A full description of their strategies, structure, organisation, products, services and markets can be found in the UBS Handbook 2006/2007, in the English version on pages 28 - 56 (inclusive).

Global Wealth Management & Business Banking

Business Banking Switzerland is, according to its own opinion, the market leader in Switzerland, providing a complete set of banking and securities services for individual and corporate clients.

Global Asset Management

² Standard and Poor's long-term rating was changed from AA+ to AA on 1 October 2007

³ Fitch's long-term rating was changed from AA+ to AA on 10 December 2007

Investment Bank

UBS Investment Bank is, according to its own opinion, one of the world's leading investment banking and securities firms, providing a full range of products and services to corporate and institutional clients, governments, financial intermediaries and alternative asset managers. Its investment bankers, salespeople and research analysts, supported by its risk and logistics teams, deliver advice and execution to clients all over the world. The Investment Bank also works with financial sponsors and hedge funds and indirectly meets the needs of private investors through both UBS' own wealth management business and through other private banks.

Corporate Center

Corporate Center creates value for shareholders and other stakeholders by partnering with the Business Groups to ensure that the firm operates as an effective and integrated whole with a common vision and set of values. It helps UBS businesses grow sustainably through its risk, financial control, treasury, communication, legal and compliance, human resources, strategy, off shoring and technology functions.

Industrial Holdings

The Industrial Holdings segment consists of UBS private equity investments. UBS strategy is to de-emphasize and reduce exposure to this asset class while capitalizing on orderly exit opportunities as they arise.

Competition

UBS faces stiff competition in all business areas. Both in Switzerland and abroad, the Bank competes with asset management companies, commercial, investment and private banks, brokerages and other financial services providers. Competitors include not only local banks, but also global financial institutions, which are similar to UBS in terms of both size and services offered.

In addition, the consolidation trend in the global financial services sector is introducing new competition, which may have a greater impact on prices, as a result of an expanded range of products and services and increased access to capital and growing efficiency.

III. ORGANISATIONAL STRUCTURE OF THE ISSUER

The objective of UBS' group structure is to support the business activities of the Company within an efficient legal, tax, supervisory and financial framework. Neither the individual business groups of UBS, Global Wealth Management & Business Banking, Global Asset Management, Investment Bank, nor the Corporate Center (the "**Business Groups**") are legally independent entities; instead, they perform their activities through the domestic and foreign offices of the parent bank, UBS AG.

Settlement of transactions through the parent bank allows UBS to fully exploit the advantages generated for all business groups through the use of a single legal entity. In cases where it is impossible or inefficient to process transactions via the parent, due to local statutory, tax or supervisory provisions or newly acquired companies, these tasks are performed on location by legally independent group companies. The major subsidiaries are listed in the UBS Financial Report 2006, in English, on pages 172 - 175 (inclusive).

IV. TREND INFORMATION

On 10 December 2007, UBS revised its outlook for its fourth quarter 2007 from an overall Group profit, as anticipated in its announcement of 30 October 2007, to a loss. It is now possible that UBS will record a net loss attributable to shareholders for the full year 2007.

V. ADMINISTRATIVE, MANAGEMENT AND SUPERVISORY BODIES OF THE ISSUER

UBS operates under a strict dual Board structure, as mandated by Swiss banking law. The functions of Chairman of the Board of Directors ("**Chairman**") and Group Chief Executive Officer ("**Group CEO**") are assigned to two different people, thus providing separation of powers. This structure establishes checks

and balances and creates an institutional independence of the Board of Directors (“**BoD**”) from the day-to-day management of the firm, for which responsibility is delegated to the Group Executive Board (“**GEB**”). No member of one Board may be a member of the other.

The supervision and control of the executive management remains with the BoD. The Articles of Association and the Organisation Regulations of UBS AG, with their Appendices govern all details as to authorities and responsibilities of the two bodies. Please refer to www.ubs.com/corporate-governance.

The BoD consists of at least six and a maximum of twelve members. The term of office for members of the board is three years.

1. Legal and Arbitration Proceedings

The Issuer and other UBS Group companies operate in a legal and regulatory environment that exposes them to potentially significant litigation risks. As a result, UBS is involved in various disputes and legal proceedings, including litigation, arbitration, and regulatory and criminal investigations. Such cases are subject to many uncertainties, and their outcome often is difficult to predict, particularly in the earlier stages of a case. In certain circumstances, to avoid the expense and distraction of legal proceedings, UBS may based on a cost benefit analysis enter a settlement even though UBS denies any wrongdoing. UBS Group makes provisions for cases brought against it only when after seeking legal advice, in the opinion of management, it is probable that a liability exists, and the amount can be reasonably estimated. No provision is made for claims asserted against UBS Group that in the opinion of management are without merit and where it is not likely that UBS will be found liable.

Within the last 12 months until 27 December 2007, UBS has been involved in the following legal proceedings which could be material to the operating result of the Group in a given reporting period:

- (a) **InsightOne:** In early July 2007, UBS agreed to a settlement of the InsightOne case after the New York State Attorney General filed a civil complaint regarding UBS' fee-based brokerage program for private clients in the United States in December 2006. UBS denies that the program was part of a scheme to disadvantage clients but chose to settle to bring the proceedings to an end. Under the settlement, UBS paid a total of USD 23.3 million of which USD 21.3 million is being paid to certain current and former InsightOne customers pursuant to an agreed-upon remediation plan, and USD 2 million was paid in penalties. In Q4 2006, UBS established provisions sufficient to cover the settlement, and therefore the settlement will not impact UBS' Net profit in 2007.
- (b) **Tax Shelter:** In connection with a criminal investigation of tax shelters, the United States Attorney's Office for the Southern District of New York (US Attorney's Office) is examining UBS' conduct in relation to certain tax-oriented transactions in which UBS and others engaged during the years 1996-2000. Some of these transactions were subject to the Deferred Prosecution Agreement which the accounting firm KPMG LLP entered into with the US Attorney's Office in August 2005, and are at issue in *United States v. Stein*, S1 05 Cr. 888 (LAK). UBS is cooperating in the government's investigation.
- (c) **Municipal Bonds:** In November 2006, UBS and others received subpoenas from the US Department of Justice, Antitrust Division, and the US Securities and Exchange Commission. These subpoenas concern UBS' conduct relating to derivative transactions entered into with municipal bond issuers, and to the investment of proceeds of municipal bond issuances. UBS is cooperating in these investigations.
- (d) **HealthSouth:** UBS is defending itself in two purported securities class actions brought in the US District Court of the Northern District of Alabama by holders of stock and bonds in HealthSouth Corp. UBS also is a defendant in HealthSouth derivative litigation in Alabama State Court and has responded to an SEC investigation relating to UBS' role as a banker for HealthSouth.
- (e) **Bankruptcy Estate of Enron:** In June 2007, UBS and Enron settled adversarial proceedings in the US Bankruptcy Court for the Southern District of New York brought by Enron to avoid and recover payments made prior to filing for bankruptcy in connection with equity forward and swap transactions. UBS believes it had valid defences to all of Enron's claims but chose to settle to eliminate the uncertainty created by the proceeding. Under the terms of the settlement, UBS paid Enron USD 115 million and waived a proof of claim for approximately USD 5.5 million that UBS filed in Enron's bankruptcy case. In Q4 2006, UBS recognized a provision for more than half of the settlement amount, with the difference recognized in second quarter 2007. Therefore, the settlement will not materially impact UBS' Net profit in 2007.
- (f) **Parmalat:** UBS is involved in a number of proceedings in Italy related to the bankruptcy of Parmalat. These proceedings include, inter alia, claw back proceedings against UBS Limited in connection with a structured finance transaction. Further, UBS is a defendant in two civil damages claims brought by Parmalat, of which one relates to the same structured finance transaction against UBS Limited, while the other against UBS AG relates to certain derivative transactions. In addition, UBS

Limited and two UBS employees are the subject of criminal proceedings in Milan, while four UBS current or former employees have been served with a notice of closure of criminal investigations in Parma. Finally, UBS is a defendant in civil actions brought by individual investors on the back of the criminal proceedings in Milan. UBS denies the allegations made against itself and against its employees in these matters and is defending itself vigorously.

Besides the proceedings specified above under (a) through (f) no governmental, legal or arbitration proceedings, which may significantly affect the Issuer's financial condition are or have been pending, nor is the Issuer aware that any such governmental, legal or arbitration proceedings are threatened.

2. Significant changes in the Financial Situation of the Issuer

Since the publication of the last unaudited financial statements for the period ending 30 September 2007 the financial information of UBS has experienced the following changes:

On 10 December 2007, UBS announced that it will write down its US sub-prime holdings by approximately a further USD 10 billion, following a review of the key input parameters of the models that are used to estimate lifetime default and resulting losses for sub-prime mortgage pools.

At the same time, UBS announced that it has introduced measures to strengthen its capital position, adding CHF 19.4 billion of BIS Tier 1 capital. These measures include:

- (a) An agreement with two strategic investors, Government of Singapore Investment Corporation Pte. Ltd. (GIC) and an undisclosed strategic investor in the Middle East to subscribe to an issue of CHF 13 billion of mandatory convertibles notes. This is subject to the approval of UBS shareholders at an extraordinary general meeting (EGM) which will take place prior to the end of February 2008. GIC has committed to subscribe to CHF 11 billion and the other investor to CHF 2 billion. The conversion of the notes into ordinary shares must take place on or before a date approximately two years after issuance;
- (b) A re-sale of 36.4 million treasury shares previously intended to be cancelled; such re-sale has been approved by the Board of Directors of UBS. UBS has received indications of interest in a share issue, is considering these and will place these shares over time. This is expected to increase BIS Tier 1 capital by approximately CHF 2 billion;
- (c) A proposal by the Board of Directors to replace the 2007 cash dividend with a stock dividend, *i.e.* a bonus issue of new shares. This is expected to increase Tier 1 capital by CHF 4.4 billion, of which approximately CHF 3.3 billion is a reversal of accrued dividend for the first nine months of the year and the balance is dividend that will now not accrue. This is subject to EGM approval.

In total, these three actions, when completed and approved, are expected to strengthen UBS's regulatory Tier 1 capital by approximately CHF 19.4 billion. After completion, and taking into account the expected fourth quarter loss, the firm's BIS Tier 1 capital ratio is expected to improve to above 12 % from 10.6 % at 30 September 2007.

IX. MATERIAL CONTRACTS

No material agreements have been concluded outside of the normal course of business which could lead to UBS being subjected to an obligation or obtaining a right, which would be of key significance to the Issuer's ability to meet its obligations to the investors in relation to the issued securities.
