basel III CET1 capital exceeding the base capital requirement is allocated to the buffer capital.

Swiss SRB leverage ratio (UBS Group AG vs UBS AG consolidated)

¹ Represent assets recognized on the balance sheet in accordance with IFRS measurement principles, but based on the regulatory scope of consolidation. Refer to the "UBS Group AG consolidated supplemental disclosures required under Basel III Pillar 3 regulations" section of our Annual Report 2014 for more information on the regulatory scope of consolidation. ² In accordance with current Swiss SRB leverage ratio requirements, the leverage ratio denominator excludes forward starting repos, securities lending indemnifications and CEM add-ons for exchange-traded derivatives (ETD), both proprietary and agency transactions, and for OTC derivatives with a qualifying central counterparty.

Equity attribution and return on attributed equity

The equity attribution framework reflects our objectives of maintaining a strong capital base and managing performance by guiding each business toward activities that appropriately balance profit potential, risk and capital usage. This framework, which includes some forward-looking elements, enables us to integrate Group-wide capital management activities with those at a business division level and to calculate and assess return on attributed equity (RoAE) for each of our business divisions.

Tangible equity is attributed to our business divisions by applying a weighted-driver approach that combines fully applied Basel III capital requirements with internal models to determine the amount of capital required to cover each business division's risk.

Risk-weighted assets (RWA) and leverage ratio denominator (LRD) usage are converted to their common equity tier 1 (CET1) equivalents based on capital ratios as targeted by industry peers. Risk-based capital (RBC) is converted to its CET1 equivalent based on a conversion factor that considers the amount of RBC exposure covered by loss-absorbing capital. In addition to tangible equity, we allocate equity to support goodwill and intangible assets as well as certain Basel III capital deduction items. Group items within the Corporate Center carry common equity not allocated to the business divisions. This includes equity required to align total attributed equity with Group capital targets, as well as attributed equity for PaineWebber goodwill and intangible assets, for centrally held RBC items and for certain Basel III capital deduc-

tion items. The amount of equity attributed to all business divisions and Corporate Center corresponds to the amount we believe is required to maintain a strong capital base and to support our businesses adequately, and it can differ from the Group's actual equity during a given period.

→ Refer to the "Risk management and control" section of this report and our Annual Report 2014 for more information on average tangible attributed equity and risk-based capital

Average total equity attributed to the business divisions and Corporate Center was CHF 44.5 billion in the second quarter of 2015, a decrease of CHF 0.6 billion compared with the prior quarter. This decrease was due to lower attributed equity in Corporate Center – Non-core and Legacy Portfolio, Wealth Management, Retail & Corporate, Global Asset Management and Corporate Center – Group ALM, partly offset by higher attributed equity in Corporate Center – Services.

During the second quarter of 2015, average equity attributable to UBS Group AG shareholders decreased to CHF 51.3 billion from CHF 51.5 billion as of 31 March 2015. The difference between average equity attributable to UBS Group AG shareholders and average equity attributed to the business divisions and Corporate Center was CHF 6.8 billion in the second quarter of 2015, mainly reflecting certain Basel III capital deduction items that are not included in the equity attribution framework.

UBS shares

UBS Group AG shares

As of 30 June 2015, shares issued by UBS Group AG totaled 3,759,320,804 shares, reflecting an increase of 19,802,414 shares in the second quarter of 2015 due to the issuance of 17,500,000 shares out of authorized share capital, as further UBS AG shares were privately exchanged into UBS Group AG shares, and the issuance of 2,302,414 shares out of conditional share capital upon exercise of employee share options.

For the purpose of acquiring UBS AG shares, UBS Group AG's Board of Directors is authorized until 26 November 2016 to increase the share capital of the company. The maximum number of shares available to increase the share capital of UBS Group AG for this purpose totaled 88,825,456 registered shares as of 30 June 2015.

UBS Group AG shares are registered shares with a par value of CHF 0.10 per share. They are traded and settled as global registered shares. Global registered shares provide direct and equal ownership for all shareholders, irrespective of the country and stock exchange on which they are traded. UBS Group AG shares are listed on the SIX Swiss Exchange (SIX) and the New York Stock Exchange (NYSE).

Treasury shares, which are primarily held to hedge employee share and option participation plans, increased by 10,658,912 shares during the second quarter of 2015, totaling 95,917,796 shares as of 30 June 2015.

→ Refer to the "UBS Group – Changes to our legal structure" section of our Annual Report 2014 for more information on the establishment of UBS Group AG

UBS AG shares

As of 30 June 2015, shares issued by UBS AG totaled 3,858,408,466 shares, reflecting an increase of 13,847,553 shares in the second quarter due to the issuance of new UBS AG shares out of conditional share capital upon distribution of an optional share dividend in May 2015. As of 30 June 2015, UBS Group held 97.8% of total UBS AG shares issued and 98.1% of UBS AG shares registered in the commercial register.

The treasury shares and the shares held by shareholders with a non-controlling interest, totaling 88,926,311 shares on a combined basis, represent the UBS AG shares which were not exchanged into UBS Group AG shares as of 30 June 2015.

UBS AG shares are registered shares with a par value of CHF 0.10 per share. UBS AG shares are currently listed on the SIX.

Refer to Note 25 in the Annual Report 2014 for more information. ³ Includes dividends received from associates reported within cash flow from/(used) investing activities.

Notes to the UBS Group AG interim consolidated financial statements

Note 1 Basis of accounting

The consolidated financial statements (the Financial Statements) of UBS Group AG and its subsidiaries (together "UBS" or "the Group") are prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), and are stated in Swiss francs (CHF), the currency of Switzerland where UBS Group AG is incorporated. These interim Financial Statements are presented in accordance with IAS 34, *Interim Financial Reporting*.

In preparing these interim Financial Statements, the same accounting policies and methods of computation have been applied as in the UBS Group AG consolidated annual Financial Statements for the period ended 31 December 2014, except for the changes described below and those identified in "Note 1 Basis of accounting" in the "Financial information" section of the first quarter 2015 report. These interim Financial Statements are unaudited and should be read in conjunction with UBS Group AG's audited consolidated Financial Statements included in the Annual Report 2014. In the opinion of management, all necessary adjustments were made for a fair presentation of the Group's financial position, results of operations and cash flows.

Preparation of these interim Financial Statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities. These estimates and assumptions are based on the best available information. Actual results in the future could differ from such estimates and such differences may be material to the Financial Statements. Revisions to estimates, based on regular reviews, are recognized in the period in which they occur. For more information on areas of estimation uncertainty considered to require critical judgment, refer to item 2 of "Note 1a) Significant accounting policies" of the Annual Report 2014.

Change in segment reporting related to fair value gains and losses on certain internal funding transactions and own credit

Consistent with changes in the manner in which operating segment performance is assessed, beginning in the second quarter of 2015, UBS now applies fair value accounting for certain internal funding transactions between Corporate Center – Group ALM and the Investment Bank and Corporate Center – Non-core and Legacy Portfolio, rather than applying amortized cost accounting.

This treatment better aligns with the mark-to-market basis on which these internal transactions are risk managed within the Investment Bank and Corporate Center – Non-core and Legacy Portfolio. The terms of the funding transactions remain otherwise unchanged. In connection with this change, we now present own credit gains and losses on financial liabilities designated at fair value in Corporate Center – Group ALM instead of Corporate Center – Services. Prior periods have been restated to reflect these changes. As a result, operating income and performance before tax for the first quarter of 2015 decreased by CHF 8 million in the Investment Bank, increased by CHF 40 million in Corporate Center – Non-core and Legacy Portfolio and decreased by CHF 226 million in Corporate Center – Services, with an offsetting increase of CHF 195 million in Corporate Center – Group ALM. These changes did not affect the Group's total operating income or net profit for any period presented.

We are also exploring further enhancements to the manner in which we measure own credit gains and losses and expect to implement a refined methodology in the second half of 2015. Additionally, we expect to early adopt the own credit presentation requirements of IFRS 9 for financial liabilities designated at fair value through profit and loss as of the first quarter of 2016. Under IFRS 9, changes in the fair value of such liabilities related to own credit will be recognized in *Other comprehensive income* and will not be reclassified to the income statement. We will adopt the other requirements of IFRS 9 (classification and measurement, impairment and hedge accounting) as of the mandatory effective date in 2018.

→ Refer to Note 2 for more information

Service allocations from Corporate Center – Services to business divisions and other Corporate Center units

In the second quarter of 2015, the Group revised the presentation of service allocations from Corporate Center – Services to the business divisions and other Corporate Center units to better reflect the economic relationship between them. These cost allocations were previously presented within the *Personnel expenses, General and administrative expenses and Depreciation and impairment of property, equipment and software* line items and are newly presented in the *Services (to)/from business divisions and Corporate Center* reporting line items. Prior period information was restated to reflect this change. This change in presentation

did not affect total operating expenses or performance before tax of the business divisions and Corporate Center units for any period presented.

→ Refer to Note 2 for more information

Review of actuarial assumptions used in calculating the defined benefit obligations of the non-Swiss pension plans

UBS regularly reviews the actuarial assumptions used in calculating its defined benefit obligations to determine their continuing

relevance. In connection with its detailed methodology review of the actuarial assumptions used in calculating its defined benefit obligation for its Swiss pension plan performed in the first quarter of 2015, UBS performed a similar review for its non-Swiss pension plans in the second quarter of 2015. As a result, UBS enhanced methodologies and refined approaches used to estimate various actuarial assumptions. These improvements in estimates resulted in a net decrease in the defined benefit obligations of the non-Swiss pension plans of approximately CHF 0.1 billion and a corresponding increase in *Other comprehensive income*.

Note 2 Segment reporting

UBS's businesses are organized globally into five business divisions: Wealth Management, Wealth Management Americas, Retail & Corporate, Global Asset Management and the Investment Bank, supported by the Corporate Center. The five business divisions qualify as reportable segments for the purpose of segment reporting and, together with the Corporate Center and its units, reflect the management structure of the Group. The non-core activities and positions formerly in the Investment Bank are managed and reported in the Corporate Center. Together with the Legacy Portfolio, these non-core activities and positions are reported as a separate reportable segment within the Corporate Center as Non-core and Legacy Portfolio. Financial information about the five business divisions and the Corporate Center (with its units) is presented separately in internal management reports to the Group Executive Board, which is considered the "chief operating decision maker" within the context of IFRS 8 Operating Segments.

UBS's internal accounting policies, which include management accounting policies and service level agreements, determine the revenues and expenses directly attributable to each reportable segment. Internal charges and transfer pricing adjustments are reflected in operating results of the reportable segments. Transactions between the reportable segments are carried out at internally agreed rates or at arm's length and are also reflected in the operating results of the reportable segments. Revenue-sharing agreements are used to allocate external client revenues to reportable segments where several reportable segments are involved in the value-creation chain. Commissions are credited to the reportable segments based on the corresponding client relationship. Net interest income is generally allocated to the reportable segments based on their balance sheet positions. Interest income earned from managing UBS's consolidated equity is allocated to the reportable segments based on average attributed equity. Own credit gains and losses on financial liabilities design-

nated at fair value are excluded from the measurement of performance of the business divisions and are reported in Corporate Center – Group ALM. Total intersegment revenues for the Group are immaterial as the majority of the revenues are allocated across the segments by means of revenue-sharing agreements.

Assets and liabilities of the reportable segments are funded through, and invested with, Corporate Center - Group ALM and the net interest margin is reflected in the results of each reportable segment.

As part of the annual business planning cycle, Corporate Center – Services agrees with the business divisions and other Corporate Center units cost allocations for services at fixed amounts or at variable amounts based on fixed formulas, depending on capital and service consumption levels, as well as the nature of the services performed. Because actual costs incurred may differ from those expected, however, Corporate Center – Services may recognize significant under or over-allocations depending on various factors. Each year these cost allocations will be reset, taking account of the prior years' experience and plans for the forthcoming period.

Segment balance sheet assets are based on a third-party view and do not include intercompany balances. This view is in line with internal reporting to management. Certain assets managed centrally by Corporate Center – Services and Corporate Center – Group ALM (including property, equipment and software and certain financial assets) are allocated to the segments on a basis different to which the corresponding costs and/or revenues are allocated. Specifically, certain assets are reported in Corporate Center – Services and Corporate Center – Group ALM, whereas the corresponding costs and/or revenues are entirely or partially allocated to the segments based on various internally determined allocations. Similarly, certain assets are reported in the business divisions, whereas the corresponding costs and/or revenues are entirely or partially allocated to Corporate Center – Services.

Total general and administrative expenses³	1,695	1,713	1,871	(1)	(9)	3,408	3,550

¹ Reflects the net increase/release of provisions for litigation, regulatory and similar matters recognized in the income statement. In addition, the second quarter of 2015 included recoveries from third parties of CHF 0 million (first quarter of 2015: CHF 9 million; second quarter of 2014: CHF 5 million). ² Refer to Note 16 for more information. ³ Includes restructuring charges. Refer to Note 18 for more information.

Note 8 Income taxes

The Group recognized a net income tax expense of CHF 443 million for the second quarter of 2015 compared with a net expense of CHF 670 million in the first quarter. The second quarter net expense included a tax expense of CHF 209 million in respect of the amortization of deferred tax assets previously recognized in relation to tax losses carried forward and deductible temporary differences to reflect their offset against Swiss taxable profits for

the quarter. It also included net tax expenses of CHF 216 million, which mainly relates to branches and subsidiaries that incur current tax expenses. In addition, following the reassessment of deferred tax asset recognition in the first quarter to reflect changes in tax law and updated local profit forecasts in certain locations, a further decrease in deferred tax assets of CHF 18 million was recognized in the second quarter.

Note 10 Fair value measurement

This note provides fair value measurement information for both financial and non-financial instruments and should be read in conjunction with "Note 24 Fair Value Measurement" of the Annual Report 2014 which provides more information on valuation

principles, valuation governance, valuation techniques, valuation adjustments, fair value hierarchy classification, sensitivity of fair value measurements and methods applied to calculate fair values for financial instruments not measured at fair value.

a) Valuation adjustments

Day-1 reserves

The table below provides the changes in deferred day-1 profit or loss reserves during the respective period. Amounts deferred are

released and gains or losses are recorded in Net trading income when pricing of equivalent products or the underlying parameters become observable or when the transaction is closed out.

Deferred day-1 profit or loss

CHF million	For the quarter ended			Year-to-date	
	30.6.15	31.3.15	30.6.14	30.6.15	30.6.14
Balance at the beginning of the period	458	480	514	480	486
Profit/(loss) deferred on new transactions	69	76	44	145	147
(Profit)/loss recognized in the income statement	(86)	(81)	(93)	(167)	(163)
Foreign currency translation	(16)	(17)	5	(33)	0
Balance at the end of the period	425	458	469	425	469

Credit valuation, funding valuation, debit valuation and other valuation adjustments

The effects of credit valuation, funding valuation, debit valuation and other valuation adjustments are summarized in the table below.

Valuation adjustments on financial instruments

Other valuation adjustments	(0.8)	(0.8)	(0.9)
of which: bid-offer	(0.5)	(0.5)	(0.5)
of which: model uncertainty	(0.4)	(0.4)	(0.4)

¹ Amounts do not include reserves against defaulted counterparties.

Own credit adjustments on financial liabilities designated at fair value

The effects of own credit adjustments related to financial liabilities designated at fair value (predominantly issued structured products) as of 30 June 2015, 31 March 2015 and 30 June 2014, respectively, are summarized in the table below. Life-to-date

amounts reflect the cumulative change since initial recognition. The change in own credit for the period ended consists of changes in fair value that are attributable to the change in UBS's credit spreads as well as the effect of changes in fair values attributable to factors other than credit spreads, such as redemptions, effects from time decay and changes in interest and other market rates.

Own credit adjustments on financial liabilities designated at fair value

¹ Bifurcated embedded derivatives are presented on the same balance sheet lines as their host contracts and are excluded from this table. As of 30 June 2015, net bifurcated embedded derivative assets held at fair value, totaling CHF 0.2 billion (of which CHF 0.6 billion were net Level 2 assets and CHF 0.5 billion net Level 2 liabilities) were recognized on the balance sheet within Debt issued. As of 31 March 2015, net bifurcated embedded derivative assets held at fair value, totaling CHF 0.1 billion (of which CHF 0.7 billion were net Level 2 assets and CHF 0.6 billion net Level 2 liabilities) were recognized on the balance sheet within Debt issued. As of 31 December 2014, net bifurcated embedded derivative liabilities held at fair value, totaling CHF 0.0 billion (of which CHF 0.3 billion were net Level 2 assets and CHF 0.3 billion net Level 2 liabilities) were recognized on the balance sheet within Debt issued. ² Financial assets held for trading do not include precious metals and commodities. ³ Other assets and other liabilities primarily consist of assets held for sale as well as assets and liabilities of a disposal group held for sale, which are measured at the lower of their net carrying amount or fair value less costs to sell. Refer to Note 18 for more information on the disposal group held for sale.

All financial and non-financial assets and liabilities measured or disclosed at fair value are categorized into one of three fair value hierarchy levels. In certain cases, the inputs used to measure fair value may fall within different levels of the fair value hierarchy. For disclosure purposes, the level in the hierarchy within which the instrument is classified in its entirety is based on the lowest level input that is significant to the position's fair value measurement:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets and liabilities;
- Level 2 – valuation techniques for which all significant inputs are, or are based on, observable market data or
- Level 3 – valuation techniques for which significant inputs are not based on observable market data.

Note 10 Fair value measurement (continued)**c) Transfers between Level 1 and Level 2 in the fair value hierarchy**

The amounts disclosed reflect transfers between Level 1 and Level 2 for instruments which were held for the entire reporting period.

Assets totaling approximately CHF 1.0 billion, which were mainly comprised of financial investments available-for-sale, primarily corporate and municipal bonds, and financial assets held for trading, and liabilities totaling approximately CHF 0.1 billion were transferred from Level 2 to Level 1 during the first six months of 2015, generally due to increased levels of trading activity observed within the market.

Assets totaling approximately CHF 0.5 billion, which were mainly comprised of financial investments available-for-sale, primarily corporate bonds and municipal bonds, and financial assets held for trading, were transferred from Level 1 to Level 2 during the first six months of 2015, generally due to diminished levels of trading activity observed within the market. Transfers of financial liabilities from Level 1 to Level 2 during the first six months of 2015 were not significant.

d) Movements of Level 3 instruments**Significant changes in Level 3 instruments**

The table on the following pages presents additional information about Level 3 assets and liabilities measured at fair value on a recurring basis. Level 3 assets and liabilities may be hedged with instruments classified as Level 1 or Level 2 in the fair value hierarchy and, as a result, realized and unrealized gains and losses included in the table may not include the effect of related hedging activity. Further, the realized and unrealized gains and losses presented within the table are not limited solely to those arising from Level 3 inputs, as valuations are generally derived from both observable and unobservable parameters.

Assets and liabilities transferred into or out of Level 3 are presented as if those assets or liabilities had been transferred at the beginning of the year.

As of 30 June 2015, financial instruments measured with valuation techniques using significant non-market-observable inputs (Level 3) were mainly comprised of:

- structured reverse repurchase and securities borrowing agreements;
- credit derivative contracts;
- equity/index contracts;
- non-structured fixed-rate bonds and
- structured debt instruments issued (equity and credit-linked).

Significant movements in Level 3 instruments during the first six months of 2015 are described below.

Financial assets held for trading

Financial assets held for trading decreased to CHF 2.8 billion from CHF 3.5 billion during the first six months of 2015. Issuances of CHF 3.0 billion and purchases of CHF 0.3 billion, mainly comprised of loans and corporate bonds, were more than offset by sales of CHF 3.2 billion, primarily comprised of loans, and net losses included in comprehensive income totaling CHF 0.6 billion. Transfers out of Level 3 during the first six months of 2015 amounted to CHF 0.5 billion and were primarily comprised of loans and corporate bonds, reflecting increased observability of the respective credit spread inputs. Transfers into Level 3 amounted to CHF 0.4 billion and were mainly comprised of equity instruments and mortgage-backed securities due to decreased observability of the respective equity market pricing and credit spread inputs.

Financial assets designated at fair value

Financial assets designated at fair value decreased to CHF 3.4 billion from CHF 3.5 billion during the first six months of 2015, mainly reflecting net losses of CHF 0.6 billion included in comprehensive income and transfers out of Level 3 totaling CHF 0.4 billion, mostly offset by issuances of CHF 0.9 billion.

Note 10 Fair value measurement (continued)

Financial investments available-for-sale

Financial investments available-for-sale decreased to CHF 0.5 billion from CHF 0.6 billion during the first six months of 2015, reflecting sales totaling CHF 0.1 billion.

Positive replacement values

Positive replacement values decreased to CHF 3.8 billion from CHF 4.4 billion during the first six months of 2015. Settlements and issuances amounted to CHF 1.7 billion and CHF 1.5 billion, respectively, and were primarily related to credit derivative contracts and equity / index contracts. Transfers into Level 3 amounted to CHF 0.4 billion and were mainly comprised of interest rate contracts and equity/index contracts, primarily resulting from changes in the correlation between the portfolios held and the representative market portfolio used to independently verify market data. Transfers out of Level 3 amounted to CHF 0.3 billion and were mainly comprised of equity / index contracts and credit derivative contracts resulting from changes in the availability of observable inputs for equity volatility and credit spreads.

Negative replacement values

Negative replacement values decreased to CHF 3.7 billion from CHF 5.0 billion during the first six months of 2015. Settlements and issuances amounted to CHF 1.0 billion and CHF 0.4 billion, respectively, and were primarily comprised of equity / index con-

tracts and credit derivative contracts. Transfers into and out of Level 3 amounted to CHF 0.4 billion and CHF 0.3 billion, respectively, and were mainly comprised of equity / index contracts and credit derivative contracts resulting from changes in the availability of observable inputs for equity volatility and credit spreads.

Financial liabilities designated at fair value

Financial liabilities designated at fair value decreased to CHF 10.9 billion from CHF 11.9 billion during the first six months of 2015. Settlements of CHF 3.7 billion, primarily comprised of equity and credit-linked structured debt instruments issued, structured over-the-counter debt instruments and structured repurchase agreements, were more than offset by issuances of CHF 3.8 billion, mainly comprised of equity and credit-linked structured debt instruments issued and non-structured fixed-rate bonds, as well as net losses of CHF 0.4 billion included in comprehensive income. Foreign currency translation effects reduced financial liabilities designated at fair value by CHF 0.9 billion. Transfers into and out of Level 3 amounted to CHF 1.0 billion and CHF 1.6 billion, respectively, and were primarily comprised of equity-linked structured debt instruments issued and non-structured fixed-rate bonds, resulting from changes in the availability of observable equity volatility and credit spread inputs used to determine the fair value of the embedded options in these structures.

² Total Level 3 assets as of 30 June 2015 were CHF 10.5 billion (31 March 2015: CHF 11.2 billion, 31 December 2014: CHF 12.2 billion). Total Level 3 liabilities as of 30 June 2015 were CHF 14.8 billion (31 March 2015: CHF 15.6 billion, 31 December 2014: CHF 17.0 billion).

Note 10 Fair value measurement (continued)**e) Valuation of assets and liabilities classified as Level 3**

The table on the following pages presents assets and liabilities recognized at fair value and classified as Level 3, together with the valuation techniques used to measure fair value, the significant inputs used in the valuation technique that are considered unobservable and a range of values for those unobservable inputs.

The range of values represents the highest and lowest level input used in the valuation techniques. Therefore, the range does not reflect the level of uncertainty regarding a particular input, but rather the different underlying characteristics of the relevant assets and liabilities. The ranges will therefore vary from period to period and parameter to parameter based on characteristics of the instruments held at each balance sheet date. Further, the ranges of unobservable inputs may differ across other financial institutions due to the diversity of the products in each firm's inventory.

Significant unobservable inputs in Level 3 positions

This section discusses the significant unobservable inputs identified in the table on the following pages and assesses the potential effect that a change in each unobservable input in isolation may have on a fair value measurement, including information to facilitate an understanding of factors that give rise to the input ranges shown. Relationships between observable and unobservable inputs have not been included in the summary below.

Bond price equivalent: Where market prices are not available for a bond, fair value is measured by comparison with observable pricing data from similar instruments. Factors considered when selecting comparable instruments include credit quality, maturity and industry of the issuer. Fair value may be measured either by a direct price comparison or by conversion of an instrument price into a yield (either as an outright yield or as a spread to LIBOR). Bond prices are expressed as points of the nominal, where 100 represents a fair value equal to the nominal value (i.e., par).

For corporate and municipal bonds, the range of 1–158 points represents the range of prices from reference issuances used in determining fair value. Bonds priced at 0 are distressed to the point that no recovery is expected, while prices significantly in excess of 100 or par relate to inflation-linked or structured issuances that pay a coupon in excess of the market benchmark as of the measurement date. The weighted average price is approximately 100 points, with a majority of positions concentrated around this price.

For asset-backed securities, the bond price range of 0–99 points represents the range of prices for reference securities used in determining fair value. An instrument priced at 0 is not expected to pay any principal or interest, while an instrument priced close to 100 points is expected to be repaid in full as well as pay a yield close to the market yield. More than 85% of the portfolio is priced at 80 points or higher, and the weighted average price for

Level 3 assets within this portion of the Level 3 portfolio is 78 points.

For credit derivatives, the bond price range of 0–105 points disclosed represents the range of prices used for reference instruments that are typically converted to an equivalent yield or credit spread as part of the valuation process. The range is comparable to that for corporate and asset-backed issuances described above.

Loan price equivalent: Where market prices are not available for a traded loan, fair value is measured by comparison with observable pricing data for similar instruments. Factors considered when selecting comparable instruments include industry segment, collateral quality, maturity and issuer-specific covenants. Fair value may be measured either by a direct price comparison or by conversion of an instrument price into a yield. The range of 85–100 points represents the range of prices derived from reference issuances of a similar credit quality used in measuring fair value for loans classified as Level 3. Loans priced at 0 are distressed to the point that no recovery is expected, while a current price of 100 represents a loan that is expected to be repaid in full, and also pays a yield marginally higher than market yield. The weighted average is approximately 95 points.

Credit spread: Valuation models for many credit derivatives require an input for the credit spread, which is a reflection of the credit quality of the associated referenced underlying. The credit spread of a particular security is quoted in relation to the yield on a benchmark security or reference rate, typically either US Treasury or LIBOR, and is generally expressed in terms of basis points. An increase/(decrease) in credit spread will increase/(decrease) the value of credit protection offered by CDS and other credit derivative products. The income statement impact from such changes depends on the nature and direction of the positions held. Credit spreads may be negative where the asset is more creditworthy than the benchmark against which the spread is calculated. A wider credit spread represents decreasing creditworthiness. The ranges of 37–137 basis points in loans and 0–787 basis points in credit derivatives represents a diverse set of underlyings, with the lower end of the range representing credits of the highest quality (e.g., approximating the risk of LIBOR) and the upper end of the range representing greater levels of credit risk.

Constant prepayment rate: A prepayment rate represents the amount of unscheduled principal repayment for a pool of loans. The prepayment estimate is based on a number of factors, such as historical prepayment rates for previous loans that are similar pool loans and the future economic outlook, considering factors including, but not limited to, future interest rates. In general, a significant increase/(decrease) in this unobservable input in isolation would result in a significantly higher/(lower) fair value for bonds

Note 10 Fair value measurement (continued)

trading at a discount. For bonds trading at a premium the reverse would apply, with a decrease in fair value when the constant prepayment rate increases. However, in certain cases the effect of a change in prepayment speed upon instrument price is more complicated and is dependent upon both the precise terms of the securitization and the position of the instrument within the securitization capital structure.

For asset-backed securities, the range of 0–18% represents inputs across various classes of asset-backed securities. Securities with an input of 0% typically reflect no current prepayment behavior within their underlying collateral with no expectation of this changing in the immediate future, while the high range of 18% relates to securities that are currently experiencing high prepayments. Different classes of asset-backed securities typically show different ranges of prepayment characteristics depending on a combination of factors, including the borrowers' ability to refinance, prevailing refinancing rates, and the quality or characteristics of the underlying loan collateral pools. The weighted average constant prepayment rate for the portfolio is 4.4%.

For credit derivatives, the range of 1–20% represents the input assumption for credit derivatives on asset-backed securities. The range is driven in a similar manner to that for asset-backed securities.

For FX contracts and interest rate contracts, the ranges of 0–15% and 0–3%, respectively, represent the prepayment assumptions on securitizations underlying the BGS portfolio.

Constant default rate (CDR): The CDR represents the percentage of outstanding principal balances in the pool that are projected to default and liquidate and is the annualized rate of default for a group of mortgages or loans. The CDR estimate is based on a number of factors, such as collateral delinquency rates in the pool and the future economic outlook. In general, a significant increase/(decrease) in this unobservable input in isolation would result in significantly lower/(higher) cash flows for the deal (and thus lower/(higher) valuations). However, different instruments within the capital structure can react differently to changes in the CDR rate. Generally, subordinated bonds will decrease in value as CDR increases, but for well protected senior bonds an increase in CDR may cause an increase in price. In addition, the presence of a guarantor wrap on the collateral pool of a security may result in notes at the junior end of the capital structure experiencing a price increase with an increase in the default rate.

The range of 0–10% for credit derivatives represents the expected default percentage across the individual instruments' underlying collateral pools.

Loss severity/recovery rate: The projected loss severity/recovery rate reflects the estimated loss that will be realized given expected defaults. Loss severity is generally applied to collateral within asset-backed securities while the recovery rate is the analogous pricing input for corporate or sovereign credits. Recovery is the re-

verse of loss severity, so a 100% recovery rate is the equivalent of a 0% loss severity. Increases in loss severity levels/decreases in recovery rates will result in lower expected cash flows into the structure upon the default of the instruments. In general, a significant decrease/(increase) in the loss severity in isolation would result in significantly higher/(lower) fair value for the respective asset-backed securities. The impact of a change in recovery rate on a credit derivative position will depend upon whether credit protection has been bought or sold.

Loss severity is ultimately driven by the value recoverable from collateral held after foreclosure occurs relative to the loan principal and possibly unpaid interest accrued at that point. For credit derivatives, the loss severity range of 0–100% applies to derivatives on asset-backed securities. The recovery rate range of 0–95% represents a wide range of expected recovery levels on credit derivative contracts within the Level 3 portfolio.

Discount margin (DM) spread: The DM spread represents the discount rates used to present value cash flows of an asset to reflect the market return required for uncertainty in the estimated cash flows. DM spreads are a rate or rates applied on top of a floating index (e.g., LIBOR) to discount expected cash flows. Generally, a decrease/(increase) in the unobservable input in isolation would result in a significantly higher/(lower) fair value.

The different ranges represent the different discount rates across loans (0–13%), asset-backed securities (0–17%) and credit derivatives (0–36%). The high end of the range relates to securities that are priced very low within the market relative to the expected cash flow schedule and there is significant discounting relative to the expected cash flow schedule. This indicates that the market is pricing an increased risk of credit loss into the security that is greater than what is being captured by the expected cash flow generation process. The low ends of the ranges are typical of funding rates on better quality instruments. For asset-backed securities, the weighted average DM is 8.2%. For loans, the average effective DM is 1.72% compared with the disclosed range of 0–13%.

Equity dividend yields: The derivation of a forward price for an individual stock or index is important both for measuring fair value for forward or swap contracts and for measuring fair value using option pricing models. The relationship between the current stock price and the forward price is based on a combination of expected future dividend levels and payment timings, and, to a lesser extent, the relevant funding rates applicable to the stock in question. Dividend yields are generally expressed as an annualized percentage of share price with the lowest limit of 0% representing a stock that is not expected to pay any dividend. The dividend yield and timing represents the most significant parameter in determining fair value for instruments that are sensitive to an equity forward price. The range of 0–28% reflects the expected range of dividend rates for the portfolio.

Note 10 Fair value measurement (continued)

Volatility: Volatility measures the variability of future prices for a particular instrument and is generally expressed as a percentage, where a higher number reflects a more volatile instrument for which future price movements are more likely to occur. The minimum level of volatility is 0% and there is no theoretical maximum. Volatility is a key input into option models, where it is used to derive a probability-based distribution of future prices for the underlying instrument. The effect of volatility on individual positions within the portfolio is driven primarily by whether the option contract is a long or short position. In most cases, the fair value of an option increases as a result of an increase in volatility and is reduced by a decrease in volatility. Generally, volatility used in the measurement of fair value is derived from active market option prices (referred to as implied volatility). A key feature of implied volatility is the volatility "smile" or "skew," which represents the effect of pricing options of different option strikes at different implied volatility levels.

- Volatility of interest rates – the range of 16–93% reflects the range of unobservable volatilities across different currencies and related underlying interest rate levels. Volatilities of low interest rates tend to be much higher than volatilities of high interest rates. In addition, different currencies may have significantly different implied volatilities.
- Volatility of equity stocks, equity and other indices – the range of 1–143% is reflective of the range of underlying stock volatilities.

Correlation: Correlation measures the inter-relationship between the movements of two variables. It is expressed as a percentage between (100)% and +100%, where +100% are perfectly correlated variables (meaning a movement of one variable is associated with a movement of the other variable in the same direction), and (100)% are inversely correlated variables (meaning a movement of one variable is associated with a movement of the other vari-

Note 10 Fair value measurement (continued)

able in the opposite direction). The effect of correlation on the measurement of fair value is dependent on the specific terms of the instruments being valued, due to the range of different payoff features within such instruments.

- Rate-to-rate correlation – the correlation between interest rates of two separate currencies. The range of 84–94% results from the different pairs of currency involved.

- Intra-curve correlation – the correlation between different tenor points of the same yield curve. Correlations are typically fairly high, as reflected by the range of 50–94%.
- Credit index correlation of 10–85% reflects the implied correlation derived from different indices across different parts of the benchmark index capital structure. The input is particularly important for bespoke and Level 3 index tranches.

Valuation techniques and inputs used in the fair value measurement of Level 3 assets and liabilities (continued)

¹ The ranges of significant unobservable inputs are represented in points, percentages and basis points. Points are a percentage of par. For example, 100 points would be 100% of par. ² The range of inputs is not disclosed for 30 June 2015 because this unobservable input parameter was not significant to the respective valuation technique as of that date. ³ The range of inputs is not disclosed due to the dispersion of possible values given the diverse nature of the investments. ⁴ Valuation techniques, significant unobservable inputs and the respective input ranges for structured debt instruments and non-structured fixed-rate bonds are the same as the equivalent derivative or structured financing instruments presented elsewhere in this table. ⁵ Non-financial assets include investment properties at fair value and other assets which primarily consist of assets held for sale.

Note 10 Fair value measurement (continued)

- Credit pair correlation is particularly important for first to default credit structures. The range of 57–94% reflects the difference between credits with low correlation and similar highly correlated credits.
- Rate-to-FX correlation – captures the correlation between interest rates and FX rates. The range for the portfolio is (57)–60%, which represents the relationship between interest rates and foreign exchange levels. The signage on such correlations is dependent on the quotation basis of the underlying FX rate (e.g., EUR/USD and USD/EUR correlations to the same interest rate will have opposite signs).
- FX-to-FX correlation is particularly important for complex options that incorporate different FX rates in the projected payoff. The range of (70)–80% reflects the underlying characteristics across the main FX pairs to which UBS has exposures.
- Equity-to-equity correlation is particularly important for complex options that incorporate, in some manner, different equities in the projected payoff. The closer the correlation is to 100%, the more related one equity is to another. For example, equities with a very high correlation could be from different parts of the same corporate structure. The range of (4)–99% is reflective of this.
- Equity-to-FX correlation is important for equity options based on a currency different than the currency of the underlying stock. The range of (44)–86% represents the range of the relationship between underlying stock and foreign exchange volatilities.

Funding spread: Structured financing transactions are valued using synthetic funding curves that best represent the assets that are pledged as collateral to the transactions. They are not representative of where UBS can fund itself on an unsecured basis, but provide an estimate of where UBS can source and deploy secured funding with counterparties for a given type of collateral. The funding spreads are expressed in terms of basis points over or

under LIBOR and if funding spreads widen this increases the impact of discounting. The range of 10–163 basis points for both structured repurchase agreements and structured reverse repurchase agreements represents the range of asset funding curves, where wider spreads are due to a reduction in liquidity of underlying collateral for funding purposes.

A small proportion of structured debt instruments and non-structured fixed-rate bonds within financial liabilities designated at fair value had an exposure to funding spreads that is longer in duration than the actively traded market. Such positions are within the range of 10–163 basis points reported above.

Upfront price points: A component in the price quotation of credit derivative contracts, whereby the overall fair value price level is split between the credit spread (basis points running over the life of the contract as described above) and a component that is quoted and settled upfront on transacting a new contract. This latter component is referred to as upfront price points and represents the difference between the credit spread paid as protection premium on a current contract versus a small number of standard contracts defined by the market. Distressed credit names frequently trade and quote CDS protection only in upfront points rather than as a running credit spread. An increase/(decrease) in upfront points will increase/(decrease) the value of credit protection offered by CDS and other credit derivative products. The effect of increases or decreases in upfront price points depends on the nature and direction of the positions held. Upfront pricing points may be negative where a contract is quoting for a narrower premium than the market standard, but are generally positive, reflecting an increase in credit premium required by the market as creditworthiness deteriorates. The range of 10–65% within the table below represents the variety of current market credit spread levels relative to the benchmarks used as a quotation basis. Upfront points of 65% represent a distressed credit.

Note 10 Fair value measurement (continued)

f) Sensitivity of fair value measurements to changes in unobservable input assumptions

The table below summarizes those financial assets and liabilities classified as Level 3 for which a change in one or more of the unobservable inputs to reflect reasonably possible alternative assumptions would change fair value significantly, and the estimated effect thereof. As of 30 June 2015, the total favorable and unfavorable effects of changing one or more of the unobservable inputs to reflect reasonably possible alternative assumptions for financial instruments classified as Level 3 were CHF 0.7 billion and CHF 0.6 billion, respectively (31 March 2015: CHF 0.8 billion and CHF 0.7 billion, respectively; 31 December 2014: CHF 1.0 billion and CHF 0.8 billion, respectively). The table shown presents the favorable and unfavorable effects for each class of financial assets and liabilities for which the potential change in fair value is con-

sidered significant. The sensitivity data presented represents an estimation of valuation uncertainty based on reasonably possible alternative values for Level 3 inputs at the balance sheet date and does not represent the estimated effect of stress scenarios. Typically, these financial assets and liabilities are sensitive to a combination of inputs from Levels 1–3. Although well-defined interdependencies may exist between Levels 1–2 and Level 3 parameters (e.g., between interest rates, which are generally Level 1 or Level 2, and prepayments, which are generally Level 3), these have not been incorporated in the table. Further, direct inter-relationships between the Level 3 parameters are not a significant element of the valuation uncertainty.

Sensitivity of fair value measurements to changes in unobservable input assumptions

CHF million	30.6.15		31.3.15		31.12.14

Guarantees/Loan commitments						
Guarantees ¹	0.0	(0.1)	0.0	(0.1)	0.0	(0.1)
Loan commitments	0.0	0.0	0.0	0.0	0.0	0.0

¹ The carrying value of guarantees represented a liability of CHF 0.0 billion as of 30 June 2015 (31 March 2015: CHF 0.0 billion, 31 December 2014: CHF 0.0 billion). The estimated fair value of guarantees represented an asset of CHF 0.1 billion as of 30 June 2015 (31 March 2015: CHF 0.1 billion, 31 December 2014: CHF 0.1 billion).

The fair values included in the table above were calculated for disclosure purposes only. The fair value valuation techniques and assumptions used relate only to the fair value of UBS's financial instruments not measured at fair value. Other institutions may use different methods and assumptions for their fair value estimation, and therefore such fair value disclosures cannot necessarily be

compared from one financial institution to another. UBS applies significant judgments and assumptions to arrive at these fair values, which are more holistic and less sophisticated than established fair value and model governance policies and processes applied to financial instruments accounted for at fair value whose fair values impact UBS's balance sheet and net profit.

¹ Bifurcated embedded derivatives are presented on the same balance sheet lines as their host contracts and are excluded from this table. As of 30 June 2015, these derivatives amounted to a PRV of CHF 0.6 billion (related notional values of CHF 13.0 billion) and an NRV of CHF 0.5 billion (related notional values of CHF 11.9 billion). As of 31 March 2015, bifurcated embedded derivatives amounted to a PRV of CHF 0.7 billion (related notional values of CHF 10.5 billion) and an NRV of CHF 0.6 billion (related notional values of CHF 11.9 billion). As of 31 December 2014, bifurcated embedded derivatives amounted to a PRV of CHF 0.3 billion (related notional values of CHF 6.5 billion) and an NRV of CHF 0.3 billion (related notional values of CHF 7.8 billion). ² In cases where replacement values are presented on a net basis on the balance sheet, the respective notional values of the netted replacement values are still presented on a gross basis. ³ Other notional values relate to derivatives which are cleared through either a central clearing counterparty or an exchange. The fair value of these derivatives is presented on the balance sheet net of the corresponding cash margin under Cash collateral receivables on derivative instruments and Cash collateral payables on derivative instruments and was not material for all periods presented. ⁴ Changes in the fair value of purchased and sold non-derivative financial investments between trade date and settlement date are recognized as replacement values. ⁵ Includes exchange-traded agency transactions and OTC cleared transactions entered into on behalf of clients with a combined PRV of CHF 6.2 billion as of 30 June 2015 (31 March 2015: CHF 6.8 billion, 31 December 2014: CHF 6.8 billion), and a combined NRV of CHF 6.5 billion as of 30 June 2015 (31 March 2015: CHF 6.7 billion, 31 December 2014: CHF 6.8 billion), for which notional values were not included in the table above due to their significantly different risk profile. Refer to Note 12 for more information on netting arrangements.

Note 12 Offsetting financial assets and financial liabilities

UBS enters into netting agreements with counterparties to manage the credit risks associated primarily with repurchase and reverse repurchase transactions, securities borrowing and lending and over-the-counter and exchange-traded derivatives. These netting agreements and similar arrangements generally enable the counterparties to set-off liabilities against available assets received in the ordinary course of business and/or in the event that the counterparty to the transaction is unable to fulfill its contractual obligations. The right of set-off is a legal right to settle or

otherwise eliminate all or a portion of an amount due by applying an amount receivable from the same counterparty against it, thus reducing credit exposure.

Financial assets

The table below provides a summary of financial assets subject to offsetting, enforceable master netting arrangements and similar agreements, as well as financial collateral received to mitigate

Financial assets subject to offsetting, enforceable master netting arrangements and similar agreements

¹ The net amount of Cash collateral receivables on derivative instruments recognized on the balance sheet includes certain OTC derivatives which are in substance net settled on a daily basis under IAS 32, and ETD derivatives which are economically settled on a daily basis. In addition, this balance includes OTC and ETD cash collateral balances which correspond with the cash portion of collateral pledged, reflected on the Negative replacement values line in the table presented on the following pages. ² The logic of the table results in amounts presented in the "Netting with gross liabilities" column corresponding directly to the amounts presented in the "Netting with gross assets" column in the liabilities table presented on the following pages. ³ For the purpose of this disclosure, the amounts of financial instruments and cash collateral not set off in the balance sheet have been capped by relevant netting agreement so as not to exceed the net amount of financial assets presented on the balance sheet; i.e., over-collateralization, where it exists, is not reflected in the table.

⁴ Includes assets not subject to enforceable netting arrangements and other out-of-scope items.

credit exposures for these financial assets. The gross financial assets that are subject to offsetting, enforceable netting arrangements and similar agreements are reconciled to the net amounts presented within the associated balance sheet line, after giving effect to financial liabilities with the same counterparties that have been offset on the balance sheet and other financial assets not subject to an enforceable netting arrangement or similar agreement. Further, related amounts for financial liabilities and

collateral received that are not offset on the balance sheet are shown to arrive at financial assets after consideration of netting potential.

UBS engages in a variety of counterparty credit mitigation strategies in addition to netting and collateral arrangements. Therefore, the net amounts presented in the tables on this and on the next page do not purport to represent actual credit exposure.

Note 12 Offsetting financial assets and financial liabilities (continued)**Financial liabilities**

The table below provides a summary of financial liabilities subject to offsetting, enforceable master netting arrangements and similar agreements, as well as financial collateral pledged to mitigate credit exposures for these financial liabilities. The gross financial liabilities that are subject to offsetting, enforceable netting arrangements and similar agreements are reconciled to the net

amounts presented within the associated balance sheet line, after giving effect to financial assets with the same counterparties that have been offset on the balance sheet and other financial liabilities not subject to an enforceable netting arrangement or similar agreement. Further, related amounts for financial assets and collateral pledged that are not offset on the balance sheet are shown to arrive at financial liabilities after consideration of netting potential.

¹ Comprises provisions for losses resulting from security risks and transaction processing risks. ² Comprises provisions for losses resulting from legal, liability and compliance risks. ³ Includes personnel related restructuring provisions of CHF 123 million as of 30 June 2015 (31 March 2015: CHF 89 million; 31 December 2014: CHF 116 million) and provisions for onerous lease contracts of CHF 546 million as of 30 June 2015 (31 March 2015: CHF 609 million; 31 December 2014: CHF 530 million). ⁴ Includes reinstatement costs for leasehold improvements of CHF 92 million as of 30 June 2015 (31 March 2015: CHF 93 million; 31 December 2014: CHF 98 million) and provisions for onerous lease contracts of CHF 65 million as of 30 June 2015 (31 March 2015: CHF 76 million; 31 December 2014: CHF 55 million). ⁵ Includes provisions for sabbatical and anniversary awards as well as provisions for severance which are not part of restructuring provisions.

Restructuring provisions primarily relate to onerous lease contracts and severance payments. The utilization of onerous lease provisions is driven by the maturities of the underlying lease contracts, which cover a period of up to 11 years. Severance-related provisions are utilized within a short time period, usually within six months, but potential changes in amount may be triggered when

natural staff attrition reduces the number of people affected by a restructuring and therefore the estimated costs.

Information on provisions and contingent liabilities in respect of Litigation, regulatory and similar matters, as a class, is included in Note 16b. There are no material contingent liabilities associated with the other classes of provisions.

b) Litigation, regulatory and similar matters

The Group operates in a legal and regulatory environment that exposes it to significant litigation and similar risks arising from disputes and regulatory proceedings. As a result, UBS (which for purposes of this note may refer to UBS Group AG and/or one or more of its subsidiaries, as applicable) is involved in various disputes and legal proceedings, including litigation, arbitration, and regulatory and criminal investigations.

Such matters are subject to many uncertainties and the outcome is often difficult to predict, particularly in the earlier stages of a case. There are also situations where the Group may enter into a settlement agreement. This may occur in order to avoid the expense, management distraction or reputational implications of continuing to contest liability, even for those matters for which the Group believes it should be exonerated. The uncertainties inherent in all such matters affect the amount and timing of any potential outflows for both matters with respect to which provisions have been established and other contingent liabilities. The Group makes provisions for such matters brought against it when, in the opinion of management after seeking legal advice, it is more likely than not that the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required, and the amount can be reli-

ably estimated. If any of those conditions is not met, such matters result in contingent liabilities. If the amount of an obligation cannot be reliably estimated, a liability exists that is not recognized even if an outflow of resources is probable. Accordingly, no provision is established even if the potential outflow of resources with respect to select matters could be significant.

Specific litigation, regulatory and other matters are described below, including all such matters that management considers to be material and others that management believes to be of significance due to potential financial, reputational and other effects. The amount of damages claimed, the size of a transaction or other information is provided where available and appropriate in order to assist users in considering the magnitude of potential exposures.

In the case of certain matters below, we state that we have established a provision, and for the other matters we make no such statement. When we make this statement and we expect disclosure of the amount of a provision to prejudice seriously our position with other parties in the matter, because it would reveal what UBS believes to be the probable and reliably estimable outflow, we do not disclose that amount. In some cases we are subject to confidentiality obligations that preclude such disclosure.

Note 16 Provisions and contingent liabilities (continued)

With respect to the matters for which we do not state whether we have established a provision, either (a) we have not established a provision, in which case the matter is treated as a contingent liability under the applicable accounting standard or (b) we have established a provision but expect disclosure of that fact to prejudice seriously our position with other parties in the matter because it would reveal the fact that UBS believes an outflow of resources to be probable and reliably estimable.

With respect to certain litigation, regulatory and similar matters for which we have established provisions, we are able to estimate the expected timing of outflows. However, the aggregate amount of the expected outflows for those matters for which we are able to estimate expected timing is immaterial relative to our current and expected levels of liquidity over the relevant time periods.

The aggregate amount provisioned for litigation, regulatory and similar matters as a class is disclosed in Note 16a above. It is not practicable to provide an aggregate estimate of liability for our litigation, regulatory and similar matters as a class of contingent liabilities. Doing so would require us to provide speculative legal assessments as to claims and proceedings that involve unique fact patterns or novel legal theories, which have not yet been initiated or are at early stages of adjudication, or as to which alleged damages have not been quantified by the claimants. Although we therefore cannot provide a numerical estimate of the future losses that could arise from the class of litigation, regulatory and similar matters, we believe that the aggregate amount of possible future losses from this class that are more than remote substantially exceeds the level of current provisions. Litigation,

regulatory and similar matters may also result in non-monetary penalties and consequences. For example, the non-prosecution agreement (NPA) described in paragraph 5 of this note, which we entered into with the US Department of Justice (DOJ), Criminal Division, Fraud Section in connection with our submissions of benchmark interest rates, including among others the British Bankers' Association London Interbank Offered Rate (LIBOR), was terminated by the DOJ based on its determination that we had committed a US crime in relation to foreign exchange matters. As a consequence, UBS AG has pleaded guilty to one count of wire fraud for conduct in the LIBOR matter, and has agreed to pay a USD 203 million fine and accept a three-year term of probation. A guilty plea to, or conviction of, a crime (including as a result of termination of the NPA) could have material consequences for UBS. Resolution of regulatory proceedings may require us to obtain waivers of regulatory disqualifications to maintain certain operations, may entitle regulatory authorities to limit, suspend or terminate licenses and regulatory authorizations and may permit financial market utilities to limit, suspend or terminate our participation in such utilities. Failure to obtain such waivers, or any limitation, suspension or termination of licenses, authorizations or participations, could have material consequences for UBS.

The risk of loss associated with litigation, regulatory and similar matters is a component of operational risk for purposes of determining our capital requirements. Information concerning our capital requirements and the calculation of operational risk for this purpose is included in the "Capital management" section of this report.

¹ Provisions, if any, for the matters described in Note 16b are recorded in Wealth Management (item 3), Wealth Management Americas (item 4), Investment Bank (item 9), Corporate Center – Services (item 7) and Corporate Center – Non-core and Legacy Portfolio (items 2 and 8). Provisions, if any, for the matters described in items 1 and 6 are allocated between Wealth Management and Retail & Corporate, and provisions for the matter described in item 5 are allocated between the Investment Bank and Corporate Center – Services.

1. Inquiries regarding cross-border wealth management businesses

Tax and regulatory authorities in a number of countries have made inquiries, served requests for information or examined employees located in their respective jurisdictions relating to the cross-border wealth management services provided by UBS and other financial institutions. It is possible that implementation of

automatic tax information exchange and other measures relating to cross-border provision of financial services could give rise to further inquiries in the future.

As a result of investigations in France, in 2013, UBS (France) S.A. and UBS AG were put under formal examination ("mise en examen") for complicity in having illicitly solicited clients on French territory, and were declared witness with legal assistance

Note 16 Provisions and contingent liabilities (continued)

("témoin assisté") regarding the laundering of proceeds of tax fraud and of banking and financial solicitation by unauthorized persons. In 2014, UBS AG was placed under formal examination with respect to the potential charges of laundering of proceeds of tax fraud, and the investigating judges ordered UBS to provide bail ("caution") of EUR 1.1 billion. UBS AG appealed the determination of the bail amount, but both the appeal court ("Cour d'Appel") and the French Supreme Court ("Cour de Cassation") upheld the bail amount and rejected the appeal in full in late 2014. UBS AG has filed an application with the European Court of Human Rights to challenge various aspects of the French court's decision.

In March 2015, UBS (France) S.A. was placed under formal examination for complicity regarding the laundering of proceeds of tax fraud and of banking and financial solicitation by unauthorized persons for the years 2004 until 2008 and declared witness with legal assistance for the years 2009 to 2012. A bail of EUR 40 million was imposed, and was reduced by the Court of Appeals in May 2015 to EUR 10 million. UBS (France) S.A. is considering whether or not to further appeal that decision.

In addition, the investigating judges have sought to issue arrest warrants against three Swiss-based former employees of UBS AG who did not appear when summoned by the investigating judge. Separately, in 2013, the French banking supervisory authority's disciplinary commission reprimanded UBS (France) S.A. for having had insufficiencies in its control and compliance framework around its cross-border activities and "know your customer" obligations. It imposed a penalty of EUR 10 million, which was paid.

In January 2015, we received inquiries from the US Attorney's Office for the Eastern District of New York and from the US Securities and Exchange Commission (SEC), which are investigating potential sales to US persons of bearer bonds and other unregistered securities in possible violation of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) and the registration requirements of the US securities laws. We are cooperating with the authorities in these investigations.

Our balance sheet at 30 June 2015 reflected provisions with respect to matters described in this item 1 in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

2. Claims related to sales of residential mortgage-backed securities and mortgages

From 2002 through 2007, prior to the crisis in the US residential loan market, UBS was a substantial issuer and underwriter of US residential mortgage-backed securities (RMBS) and was a purchaser and seller of US residential mortgages. A subsidiary of UBS,

UBS Real Estate Securities Inc. (UBS RESI), acquired pools of residential mortgage loans from originators and (through an affiliate) deposited them into securitization trusts. In this manner, from 2004 through 2007, UBS RESI sponsored approximately USD 80 billion in RMBS, based on the original principal balances of the securities issued.

UBS RESI also sold pools of loans acquired from originators to third-party purchasers. These whole loan sales during the period 2004 through 2007 totaled approximately USD 19 billion in original principal balance.

We were not a significant originator of US residential loans. A subsidiary of UBS originated approximately USD 1.5 billion in US residential mortgage loans during the period in which it was active from 2006 to 2008, and securitized less than half of these loans.

RMBS-related lawsuits concerning disclosures: UBS is named as a defendant relating to its role as underwriter and issuer of RMBS in a large number of lawsuits related to approximately USD 11 billion in original face amount of RMBS underwritten or issued by UBS. Of the USD 11 billion in original face amount of RMBS that remains at issue in these cases, approximately USD 4 billion was issued in offerings in which a UBS subsidiary transferred underlying loans (the majority of which were purchased from third-party originators) into a securitization trust and made representations and warranties about those loans (UBS-sponsored RMBS). The remaining USD 7 billion of RMBS to which these cases relate was issued by third parties in securitizations in which UBS acted as underwriter (third-party RMBS).

In connection with certain of these lawsuits, UBS has indemnification rights against surviving third-party issuers or originators for losses or liabilities incurred by UBS, but UBS cannot predict the extent to which it will succeed in enforcing those rights. A class action in which UBS was named as a defendant was settled by a third-party issuer and received final approval by the district court in 2013. The settlement reduced the original face amount of third-party RMBS at issue in the cases pending against UBS by approximately USD 24 billion. The third-party issuer will fund the settlement at no cost to UBS. In 2014, certain objectors to the settlement filed a notice of appeal from the district court's approval of the settlement.

UBS is also named as a defendant in several cases asserting fraud and other claims brought by entities that purchased collateralized debt obligations that had RMBS exposure and that were arranged or sold by UBS.

UBS is a defendant in two lawsuits brought by the National Credit Union Administration (NCUA), as conservator for certain failed credit unions, asserting misstatements and omissions in the offering documents for RMBS purchased by the credit unions. Both lawsuits were filed in US District Courts, one in the District of Kansas and the other in the Southern District of New York (Southern District of New York). The Kansas court partially granted UBS's motion to dismiss in 2013 and held that the NCUA's claims for ten

Note 16 Provisions and contingent liabilities (continued)

of the 22 RMBS certificates on which it had sued were time-barred. As a result, the original principal balance at issue in that case was reduced from USD 1.15 billion to approximately USD 400 million. The original principal balance at issue in the Southern District of New York case is approximately USD 400 million. In May 2015 the Kansas court, relying on a March 2015 decision rendered by the US Court of Appeals for the Tenth Circuit in a case filed by the NCUA against Barclays Capital, Inc., granted a motion for reconsideration filed by the NCUA and reinstated the NCUA's claims against UBS for the ten certificates that had been dismissed in 2013.

Loan repurchase demands related to sales of mortgages and RMBS: When UBS acted as an RMBS sponsor or mortgage seller, we generally made certain representations relating to the characteristics of the underlying loans. In the event of a material breach of these representations, we were in certain circumstances contractually obligated to repurchase the loans to which they related

or to indemnify certain parties against losses. UBS has received demands to repurchase US residential mortgage loans as to which UBS made certain representations at the time the loans were transferred to the securitization trust. We have been notified by certain institutional purchasers of mortgage loans and RMBS of their contention that possible breaches of representations may entitle the purchasers to require that UBS repurchase the loans or to other relief. The table "Loan repurchase demands by year received – original principal balance of loans" summarizes repurchase demands received by UBS and UBS's repurchase activity from 2006 through 23 July 2015. In the table, "Resolved demands" are considered to be finally resolved, and include demands that are time-barred under the decision rendered by the New York Court of Appeals on 11 June 2015 in *Ace Securities vs. DB Structured Products* (Ace Decision). Repurchase demands in all other categories are not finally resolved.

Loan repurchase demands by year received – original principal balance of loans¹

USD million	2006–2008	2009	2010	2011	2012	2013	2014	2015, through 23 July	Total

Demands in litigation			346	732	1,041				2,118
Demands in review by UBS				1					1
Total	122	205	368	1,084	1,404	618	332	0	4,133

¹ Loans submitted by multiple counterparties are counted only once.

Payments that UBS has made to date to resolve repurchase demands equate to approximately 62% of the original principal balance of the related loans. Most of the payments that UBS has made to date have related to so-called "Option ARM" loans; severity rates may vary for other types of loans with different characteristics. Losses upon repurchase would typically reflect the estimated value of the loans in question at the time of repurchase, as well as, in some cases, partial repayment by the borrowers or advances by servicers prior to repurchase.

In most instances in which we would be required to repurchase loans due to misrepresentations, we would be able to assert demands against third-party loan originators who provided representations when selling the related loans to UBS. However, many of these third parties are insolvent or no longer exist. We estimate that, of the total original principal balance of loans sold or securi-

tized by UBS from 2004 through 2007, less than 50% was purchased from surviving third-party originators. In connection with approximately 60% of the loans (by original principal balance) for which UBS has made payment or agreed to make payment in response to demands received in 2010, UBS has asserted indemnity or repurchase demands against originators. Since 2011, UBS has advised certain surviving originators of repurchase demands made against UBS for which UBS would be entitled to indemnity, and has asserted that such demands should be resolved directly by the originator and the party making the demand.

Any future repurchase demands should be time-barred by virtue of the Ace Decision.

Lawsuits related to contractual representations and warranties concerning mortgages and RMBS: In 2012, certain RMBS trusts filed an action (Trustee Suit) in the Southern District of New York

Note 16 Provisions and contingent liabilities (continued)

seeking to enforce UBS RESI's obligation to repurchase loans in the collateral pools for three RMBS securitizations (Transactions) with an original principal balance of approximately USD 2 billion for which Assured Guaranty Municipal Corp. (Assured Guaranty), a financial guaranty insurance company, had previously demanded repurchase. In January 2015, the court rejected plaintiffs' efforts to seek damages for all loans purportedly in breach of representations and warranties in any of the three Transactions and limited plaintiffs to pursuing claims based solely on alleged breaches for loans identified in the complaint or other breaches that plaintiffs can establish were independently discovered by UBS. In February 2015, the court denied plaintiffs' motion seeking reconsideration of its ruling. With respect to the loans subject to the Trustee Suit that were originated by institutions still in existence, UBS intends to enforce its indemnity rights against those institutions. Related litigation brought by Assured Guaranty was resolved in 2013.

In 2012, the Federal Housing Finance Agency, on behalf of the Federal Home Loan Mortgage Corporation (Freddie Mac), filed a notice and summons in New York Supreme Court initiating suit against UBS RESI for breach of contract and declaratory relief arising from alleged breaches of representations and warranties in connection with certain mortgage loans and UBS RESI's alleged

failure to repurchase such mortgage loans. The lawsuit seeks, among other relief, specific performance of UBS RESI's alleged loan repurchase obligations for at least USD 94 million in original principal balance of loans for which Freddie Mac had previously demanded repurchase; no damages are specified. In 2013, the Court dismissed the complaint for lack of standing, on the basis that only the RMBS trustee could assert the claims in the complaint, and the complaint was unclear as to whether the trustee was the plaintiff and had proper authority to bring suit. The trustee subsequently filed an amended complaint, which UBS moved to dismiss. The motion remains pending.

We also have tolling agreements with certain institutional purchasers of RMBS concerning their potential claims related to substantial purchases of UBS-sponsored or third-party RMBS.

As reflected in the table "Provision for claims related to sales of residential mortgage-backed securities and mortgages," our balance sheet at 30 June 2015 reflected a provision of USD 772 million with respect to matters described in this item 2. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of this matter cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

Mortgage-related regulatory matters: In 2014, UBS received a subpoena from the US Attorney's Office for the Eastern District of New York issued pursuant to the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA), which seeks documents and information related to UBS's RMBS business from 2005 through 2007. UBS continues to respond to the FIRREA subpoena and to subpoenas from the New York State Attorney General (NYAG) relating to its RMBS business. In addition, UBS has also been responding to inquiries from both the Special Inspector General for the Troubled Asset Relief Program (SIGTARP) (who is working in conjunction with the US Attorney's Office for Connecticut and the DOJ) and the SEC relating to trading practices in connection with purchases and sales of mortgage-backed securities in the secondary market from 2009 through the present. We are cooperating with the authorities in these matters. Numerous other banks reportedly are responding to similar inquiries from these authorities.

3. Madoff

In relation to the Bernard L. Madoff Investment Securities LLC (BMIS) investment fraud, UBS AG, UBS (Luxembourg) SA and certain other UBS subsidiaries have been subject to inquiries by a number of regulators, including the Swiss Financial Market Supervisory Authority (FINMA) and the Luxembourg Commission de Surveillance du Secteur Financier (CSSF). Those inquiries concerned two third-party funds established under Luxembourg law, substantially all assets of which were with BMIS, as well as certain funds established in offshore jurisdictions with either direct or indirect exposure to BMIS. These funds now face severe losses, and the Luxembourg funds are in liquidation. The last reported net asset value of the two Luxembourg funds before revelation of the Madoff scheme was approximately USD 1.7 billion in the aggregate, although that figure likely includes fictitious profit reported by BMIS. The documentation establishing both funds identifies UBS entities in various roles including custodian, administrator,

Note 16 Provisions and contingent liabilities (continued)

manager, distributor and promoter, and indicates that UBS employees serve as board members. UBS (Luxembourg) SA and certain other UBS subsidiaries are responding to inquiries by Luxembourg investigating authorities, without however being named as parties in those investigations. In 2009 and 2010, the liquidators of the two Luxembourg funds filed claims on behalf of the funds against UBS entities, non-UBS entities and certain individuals including current and former UBS employees. The amounts claimed are approximately EUR 890 million and EUR 305 million, respectively. The liquidators have filed supplementary claims for amounts that the funds may possibly be held liable to pay the BMIS Trustee. These amounts claimed by the liquidator are approximately EUR 564 million and EUR 370 million, respectively. In addition, a large number of alleged beneficiaries have filed claims against UBS entities (and non-UBS entities) for purported losses relating to the Madoff scheme. The majority of these cases are pending in Luxembourg, where appeals were filed by the claimants against the 2010 decisions of the court in which the claims in a number of test cases were held to be inadmissible. In July 2015 the Luxembourg Court of Appeals dismissed one test appeal in its entirety, which decision has been appealed by the investor. In the US, the BMIS Trustee filed claims in 2010 against UBS entities, among others, in relation to the two Luxembourg funds and one of the offshore funds. The total amount claimed against all defendants in these actions was not less than USD 2 billion. Following a motion by UBS, in 2011, the US District Court for the Southern District of New York dismissed all of the BMIS Trustee's claims other than claims for recovery of fraudulent conveyances and preference payments that were allegedly transferred to UBS on the ground that the BMIS Trustee lacks standing to bring such claims. In 2013, the Second Circuit affirmed the District Court's decision and, in June 2014, the US Supreme Court denied the BMIS Trustee's petition seeking review of the Second Circuit ruling. In December 2014, several claims, including a purported class action, were filed in the US by BMIS customers against UBS entities, asserting claims similar to the ones made by the BMIS Trustee, seeking unspecified damages. In Germany, certain clients of UBS are exposed to Madoff-managed positions through third-party funds and funds administered by UBS entities in Germany. A small number of claims have been filed with respect to such funds. In January 2015, a court of appeal reversed a lower court decision in favor of UBS in one such case and ordered UBS to pay EUR 49 million, plus interest. UBS has filed an application for leave to appeal the decision.

4. Puerto Rico

Declines since August 2013 in the market prices of Puerto Rico municipal bonds and of closed-end funds (the funds) that are sole-managed and co-managed by UBS Trust Co. of Puerto Rico and distributed by UBS Financial Services Inc. of Puerto Rico (UBS PR) have led to multiple regulatory inquiries, as well as customer complaints, and arbitrations with aggregate claimed damages ex-

ceeding USD 1.1 billion. The claims are filed by clients in Puerto Rico who own the funds or Puerto Rico municipal bonds and/or who used their UBS account assets as collateral for UBS non-purpose loans; customer complaint and arbitration allegations include fraud, misrepresentation and unsuitability of the funds and of the loans. A shareholder derivative action was filed in 2014 against various UBS entities and current and certain former directors of the funds, alleging hundreds of millions in losses in the funds. Defendants' motion to dismiss was denied. In 2014, a federal class action complaint also was filed against various UBS entities, certain members of UBS PR senior management, and the co-manager of certain of the funds seeking damages for investor losses in the funds during the period from May 2008 through May 2014. In March 2015 a class action was filed in Puerto Rico state court against UBS PR seeking equitable relief in the form of a stay of any effort by UBS PR to collect on non-purpose loans it acquired from UBS Bank USA in December 2013 based on plaintiffs' allegation that the loans are not valid.

An internal review also disclosed that certain clients, many of whom acted at the recommendation of one financial advisor, invested proceeds of non-purpose loans in closed-end fund securities in contravention of their loan agreements.

In 2014 UBS reached a settlement with the Office of the Commissioner of Financial Institutions for the Commonwealth of Puerto Rico (OCFI) in connection with OCFI's examination of UBS's operations from January 2006 through September 2013. Pursuant to the settlement, UBS contributed USD 3.5 million to an investor education fund, offered USD 1.68 million in restitution to certain investors and, among other things, committed to undertake an additional review of certain client accounts to determine if additional restitution would be appropriate.

UBS is responding to requests from the SEC relating to an investigation into the practice of certain customers and a UBS financial advisor of using non-purpose loans to invest in closed-end fund securities in violation of their loan agreements and UBS policies, and related supervision issues. UBS also has been responding to information requests from FINRA regarding an investigation of investments in closed-end funds by certain customers who used such funds to collateralize non-purpose loans, and related sales practice and supervision issues. We also understand that the DOJ is conducting a criminal inquiry into the practice of certain customers and a UBS financial advisor of using non-purpose loans to invest in closed-end fund securities in violation of their loan agreements and UBS policies. We are cooperating with the authorities in these matters.

In 2011, a purported derivative action was filed on behalf of the Employee Retirement System of the Commonwealth of Puerto Rico (System) against over 40 defendants, including UBS PR and other consultants and underwriters, trustees of the System, and the President and Board of the Government Development Bank of Puerto Rico. The plaintiffs alleged that defendants violated their purported fiduciary duties and contractual obligations in connection with the issuance and underwriting of approximately USD 3 billion of bonds

Note 16 Provisions and contingent liabilities (continued)

by the System in 2008 and sought damages of over USD 800 million. UBS is named in connection with its underwriting and consulting services. In 2013, the case was dismissed by the Puerto Rico Court of First Instance on the grounds that plaintiffs did not have standing to bring the claim. That dismissal was subsequently overturned by the Puerto Rico Court of Appeals. UBS's petitions for appeal and reconsideration have been denied by the Supreme Court of Puerto Rico.

Also, in 2013, an SEC Administrative Law Judge dismissed a case brought by the SEC against two UBS executives, finding no violations. The charges had stemmed from the SEC's investigation of UBS's sale of closed-end funds in 2008 and 2009, which UBS settled in 2012. Beginning in 2012 two federal class action complaints, which were subsequently consolidated, were filed against various UBS entities, certain of the funds, and certain members of UBS PR senior management, seeking damages for investor losses in the funds during the period from January 2008 through May 2012 based on allegations similar to those in the SEC action. Plaintiffs' motion to consolidate that action with the federal class action filed in 2014 described above was denied. A motion for class certification was denied without prejudice to the right to refile the motion after limited discovery.

In June 2015 Puerto Rico's Governor stated that the Commonwealth is unable to meet its obligations. The Governor's statement and market reaction to it may increase the number of, and potential damages sought in, claims against UBS concerning Puerto Rico securities.

Our balance sheet at 30 June 2015 reflected provisions with respect to matters described in this item 4 in amounts that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provisions that we have recognized.

5. Foreign exchange, LIBOR, and benchmark rates

Foreign exchange-related regulatory matters: Following an initial media report in 2013 of widespread irregularities in the foreign exchange markets, UBS immediately commenced an internal review of its foreign exchange business, which includes our precious metals and related structured products businesses. Since then, various authorities have commenced investigations concerning possible manipulation of foreign exchange markets, including FINMA, the Swiss Competition Commission (WEKO), the DOJ, the SEC, the US Commodity Futures Trading Commission (CFTC), the Board of Governors of the Federal Reserve System (Federal Reserve Board), the UK Financial Conduct Authority (FCA) (to which certain responsibilities of the UK Financial Services Authority (FSA) have passed), the UK Serious Fraud Office (SFO), the Australian Securities and Investments Commission (ASIC) and the Hong

Kong Monetary Authority (HKMA). WEKO stated in 2014 that it had reason to believe that certain banks may have colluded to manipulate foreign exchange rates. A number of authorities also reportedly are investigating potential manipulation of precious metals prices. UBS and other financial institutions have received requests from various authorities relating to their foreign exchange businesses, and UBS is cooperating with the authorities. UBS has taken and will take appropriate action with respect to certain personnel as a result of its ongoing review.

In 2014, UBS reached settlements with the FCA and the CFTC in connection with their foreign exchange investigations, and FINMA issued an order concluding its formal proceedings with respect to UBS relating to its foreign exchange and precious metals businesses. UBS has paid a total of approximately CHF 774 million to these authorities, including GBP 234 million in fines to the FCA, USD 290 million in fines to the CFTC, and CHF 134 million to FINMA representing confiscation of costs avoided and profits. The conduct described in the settlements and the FINMA order includes certain UBS personnel: engaging in efforts, alone or in cooperation/collusion with traders at other banks, to manipulate foreign exchange benchmark rates involving multiple currencies, attempts to trigger client stop-loss orders for UBS's benefit, and inappropriate sharing of confidential client information. We have ongoing obligations to cooperate with these authorities and to undertake certain remediation, including actions to improve processes and controls and requirements imposed by FINMA to apply compensation restrictions for certain employees and to automate at least 95% of our global foreign exchange and precious metals trading by 31 December 2016. In 2014, the HKMA announced the conclusion of its investigation into foreign exchange trading operations of banks in Hong Kong. The HKMA found no evidence of collusion among the banks or of manipulation of foreign exchange benchmark rates in Hong Kong. The HKMA also found that banks had internal control deficiencies with respect to their foreign exchange trading operations.

In May 2015, the DOJ's Criminal Division (Criminal Division) terminated the NPA with UBS AG. As a result, UBS AG entered into a plea agreement with the Criminal Division pursuant to which UBS AG agreed to and did plead guilty to a one-count criminal information filed in the US District Court for the District of Connecticut charging UBS AG with one count of wire fraud in violation of 18 USC Sections 1343 and 2. Under the plea agreement, UBS AG agreed to a sentence that includes a USD 203 million penalty and a three-year term of probation. The criminal information charges that between approximately 2001 and 2010, UBS AG engaged in a scheme to defraud counterparties to interest rate derivatives transactions by manipulating benchmark interest rates, including Yen LIBOR. Sentencing is currently scheduled for 9 November 2015. The Criminal Division terminated the NPA based on its determination, in its sole discretion, that certain of UBS AG's employees committed criminal conduct that violated the NPA, including fraudulent and deceptive currency trading and

Note 16 Provisions and contingent liabilities (continued)

sales practices in conducting certain foreign exchange market transactions with customers and collusion with other participants in certain foreign exchange markets.

In May 2015, the Federal Reserve Board and the Connecticut Department of Banking issued an Order to Cease and Desist and Order of Assessment of a Civil Monetary Penalty Issued upon Consent (Federal Reserve Order) to UBS AG. As part of the Federal Reserve Order, UBS AG paid a USD 342 million civil monetary penalty. The Federal Reserve Order is based on the Federal Reserve Board's finding that UBS AG had deficient policies and procedures that prevented UBS AG from detecting and addressing unsafe and unsound conduct by foreign exchange traders and salespeople, including disclosures to traders of other institutions of confidential customer information, agreements with traders of other institutions to coordinate foreign exchange trading in a manner to influence certain foreign exchange benchmarks fixes and market prices, and trading strategies that raised potential conflicts of interest, possible agreements with traders of other institutions regarding bid/offer spreads offered to foreign exchange customers, the provision of information to customers regarding price quotes and how a customer's foreign exchange order is filled.

UBS has been granted conditional immunity by the Antitrust Division of the DOJ (Antitrust Division) from prosecution for EUR/USD collusion and entered into a non-prosecution agreement covering other currency pairs. As a result, UBS AG will not be subject to prosecutions, fines or other sanctions for antitrust law violations by the Antitrust Division, subject to UBS AG's continuing cooperation. However, the conditional immunity grant does not bar government agencies from asserting other claims and imposing sanctions against UBS AG, as evidenced by the settlements and ongoing investigations referred to above.

Investigations relating to foreign exchange matters by numerous authorities, including the SEC and CFTC, remain ongoing notwithstanding these resolutions.

Foreign exchange-related civil litigation: Putative class actions have been filed since November 2013 in US federal courts against UBS and other banks. These actions are on behalf of putative classes of persons who engaged in foreign currency transactions with any of the defendant banks. They allege collusion by the defendants and assert claims under the antitrust laws and for unjust enrichment. In March 2015, UBS entered into a settlement agreement to resolve those actions. The agreement, which is subject to court approval, requires among other things that UBS pay USD 135 million and provide cooperation to the settlement class. In 2015, UBS has been added to putative class actions pending against other banks in federal court in New York on behalf of putative classes of persons who bought or sold physical precious metals and various precious metal products and derivatives. The complaints in these lawsuits assert claims under the US antitrust laws and the US Commodity Exchange Act (CEA) and for unjust enrichment. Since February 2015, putative class actions have been filed in federal court in New York against UBS and other

banks on behalf of a putative class of persons who entered into or held any foreign exchange futures contracts and options on foreign exchange futures contracts since January 1, 2003. The complaints assert claims under the CEA and the US antitrust laws. In June 2015, a putative class action was filed in federal court in New York against UBS and other banks on behalf of participants, beneficiaries, and named fiduciaries of plans qualified under the Employee Retirement Income Security Act of 1974 (ERISA) for whom a defendant bank provided foreign currency exchange transactional services, exercised discretionary authority or discretionary control over management of such ERISA plan, or authorized or permitted the execution of any foreign currency exchange transactional services involving such plan's assets. The complaint asserts claims under ERISA.

LIBOR and other benchmark-related regulatory matters: Numerous government agencies, including the SEC, the CFTC, the DOJ, the FCA, the SFO, the Monetary Authority of Singapore (MAS), the HKMA, FINMA, the various state attorneys general in the US, and competition authorities in various jurisdictions have conducted or are continuing to conduct investigations regarding submissions with respect to LIBOR and other benchmark rates, including HIBOR (Hong Kong Interbank Offered Rate) and ISDAFIX, a benchmark rate used for various interest rate derivatives and other financial instruments. These investigations focus on whether there were improper attempts by UBS (among others), either acting on our own or together with others, to manipulate LIBOR and other benchmark rates at certain times.

In 2012, UBS reached settlements with the FSA, the CFTC and the Criminal Division of the DOJ in connection with their investigations of benchmark interest rates. At the same time FINMA issued an order concluding its formal proceedings with respect to UBS relating to benchmark interest rates. UBS has paid a total of approximately CHF 1.4 billion in fines and disgorgement – including GBP 160 million in fines to the FSA, USD 700 million in fines to the CFTC, USD 500 million in fines to the DOJ, and CHF 59 million in disgorgement to FINMA. UBS Securities Japan Co. Ltd. (UBSSJ) entered into a plea agreement with the DOJ under which it entered a plea to one count of wire fraud relating to the manipulation of certain benchmark interest rates, including Yen LIBOR. UBS entered into an NPA with the DOJ, which (along with the plea agreement) covered conduct beyond the scope of the conditional leniency/immunity grants described below, required UBS to pay the USD 500 million fine to DOJ after the sentencing of UBSSJ, and provided that any criminal penalties imposed on UBSSJ at sentencing be deducted from the USD 500 million fine. The conduct described in the various settlements and the FINMA order includes certain UBS personnel: engaging in efforts to manipulate submissions for certain benchmark rates to benefit trading positions; colluding with employees at other banks and cash brokers to influence certain benchmark rates to benefit their trading positions; and giving inappropriate directions to UBS submitters that were in part motivated by a desire to avoid unfair and

Note 16 Provisions and contingent liabilities (continued)

negative market and media perceptions during the financial crisis. The benchmark interest rates encompassed by one or more of these resolutions include Yen LIBOR, GBP LIBOR, Swiss franc (CHF) LIBOR, Euro LIBOR, USD LIBOR, EURIBOR (Euro Interbank Offered Rate) and Euroyen TIBOR (Tokyo Interbank Offered Rate). We have ongoing obligations to cooperate with authorities with which we have reached resolutions and to undertake certain remediation with respect to benchmark interest rate submissions. Under the NPA, we agreed, among other things, that for two years from 18 December 2012 UBS would not commit any US crime, and we would advise DOJ of any potentially criminal conduct by UBS or any of its employees relating to violations of US laws concerning fraud or securities and commodities markets. The term of the NPA was extended by one year to 18 December 2015. In May 2015, the Criminal Division terminated the NPA based on its determination, in its sole discretion, that certain of UBS AG's employees committed criminal conduct that violated the NPA. As a result, UBS entered into a plea agreement with the DOJ under which it entered a guilty plea to one count of wire fraud relating to the manipulation of certain benchmark interest rates, including Yen LIBOR, and agreed to pay a fine of USD 203 million and accept a three-year term of probation. The MAS, HKMA, ASIC and the Japan Financial Services Agency have all resolved investigations of UBS (and in some cases other banks). The orders or undertakings in connection with these investigations generally require UBS to take remedial actions to improve its processes and controls, impose monetary penalties or other measures. Investigations by the CFTC, ASIC and other governmental authorities remain ongoing notwithstanding these resolutions. In 2014, UBS reached a settlement with the European Commission (EC) regarding its investigation of bid-ask spreads in connection with Swiss franc interest rate derivatives and has paid a EUR 12.7 million fine, which was reduced to this level based in part on UBS's cooperation with the EC.

UBS has been granted conditional leniency or conditional immunity from authorities in certain jurisdictions, including the Anti-trust Division of the DOJ, WEKO and the EC, in connection with potential antitrust or competition law violations related to submissions for Yen LIBOR and Euroyen TIBOR. WEKO has also granted UBS conditional immunity in connection with potential competition law violations related to submissions for CHF LIBOR and certain transactions related to Swiss franc LIBOR. The Canadian Competition Bureau (Bureau) had granted UBS conditional immunity in connection with potential competition law violations related to submissions for Yen LIBOR, but in January 2014, the Bureau discontinued its investigation into Yen LIBOR for lack of sufficient evidence to justify prosecution under applicable laws. As a result of these conditional grants, we will not be subject to prosecutions, fines or other sanctions for antitrust or competition law violations in the jurisdictions where we have conditional immunity or leniency in connection with the matters covered by the conditional grants, subject to our continuing cooperation. However, the conditional

leniency and conditional immunity grants we have received do not bar government agencies from asserting other claims and imposing sanctions against us, as evidenced by the settlements and ongoing investigations referred to above. In addition, as a result of the conditional leniency agreement with the DOJ, we are eligible for a limit on liability to actual rather than treble damages were damages to be awarded in any civil antitrust action under US law based on conduct covered by the agreement and for relief from potential joint and several liability in connection with such civil antitrust action, subject to our satisfying the DOJ and the court presiding over the civil litigation of our cooperation. The conditional leniency and conditional immunity grants do not otherwise affect the ability of private parties to assert civil claims against us.

LIBOR and other benchmark-related civil litigation: A number of putative class actions and other actions are pending in, or expected to be transferred to, the federal courts in New York against UBS and numerous other banks on behalf of parties who transacted in certain interest rate benchmark-based derivatives linked directly or indirectly to US dollar LIBOR, Yen LIBOR, Euroyen TIBOR, EURIBOR, CHF LIBOR, GBP LIBOR, and US Dollar ISDAFIX. Also pending are actions asserting losses related to various products whose interest rate was linked to US dollar LIBOR, including adjustable rate mortgages, preferred and debt securities, bonds pledged as collateral, loans, depository accounts, investments and other interest-bearing instruments. All of the complaints allege manipulation, through various means, of various benchmark interest rates, including LIBOR, Euroyen TIBOR, EURIBOR or US Dollar ISDAFIX rates and seek unspecified compensatory and other damages, including treble and punitive damages, under varying legal theories that include violations of the CEA, the federal racketeering statute, federal and state antitrust and securities laws and other state laws. In May 2015, a putative class action was filed in federal court in New York against UBS and other financial institutions on behalf of US parties who transacted in financial instruments tied to GBP LIBOR. Plaintiffs allege that defendants conspired to manipulate GBP LIBOR and the prices of GBP LIBOR-based derivatives in violation of US antitrust laws and the CEA, among other theories, and seek unspecified compensatory damages, including treble damages. In 2013, a federal court in New York dismissed the federal antitrust and racketeering claims of certain US dollar LIBOR plaintiffs and a portion of their claims brought under the CEA and state common law. The court has granted certain plaintiffs permission to assert claims for unjust enrichment and breach of contract against UBS and other defendants, and limited the CEA claims to contracts purchased between 15 April 2009 and May 2010. Certain plaintiffs have also appealed the dismissal of their antitrust claims. UBS and other defendants in other lawsuits including the one related to Euroyen TIBOR have filed motions to dismiss. In 2014, the court in the Euroyen TIBOR lawsuit dismissed the plaintiff's federal antitrust and state unfair enrichment claims, and dismissed a portion of the plaintiff's CEA claims. Discovery is currently stayed.

Note 16 Provisions and contingent liabilities (continued)

Since September 2014, putative class actions have been filed in federal court in New York and New Jersey against UBS and other financial institutions, among others, on behalf of parties who entered into interest rate derivative transactions linked to ISDAFIX. The complaints, which have since been consolidated into an amended complaint, allege that the defendants conspired to manipulate ISDAFIX rates from 1 January 2006 through January 2014, in violation of US antitrust laws and the CEA, among other theories, and seeks unspecified compensatory damages, including treble damages.

With respect to additional matters and jurisdictions not encompassed by the settlements and order referred to above, our balance sheet at 30 June 2015 reflected a provision in an amount that UBS believes to be appropriate under the applicable accounting standard. As in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

6. Swiss retrocessions

The Swiss Supreme Court ruled in 2012, in a test case against UBS, that distribution fees paid to a bank for distributing third party and intra-group investment funds and structured products must be disclosed and surrendered to clients who have entered into a discretionary mandate agreement with the bank, absent a valid waiver.

FINMA has issued a supervisory note to all Swiss banks in response to the Supreme Court decision. The note sets forth the measures Swiss banks are to adopt, which include informing all affected clients about the Supreme Court decision and directing them to an internal bank contact for further details. UBS has met the FINMA requirements and has notified all potentially affected clients.

The Supreme Court decision has resulted, and may continue to result, in a number of client requests for UBS to disclose and potentially surrender retrocessions. Client requests are assessed on a case-by-case basis. Considerations taken into account when assessing these cases include, among others, the existence of a discretionary mandate and whether or not the client documentation contained a valid waiver with respect to distribution fees.

Our balance sheet at 30 June 2015 reflected a provision with respect to matters described in this item 6 in an amount that UBS believes to be appropriate under the applicable accounting standard. The ultimate exposure will depend on client requests and the resolution thereof, factors that are difficult to predict and assess. Hence, as in the case of other matters for which we have established provisions, the future outflow of resources in respect of such matters cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that we have recognized.

7. Banco UBS Pactual tax indemnity

Pursuant to the 2009 sale of Banco UBS Pactual S.A. (Pactual) by UBS to BTG Investments, LP (BTG), BTG has submitted contractual indemnification claims that UBS estimates amount to approximately BRL 2.2 billion, including interest and penalties, which is net of liabilities retained by BTG. The claims pertain principally to several tax assessments issued by the Brazilian tax authorities against Pactual relating to the period from December 2006 through March 2009, when UBS owned Pactual. The majority of these assessments relate to the deductibility of goodwill amortization in connection with UBS's 2006 acquisition of Pactual and payments made to Pactual employees through various profit sharing plans. These assessments are being challenged in administrative proceedings. In May 2015, the administrative court issued a decision that was largely in favor of the tax authority with respect to the goodwill amortization assessment. This decision will be appealed.

8. Matters relating to the CDS market

In 2013, the EC issued a Statement of Objections against thirteen credit default swap (CDS) dealers including UBS, as well as data service provider Markit and the International Swaps and Derivatives Association (ISDA). The Statement of Objections broadly alleges that the dealers infringed European Union antitrust rules by colluding to prevent exchanges from entering the credit derivatives market between 2006 and 2009. We submitted our response to the Statement of Objections and presented our position in an oral hearing in 2014. Since mid-2009, the Antitrust Division of the DOJ has also been investigating whether multiple dealers, including UBS, conspired with each other and with Markit to restrain competition in the markets for CDS trading, clearing and other services. In 2014, putative class action plaintiffs filed consolidated amended complaints in the Southern District of New York against twelve dealers, including UBS, as well as Markit and ISDA, alleging violations of the US Sherman Antitrust Act and common law. Plaintiffs allege that the defendants unlawfully conspired to restrain competition in and/or monopolize the market for CDS trading in the US in order to protect the dealers' profits from trading CDS in the over-the-counter market. Plaintiffs assert claims on behalf of all purchasers and sellers of CDS that transacted directly with any of the dealer defendants since 1 January 2008, and seek unspecified trebled compensatory damages and other relief. In 2014, the court granted in part and denied in part defendants' motions to dismiss the complaint.

9. Equities trading systems and practices

UBS is responding to inquiries concerning the operation of UBS's alternative trading system (ATS) (also referred to as a dark pool) and its securities order routing and execution practices from various authorities, including the SEC, the NYAG and the Financial Industry Regulatory Authority, who reportedly are pursuing similar investigations industry-wide.

Note 17 Guarantees, commitments and forward starting transactions

Note 18 Changes in organization and disposals

Restructuring charges

Restructuring charges arise from programs that materially change either the scope of business undertaken by the Group or the manner in which such business is conducted. Restructuring charges are temporary costs that are necessary to effect such programs and include items such as severance and other personnel-related charges, duplicate headcount costs, impairment and accelerated

depreciation of assets, contract termination costs, consulting fees, and related infrastructure and system costs. These costs are presented in the income statement according to the underlying nature of the expense. As the costs associated with restructuring programs are temporary in nature, and in order to provide a more thorough understanding of business performance, such costs are separately presented below.

Net restructuring charges by business division and Corporate Center unit

CHF million	For the quarter ended			Year-to-date	
	30.6.15	31.3.15	30.6.14	30.6.15	30.6.14

Note 18 Changes in organization and disposals (continued)**Disposal group held for sale**

In the second quarter of 2015, UBS agreed to sell Global Asset Management's Alternative Fund Services (AFS) business to Mitsubishi UFJ Financial Group Investor Services. The Global Asset Management Investment Fund Services business, which provides fund administration for traditional mutual funds, is not included in the sale. The sale is expected to close in the fourth quarter of 2015, subject to regulatory approval and other customary closing conditions.

The assets and liabilities of the AFS business which will be transferred to Mitsubishi UFJ Financial Group Investor Services upon completion of the transaction are almost entirely held within Global Asset Management and, as of 30 June 2015, totaled CHF 254 million and CHF 2,759 million, respectively. These assets and liabilities are presented as a disposal group held-for-sale within *Other assets* and *Other liabilities* and do not include receivables and payables the AFS business has with consolidated entities in the UBS Group. Such intercompany assets and liabilities totaled approximately CHF 3,100 million and CHF 350 million, respectively.

Note 19 Currency translation rates

The following table shows the rates of the main currencies used to translate the financial information of UBS's foreign operations into Swiss francs.

	Spot rate				Average rate ¹				
	As of				For the quarter ended			Year-to-date	
	30.6.15	31.3.15	31.12.14	30.6.14	30.6.15	31.3.15	30.6.14	30.6.15	30.6.14
1 USD	0.94	0.97	0.99	0.89	0.94	0.95	0.89	0.94	0.89
1 EUR	1.04	1.04	1.20	1.21	1.04	1.05	1.22	1.04	1.22
1 GBP	1.47	1.44	1.55	1.52	1.45	1.43	1.50	1.44	1.49
100 JPY	0.76	0.81	0.83	0.88	0.77	0.80	0.87	0.78	0.87

¹ Monthly income statement items of foreign operations with a functional currency other than Swiss franc are translated with month-end rates into Swiss francs. Disclosed average rates for a quarter represent an average of three month-end rates, weighted according to the income and expense volumes of all foreign operations of the Group with the same functional currency for each month. Weighted average rates for individual business divisions may deviate from the weighted average rates for the Group.

Interim consolidated financial information

UBS AG (unaudited)

This section contains a comparison of selected financial information between UBS Group AG (consolidated) and UBS AG (consolidated), as well as key figures for UBS AG (consolidated). Refer to www.ubs.com/investors for the interim consolidated financial statements of UBS AG, which will be published on 31 July 2015.

Comparison UBS Group AG (consolidated) vs UBS AG (consolidated)

The table on the next page shows the differences between UBS Group AG (consolidated) and UBS AG (consolidated) selected financial, capital and liquidity and funding information as of or for the period ended 30 June 2015. These differences relate to:

- Assets, liabilities, operating income, operating expenses and operating profit before tax relating to UBS Group AG are reflected in the consolidated financial statements of UBS Group AG but not of UBS AG. UBS AG's assets, liabilities, operating income, and operating expenses related to transactions with UBS Group AG are not subject to elimination in the UBS AG (consolidated) financial statements, but are eliminated in the UBS Group AG (consolidated) financial statements.
- The accounting policies applied under International Financial Reporting Standards (IFRS) in both financial statements are identical. However, there are differences in equity and net profit, as a small portion of UBS AG shares is still held by shareholders with a non-controlling interest (NCI) and due to different presentation requirements related to preferred notes issued by UBS AG.
- Total equity of UBS Group AG consolidated includes non-controlling interests in UBS AG. Most of the difference in equity attributable to shareholders between the consolidated equity of UBS Group AG and UBS AG relates to these non-controlling interests. Net profit attributable to minority shareholders of UBS AG is presented as net profit attributable to NCI in the consolidated income statement of UBS Group AG.
- Preferred notes issued by UBS AG are presented in the consolidated UBS Group AG balance sheet as equity attributable to NCI, while in the consolidated UBS AG balance sheet, these preferred notes are required to be presented as equity attributable to preferred noteholders.
- Fully applied total capital of UBS AG (consolidated) is lower than for UBS Group AG (consolidated), reflecting lower AT1 capital and lower tier 2 capital, partly offset by higher CET1 capital. The difference in CET1 capital was primarily due to compensation-related regulatory capital accruals, liabilities and capital instruments which are reflected on the level of UBS Group AG following the transfer of the grantor function for the Group's employee deferred compensation plans from UBS AG to UBS Group AG. The difference in AT1 capital relates to the issuances of AT1 capital notes and the 2014 deferred contingent capital plan (DCCP) award held on a UBS Group AG level. The difference in tier 2 capital relates to 2012 and 2013 DCCP awards held at the UBS Group AG level.

¹ Refer to "UBS shares" in the "Capital management" section of this report for information on the issuance of UBS Group AG shares during the second quarter of 2015. ² During the second quarter of 2015, a cash dividend of CHF 0.50 per dividend-bearing share, totaling CHF 1,822 million, was made out of the capital contribution reserve within the General reserve, as approved at the Annual General Meeting of shareholders held on 7 May 2015. ³ Represents cumulative net profit/(loss) for the quarters ended 30 June 2015, 31 March 2015 and 31 December 2014.

Basis of accounting

The UBS Group AG standalone financial statements are prepared in accordance with the principles of the Swiss Law on Accounting and Financial Reporting (32nd title of the Swiss Code of Obligations). Further information on the accounting policies applied for the standalone financial statements of UBS Group AG can be found in "Note 2 Accounting policies" of the UBS Group AG standalone financial statements in the Annual Report 2014. In

preparing the interim financial information for UBS Group AG, the same accounting policies and methods of computation have been applied as in the annual financial statements as of 31 December 2014. This interim financial information is unaudited and should be read in conjunction with the audited financial statements included in the Annual Report 2014.

Changes in legal structure

Establishment of UBS Switzerland AG

UBS Switzerland AG is a stock corporation (Aktiengesellschaft) incorporated and organized under the laws of, and domiciled in, Switzerland, with its registered office at Bahnhofstrasse 45, Zurich.

UBS Switzerland AG was incorporated on 3 September 2014 as a wholly owned subsidiary of UBS AG. Between 3 September 2014 and 31 March 2015, UBS Switzerland AG had a share capital of 100,000, but no operations and hence recorded virtually no profit or loss during that period. On 12 May 2015, the share capital of UBS Switzerland AG was increased to CHF 10 million and on 21 May 2015, UBS Switzerland AG received banking, securities dealer and custodian bank licenses from FINMA.

On 14 June 2015, UBS AG transferred its Retail & Corporate and Wealth Management businesses booked in Switzerland to UBS Switzerland AG. This business transfer was executed by way of transfer of assets and liabilities in accordance with articles 69 ff. of the Swiss Federal Act on Merger, Scission, Conversion and Transfer of Assets and Liabilities (Merger Act) as an equity contribution to UBS Switzerland AG, thereby increasing UBS AG's investment in UBS Switzerland AG. The transfer was recorded retrospectively as of 1 April 2015 and transactions impacting the businesses transferred to UBS Switzerland AG which occurred on or after 1 April 2015 were recorded in UBS Switzerland AG.

The opening balance sheet of UBS Switzerland AG as of 1 April 2015, presented within the table on page 179, was subject to audit by Ernst & Young.

Business transferred to UBS Switzerland AG

The following businesses and related functions booked in Switzerland were transferred from UBS AG to UBS Switzerland AG:

- i. The Retail & Corporate and Wealth Management businesses of UBS AG, including the front office and middle office functions, but excluding certain specific transactions, as outlined in the "Businesses retained in UBS AG" paragraph;
- ii. other businesses of UBS AG, mainly from the Investment Bank, including market-making on the SIX Swiss Exchange, secured financing transactions and the bank notes business;
- iii. the access to financial market infrastructure serving the business, including payment and custody infrastructure, third-party brokers and certain exchange memberships; and
- iv. selected finance, risk control and legal functions, generally part of Corporate Center, aligned with the businesses mentioned under items i to iii above.

Businesses retained in UBS AG

The following businesses and related functions have been retained by UBS AG:

- i. Retail & Corporate and Wealth Management business booked outside Switzerland;
- ii. certain Retail & Corporate and Wealth Management business transactions (mainly comprised of derivative transactions) booked within Switzerland. This particularly relates to clients that had entered into international trading agreements with various UBS AG branches (multi-branch trading agreements); and
- iii. the business or functions of the Corporate Center and all other business divisions of UBS AG, in particular Wealth Management Americas, Global Asset Management and the Investment Bank, with the exception of the aforementioned functions aligned with the transferred businesses.

Financial accounting effects for UBS AG and UBS Switzerland AG

Both UBS AG and UBS Switzerland AG prepare standalone financial statements in accordance with Swiss GAAP (FINMA Circular 2008/2 and the Banking Ordinance). UBS AG and UBS Switzerland AG are making use of a transition period and will adopt revised Swiss GAAP (in accordance with the amended Banking Ordinance and the new FINMA circular 2015/1) as part of their 2015 year-end reporting.

UBS AG's investment in UBS Switzerland AG

The business transfer resulted in a CHF 7,822 million increase in UBS AG's investment in UBS Switzerland AG and a corresponding increase in the *General reserve* of UBS Switzerland AG. The value of this equity contribution was equal to the net book value of assets and liabilities transferred to, or assumed by, UBS Switzerland AG immediately prior to the transfer. UBS AG did not recognize any gains or losses as a result of the transfer.

Transfer of third party assets and liabilities from UBS AG to UBS Switzerland AG

Total assets and liabilities transferred from UBS AG to UBS Switzerland AG amounted to CHF 272,634 million and CHF 274,671 million, respectively. The transfer of the Retail & Corporate and Wealth Management business booked in Switzerland resulted in the transfer of nearly all mortgage loans, a significant portion of

Lombard and other loans, the majority of amounts due to customers on savings and deposit accounts as well as the majority of other amounts due to customers.

Additionally, certain foreign exchange and interest rate derivative instruments with Retail & Corporate and Wealth Management clients were transferred. The transfer of receivables from and payables to banks mainly related to positions with UBS Group subsidiaries entered into in connection with the Wealth Management business and Group ALM functions. Balances with UBS Group subsidiaries are mainly due to UBS Switzerland AG assuming the clearing account of UBS AG (and any related receivables and payables) in connection with the business transfer. They are expected to decrease over time as UBS Group subsidiaries and their clients update their settlement instructions for the newly established UBS AG clearing accounts. The remainder of the assets and liabilities transferred mainly consisted of alternative funding sources such as liquid assets, money market paper and financial investments in connection with the management of liquidity risk of UBS Switzerland AG.

Intercompany assets and liabilities between UBS AG and UBS Switzerland AG

As a result of the business transfer, certain internal transactions between businesses and functions of UBS AG became intercompany transactions between UBS AG and UBS Switzerland AG as of 1 April 2015. These transactions mainly relate to securities financing transactions, on-demand payables and receivables in various currencies, derivative instruments which transfer the market risk of derivative transactions with Retail & Corporate and Wealth Management from UBS Switzerland AG to UBS AG, as well as derivatives to manage the UBS Switzerland AG interest rate risk.

Recognition of goodwill by UBS Switzerland AG

As part of the business transfer and in addition to net assets of CHF 7,822 million, UBS Switzerland AG recognized goodwill of CHF 5,250 million. This goodwill will be amortized over five years. The business transfer did not result in the recognition of a tax expense for UBS Group. As a result of a partial transfer of existing

UBS AG tax losses to UBS Switzerland AG, as well as the aforementioned recognition of goodwill, UBS Group's tax position in Switzerland and globally remains materially unchanged.

Other

For UBS AG, the business transfer also resulted in a balance sheet reclassification of fiduciary deposits, totaling CHF 9,977 million, from *Other amounts due to customers* to *Due to banks*, as the counterparty to these liabilities is now UBS Switzerland AG and not its clients. For UBS Switzerland AG, these fiduciary deposits are recorded as off-balance sheet positions as UBS Switzerland AG only acts in a fiduciary capacity for these deposits.

UBS Switzerland AG has also recognized CHF 7,782 million of contingent liabilities and CHF 7,784 million of irrevocable commitments off-balance sheet as a result of the business transfer.

The tables on the following pages provide the details of the financial accounting effects described above.

Joint and several liability

As of the asset transfer date, UBS AG assumed joint liability for approximately CHF 260 billion of obligations of UBS Switzerland AG, excluding the collateralized portion of secured contractual obligations. In turn, UBS Switzerland AG assumed joint liability for approximately CHF 325 billion of obligations of UBS AG, excluding the collateralized portion of secured contractual obligations and covered bonds. For more information on the joint and several liability, refer to "UBS AG (standalone)" and "UBS Switzerland AG (standalone) interim financial statements."

Loss-absorbing capital

Subsequent to the business transfer, UBS Switzerland AG issued high-trigger loss-absorbing capital instruments in the amount of CHF 1,500 million and low-trigger loss-absorbing capital instruments in the amount CHF 2,500 million. These instruments are held by UBS AG and qualify as additional tier 1 capital and tier 2 capital, respectively, for UBS Switzerland AG.

¹ Comparative balances presented for 31 March 2015 and 31 December 2014 include the Retail & Corporate and Wealth Management businesses booked in Switzerland, which were transferred from UBS AG to UBS Switzerland AG effective 1 April 2015. Refer to "Changes in legal structure" for more information. ² Refer to "UBS shares" in the "Capital management" section of this report for information on the issuance of UBS AG shares during the second quarter of 2015. ³ During the second quarter of 2015, the 2014 net profit of CHF 7,849 million was appropriated to the General reserve and a payment of a cash dividend of CHF 0.50 per dividend-bearing share, totaling CHF 1,632 million, was made out of the capital contribution reserve within the General reserve, as approved at the Annual General Meeting of shareholders held on 7 May 2015.

Basis of accounting

The UBS AG standalone financial statements are prepared in accordance with Swiss GAAP (FINMA Circular 2008/2 and the Banking Ordinance). UBS AG is making use of a transition period and will adopt revised Swiss GAAP (in accordance with the amended Banking Ordinance and the new FINMA circular 2015/1) as part of the 2015 year-end reporting. The accounting policies are principally the same as the IFRS-based accounting policies for the consolidated financial statements outlined in Note 1 of the consolidated financial statements in the UBS AG Annual Report 2014. Major differences between the Swiss GAAP requirements and IFRS are described in Note 38 to the consolidated financial statements in

the UBS AG Annual Report 2014. Further information on the accounting policies applied for the standalone financial statements of UBS AG can be found in Note 2 to the UBS AG standalone financial statements in the UBS AG Annual Report 2014.

In preparing the interim financial information for UBS AG, the same accounting policies and methods of computation have been applied as in the annual financial statements of UBS AG as of 31 December 2014. This interim financial information is unaudited and should be read in conjunction with the audited financial statements included in the UBS AG Annual Report 2014.

Joint and several liability

In June 2015, the Retail & Corporate and Wealth Management businesses booked in Switzerland were transferred from UBS AG to UBS Switzerland AG through an asset transfer in accordance with the Swiss Merger Act (refer to "Changes in legal structure" for more information). Under the Swiss Merger Act, UBS AG assumed joint liability for obligations existing on the asset transfer date, 14 June 2015, that were transferred to UBS Switzerland AG. UBS AG has

no liability for new obligations incurred by UBS Switzerland AG after the asset transfer date.

As of the asset transfer date, UBS AG assumed joint liability for approximately CHF 260 billion of obligations of UBS Switzerland AG, excluding the collateralized portion of secured contractual obligations. The joint liability amount will decline as obligations mature, terminate or are novated following the asset transfer date.

Reconciliation of Swiss federal banking law equity to Swiss SRB Basel III capital

¹ Refer to the "Capital management" section of this report for more information. Spot numbers are reported for the leverage ratio for the second quarter of 2015 due to the business transfer to UBS Switzerland AG effective in June 2015. Refer to "Changes in legal structure" for more information. ² As of 1 April 2015, we have accelerated the phase-in of the cumulative difference between IAS 19 (revised) and IAS 19 accounting for defined benefit plans. This resulted in a reduction of approximately CHF 1.6 billion in our phase-in CET1 capital as of 1 April 2015. ³ Based on the BIS Basel III rules. Refer to the "Capital management" section of this report for more information. ⁴ Figures as of 30 June 2015 and 31 March 2015 are prepared on a three month average basis and as of 31 December 2014 on a monthly pro-forma basis. Refer to the "Liquidity and funding management" section of this report for more information.

The capital requirements of UBS AG following the asset transfer to UBS Switzerland AG are unchanged, with the exception of the countercyclical buffer requirement, which is now insignificant following the transfer of the Swiss mortgage business to UBS Switzerland AG.

Information concerning the capital requirements applicable to UBS AG (standalone) under Swiss SRB Basel III regulations, as re-

vised by the FINMA decree dated 20 December 2013, can be found in the document "UBS AG Second quarter 2015 report," which will be available from 31 July 2015 in the section "Quarterly reporting" of our Investor Relations website at www.ubs.com/investors.

The same document contains Swiss SRB Basel III capital information and information on the leverage ratio, the supplemental leverage ratio and the liquidity coverage ratio.

Basis of accounting

The UBS Switzerland AG standalone financial statements are prepared in accordance with the interim reporting requirements of Swiss GAAP (as prescribed in the Banking Ordinance and FINMA Circular 2008/2). UBS Switzerland AG is making use of a transition period and will adopt revised Swiss GAAP (in accordance with the amended Banking Ordinance and the new FINMA circular 2015/1) as part of the 2015 year-end reporting.

In preparing the interim financial information for UBS Switzerland AG, the same accounting policies and methods of computa-

tion have been applied as in the annual financial statements of UBS AG as of 31 December 2014. This interim financial information is unaudited.

Further information on the accounting policies applied for the standalone financial statements of UBS Switzerland AG can be found in Note 2 to the UBS AG standalone financial statements in the UBS AG Annual Report 2014.

Joint and several liability

In June 2015, the Retail & Corporate and Wealth Management businesses booked in Switzerland were transferred from UBS AG to UBS Switzerland AG through an asset transfer in accordance with the Swiss Merger Act (refer to "Changes in legal structure" for more information). Under the terms of the asset transfer agreement, UBS Switzerland AG assumed joint liability for contractual obligations of UBS AG existing on the asset transfer date, 14 June 2015. UBS Switzerland AG has no liability for new obligations incurred by UBS AG after the asset transfer date.

As of the asset transfer date, UBS Switzerland AG assumed joint liability for approximately CHF 325 billion of obligations of

UBS AG, excluding the collateralized portion of secured contractual obligations and covered bonds. As of 30 June 2015, UBS Switzerland AG's joint liability has decreased, mainly due to maturity of term deposits and a decrease in amounts due to customers following the asset transfer date. The joint liability amount will continue to decline as obligations mature, terminate or are novated. As of 30 June 2015, the probability of an outflow under the joint and several liability is assessed to be remote and as a result the off-balance sheet items disclosed in the table above do not include exposures arising under the joint and several liability.

Reconciliation of Swiss federal banking law equity to Swiss SRB Basel III capital

<i>CHF billion</i>	30.6.15
Equity – Swiss federal banking law¹	13.6
Deferred tax assets	1.0
Goodwill and intangible assets	(5.0)
Other ²	(0.8)
Common equity tier 1 capital (phase-in)	8.8
Additional tier 1 capital	1.5
Tier 2 capital	2.5
Total capital (phase-in)	12.8

¹ Equity under Swiss federal banking law is adjusted to derive equity in accordance with IFRS and then further adjusted to derive CET1 capital in accordance with Swiss SRB Basel III requirements. ² Includes accruals for capital returns to shareholders and other items.

Regulatory key figures

<i>CHF million, except where indicated</i>	Requirement¹	Actual
	30.6.15	30.6.15
Capital ratios – Swiss SRB Basel III (phase-in)²		
Common equity tier 1 capital	6,210	8,782
Additional tier 1 capital		1,500
Tier 2 capital		2,500
Total capital	10,239	12,782
Risk-weighted assets		79,296
Common equity tier 1 capital ratio (%)	7.8	11.1
Total capital ratio (%)	12.9	16.1
Leverage ratio – Swiss SRB (phase-in)²		
Total capital		12,782
Leverage ratio denominator		311,242
Leverage ratio (%)	3.0	4.1
Leverage ratio – BIS (phase-in)³		
Tier 1 capital		10,282
Leverage ratio denominator		321,571
Leverage ratio (%)		3.2
Liquidity coverage ratio⁴		
Net cash outflows (CHF billion)		58
High-quality liquid assets (CHF billion)		66
Liquidity coverage ratio (%)	100	113

¹ The CET1 capital ratio requirement of 7.8%, the total capital ratio requirement of 12.9% and the total leverage ratio requirement of 3.0% are the current phase-in requirements according to the Swiss Capital Adequacy Ordinance. In addition, FINMA defined a) a total capital ratio requirement for UBS Switzerland AG which is the sum of 14.4% and the current effect of the countercyclical buffer requirement of 0.5%, of which 10.0% plus the effect of the countercyclical buffer requirement must be satisfied with CET1 capital and b) a total leverage ratio requirement of 3.5%. These requirements will be effective until they are exceeded by the Swiss SRB Basel III phase-in requirements. ² Refer to the "Capital management" section of this report for more information. Spot numbers are reported for the leverage ratio for the second quarter of 2015, as UBS Switzerland AG was not operative before the asset transfer from UBS AG in June 2015. Refer to "Changes in legal structure" for more information. ³ Based on the BIS Basel III rules. Refer to the "Capital management" section of this report for more information. ⁴ Figures as of 30 June 2015 are prepared on a three month average basis. Refer to the "Liquidity and funding management" section of this report for more information.

The capital requirements for UBS Switzerland AG were defined by FINMA in the banking license for UBS Switzerland AG and were met upon commencement of business.

Information concerning the capital requirements applicable to UBS Switzerland AG (standalone) under Swiss SRB Basel III regulations can be found in the document "UBS Switzerland AG

(standalone) regulatory information," which will be available from 31 July 2015 in the section "Quarterly reporting" of our Investor Relations website at www.ubs.com/investors.

The same document contains Swiss SRB Basel III capital information, information on the leverage ratio, the supplemental leverage ratio and the liquidity coverage ratio.

UBS Limited (standalone)

Income statement

	For the quarter ended			% change from		Year-to-date	
GBP million	30.6.15	31.3.15	30.6.14	1Q15	2Q14	30.6.15	30.6.14
Interest income	73	52	70	40	4	126	137

¹ In the second quarter of 2015, prior period information was corrected for an error related to cost transfers between UBS Limited and UBS AG. As a result, other liabilities were reduced by GBP 23 million and GBP 16 million as of 31 March 2015 and 31 December 2014, respectively. Correspondingly, retained earnings were increased by the same amount.

Basis of accounting

The financial statements of UBS Limited are prepared in accordance with International Financial Reporting Standards (IFRS), as endorsed by the European Union (EU), and are stated in British pounds (GBP), the functional currency of the entity. UBS Group AG is the ultimate parent of UBS Limited, which is 100% owned by UBS AG. This interim financial information does not comply with IAS 34, Interim Financial Reporting, as it includes only the income statement, the statement of comprehensive income and the balance sheet of UBS Limited.

In preparing this interim financial information, the same accounting policies and methods of computation have been applied as in the audited financial statements included in the Annual Report and Financial Statements of UBS Limited for the year ended 31 December 2014, which is available in the "Subsidiary and branch information" section at www.ubs.com/investors. This interim financial information is unaudited and should be read in conjunction with the audited financial statements of UBS Limited.

Information sources

Reporting publications

Annual publications: *Annual report (SAP no. 80531)*: Published in both English and German, this single volume report provides a description of our Group strategy and performance, the strategy and performance of the business divisions and the Corporate Center, risk, treasury and capital management, corporate governance, responsibility and senior management compensation, including compensation to the Board of Directors and the Group Executive Board members, and financial information, including the financial statements. *Review (SAP no. 80530)*: The booklet contains key information on our strategy and financials. It is published in English, German, French and Italian. *Compensation Report (SAP no. 82307)*: The report discusses our compensation framework and provides information on compensation to the Board of Directors and the Group Executive Board members. It is published in English and German.

Quarterly publications: *Letter to shareholders*: The letter provides a quarterly update from executive management on our strategy and performance. The letter is published in English, German, French and Italian. *Financial report (SAP no. 80834)*: The quarterly financial report provides an update on our strategy and performance for the respective quarter. It is published in English.

How to order reports: The annual and quarterly publications are available in PDF format on the internet at www.ubs.com/investors in the "Financial information" section. Printed copies can be ordered from the same website in the "Investor services" section, which can be accessed via the link on the left-hand side of the screen. Alternatively, they can be ordered by quoting the SAP number and the language preference, where applicable, from UBS AG, F4UK-AUL, P.O. Box, CH-8098 Zurich, Switzerland.

Other information

Website: The "Investor Relations" website at www.ubs.com/investors provides the following information on UBS: news releases, financial information, including results-related filings with the US Securities and Exchange Commission, corporate information, including UBS share price charts and data and dividend information, the UBS corporate calendar and presentations by management for investors and financial analysts. Information on the internet is available in English and German.

Result presentations: Our quarterly results presentations are webcast live. A playback of most presentations is downloadable at www.ubs.com/presentations.

Messaging service/UBS news alert: On the www.ubs.com/newsalerts website, it is possible to subscribe to receive news alerts about UBS via SMS or e-mail. Messages are sent in English, German, French or Italian and it is possible to state theme preferences for the alerts received.

Form 20-F and other submissions to the US Securities and Exchange Commission: We file periodic reports and submit other information about UBS to the US Securities and Exchange Commission (SEC). Principal among these filings is the annual report on Form 20-F, filed pursuant to the US Securities Exchange Act of 1934. The filing of Form 20-F is structured as a "wrap-around" document. Most sections of the filing can be satisfied by referring to parts of the annual report. However, there is a small amount of additional information in Form 20-F which is not presented elsewhere, and is particularly targeted at readers in the US. Readers are encouraged to refer to this additional disclosure. Any document that we file with the SEC is available to read and copy on the SEC's website, www.sec.gov, or at the SEC's public reference room at 100 F Street, N.E., Room 1580, Washington, DC, 20549. Please call the SEC by dialing +1-800-SEC-0330 for further information on the operation of its public reference room. Please visit www.ubs.com/investors for more information.

Cautionary Statement Regarding Forward-Looking Statements | This report contains statements that constitute “forward-looking statements,” including but not limited to management’s outlook for UBS’s financial performance and statements relating to the anticipated effect of transactions and strategic initiatives on UBS’s business and future development. While these forward-looking statements represent UBS’s judgments and expectations concerning the matters described, a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from UBS’s expectations. These factors include, but are not limited to: (i) the degree to which UBS is successful in executing its announced strategic plans, including its cost reduction and efficiency initiatives and its planned further reduction in its Basel III risk-weighted assets (RWA) and leverage ratio denominator (LRD), and to maintain its stated capital return objective; (ii) developments in the markets in which UBS operates or to which it is exposed, including movements in securities prices or liquidity, credit spreads, currency exchange rates and interest rates and the effect of economic conditions and market developments on the financial position or creditworthiness of UBS’s clients and counterparties, and the degree to which UBS is successful in implementing changes to its business to meet changing market, regulatory and other conditions; (iii) changes in the availability of capital and funding, including any changes in UBS’s credit spreads and ratings, or arising from requirements for bail-in debt or loss-absorbing capital; (iv) changes in or the implementation of financial legislation and regulation in Switzerland, the US, the UK and other financial centers that may impose, or result in, more stringent capital (including leverage ratio), liquidity and funding requirements, incremental tax requirements, additional levies, limitations on permitted activities, constraints on remuneration or other measures; (v) uncertainty as to when and to what degree the Swiss Financial Market Supervisory Authority (FINMA) will approve reductions to the incremental RWA resulting from the supplemental operational risk capital analysis mutually agreed to by UBS and FINMA, or will approve a limited reduction of capital requirements due to measures to reduce resolvability risk; (vi) the degree to which UBS is successful in establishing a US intermediate holding company and implementing the US enhanced prudential standards, completing the squeeze-out of minority shareholders of UBS AG, and other changes which UBS may make in its legal entity structure and operating model, including the possible consequences of such changes and other similar changes that have been made previously, and the potential need to make further changes to the legal structure or booking model of UBS Group in response to legal and regulatory requirements, including capital requirements, resolvability requirements and proposals in Switzerland and other countries for mandatory structural reform of banks; (vii) changes in UBS’s competitive position, including whether differences in regulatory capital and other requirements among the major financial centers will adversely affect UBS’s ability to compete in certain lines of business; (viii) changes in the standards of conduct applicable to our businesses that may result from new regulation or new enforcement of existing standards, including measures to impose new or enhanced duties when interacting with customers or in the execution and handling of customer transactions; (ix) the liability to which UBS may be exposed, or possible constraints or sanctions that regulatory authorities might impose on UBS, due to litigation, contractual claims and regulatory investigations; (x) the effects on UBS’s cross-border banking business of tax or regulatory developments and of possible changes in UBS’s policies and practices relating to this business; (xi) UBS’s ability to retain and attract the employees necessary to generate revenues and to manage, support and control its businesses, which may be affected by competitive factors including differences in compensation practices; (xii) changes in accounting or tax standards or policies, and determinations or interpretations affecting the recognition of gain or loss, the valuation of goodwill, the recognition of deferred tax assets and other matters; (xiii) limitations on the effectiveness of UBS’s internal processes for risk management, risk control, measurement and modeling, and of financial models generally; (xiv) whether UBS will be successful in keeping pace with competitors in updating its technology, particularly in trading businesses; (xv) the occurrence of operational failures, such as fraud, misconduct, unauthorized trading and systems failures; (xvi) restrictions to the ability of subsidiaries of the Group to make loans or distributions of any kind, directly or indirectly, to UBS Group AG; and (xvii) the effect that these or other factors or unanticipated events may have on our reputation and the additional consequences that this may have on our business and performance. The sequence in which the factors above are presented is not indicative of their likelihood of occurrence or the potential magnitude of their consequences. Our business and financial performance could be affected by other factors identified in our past and future filings and reports, including those filed with the SEC. More detailed information about those factors is set forth in documents furnished by UBS and filings made by UBS with the SEC, including UBS’s Annual Report on Form 20-F for the year ended 31 December 2014. UBS is not under any obligation to (and expressly disclaims any obligation to) update or alter its forward-looking statements, whether as a result of new information, future events, or otherwise.

Rounding | Numbers presented throughout this report may not add up precisely to the totals provided in the tables and text. Percentages, percent changes and absolute variances are calculated based on rounded figures displayed in the tables and text and may not precisely reflect the percentages, percent changes and absolute variances that would be derived based on figures that are not rounded.

Tables | Within tables, blank fields generally indicate that the field is not applicable or not meaningful, or that information is not available as of the relevant date or for the relevant period. Zero values generally indicate that the respective figure is zero on an actual or rounded basis.
