If necessary, **advice should be sought from legal, tax, financial or other advisors.**

The Issuer also expressly emphasises, that where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor might have to bear the cost of translating this Prospectus before the legal proceedings are initiated under applicable national law of the respective member state of the European Economic Area.

Potential investors should note that neither the Issuer nor UBS Limited as the Offeror can be held liable on the basis of this Summary alone, nor any translation hereof, unless the Summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus.

Who is the Issuer?

UBS AG, with registered offices in Zurich and Basle, was formed from the merger of Schweizerischer Bankverein (SBV) and Schweizerische Bankgesellschaft (SBG) in 1998.

With main offices in Zurich and Basle, Switzerland, UBS boasts a global presence, with around 70,200 employees (as of 31 March 2006) in more than 50 countries. UBS AG and its subsidiaries and branch offices (hereinafter also referred to as "**UBS**"), including UBS AG, London Branch, as Issuer of the Securities described in this Prospectus, is among the world's largest private asset managers. As a global leader in the world of finance, UBS serves some of the most demanding clients worldwide and combines financial strength with a global corporate culture that views change as an opportunity. As an integrated company, UBS generates added value for its clients by giving them access to the expertise and capabilities of an entire group.

UBS is structured into three main business groups: Global Wealth Management & Business Banking – one of the largest asset managers in the world, in terms of assets under management, and the leading bank for corporate and institutional clients in Switzerland; Global Asset Management – a leading global asset manager; and Investment Bank – a first-class investment banking and securities firm.

The services offered include traditional investment banking activities, such as consulting services for mergers and acquisitions, the execution of capital markets transactions on both the primary and secondary markets, recognised research expertise and the issuing of investment products for institutional and private investors.

UBS is among the few globally active major banks that have a first-class rating. The rating agencies Standard & Poor's Inc., Fitch Ratings and Moody's Investors Service Inc. have assessed the creditworthiness of UBS – i.e. the ability of UBS to fulfil payment obligations, such as principal or interest payments on long-term loans, also known as debt servicing, in a timely manner. The results are displayed in the rating levels schematically arranged below. The ratings from Fitch and Standard & Poor's may be attributed a plus or minus sign, and those from Moody's a number. These supplementary attributes indicate the relative position within

How are the net proceeds used by the Issuer?

The net proceeds of the issue will be used for funding purposes of the UBS Group and shall not be employed by the Issuer within Switzerland. The net proceeds from the sale of the Securities shall be employed by the Issuer for general business purposes. A separate ("special purpose") fund will not be established.

Are there any risks relating to the Issuer?

There are no particular risks relating to the Issuer. Potential investors in the Securities should, however, be aware that, as with any company, there are general risks associated with the Issuer:

Each investor thus bears the general risk that the financial situation of the Issuer could deteriorate. Furthermore, the general assessment of the Issuer's creditworthiness may affect the value of the Securities. This assessment generally depends on the ratings assigned to the outstanding Securities of the Issuer or affiliated companies by rating agencies such as Moody's and Standard & Poor's. The Issuer and affiliated companies may also participate in transactions that are related to the Securities, for their own account or for account of a client. Such transactions can have a negative effect on the price of the Securities.

When making decisions relating to investments in the Securities, **potential investors should consider all information contained in the Prospectus and, if necessary, consult their legal, tax or financial advisor.**

What are the Securities?

The object of this Prospectus are the UBS [TWIN-WIN] [•] Certificates, in bearer form, with the *International Security Identification Number*, issued by UBS AG, acting through its London Branch, as Issuer in accordance with German law. These Securities rank *pari passu* with all other direct, unsubordinated, unconditional and unsecured obligations of the Issuer.

These Securities are each based on the [listed] Underlying [•].

How are the Securities offered and are the Securities admitted to trading?

The Issuer intends to offer the Securities described in this Prospectus – following any necessary notification of the relevant member state of the European Economic Area by Germany's Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* – BaFin), as the competent authority in the (selected) Home Member State of UBS within the meaning of Directive 2003/71/EC of 4 November 2003 (the "**Prospectus Directive**") and the German Securities Prospectus Act (*Wertpapierprospektgesetz*) – in different member states of the European Economic Area. On or after the respective *Issue Date*, UBS Limited, 1 Finsbury Avenue, London EC2M 2PP, United Kingdom (the "**Offeror**") shall underwrite the Securities by means of an underwriting agreement and shall place them for sale [at the *Issue Price*] under terms subject to change. [The Issue Price shall be set at [the Fixing Date] [the beginning of the public offer] [after the Subscription Period] [based on the prevailing market situation and the price of the Underlying], as of which time it is available from the Offeror.] Thereafter, the selling price shall be continually adjusted to reflect the prevailing market situation.

The Offeror intends to apply for inclusion of the Securities to trading on the *Stock Exchange*. [The Securities shall be delisted [two] [•] trading day[s] prior to the Expiration Date. As of this point until the Expiration Date, trading may only take place off exchange with the Offeror.]

Are there any restrictions on the sale of the Securities?

Since the Securities are not registered or authorised for public distribution in all countries, sale of the Securities may be restricted in some countries.

What does the Securityholder acquire from the Securities in question?

With purchase of the Security, the investor acquires the right to receive from the Issuer, under certain conditions described in the Terms and Conditions of the Securities and depending on the performance of the *Underlying* payment of the *Settlement Amount* [, converted into the *Settlement Currency*,] commercially rounded to two decimal places (the "**Certificate Right**"). The Securityholder shall not be entitled to any interim payments. None of the Securities vests a right to payment of fixed or variable interest or dividends and, as such, they **generate no regular income**. Therefore, potential losses in the value of a Security cannot be offset by any other income from the Security.

UBS [TWIN-WIN] [•] Certificates on the *Underlying* are securities which are similar in economic terms to a direct investment in the corresponding *Underlying*, but which are nonetheless not fully comparable with such a direct investment because the value of the Securities also depends on the occurrence or non-occurrence of a *Kick Out Event* during the *Term of the Securities*. [In addition, the participation and the value of the Securities is limited to the *Maximum Amount*].

A *Kick Out Event* occurs if the *Price of the Underlying* reaches [the *Kick Out Level*] [the *Floor*] during the *Term of the Securities*, i.e. if it touches it once or falls below it.

If the *Price of the Underlying* neither reaches nor falls below [the *Kick Out Level*] [the *Floor*] [during the *Term of the Securities*], i.e. **no Kick Out Event has occurred**, and if the *Price of the Underlying* on [the *Valuation Date*] [the *Valuation Averaging Dates*] (the "*Settlement Price*") **is equal to or lower than** the **Strike Price**, the holder of a UBS [TWIN-WIN] [•] Certificate is entitled to receive the *Settlement Amount* [converted into the *Settlement Currency*] pursuant to § 1 of the Terms and Conditions of the Securities, which is equal to, considering the *Ratio*, the *Strike Price* plus the difference between the *Strike Price* and the *Settlement Price* of the *Underlying*.

If the *Price of the Underlying*, however, reaches or falls below [the *Kick Out Level*] [the *Floor*] [during the *Term of the Securities*], i.e. **a Kick Out Event occurs**, and if the *Settlement Price* of the *Underlying* **is equal to or lower than** the **Strike Price**, the holder of a UBS [TWIN-WIN] [•] Certificate is entitled to receive [*in case of Physical Settlement insert the following text*: the *Physical Underlying* in a number as expressed by the *Ratio* (the "*Physical Settlement*")] [*in case of Cash Settlement insert the following text*: the *Settlement Price* of the *Underlying* [converted into the *Settlement Currency*] multiplied by the *Ratio*].

If the *Settlement Price* of the *Underlying* **is higher than the Strike Price**, the holder of a UBS [TWIN-WIN] [•] Certificate is entitled to receive – irrespective of the occurrence or the non-occurrence of a *Kick Out Event* – the *Redemption Amount* [, converted into the *Settlement Currency*,] multiplied by the *Ratio* and afterwards commercially rounded to two decimal places, which is equal to, considering the *Ratio*, the *Strike Price* plus the product of the difference between the *Settlement Price* of the *Underlying* and the *Strike Price* multiplied with the *Leverage Factor* [, however capped at the *Maximum Amount*].

Which risks are attached to investment in the Securities?

An investment in the Securities carries product-specific risks for the investor. The following section shall therefore provide an economic description of the Certificates and the typical risks involved.

The value of a Certificate is determined not only by changes in the price of the Underlying, but also a number of other factors. These include, *inter alia*, the maturity of the Security, the frequency and intensity of price fluctuations (volatility) in the Underlying and the prevailing interest rate and dividend levels. A decline in the value of the Certificate may therefore occur even if the price of the Underlying remains constant. Therefore, we expressly recommend that investors familiarise themselves with the specific risk profile of the product type described in this Prospectus and that investors seek the advice of a professional if necessary.

Prospective investors should note that changes in the price of the Underlying on which the Certificate is based (or even the non-occurrence of anticipated price changes) can lower the value of a Certificate to the point that it no longer possesses any value. [In light of the limited term of the Certificates, there is no certainty that the value of the Certificate will recover before the Securities reach maturity.] This risk is independent of the financial strength of the Issuer.

In the opinion of the Issuer the following risks constitute the essential risks associated with the Securities:

1. Features of the UBS [TWIN-WIN] [•] Certificates

- [2.] Features of Certificates on [currency exchange rates] [,] [commodities] [or] [precious metals]
- [2.] [3.] Possible decline in Underlying value in case of Physical Settlement
- [2.] [3.] [4.] Other factors affecting value
- [3.] [4.] [5.] Effect of ancillary costs
- [4.] [5.] [6.] Transactions to offset or limit risk
- [5.] [6.] [7.] Trading in the Securities / Liquidity
- [6.] [7.] [8.] Borrowed funds
- [7.] [8.] [9.] The effect on the Securities of hedging transactions by the Issuer
- [8.] [9.] [10.] Expansion of the spread between bid and offer prices
- [9.] [10.] [11.] Changes in the tax treatment of the Securities

Potential investors are expressly made aware of the fact that the Certificates constitute a **risk investment** which can lead to **losses** of the invested capital. Potential investors must therefore be prepared and able to sustain a partial or even a total loss of the invested capital. Any investor interested in purchasing the Certificates should assess their financial situation to ensure that they are in a position to bear the **risks of loss** connected with the Certificates.

RISK FACTORS RELATING TO THE ISSUER AND THE SECURITIES

The different risk factors associated with investment in the Securities issued within the framework of this Prospectus are outlined below. Which of these are relevant to the Securities described in this Prospectus depends upon a number of interrelated factors, especially the type of Securities and Underlying. Investments in the Securities should not be made until all the factors relevant to the Securities have been acknowledged and carefully considered. Terminology and expressions defined in the Terms and Conditions of the Securities shall have the same meaning when used herein. When making decisions relating to investments in the Securities, potential buyers should consider all information contained in the Prospectus and, **if necessary, consult their legal, tax, financial or other advisor.**

I. ISSUER-SPECIFIC RISKS

As a global financial services provider, the business activities of UBS are affected by the prevailing market situation. Different risk factors can impair the Company's ability to implement business strategies and may have a direct, negative impact on earnings. Accordingly, UBS' revenues and earnings are and have been subject to fluctuations. The revenues and earnings figures from a specific period, thus, are not evidence of sustainable results. They can change from one year to the next and affect UBS' ability to achieve its strategic objectives.

General insolvency risk

Each investor bears the general risk that the financial situation of the Issuer could deteriorate. The Securities constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, in particular in case of insolvency of the Issuer, rank *pari passu* with each other and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions.

Effect of downgrading of the Issuer's rating

The general assessment of the Issuer's creditworthiness may affect the value of the Securities. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies such as Moody's, Fitch and Standard & Poor's.

Potential conflicts of interest

The Issuer and affiliated companies may participate in transactions related to the Securities in some way, for their own account or for account of a client. Such transactions may not serve to benefit the Securityholders and may have a positive or negative effect on the value of the *Underlying* and consequently on the value of the Securities. Furthermore, companies affiliated with the Issuer may become counterparties in hedging transactions relating to obligations of the Issuer stemming from the Securities. As a result, conflicts of interest can arise between companies affiliated with the Issuer, as well as between these companies and investors, in relation to obligations regarding the calculation of the price of the Securities and other associated determinations. In addition, the Issuer and its affiliates may act in other capacities with regard to the Securities, such as calculation agent, paying agent and administrative agent and/or index sponsor.

Furthermore, the Issuer and its affiliates may issue other derivative instruments relating to the respective Underlying; introduction of such competing products may affect the value of the Securities. The Issuer and its affiliated companies may receive non-public information relating to the Underlying, and neither the Issuer nor any of its affiliates undertakes to make this information available to Securityholders. In addition, one or more of the Issuer's affiliated companies may publish research reports on the Underlying. Such activities could present conflicts of interest and may affect the value of the Securities.

Within the context of the offering and sale of the Securities, the Issuer or any of its affiliates may directly or indirectly pay fees in varying amounts to third parties, such as distributors or investment advisors, or receive payment of fees in varying amounts, including those levied in association with the distribution of the Securities,

from third parties. Potential investors should be aware that the Issuer may retain fees in part or in full. The [Issuer] [Offeror], upon request, will provide information on the amount of these fees.

II. SECURITY-SPECIFIC RISKS

Investing in the Securities involves certain risks. Among others, these risks may take the form of equity market, bond market, foreign exchange, interest rate, market volatility and economic and political risks and any combination of these and other risks. The most important risks are presented briefly below. Prospective investors should be experienced with regard to transactions in instruments such as the Securities and in the Underlying. **Prospective buyers should understand the risks associated with an investment in the Securities and should only reach an investment decision after careful consideration, with their legal, tax, financial and other advisors, of (i) the suitability of an investment in the Securities in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the Underlying.** An investment in the Securities should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the *Underlying*, as the return of any such investment will be dependent, *inter alia*, upon such changes. More than one risk factor may have simultaneous effects with regard to the Securities, so that the effect of a particular risk factor is not predictable. In addition, more than one risk factor may have a compounding effect which also cannot be predicted. No assurance can be given with regard to the effect that any combination of risk factors may have on the value of the Securities.

Prospective purchasers of the Securities should recognise that the Securities may decline in value and should be prepared to sustain a total loss of their investment in the Securities. This risk is independent of the financial strength of the Issuer. The shorter the remaining term of the Securities is, the lower the probability that any losses can be offset by maturity. Potential investors must therefore be prepared and able to sustain a partial or even a total loss of the invested capital.

The Securityholders shall not be entitled to any interim payments unless this is expressly provided for in the Terms and Conditions of the Securities. None of the Securities vests a right to payment of fixed or variable interest or dividends and, as such, they **generate no regular income**. Therefore, potential reductions in the value of the Certificate cannot be offset by any other income from the Certificate.

[In case of currencies, commodities and/or precious metals as Underlying insert the following text: Physical Settlement in the form of [currencies] [and] [or] [commodities] [and] [or] [precious metals] is excluded in all cases.]

It is expressly recommended that potential investors familiarise themselves with the specific risk profile of the product type described in this Prospectus and seek the advice of a professional if necessary.

1. Features of the UBS [TWIN-WIN] [•] Certificates

UBS [TWIN-WIN] [•] Certificates on the *Underlying* are securities which are similar in economic terms to a direct investment in the corresponding *Underlying*, but which are nonetheless not fully comparable with such a direct investment because the value of the Securities also depends on the occurrence or non-occurrence of a *Kick Out Event* during the *Term of the Securities*. [In addition, the participation and the value of the Securities is limited to the *Maximum Amount*].

A *Kick Out Event* occurs if the *Price of the Underlying* reaches [the *Kick Out Level*] [the *Floor*] during the *Term of the Securities*, i.e. if it touches it once or falls below it.

If the *Price of the Underlying* neither reaches nor falls below [the *Kick Out Level*] [the *Floor*] [during the *Term of the Securities*], **i.e. no Kick Out Event has occurred**, and if the *Price of the Underlying* on [the *Valuation Date*] [the *Valuation Averaging Dates*] (the "Settlement Price") **is equal to or lower than** the **Strike Price**, the holder of a UBS [TWIN-WIN] [•] Certificate is entitled to receive the *Settlement Amount* [converted into the *Settlement Currency*] pursuant to § 1 of the Terms and Conditions of the Securities, which is equal to, considering the *Ratio*, the *Strike Price* plus the difference between the *Strike Price* and the *Settlement Price* of the *Underlying*.

If the *Price of the Underlying*, however, reaches or falls below [the *Kick Out Level*] [the *Floor*] [during the *Term of the Securities*], i.e. a ***Kick Out Event occurs***, and if the *Settlement Price* of the *Underlying is equal to or lower than* the ***Strike Price***, the holder of a UBS [TWIN-WIN] [•] Certificate is entitled to receive [in case of Physical Settlement insert the following text: the *Physical Underlying* in a number as expressed by the *Ratio* (the "Physical Settlement")] [in case of Cash Settlement insert the following text: the *Settlement Price* of the *Underlying* [converted into the *Settlement Currency*] multiplied by the *Ratio*].

If the *Settlement Price* of the *Underlying* **is higher than the *Strike Price***, the holder of a UBS [TWIN-WIN] [•] Certificate is entitled to receive – irrespective of the occurrence or the non-occurrence of a *Kick Out Event* – the *Redemption Amount* [, converted into the *Settlement Currency*,] multiplied by the *Ratio* and afterwards commercially rounded to two decimal places, which is equal to, considering the *Ratio*, the *Strike Price* plus the product of the difference between the *Settlement Price* of the *Underlying* and the *Strike Price* multiplied with the *Leverage Factor* [, however capped at the *Maximum Amount*].

[2.] Features of Certificates on [currency exchange rates] [,] [commodities] [or] [precious metals]

In cases of [currency exchange rates] [,] [commodities] [or] [precious metals] used as [the *Underlying*] [the *Underlyings*] [a *Basket Component*], it should be noted that the values are traded 24 hours a day through the time zones of Australia, Asia, Europe and America. It is therefore possible that a relevant limit or threshold, pursuant to the Terms and Conditions of the Securities, may be reached, exceeded or fallen below outside of local or Offeror business hours.]

[2.] [3.] Possible decline in Underlying value in case of Physical Settlement

To the extent that *Physical Settlement* is provided for in the Terms and Conditions of the Securities, potential buyers of the Securities should note that any fluctuations in the *Price of the Underlying* between the *Expiration Date* of the Security and the delivery of the *Physical Underlying* on the *Settlement Date* are borne by the Securityholder. Losses in the value of the Underlying can therefore still occur after the corresponding *Expiration Date*, and are borne by the Securityholder.]

[2.] [3.] [4.] Other factors affecting value

The value of a Security is determined not only by changes in the price of the Underlying, but also by a number of other factors. Since several risk factors may have simultaneous effects on the Securities, the effect of a particular risk factor cannot be predicted. In addition, several risk factors may have a compounding effect which may not be predictable. No assurance can be given with regard to the effect that any combination of risk factors may have on the value of the Securities.

These factors include, *inter alia*, the *Term of the Security*, the frequency and intensity of price fluctuations (volatility) in the Underlying, as well as the prevailing interest rate and dividend levels. A decline in the value of the Security may therefore occur even if the price of the Underlying remains constant.

Prospective buyers of the Securities should be aware that an investment in the Securities involves a valuation risk with regard to the Underlying. They should have experience with transactions in securities with a value derived from an underlying. The value of the Underlying may vary over time and may increase or decrease by reference to a variety of factors which may include UBS corporate action, macro economic factors and speculation. If the Underlying comprises a basket of various assets, fluctuations in the value of any one asset may be offset or intensified by fluctuations in the value of other basket components. In addition, the historical performance of an underlying is not an indication of its future performance. The historical price of an Underlying does not indicate its future performance. Changes in the market price of the Underlying will affect the trading price of the Securities, and it is impossible to predict whether the market price of the Underlying will rise or fall.

If the Securityholder's right vested in the Security is determined on the basis of a currency other than the *Settlement Currency*, currency unit or calculation unit, or if the value of the Underlying is determined in such a currency other than the *Settlement Currency*, currency unit or calculation unit,

potential investors should be aware that investments in these Securities could entail risks due to fluctuating exchange rates, and that the risk of loss does not depend solely on the performance of the Underlying, but also on unfavourable developments in the value of the foreign currency, currency unit or calculation unit. Such unfavourable developments may increase the Securityholder's risk of loss, in such a way that

- the value of the acquired Securities diminishes accordingly, or
- any possible settlement amount diminishes accordingly.

[3.] [4.] [5.] Effect of ancillary costs

Commissions and other transaction costs incurred in connection with the purchase or sale of Securities may result in charges, particularly in combination with a low order value, **which can substantially reduce any settlement amount, if any, to be paid under the Securities**. Before acquiring a Security, prospective buyers should therefore inform themselves of all costs incurred through the purchase or sale of the Security, including any costs charged by their custodian banks upon purchase and maturity of the Securities.

[4.] [5.] [6.] Transactions to offset or limit risk

Prospective buyers of the Securities should not rely on the ability to conclude transactions at any time during the term of the Securities that will allow them to offset or limit relevant risks. This depends on the market situation and the prevailing conditions. Transactions designed to offset or limit risks might only be possible at an unfavourable market price that will entail a loss for investors.

[5.] [6.] [7.] Trading in the Securities / Liquidity

It is not possible to predict if and to what extent a secondary market may develop in the Securities or at what price the Securities will trade in the secondary market or whether such market will be liquid or illiquid.

If so specified in this Prospectus, applications will be or have been made to the stock exchange(s) specified for admission or listing of the Securities. If the Securities are admitted or listed, no assurance is given that any such admission or listing will be maintained. The fact that the Securities are admitted to trading or listed does not necessarily denote greater liquidity than if this were not the case. If the Securities are not listed or traded on any exchange, pricing information for the Securities may be more difficult to obtain and the liquidity of the Securities may be adversely affected. The liquidity of the Securities may also be affected by restrictions on the purchase and sale of the Securities in some jurisdictions. Additionally, the Issuer has the right (but no obligation) to purchase Securities at any time and at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation.

The Offeror intends, under normal market conditions, to provide bid and offer prices for the Securities of an issue on a regular basis. However, the Offeror makes no firm commitment to the Issuer to provide liquidity by means of bid and offer prices for the Securities, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. **Potential buyers therefore should not rely on the ability to sell securities at a specific time or at a specific price.**

[6.] [7.] [8.] Borrowed funds

If the purchase of Securities is financed by borrowed funds and investors' expectations are not met, they not only suffer the loss incurred but also have to pay interest on and redeem the loan. This produces a substantial increase in investors' risk of loss. Buyers of Securities should never rely on being able to redeem and pay interest on the loan through gains from a Securities transaction. Rather, before financing the purchase of a Security with borrowed funds, the investors' financial situations should be assessed, as to their ability to pay interest on or redeem the loan immediately, even if they incur losses instead of the expected gains.

[7.] [8.] [9.] The effect on the Securities of hedging transactions by the Issuer

The Issuer may use all or some of the proceeds received from the sale of the Securities to enter into hedging transactions relating to the risks incurred in issuing the Securities. In such a case, the Issuer or one of its affiliated companies may conclude transactions that correspond to the Issuer's obligations arising from the Securities. Generally speaking, this type of transaction will be concluded before or on the *Issue Date* of the Securities, although these transactions can also be concluded after the Securities have been issued. The Issuer or one of its affiliated companies may take the necessary steps for the closing out of any hedging transactions, on or prior to the relevant *[Valuation Date]* *[Valuation Averaging Date]*. Although the Issuer does not consider these types of transactions to have a massive impact on the value of the Securities, it cannot be ruled out that the price of the *Underlying* might, in certain cases, be affected by these transactions. In the case of Securities whose value depends on the occurrence of a specific event in relation to the *Underlying*, entering into or closing out such hedging transactions may affect the likelihood of this event occurring or not occurring.

[8.] [9.] [10.] Expansion of the spread between bid and offer prices

In special market situations, where the Issuer is completely unable to conclude hedging transactions, or where such transactions are very difficult to conclude, the spread between the bid and offer prices may be temporarily expanded, in order to limit the economic risks to the Issuer. Therefore, Securityholders who wish to sell their Securities via a stock exchange or in the over-the-counter trading might sell at a price considerably lower than the price based on the actual level of the Underlying level prevailing at the time of their sale.

[9.] [10.] [11.] Changes in the tax treatment of the Securities

The considerations concerning the taxation of the Securities set forth in this Prospectus reflect the opinion of the Issuer on the basis of the legal situation identifiable as of the date hereof. However, a different tax treatment by the fiscal authorities and tax courts cannot be precluded. In addition, the tax considerations set forth in this Prospectus cannot be the sole basis for the assessment of an investment in the Securities from a tax point of view, as the individual circumstances of each investor also have to be taken into account. Therefore, the tax considerations set forth in this Prospectus are not to be deemed any form of definitive information or tax advice or any form of assurance or guarantee with respect to the occurrence of certain tax consequences. Each investor should seek the advice of his or her personal tax consultant before deciding whether to purchase the Securities.

Neither the Issuer nor the Offeror assumes any responsibility vis-à-vis the Securityholders for the tax consequences of an investment in the Securities.

DESCRIPTION OF THE ISSUER

The following description contains general information on UBS AG, Bahnhofstrasse 45, 8001 Zurich, Switzerland, and Aeschenvorstadt 1, 4002 Basle, Switzerland, acting via its London Branch, 1 Finsbury Avenue, London EC2M 2PP, United Kingdom.

I. AUDITORS

The auditor of the Issuer is Ernst & Young AG, Aeschengraben 9, 4002 Basle, Switzerland, as the statutory auditor in accordance with company law and banking law provisions (appointed until the 2007 UBS Annual General Meeting; re-appointed at the UBS Annual General Meeting on 19 April 2006). Ernst & Young AG, Basle, is a member of the Swiss Chamber of Trustees (*Treuhand-Kammer*) based in Zurich, Switzerland.

II. INFORMATION ABOUT THE ISSUER

The legal name of the Issuer is UBS AG. For commercial purposes, the Issuer also operates under the name of UBS.

UBS was formed in Switzerland on 29 June 1998 from the merger of Schweizerische Bankgesellschaft, established in 1862, and Schweizerischer Bankverein, established in 1872. UBS has its registered office in Switzerland (main offices: Zurich and Basle), where it is entered in the commercial register as a corporation limited by shares under Swiss company law and the Swiss banking law provisions. The commercial register number is CH-270.3.004.646-4.

The addresses and telephone numbers of both registered main offices are: Bahnhofstrasse 45, 8001 Zurich, Switzerland, Tel. +41 44-234 1111; and Aeschenvorstadt 1, 4051 Basle, Switzerland, Tel. +41 61-288 2020. As a corporation limited by shares, UBS AG has issued registered shares to investors. UBS AG shares are listed on the SWX Swiss Exchange and traded on the virt-x, in which the SWX Swiss Exchange is the majority shareholder. UBS shares are also listed on the New York and Tokyo stock exchanges.

III. BUSINESS OVERVIEW

According to Article 2 of the Articles of Association the purpose of UBS is the operation of a bank. Its scope of operations extends to all types of banking, financial, advisory, service and trading activities in Switzerland and abroad. UBS AG and its subsidiaries and branch offices, including UBS AG, London Branch, as Issuer of the Securities described in this Prospectus, is a leading global financial services provider for some of the most demanding clients worldwide. The Group combines innovation and financial strength with a global corporate culture that views change as an opportunity.

UBS is a provider of wealth management services for affluent private clients. Among the major global financial institutions, UBS is active in the investment banking and securities business, and is a player in institutional asset management. As an integrated company, UBS generates added value for its clients by giving them access to the expertise and capabilities of an entire group. UBS boasts a global presence, with around 72,200 employees (as of 31 March 2006) based in more than 50 countries, including the major international financial centres. This global presence is combined with comprehensive services, provided through a range of channels.

UBS is among the few globally active major banks that have a first-class rating. The rating agencies Standard & Poor's Inc., Fitch Ratings and Moody's Investors Service Inc. have assessed the creditworthiness of UBS – i.e. the ability of UBS to fulfil payment obligations, such as principal or interest payments on long-term loans, also known as debt servicing, in a timely manner. The ratings from Fitch and Standard & Poor's may be attributed a plus or minus sign, and those from Moody's a number. These supplementary attributes indicate the relative position within the respective rating class. Standard & Poor's currently rates UBS' creditworthiness with AA+, Fitch with AA+ and Moody's with Aa2.²

² Long-term rating, as of 31 March 2006

UBS is structured into three main business groups: Global Wealth Management & Business Banking (formed on 1 July 2005 from the merger of the previous Wealth Management & Business Banking and Wealth Management USA divisions), Global Asset Management and Investment Bank, which, together with the Corporate Center form the operating structure of the Group's financial services business. A description of the business groups – or, in the case of Global Wealth Management & Business Banking, the previous Wealth Management & Business Banking and Wealth Management USA divisions – their strategies, structure, organisation, products, services and markets can be found in the UBS Handbook 2005/2006, in English, on pages 27-50 (inclusive).

Competition

UBS faces stiff competition in all business areas. Both in Switzerland and abroad, the Bank competes with asset management companies, commercial, investment and private banks, brokerages and other financial services providers. Competitors include not only local banks, but also global financial institutions which are similar to UBS in terms of both size and services offered.

In addition, the consolidation trend in the global financial services sector is introducing new competition, which may have a greater impact on prices, thanks to an expanded range of products and services as well as increased access to capital and growing efficiency.

IV. ORGANISATIONAL STRUCTURE OF THE ISSUER

The objective of UBS' group structure is to support the business activities of the Company within an efficient legal, tax, supervisory and financial framework. Neither the individual business groups of UBS – Global Wealth Management & Business Banking, Global Asset Management, Investment Bank – nor the Corporate Center are legally independent entities; instead, they perform their activities through the domestic and foreign offices of the parent UBS AG.

Settlement of transactions through the parent allows UBS to fully exploit the advantages generated for all business groups through the use of a single legal entity. In cases where it is impossible or inefficient to process transactions via the parent – due to local statutory, tax or supervisory provisions or newly acquired companies – these tasks are performed on location by legally independent group companies. The major subsidiaries are listed in the UBS Financial Report 2005, in English, on pages 157-160 (inclusive).

V. TREND INFORMATION

There have been no major negative changes relating to the prospects of the Issuer since the last audited financial report from 2005.

VI. ADMINISTRATIVE, MANAGEMENT AND SUPERVISORY BODIES OF THE ISSUER

As stipulated in Swiss banking legislation, UBS has two distinct Boards at the highest level. The functions of the Chairman of the Board of Directors, on the one hand, and the President of the Group Executive Board and Chief Executive Officer, on the other, are allocated to two different persons to guarantee the separation of powers. This structure facilitates mutual controlling, and separates the Board of Directors from the Bank's daily business, for which the Group Executive Board is responsible. No one may be a member of both Boards.

The Board comprises a minimum of six or a maximum of twelve members. Their term of office lasts three years.

Most members of the Board of Directors are external, and independent of UBS. The Board of Directors meets as required by the course of business, and at least six times per year.

Group Executive Board

The Group Executive Board has executive responsibility for UBS. All Group Executive Board members are appointed by the Board of Directors. The Group Executive Board is answerable to the Board of Directors for the Group's results. It also bears joint responsibility with the Executive Committee (*Präsidium*) for developing the UBS strategies.

The business address of the members of the Group Executive Board is UBS AG, Bahnhofstrasse 45, CH-8001 Zurich, Switzerland.

No conflicts exist between the private interests of the members of the Board of Directors or the Group Executive Board and their obligations to the Issuer.

The ownership of UBS shares is broadly disbursed. As of 31 December 2005, Chase Nominees Ltd., London, was registered with a 8.55 % holding (2004: 8.76 %, 2003: 8.27 %) of total share capital held in trust for other investors. Pursuant to UBS provisions on registering shares, the voting rights of nominees are limited to 5 %. This regulation does not apply to securities clearing and settlement organisations. No other shareholder was registered with a holding in excess of 5 % of total share capital.

Further details on the distribution of UBS shares, the number of registered and non-registered securities, voting rights as well as distribution by shareholder categories and geographical regions can be found in the UBS Handbook 2005/2006, in English, on pages 99-100 (inclusive).

1. Legal and Arbitration Proceedings

The Issuer and other UBS Group companies are involved in various claims, legal and court proceedings in the ordinary course of business. UBS maintains reserves for such matters, if – in the opinion of its management and professional advisors – payment is likely to be demanded of UBS and an appropriate figure can be given for the amount. At present, there are no government interventions, court proceedings or arbitrations pending or awaiting commencement in the twelve months to the date of this Prospectus, which could have (or could recently have had) a noticeable effect on the financial situation or the profitability of the Issuer and other UBS Group companies.

IX. MATERIAL CONTRACTS

No material agreements have been concluded outside of the normal course of business which could lead to UBS being subjected to an obligation or obtaining a right, which would be of key significance to the Issuer's ability to meet its obligations to the Securityholders in relation to the issued Securities.

(1) In case of the occurrence of a Potential Adjustment Event (§ 6 [a] (2)), the Issuer shall be entitled to effect adjustments to these Conditions in a manner and relation corresponding to the relevant adjustments made with regard to option contracts on the Underlying traded on the Related Options Exchange (the “**Option Contracts**”) provided that the Record Date (as defined below) is prior to or on [the Valuation Date] [or] [a Valuation Averaging Date], as the case may be. If no such Option Contracts are being traded on the Relevant Futures and Options Exchange, the adjustments may be effected by the Issuer in a manner as relevant adjustments would be made by the Relevant Futures and Options Exchange if those Option Contracts were traded on the Relevant Futures and Options Exchange.

Der „**Stichtag**“ ist der erste Handelstag an der Maßgeblichen Terminbörsen, an dem die Optionskontrakte unter Berücksichtigung der erfolgten Anpassung gehandelt werden oder gehandelt werden würden, wenn entsprechende Optionskontrakte dort gehandelt werden würden.

A “**Potential Adjustment Event**” means any measure in relation to the Underlying, which gives reason, or would give reason, if the Option Contracts were traded on the Relevant Futures and Options Exchange, as the case may be, to the Relevant Futures and Options Exchange for an adjustment to the strike price, the contract volume of the Underlying or to the quotation of the [stock exchange] [trading system] relevant for the determination of the Price of the Underlying. Potential Adjustment Events are, *in particular*, but not limited to, the following measures, whereas, however, subject to § 6 [a] (3), the *de facto* or hypothetical decision of the Relevant Futures and Options Exchange is decisive:

Die Ausschüttungen von normalen Dividenden, die keine Sonderausschüttungen sind, begründen kein Potenzielles Anpassungereignis. Hinsichtlich der Abgrenzung zwischen normalen Dividenden und Sonderausschüttungen ist die von der Maßgeblichen Terminbörsen vorgenommene Abgrenzung maßgeblich.
- (iv) Durchführung eines Aktiensplits (Herabsetzung des Nennbetrags und entsprechende Vergrößerung der Anzahl der Aktien ohne Kapitalveränderung) oder einer ähnlichen Maßnahme.

Unabhängig davon, ob und welche Anpassungen zu welchem Zeitpunkt tatsächlich an der Maßgeblichen Terminbörse erfolgen, kann die Emittentin Anpassungen mit dem Ziel vornehmen, die Wertpapiergläubiger wirtschaftlich soweit wie möglich so zu stellen, wie sie vor den Maßnahmen nach § 6 [a] (2) standen.

Die Emittentin wird sich bemühen, den Beteiligten unverzüglich gemäß § 11 dieser Bedingungen mitzuteilen, dass eine Marktstörung eingetreten ist. Ein Pflicht zur Mitteilung besteht jedoch nicht.

1. General information

The following outline of the tax implications of investing in the Securities is based on the legislation prevailing at the time this Prospectus was prepared. Potential buyers and sellers of the Securities should be aware that the tax implications may change due to any future amendments to the legislation. Although this outline reflects the Issuer's opinion of the tax implications, it must not be understood as a guarantee in an area that is not conclusively clarified.

Moreover, it must not provide the sole basis for assessing the tax implications of investing in the Securities, since the individual situation of the particular investor must also be taken into account. The outline is thus restricted to a general summary of the possible tax implications.

2. **Switzerland**

VI. SELLING RESTRICTIONS

The distribution of this document and the offering of the Securities in certain jurisdictions may be restricted by law. Neither the Issuer nor the Offeror represent that this document may be lawfully distributed, or that the Securities may be lawfully offered, in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any distribution or offering.

Unless expressly specified otherwise below, neither the Issuer nor the Offeror has taken action, nor will they take action to render the public offer of the Securities or their possession, or the distribution of offer documents relating to the Securities, admissible in any jurisdiction requiring special measures to be taken for this purpose. Accordingly, the Securities may not be offered or sold, directly or indirectly, and none of this document, any advertisement relating to the Securities and any other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this document comes must inform themselves about, and observe, any such restrictions.

Public Offer of the Securities within the European Economic Area

Anyone who purchases the Securities is obliged and agrees never to publicly offer the Securities to persons in one of the member states of the European Economic Area that has implemented EU Directive 2003/71/EC (hereinafter the "**Prospectus Directive**"; the term also covers all implementation measures by member states of the European Economic Area), except in circumstances that comply with one of the following offerings of the respective Securities:

- (a) within the period which begins on publication of the Base Prospectus which was approved in accordance with the Prospectus Directive, and, if necessary, for which cross-border validity pursuant to sections 17 and 18 of the Securities Prospectus Act has been granted, and which ends twelve months after publication of the Base Prospectus;
- (b) to legal entities which are authorised or regulated to operate in the financial markets, including: to credit institutions, investment firms, other authorised or regulated financial institutions, insurance companies, collective investment schemes and their management companies, pension funds and their management companies, commodity dealers, as well as entities that are not authorised or regulated whose corporate purpose is solely to invest in securities;

- (d) other circumstances prevail whereby the publication of a Prospectus is not required pursuant to Article 3 of the Prospectus Directive.

The term "public offer of securities" in this context means any kind or means of communication to the public containing sufficient information relating to the offering conditions and the securities offered to put an investor in a position to decide whether to buy or subscribe to these securities. Anyone buying the Securities should note that the term "public offer of securities" may vary, depending on the implementation measures in the various member states of the European Economic Area.

In any member states of the European Economic Area which have not yet implemented the Prospectus Directive in national law, the Securities may only be offered or sold directly or indirectly, in accordance with prevailing legislation, to which dissemination and publication of the Prospectus, any advertising or other sales documents, is also subject.

United States of America

The Securities have not been and will not be registered under the United States Securities Act of 1933 (the "**Securities Act**"), as amended, and trading in the Securities has not been and will not be approved by the United States Commodity Futures Trading Commission ("**CFTC**") and the United States Commodity Exchange Act (the "**Commodity Exchange Act**"). No Securities, or interest therein, may at any time be offered, sold, resold or delivered, directly or indirectly, in the United States or to or for the account or benefit of any

U.S. person. The Securities may not be exercised or redeemed by or for the account of any U.S. Person or any person within the United States.
